**ELLENSBURG DESTROYED BY FIRE.**

ELLENSBURG, W. T., July 5, Special. —Ten blocks in the best portion of the city are in ashes, nearly one hundred families are homeless, and what was yesterday a thriving business center, is now a mass of ruins. Owing to the excitement and confusion it is impossible to ascertain how the fire originated, but it is presumed that it was the result of the celebration of the national holiday, as it started soon after the display of fireworks last evening. The flames started on the north side of the city about 10 o'clock in the evening, and with a very strong wind blowing from the northeast.

The fire department was promptly called out but could do nothing to check the rapid advance of the conflagration, which, within an hour, spread to the business center. Help was telegraphed for from neighboring towns, but long before it could reach the scene the flames had literally wiped out the heart of the city and commencing to spread among the residences on the south side. It was not until the main portion of food for the fire had been consumed that there were any signs of abatement, and it was nearly morning before the firemen secured any result from their tireless efforts. The cessation of the wind had a tendency to aid the firemen in checking the progress of the fire, and at this hour it is thought the flames are under control, or will be confined to the buildings now burning. While it is impossible to form a close idea of the amount of loss, it is estimated the sum will run up to many hundred thousands. All of the leading hotels, the handsome Nash Opera House block, City hall, Bard of Trade building, Snipes & Co's bank, in fact all business blocks in Pine and Pearl, and Third, Fourth and Fifth streets, are consumed, excepting only the First National bank building, Bloomer & O'Conner's dry goods house, Getzins's shoe store, one saloon and one general store.

The oration by Hon. M. C. George was able and full of lofty, patriotic sentiment.

**DENVER, July 4.**—The three days' celebration of the national holiday began early this morning. The city is most beautifully decorated with flags and lanterns, white the streets are hung with colored lights, which to night presents a most handsome appearance. Every business house, all of the courts, the banks, and the state, federal and city offices are closed during the day. All of the incoming trains brought hundreds from outside towns to witness the celebration.

**HILLSBORO, July 4.**—The celebration was in all respects a success. About 5,000 people were present, all the neighboring towns being represented, besides quite an attendance from Portland.

**THE PERSONELL OF THE CONVENTION.**

As from our reporter's table this morning we cast our eyes over the convention, we were struck with the intellectual aspect and business air of the membership. There is nothing juvenile or tender footed about the tone and look of the convention. Nearly all have reached middle life, and the greyheads are not unfrequent. They look like men who are familiar with affairs, and are at home in the consideration of questions of state. There are in the convention not a few gentlemen of even distinguished air and port—and would be marked men in any political assembly of the land. Most of them are strangers to us but we are told that we have here men who have been distinguished in the bar, on the bench, and in the political councils of Idaho; men honorably known as editors, successful men in great business enterprises, and men who have shown proud ability in the national hall of representatives.

Such are the men Idaho has wisely chosen to frame her constitution. Undoubtedly it is the ablest body of men ever assembled in the territory. They come together in a spirit of patriotic loyalty to the great duty consigned to their keeping. Idaho expects much of this convention; and all these expectations we fondly believe will be amply realized. Idaho's star is in the south. All the omens augur good.—*Boise Statesman*, July 5.

**THE FOURTH ELSEWHERE.**

The national holiday was celebrated at Vancouver yesterday with more than usual eclat. There being no celebration in this city of any kind, most of the citizens of Portland, East Portland and Albina spent the day away from home, most of them, however, going to the city of soldiers. There were without a doubt more people in Vancouver yesterday than have ever been there on any previous occasion. The streets fairly swarmed with people, and the hotels, eating houses and saloons reaped a very rich harvest. The day was all that could have been wished. The warm rays of the sun were tempered by a brisk breeze, which made it pleasant and comfortable to be abroad.—*Oregonian*.

**WALLA WALLA, W. T., July 4.**—Fully 7,000 people were here to-day assisting in the celebration, which was on the most extensive scale ever attempted here. Four companies of regular cavalry, companies of Zouaves, Company A, of the militia, Columbia lodge of the Knights of Pythias, mounted, and ten posts of Grand Army men, formed a part of the procession.

**EUGENE, July 4.**—One of the most successful celebrations ever had in Eugene or in this section of the country has just closed. Thousands of enthusiastic citizens, not only from various portions of the country, but from great distances, have crowded the city during the entire day, and are still this evening making the air ring with various patriotic demonstrations.

Hon. John F. Caples delivered an address, which has seldom, if ever, been equaled in eloquence, sound logic and general interest in this city.

**ALBANY, Ogn., July 4.**—The celebration in this city to-day was a great success, fully fifteen thousand people being present. The parade, which was a mile long, was a grand pageant, Governor Pennoyer, Senator Mitchell and other distinguished visitors were present.

The oration by Hon. M. C. George was able and full of lofty, patriotic sentiment.
