

SCRIPT FOR ALLIANCE PARTY ELECTION BROADCAST (28.5.94)

Were I to offer you a holiday this summer anywhere in Europe, your eyes would probably light up with thoughts of sunny beaches in Greece or Spain, great food in France and Italy, or the incredible beauty of the Alps. Europe's an exciting place for a holiday, and of course it's a great place to do business, but we really need someone who can make political Europe more alive for us - someone who can make things happen - but don't just take my word for it.

JOYCE McCARTAN

Joyce is one of many people who say "Mary Clark-Glass did something important for my area". Remember Mary's award-winning BBC Series "Consumer Desk", when she used her legal training to make complicated procedures more straightforward. Wouldn't it be good to have someone to make bureaucratic Europe work better for us, and someone who could help people in Europe understand what we are really like too.?

STUDENTS

Mary has a strong effective, caring approach. But her approach is balanced. While some legal people seem only concerned with the criminal, Mary also works for the victims of crime.

BETTY CAMPBELL

Of course there's no point in pretending that we don't have a serious core political problem. We do. You will want to know how passionately Mary is committed to solving that problem.

DAVID BLEAKLEY

People everywhere tell me of Mary's strong effective caring support for those in need. "Yes" you say "We all know Mary is good at those things, and we know she's against violence and for the Downing Street Declaration, but can she deal with things like Agriculture and the Economy?"

ADDIE MORROW AND ROY BAILIE

They're all saying it, Mary has the ability, not just to talk, but to get things done.

So on June 9th, vote for Mary Clark-Glass, the Alliance candidate in the Election for Europe.
