A LARAMIE BLAZE.

The Finest Barn in Wyoming Burned to the Ground.
Special Dispatch to the Leader.
LARAMIE, Wyo., Sept. 6.—Anderson's livery stable, by long odds the finest establishment of the character in the territory, burned here last night. The loss is little less than \$20,000. An insurance policy for \$8,000 was carried on the building.

All the horses were rescued, but a large number of elegant turnouts were burned. A number of these were private rigs stored with Anderson.

The barn was the property of Mrs. A. L. Haynes. Her husband, it will be remembered, suicided in the county jail here three years ago, the day before he was to have been sent to the penitentiary at Joliet, Illinois. Haynes, along with several others was interested in a swindling horse trade. He disclaimed all intention to defraud anyone, but was convicted and sentenced and only avoided imprisonment by poisoning himself.

Since Haynes' death everyone who leased the stable has been unsuccessful and it came to be said that the business was hoodooed. As a matter of fact, the establishment was too big for the town.

The Tisdale Reading.
Mrs. Laura Tisdale, exponent of the Delsarte system and a noted elocutionist, will give a reading at Keeffe hall tomorrow evening. Music will be furnished by the Chopin club of this city and a delightful entertainment is in prospect.

Mrs. Tisdale is one of the foremost readers of the country and has everywhere been successful.

Away Off the Track.
A street car horse became quite unruly at the corner of Ferguson and Seventeenth streets yesterday, and tried to haul the car into Kent's bank. There another idea struck the animal and he started west. At Eddy street the driver gained the mastery, and placing the car on the Eddy street track continued to the depot over that line.

The Garrard Dinner.
Dr. W. M. Garrard, ex receiver of the United States land office here, gave a farewell dinner to his friends at the Hotel Normandy Sunday afternoon. There were thirty-two guests who enjoyed the gentleman's hospitality. A number of toasts were offered and brief speeches were made by the host, Gen. Thompson and Col. Bryan. The dinner was a most pleasant affair. Dr. Garrard has won many warm friends during his residence here and these deeply regret his departure.

Sunday's Ball Game.
Pitcher King's benefit game at the fair grounds Sunday was fairly well attended. The Stow and Millett picked nines met and an exciting contest resulted. Millett received for King and caught a splendid game. Lynott and Watts were at the points for the Stow team and played good ball. Following is a summary of the game:

Score by innings:
1 2 3 4 5 6 7 8 9
Stows.....3 0 2 0 0 1 0 1 0—7
Milletts.....0 0 3 0 0 1 1 0 1—6

First base on errors—Stows 4, Milletts 4.
First base on balls—Stows 3, Milletts 1.
Total strikes called off King 68, off Lynott 42.

Struck out—By King 14, by Lynott 4.
Left on bases—Stows 2, Milletts 6.
Base hits—Stows 7, Milletts 7.
Stolen bases—Stows 6, Milletts 2.
Wild pitches—King 3, Lynott 1.
Umpire—Murray.
Time of game 1:45.

Capitol Construction.
Contractor Keeffe says that all material necessary for the completion of the capitol is now on the grounds and that the work will surely be finished in January, 1899.

Meteorologically Speaking.
OBSERVER'S OFFICE, Cheyenne, Sept. 9, 1899.—This morning's 8 o'clock chart shows the barometer to be above the normal, the temperature ranging from 37° at Fort Assinaboine and Fort Buford to 80° at Galveston. The rainfall was as follows: Galveston, Sioux City and St. Louis trace, Davenport, .02 inches, Valentine, .02, Huron, .12, Kansas City 50. Range of temperature in Cheyenne from 47 to 80 degrees. For tomorrow, warmer and fair weather.

Will Not Bid.
M. P. Keeffe returned from the east Sunday. As announced exclusively in THE LEADER he had been wired to proceed to Omaha and bid on the extra shops to be built by the Union Pacific here this season.

A reporter met Mr. Keeffe at the capitol yesterday and learned that the gentleman did not intend to compete for the big shop job. His attention is engrossed with statehouse construction and Mr. Keeffe still thinks that the Union Pacific has a preference for other contractors.

Bids for construction of the additional shops will be opened at the office of Chief Engineer Bogue in Omaha Thursday.

SERIOUS PROPOSITIONS.

Those Offered Yesterday Will be Carefully Considered.

Mr. Jeffrey's Ideas on Limitations of Public Debt.

Grant of Albany Proposes the Australian Voting System.

STICKING TO RULES.
The journal was read and was about to be approved when Frank of Crook named Scott as the representative of his county on the committee to meet the traveling senators, who are expected here in a few days to learn what they can of irrigation in Wyoming. Irvine of Converse requested the substitution of Richards for Barrow on the committee. Both gentlemen were ruled as out of order at this time for the reason, as Teschemacher of Laramie suggested, that the journal was a correct record of the proceedings of Saturday.

Later the convention committee irrigation committee question was reopened. The chair complied with the request of Frank of Crook, but held that Irvine was still out of order because Richards having not qualified, was not a member of the convention. This led to questioning the membership of several standing committees, names of absentees appearing on the list. President Brown was frank to say that he himself had made a mistake, but said that in arranging the committees he had almost been compelled to assign absentees to places. In each instance it was the belief that the members would soon appear.

Frank of Crook moved that the names of delegates who had not appeared be stricken from the committee list. He said that two gentlemen of his county would not be present during the session. Smith of Carbon strongly objected. The motion was not seconded.

COMMITTEES.
These gentlemen were named by the president as additional members of the committee on livestock interests and labor: Frank of Crook, Irvine of Converse, McCandlish of Johnson, Sutherland of Albany.

This is the membership of the new committee on ordinance: Downey of Albany, Organ of Laramie, Harvey of Converse, Burdick of Johnson, Potter of Laramie, Menough of Sweetwater, Jones of Uinta.

FELICITATIONS.
President Brown read the answer of the New Mexico constitutional convention in reply to greetings from the Wyoming framers. There was applause.

THANKS TO THE SECRETARY.
Morgan of Laramie presented a resolution extending a vote of thanks to Secretary Meldrum for his disinterested labors in behalf of the convention, that official having furnished convention hall. Adopted.

PRINTING.
A discussion on printing was without result. The question was on expediency and whether a proposition should be printed on introduction or after reference to the proper committee.

PROPOSITIONS.
Here is a synopsis of each proposition presented and referred yesterday:

Grant of Albany—There shall be a registration; the Australian system of balloting shall be adopted by the state.

"Smoky" Settled.
Charley Heaven, a pelegged darkey called "Smoky" stole a silk handkerchief from another colored man a few days ago. A warrant was issued and "Smoky" told that he must either settle or go to jail. He demurred, entering the plea that he had been relieved of the property by some light fingered individual. While "Smoky" thought this would make it all right Judge Lee held differently and made him cough up \$1.50.

At Camp Crook.
Pamaster Whipple returned from Camp George Crook near Fort Robinson, yesterday. He met their Maj. Baker, and together they disbursed \$50,000 to the troops. The Fort Russell contingent is enjoying the outing and with the exception of Capt. Ceynoweth, who is recovering from typhoid fever, all are in good health.

The troops will return here in time for the fair, making forced marches for that purpose.

Fast Horses Coming In.
Billy Wiendt, the sulky prince who developed Waita, A. C. Beckwith's phenomenal Aberdeen filly, arrived from the south yesterday with a string of flyers including L. C. Lee, the 2:15 pacer; McLeod, entered for the free for all trot and Geo. Mosher, nominated for the 2:26 trot. Lee was entered for the free-for-all pace, but the class did not fill. He may be sent on an exhibition mile. The horses are at the track.

PACIFIC SHORT LINE.
A Report that the Union Pacific Wants to Control It.

This plausible story about a line to bisect Wyoming comes by telegraph from Sioux City, Iowa:

It is not only possible, but extremely probable that the Pacific Short Line will exist only in memory upon the completion of the road to Ogden. The stockholders of the Union Pacific have met the secretary and have offered propositions to take the road off their hands upon its completion to Ogden. There are several reasons why the Union Pacific would like to gain possession of the Short Line. Primarily, the advent of the Short Line into the territory heretofore monopolized by the Union Pacific will cause a division of the business, and the new road, being much more direct, would cause serious inroads into the traffic of its competitor.

While this is sufficient cause for the Union Pacific people to wish to obtain control of the road, the one which has really caused them to make overtures for absorbing the line was learned this afternoon. When the Union Pacific was built it obtained a large loan from the government. This has never been paid, and, with the accumulated interest of twenty years, amounts to day to a debt of \$70,000,000 per mile. When completed the Pacific Short Line will have cost but \$20,000 per mile, and it will readily be understood that the Union Pacific had much rather throw up their old road for the new, assuming the more direct line, with a debt of scarcely one fourth as much as that upon the old roads.

Very Risky Indeed.
To tamper with symptoms indicative of growing kidney disorder, to neglect for a brief time needful stimulation of the renal organs when their inactivity points, as it always and unmistakably does, to their eventual permanent disease, is certainly very risky indeed. This is, however, a risk that many persons perceptibly drifting into Bright's disease, diabetes, catarrh of the bladder, &c., constantly incur. So those who read, reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a diuretic, need scarcely more than suggestion. No fact is more generally admitted by the medical profession and the public than its efficacy for the prevention of serious renal disease. The unmediated excitation of commerce, no matter how pure, bear in mind, react judiciously upon the kidneys when inactive. The Bitters subdues malaria, constipation and rheumatism.

Hunt & McClain are making 5 per cent loans on city and ranch property. Room 3, Commercial building.

Territorial Signal Service.

Voluntary signal service stations have been established at these territorial points: Lusk, Laramie, Carbon, Saratoga, Sundance, Sheridan and Wheatland. It is the intention to establish as many stations as possible within fifty miles of those placed by the government. Rainfall, temperature and state of the weather will be noted and reported to Observer Pursell here. He will compile a general report, making public the data for the benefit of farmers. A voluntary station will soon be placed at Evanston.

Lost.
A lady's small gold watch with monogram "A. B. D." and small diamond back case. Liberal reward if returned to THE LEADER office.

It's a Fact.
That the service of the Union Pacific, "The Overland Route," is becoming better every day. The latest addition to the already excellent equipment, is a line of through Pullman sleepers between Cheyenne and Chicago, via Denver, Kansas City and Chicago & Alton railroad. These cars are of the most improved pattern, and this additional service will be appreciated by the patrons of the Union Pacific.

The rage all over the country for gold and silver novelties, consisting of bangles, belt buckles, hair pins and side combs, still continues. Zehner, Buchner & Co. have just received the largest line ever shown here.

Cholera in Michigan.
Dr. F. D. Larke, of Rogers City, Michigan, says the epidemic of last year in Presque Isle county, in which so many persons lost their lives, was cholera dysentery instead of cholera as first reported. He used Chamberlain's Colic, Cholera and Diarrhoea Remedy and says it succeeded, where all other remedies failed. Not a single case was lost in which it was used. This Remedy is the most reliable and the most successful medicine known for colic, cholera morbus, dysentery, diarrhoea and bloody flux. 25 and 50 cent bottles for sale by B. B. David, druggist.
