

STREET TALK.

Go to Rowley & Co. for bargains. Rowley & Co. invite you to call when you come to town.

Born to Mr. and Mrs. Paul Thompson Monday at 5 p. m., a boy, 11 1/2 lbs. Rowley & Co. have the finest stock of dress and dry goods ever brought to Mitchell.

When you are in town call at Rowley & Co.'s and see their bargains in dry goods.

The infant child of Mr. and Mrs. Wm. Crosby, of Hazelton, died yesterday afternoon.

The Jacobson property on the south side has been sold to Geo. S. Perry, engineer on the north line.

D. A. Scott, the real estate rustler, has his headquarters for the present with Prescott & Smith.

Jas. S. Foster has just sold a house and lot on the west side to Mrs. Rachel Williams for a home.

Tomlinson's Quick Relief Oil cures croup, diphtheria and colds. Sold by L. O. Gale and S. H. Seallin.

Thornless, the well-known trotter owned at Aberdeen, won the \$2,000 free-for-all at Cleveland Thursday in 2:16 1/4.

THAT HACKING COUGH can be quickly cured by Shiloh's Cure. We guarantee it. Sold at Warne's drug store.

Tomlinson's Dead Shot, cures colic dysentery, and all bowel complaints in man or beast. Sold by L. O. Gale and S. H. Seallin.

Distress after eating, heartburn, sick headache and indigestion are cured by Hood's Sarsaparilla. It also creates a good appetite.

J. B. Cable, of Mason City, Iowa, assistant superintendent of the Iowa and Dakota division of the Milwaukee, is a Mitchell visitor.

At a special meeting of the city council Monday evening the clerk was instructed to draft an ordinance abolishing dry licenses.

SLEEPLESS NIGHTS, made miserable by that terrible cough, Shiloh's Cure is the remedy for you. Sold at Warne's drug store.

It is given out that Sir Martin Kerwin has been opposing Mitchell's candidacy. That accounts for the great boom it has taken on.

CATARH RHEUM, health and sweet breath secured, by Shiloh's Catarrh Remedy. Price 50 cents. Nasal injector free. Sold at Warne's drug store.

The business property occupied by Harrison's laundry has been bought by Chas. Fix of his father for \$800. It is said the old gentlemen will return to Germany.

Windows and doors for the university arrived yesterday, and will be put in at once. This will entirely enclose the building and carry it one stage nearer completion.

There will be preaching next Sunday afternoon at the Swedish Lutheran church, eight miles south of Mitchell, by Rev. Geo. A. Mackintosh of the Presbyterian church.

The Mission Band of the Presbyterian church met yesterday afternoon at the residence of Mrs. Bidwell with a large attendance. They gave a very interesting program.

Base ball gathered in its victims daily. Attorney Whittlesey got a black eye yesterday and E. O. Davy dropped a yard of greenbacks somewhere on the grounds.

Several of the enterprising merchants on both sides of the central block on Main street put up a "Vote for Mitchell for the Capital" sign Saturday that is a dandy.

A Mitchell man who came over the road today states that the grain between the Sioux valley and the Jim river is practically all in stack. Threshing has commenced in numerous places.

The normal institute now in session is doing some excellent work and is thoroughly appreciated by the teachers of the county, as evidenced by the attendance which is increasing every day.

W. A. Scott sold lot 7, block 88, Lawler's addition, to Charles C. Boulton for \$600. Mrs. Carmichael, who owned the property, will go to Washington Territory with Jacob Jacobson and family.

The C. D. York residence property on east Railroad street, was sold Friday to E. S. Johnston. Mr. York will leave in a few days for a prospective trip through Missouri, Kansas and Nebraska.

On Wednesday Rev. Father Haire of Aberdeen, Rev. Father Perrault of Mandan and Rev. Father Hamel of St. Paul took dinner with Mr. and Mrs. John D. Lawler and were royally entertained.

W. A. Scott has just closed up the sale of the south half of the southwest quarter of section 20, 103-59 to John N. Fox, of Breckinridge, Minnesota, and Charles Fox, of Mitchell, for \$1,275.

The Presbyterian church has recently organized their new choir, consisting of the Misses Grace Wilson, Wallace and Duane, and Messrs. Lot, MacLay and Rogers. They are giving some excellent music at the Sunday services.

The harvest is nearly finished and the stacking is already under way. The feeling among the farmers is much more cheerful than could have been expected. The yield will not be large, but the quality will be excellent. Very little of the wheat raised in this section will rank lower than No. 2.

GLEANED AT HOME.

Successful Opening of the County Institute.

Another Railroad Rumor From the Eastward.

Capital Pointers and Other Matters of Interest.

THE OPENING DAY.

A Good Attendance and an Interesting Session Promised.

The Davison County institute opened Monday under most favorable circumstances. The first day's enrollment shows a list of thirty-two names, and Supt. Bras has received assurance that there will be an attendance of at least seventy-five before the school is well under way. The program to be observed is as follows:

Table with 3 columns: A.M., DIVISION A., DIVISION B. Rows include 8:00 Opening, 8:30 Physiology, 9:00 Arithmetic, 9:30 Primary Read., 10:30 Pedagogy, 11:25 Primary Lang., 1:30 Opening, 1:50 History, 2:30 Grammar, 3:20 Reading, 4:00 Bookkeeping.

The following is a list of the teachers enrolled yesterday: S. A. Stocking, Plainfield; Mrs. E. M. Stanley, Bard; Harriet Bowers, Milltown; Ada L. Wright, Rockport; J. Peril Graves, Alexandria; Lora Oathout, Rockport; Blanche Palmer, Plainview; Bettie Wallstrum, Alexandria; Belle Day, Julia Pringle and Lizzie Hole, Davison county; Lillie Haynes and Hattie Earl, Mt. Vernon; Alice McConkey, Laura Lindsay, Fannie Foster, Birdie Green, Emma Carlson, Thersa Gillilan, Mary Mernaugh, Ruby Skinner, Helen Gleason, Mary Bately, May Skinner, Arthur Skinner, May Dunlap, Jennie West, Eliza Mackintosh, Lizzie Wallace, Mabel Sayles, Mary E. Wright, James Grady, May Spink, Mate Yarrow, Hulda Oleson, May Thomas, Mamie Weeks.

The University Work Progresses. The tower of the University was raised Saturday. The building is now enclosed ready for the plasterers, who expect to commence work to-morrow. It is a magnificent structure and shows up finely from the outside being a vast improvement over the old building in this respect. The effect of the tripping, which was not at first contemplated, has given an added attraction more than sufficient to compensate for the extra expense. The visitors to the building, who are very many, without exception express themselves as more than delighted with the unique architecture and the evidences of excellent workmanship, which appear on every hand. The management are to be congratulated also that, notwithstanding the stringency of times, they have thus far been able to meet all the bills promptly. When the edifice is completed, which from present appearances will be in time for the opening of the fall term, Mitchell will have a University building of which any city in the west might well be proud.

A Wise Move. The sportsmen of Mitchell have this year organized an association for the protection of game, and have elected the following gentlemen: J. D. Wood, James Hawley, P. E. Page, as an executive committee. The object is to stop the wholesale slaughter of chickens and ducks this year, which has been carried on to such an extent during previous seasons. The association asks you to help them as much as possible. If you know of anybody shooting any chickens or ducks before the law allows, inform any of the above named gentlemen and they will prosecute the case. The association pays all expenses of trial, and one half of fine will be paid to you. The law expires September 1st.

More Roads, Cheaper Freights. Frank Weller, the lumber and coal dealer, says it is a mistake for people to think that added railroads do not lower freight rates. In the spring of 1880 and 1887 the freight on coal was \$5 a ton; while in the fall of 1887, after the Omaha line reached here, freights on the coal dropped to \$4 a ton, and but for the fact that the coal pool had kept prices up at the mines, coal purchasers would have saved this dollar on each ton. With the Illinois Central we would not be at the mercy of the Chicago pool.

A Grand Exhibit. County Commissioner Hunter tells the REPUBLICAN that he is engaged in collecting an exhibit of Davison county products for the State Fair at Aberdeen, which will surpass anything on the grounds. The diversity of crops and the splendid yield in almost every variety fully warrants him in making this statement, and while he is doing all his power to get a big exhibit, there is room enough for voluntary contributions on every hand. Mr. Hunter has engaged a room and will have a man to take charge of all products brought in. Let everybody help.

The Midland & Pacific. Salem Special, 3. Wm. Van Eps and several other members of the Midland & Pacific railroad company were in Salem yesterday. They were looking over the probable route of the new road apropos of a final survey. Mr.

Van Eps stated that they would probably run up to this point and from here build a spur in a southwesterly direction, passing through Mitchell into Charles Mix county.

THE STATE FAIR.

It Will Be the Grandest Affair of its Kind.

The Board of Directors of the South Dakota Agricultural Society met at Aberdeen on the 17th of July to perfect plans and arrangements for the coming fair to be held at Aberdeen from the 23d to 27th of September.

They were well pleased with the buildings erected by the citizens of Aberdeen, they being strong, commodious and imposing.

Each member of the Board pledged himself to see that a county exhibit was present from each of their respective Legislative Districts.

Among the many novel attractions the Board has contracted for are two balloon ascensions, with parachute leaps from 4000 feet above the ground. They have also appropriated \$300 for a base ball prize, and it is expected that several prominent League clubs will contest for it. The St. Paul club have already signified their intention of being present. The management are also negotiating for an ostrich race, to take place between seven monstrous ostriches. This is considered one of the most interesting and exciting sports known. The Board are also negotiating in connection with the Central Dakota Immigration Bureau, for excursion trains through from Chicago to Aberdeen during the fair, on both the C. M. & St. P. and C. & N. W. Railways; one fare for the round trip and tickets good for thirty days.

The members of the Board and the management are sparing no effort to make this the best fair ever held in Dakota, and the people generally are taking a lively interest in assisting them. The secretary is daily in receipt of inquiries from all quarters for exhibitor's space.

The racing program is good. Every man, woman and child in Dakota should make an individual exertion to get out a large exhibit in all departments, and make the first real State Fair a marvel of success.

Reduced rates will be made on all railroads, and every one should go.

More Cash Patents. Another big batch of cash patents was received at the land office Saturday including those of a number of suspended entries. This administration has the interests of the honest settler at least.

Strayed or Stolen. From six miles southeast of Artesian one bay mare about nine years old, weight ten or eleven hundred, blind in left eye. Address

JAMES PETERS, Artesian City.

Assistant Veterinarian. Watertown Public Opinion: Dr. D. A. Cormack, of this city, has been appointed deputy territorial veterinarian by Dr. Collins. The appointment could fall on no more worthy or abler shoulders, and the doctor's legion of friends in this city and county rejoice with him on his good fortune.

Free Text Books. Supt. Bras has a right to feel gratified at the hearty endorsement which his idea of free text books received at the hands of the educational association. Mr. Bras has given the subject close attention in all its bearings, and has succeeded in having his idea pretty generally endorsed throughout his jurisdiction.

Temperance Talks. Noted temperance evangelists will speak in Mitchell as follows: Geo. C. Christian, Aug. 31, Sept. 1. Geo. W. Bain, Sept. 2. Sam Small, Sept. 13, 14 and 15. Mrs. Mary Lathrop, Sept. 28 and 29. Dr. Kate Bushnell and Francis E. Willard will also give several addresses but date has not yet been named.

Vespers and Benediction. On Thursday, August 15th inst., at 6:30 p. m., Rev. Father Hamel of Mitchell will officiate at the Vespers and Benediction in Armour, and give a short instruction. It will be the first time that Vespers and Benediction are celebrated at St. George's church. Everyone is cordially invited to attend. After the evening service there will be an ice cream festival in the church.

A Great Line of Road. The Clinton Age has been counting the number of counties touched in Iowa by the principal lines of railway. It finds the Chicago, Milwaukee and St. Paul touches the greatest number forty-eight.

Another Capital Sign. A handsome capital sign bearing the inscription "Mitchell for the Capital of South Dakota," cleverly painted in yellow on a black background, was swung to the breeze yesterday afternoon between the capital headquarters building and the Burr building. The necessary expense being met by a popular contribution furnished an added evidence of the general interest and genuine earnestness of our citizens in the capital contest.

Imposing Structure. The magnificent appearance of the new university building is a matter of frequent mention among visitors and those passing through on trains. For miles in every direction the beautiful and imposing structure is easily seen. This fact alone will be of inestimable advantage in making wide spread the

LOCALLY LEARNED.

Judge Edgerton Receives Merited Recognition.

Mitchell's Relation to the Milwaukee System.

Choice Assortment of Matter to Interest All.

JUDGE EDGERTON HONORED.

The Constitutional Convention Pays Him Merited Compliments.

St. Louis Falls Press: President Edgerton again took the chair and Mr. Price offered the following resolution which was unanimously adopted by a rising vote:

Resolved, That for the conspicuous ability and impartial manner in which he has presided over the deliberations of this constitutional convention, and for his uniformly honorable and courteous treatment of the members and officers composing it, the Hon. A. J. Edgerton has the sincere thanks of this convention; that the conspicuous part borne by him in securing the admission of South Dakota into the union of states and the invaluable services rendered by him in framing the fundamental law of the new state has inseparably linked his name with the history of the new commonwealth of South Dakota, and as a testimonial of our regard for him he is hereby presented with the gavel which he has wielded with such dignity and fairness during the sessions of the convention, and we cherish the hope that he may live many years to enjoy the rights and privileges of a citizen of the new state of South Dakota.

Judge Edgerton responded in a feeling manner. He disclaimed any credit for the success of the convention and said that whatever good had been accomplished was due to the efforts of the delegates. They could present to their constituents one of the best constitutions ever constructed. The school lands had been guarded so that they might be handed down as a heritage to their children. The effort of all had been to form a constitution such that every man, rich or poor, might have equal rights and privileges. He thanked the convention for the expression of their confidence.

Mr. Williams then took the chair and announced that Col. Jolly had been by unanimous consent, delegated to speak on a subject which concerned the presiding officer. Col. Jolly then presented President Edgerton with an elegantly framed photograph of the delegates and officers of the convention. In making the presentation Col. Jolly spoke substantially as follows:

"The closing hours of this convention have almost arrived. Five weeks ago we first met here and we have been together daily since that time. Like men elsewhere we have strong convictions and have stood by those convictions as strongly as men ever have. There have been disagreements but during the entire convention there has been a profound respect for the opinion of others. Sometimes we have fought hard, but those who have fought us the hardest we respect most. We meet as friends and we part as brothers. At the beginning of the convention there was some feeing as to who should be the presiding officer. The man who says he has no regard for the endorsement of his fellow men is hypocritical. A life well spent is a noble thing, and the endorsement of such a life should be gratifying to any man. When you were elected president it accorded with the wishes of all. At the beginning you won our respect and now I must say that you have won our hearts. Take this picture, and when you look upon the features of those therein contained, remember that you are looking upon the faces of your friends."

Judge Edgerton said in response that surprises came thick and fast. He referred to his unanimous election as president of the convention in 1885, regardless of party, and of his election as presiding officer of the present body by the same unanimous vote. To help frame the organic law of a great commonwealth was the highest duty of any citizen. If he had done that to merit the approbation of his fellow men, he was satisfied. He promised that he would ever cherish the picture and hand it down as a rich legacy to his children.

The Koch Surprise Party. About twenty-five couples, mostly members of the German Verein, congregated at the residence of Wm. Koch on west First street Monday evening, the occasion being the thirty-eighth anniversary of Mr. Koch's birthday. There was a bountiful supply of refreshments for the inner man, some choice music, and dancing and card playing till nearly daybreak.

The Present Crop Prospect. L. D. Hinckley, a Milwaukee grain and commission merchant, passed through from Aberdeen. He has just completed an extensive crop inspecting tour of South Dakota. North to Aberdeen, he says, wheat is a good half crop, and south and east of here crops of all kinds give greater promise of good yields than in any part of the state.

In Hoc Signo Vinces. Among the ladies who have come to the front enthusiastically in behalf of the capital campaign fund are Mrs. Harriet A. Washburn, who made a handsome contribution Monday night; Mrs. E. F. Bond and Mrs. M. E. Kline, each of whom has contributed generously.

The Milwaukee system runs into thirty-two of the forty-four county seats of South Dakota, and sixteen of these can be reached from Mitchell without change of cars, while by one change the others can be reached. Huron is connected by rail with twenty-nine county seats, ten of which can be reached without change, while the rest require from one to two changes.

knowledge not only of the existence of the institution but of its standing as well, for to the popular mind, the general tone and importance of a college is largely gauged by the character of its buildings.

Interesting Letter From a Citizen of Aurora County.

EDITOR REPUBLICAN: There is a strong sentiment in this county in favor of Mitchell for the capital of South Dakota. In fact, we may say that aside from a few of the business men of Plankinton our people are a unit for Mitchell, and we can see no good reason why these should not fall in line.

To locate the capital at Pierre will not necessarily give us a railroad to Pierre, and even if it would, what Plankinton needs is not more railroads, but more farmers. Moreover, it is only a question of time when we shall get the Manitoba road. Then, there is another most important fact which should be taken into consideration in locating the capital. There are two important railway systems traversing South Dakota from east to west. The capital will be located on one of these two systems of road, and the road which gets the capital will be the main line of travel through the state. It will have three trains while the other has one. This is not speculation, but logic. Now, what does this mean? It means that the farms along the line of road upon which the capital is located will be worth two or three times as much as those upon the other; that they will be settled upon and cultivated. It means that the towns along this road will do a bigger and better business in consequence, because for their business they must depend upon the settlement and development of the country.

While passing through Chas. Mix county last week we heard a good deal of talk about locating the capital at Pierre, with a view to getting a river road through that country. The idea, however, is too absurd to be considered seriously. In this country where the dividends are so small, the roads will be built where they can be built most cheaply, and it doesn't need to be demonstrated that an up river road would cost four times as much as any other. Whether or not the capital comes to Mitchell, she will send a road in both a northwesterly and southwesterly direction within the next three years. Such is the evident intent of the Chicago, St. Paul, Minneapolis & Omaha people, and present appearances indicate that the Illinois Central will also build southwest from that city in the immediate future, with a view to lapping the fertile counties of Douglas and Chas. Mix.

These, Mr. Editor, are the views of one who has been a resident and property owner of Aurora county since 1881.

PLANKINTON, S. D., Aug 7, 1889.

Steve Sledge Burned Out. The fire alarm about 6 o'clock last evening was occasioned by the igniting of a curtain in Steve Sledge's kitchen from a gasoline blaze. The damage to the building was about \$35, but the department and citizens turned out just as hard as if it had been a second Seattle or Spokane visitation.

Another alarm was turned in about 9:30 last night, by the fire breaking out again, it evidently not having been extinguished the first time. Steve managed to get his household goods out, but the house burned to the ground. It was fully insured in the State of Des Moines.

The Ladies Are In Earnest. The following resolutions explain themselves:

Whereas, The Ladies Cemetery Improvement Society has undertaken the labor of beautifying our cemetery, and making pleasing and attractive the last resting place of our beloved dead, and

Whereas, It becomes necessary to secure funds with which to prosecute the work, therefore, be it

Resolved, That an assessment equaling five cents for each adult resident of the city be made, and that the city be subdivided into districts, and that a committee be appointed for each district to collect the assessment thus made.

The Electric Light Plant. The apparatus for the electric light plant has been received and is now stored in the Milwaukee depot. Positive orders are daily expected from the St. Paul office of the Thompson, Houston Co., to place the plant in such a condition that it may render the city efficient service. The contract for power with the Merchant Mills Co. began August 1st.

The Present Crop Prospect. L. D. Hinckley, a Milwaukee grain and commission merchant, passed through from Aberdeen. He has just completed an extensive crop inspecting tour of South Dakota. North to Aberdeen, he says, wheat is a good half crop, and south and east of here crops of all kinds give greater promise of good yields than in any part of the state.

In Hoc Signo Vinces. Among the ladies who have come to the front enthusiastically in behalf of the capital campaign fund are Mrs. Harriet A. Washburn, who made a handsome contribution Monday night; Mrs. E. F. Bond and Mrs. M. E. Kline, each of whom has contributed generously.

The Milwaukee system runs into thirty-two of the forty-four county seats of South Dakota, and sixteen of these can be reached from Mitchell without change of cars, while by one change the others can be reached. Huron is connected by rail with twenty-nine county seats, ten of which can be reached without change, while the rest require from one to two changes.

CONVENTION MATTERS.

A Brief Resume of the Work--An Elegant Spread.

The committee on supervision recommended that there be a superintendent and assistant superintendent for the state; also that the county school officers elect the county superintendent. A committee of three was chosen to draft resolutions recommending certain changes in the school law with regard to the duties of county superintendent and school officers. The committee consists of Messrs. Bras of Davison, chairman; Matheny of Spink and Wood of Charles Mix, who are expected to recommend such changes in the present law as they may deem expedient and present their report to the Educational Council, which meets the first week in September, and which will use this report in preparing a memorial to the legislature in the form of a bill.

In the matter of certificates it is proposed to advocate the enactment of a law providing for the issuing of a state certificate for life, unconditionally, also a state certificate for life to be conditional upon continuous school work; also a state certificate covering a period of five years to be issued to graduates from normal schools and normal annexes, such certificates to be used in public schools only and to be granted parties who have taught one year subsequent to graduation. County certificates are to be of three grades--the first good for three years, the second for two years and the third for one year--leaving it optional with the county superintendent to limit a third grade certificate to a period of six months.

The convention recommended the enactment of a law providing for a uniform system of free text books, said books to be purchased upon the recommendation of a committee composed of one representative from each township in the county, acting in conjunction with the county superintendent.

In the matter of institutes they recommend the amendment of the present law so as to provide for the appointment of conductors by the state superintendents, who shall make all rules and regulations governing such institutions, save only that the county superintendent shall select the time and place of holding the same.

The convention decided to recommend the abolition of the normal annexes after a period of two years.

A decided opinion prevailed in favor of the appraisal of the school lands at a nominal value and leasing them for a period of ten years at a rental of 6 per cent. upon their appraised valuation.

THE BANQUET IN THE EVENING. The visitors were entertained at the Alex Mitchell last night with an elegant spread, at which Mayor Johnston delivered an address of hearty welcome to which Assistant Supt. Young made appropriate response. Supt. Bras as toastmaster then proposed the following sentiments, which were happily responded to:

South Dakota--Prof. E. C. Patterson of Pierre.

Board of Education--Assistant Supt. Free of Deadwood.

Dakota, Her Schools and Colleges--Prof. L. A. Stout of the M. E. University.

Mitchell--Prof. H. E. Kratz of Vermillion University; A. E. Hitchcock of this city.

The Press--R. W. Wheelock.

The K. P. band rendered several choice selections, which were highly complimented, and the male quartette, Messrs. Kratzes, Taylor and Lott, closed the exercises with a popular selection.

The visitors left for their respective homes today, having expressed themselves as well pleased with their stay in this city.

The Sportsmen's Meet. The Davison county representatives who have been in attendance upon the Territorial Sportsmen's Association at Aberdeen returned this morning. They speak very highly of the treatment received at the hands of the Hub citizens and also of the success of the meeting. At the annual meeting for the election of officers which occurred last evening, Mitchell was favored by the election of Frank Hammer as secretary of the association and G. W. Davison as treasurer. C. H. Arland, of Mt. Vernon, was chosen vice president. It was voted to change the name of the association to "The South Dakota Sportsmen's association," and the matter of selecting the place of holding the next meeting was left to the officers. The Lefever Ames company badge was won by Fred Shaft of Aberdeen (afterwards chosen president of the Association) who made 93 points out of a possible 115, and was followed by James Hawley with 91 and Charlie Arland with 89.

LAND OFFICE NOTES. The following patents are those recently received at the Mitchell land office:

(To Be Continued.)

CAPITAL TALK AT HOME.

Rev. C. B. Clark, who has just returned from Douglas and Chas. Mix, and Rev. H. E. Wyckoff, who has been talking prohibition and university down in Bon Homme, returned yesterday with news of the most encouraging sort.

Our rivals may find it profitable to send out those who are "all things to all men," but Mitchell, with her proverbial fairness, prefers to be represented by men who will clearly and honestly represent her claims, in a way wholly free from deceptive sentiment, and then trust all to the good judgment of the voter.

A Methodist clergyman comfortably seated in yesterday's south bound train remarked to an "angel of commerce" across the aisle that Redfield, which he had just visited, seemed to want the earth. If that will satisfy her, pointedly responded the other, she is not so grasping as Sioux Falls, for the town on the Minnesota border evidently wants the earth fenced.

J. T. Craig of Parkston told a Republican reporter yesterday that Hutchinson county was not so stupidly obtuse as to fail to see that her best interests lay in the locating of the capital at Mitchell. That these best interests may be best conserved, he feels sure that our sister county will throw a large majority of her vote to Mitchell. He also reports a strong following for the Capital Investment company, that will, in all probability, accept the dictum of the company's executive committee as a ukase from which there can be no appeal.

There has been developed in southern Lincoln county lately a Mitchell capital sentiment that is gratifyingly strong. The feeling toward Sioux Falls is naturally rather friendly, especially in the northern part, but compared to the other rivals Mitchell surely has the inside. To reach either Huron or Pierre, Lincoln's citizens are fully aware, would necessitate two changes of cars and a much longer journey than that to Mitchell, for which no change is required. And to this the growing consciousness that the
