[e940909] Mr. Winsor: Mr. Chairman, I desire to move an amendment to this effect: That section 2 read as follows: "No persons shall be entitled to vote at any general election, or for any office that now is or hereafter may be created by the people, or upon any question which may be submitted to a vote of the people, except the questions provided for in section 15, of this article, which may be submitted to the vote of qualified taxpayers, unless he possess the following qualifications: First: That he be a citizen of the United States, of the age of twenty-one years or over. Second: That he shall have resided in the state one year, immediately preceding the election, at which he offers to vote, and in the town, county or state such time as may be prescribed by law."

Mr. Roberts: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 565)

[e940911] Mr. Osborn: As I understand it, that does away with the educational qualifications.

Mr. Winsor: It absolutely does not touch it. It simply prescribes that these qualifications are necessary, and does not place any limitation upon other qualifications.

Mr. Roberts: I submit that we have an educational qualification which may have a bearing on elections, as quick as the first state election is held.

Mr. Osborn: Mr. Chairman, I would like to call the gentleman's attention that it says those are the qualifications and therefore it repeals the educational qualification on our statute books today.

Mr. Ellinwood: That is what it does do. Under the enabling act, the laws of Arizona are to remain in force and effect until changed by this constitution, and if you put qualifications in here prescribing what they are, you have repealed the statutes of Arizona.

Mr. Winsor: I would like to ask the gentleman from Cochise what words are used which limit the qualifications which may be placed upon electors.

Mr. Ellinwood: When you say that the qualifications shall be a voter is twenty-one years of age, and other qualifications, then you have eliminated their other qualifications, and when you say a voter shall be twenty-one years of age, and reside within the state, and that is all you say, that is all the qualification it is necessary for a voter to have.

Mr. Winsor: Mr. Chairman, the gentleman does not understand the reading of the proposition. The proposition states no person shall be entitled to vote unless he has these certain qualifications. The proposition the gentleman from Cochise has submitted, states that anybody may vote, who possesses the certain qualifications named in this proposition, or in the minority report. The amendment I propose states that no person shall vote unless he has those qualifications, and they may prescribe an indefinite number of qualifications.

Mr. Cunniff: Mr. Chairman, I object to the proposition introduced by the gentleman from Yuma, in that it does not give any body a right to vote, and

this minority proposition is preferable, because it follows the phrasing used in all the other propositions. It seems to me the proposition introduced by the gentleman from Yuma—

Mr. Chairman: A second amendment not subject to further amendment at this time. All in favor of the amendment of the gentleman from Yuma will answer “aye” as their names are called; those opposed “no.”

Mr. Parsons: I want to call the attention of the members of the committee to the fact that this does not provide that it be a male, but is simply a citizen of the state.

[e940916] Amendment lost by the following vote:

Ayes—Cassidy, Connelly, Goldwater, Ingraham, Keegan, Kinney, Roberts, Scott, Short, Sims, R. B., Simms, Mit, Weinberger, Winsor. Total 13.

Nays—Baker, Bolan, Bradner, Cobb, Coker, Colter, Cooper, Crutchfield, Cunniff, Cunningham, Curtis, Ellinwood, Feeney, Franklin, Hutchinson, Jacome, Jones, A. M., Jones, F. A., Kingan, Langdon, Lovin, Lynch, Orme, Osborn, Parsons, Pusch, Tuthill, Webb, Wells, Wills, Wood, Mr. President. Total 32.

Absent—Moeur, Moore, Morgan, Standage.

Excused—Doe, Tovrea, White.

(The Minutes of the Arizona Constitutional Convention, Page 258)

[e940920] Mr. Cunniff's motion carried by the following vote:

Ayes—Baker, Bolan, Bradner, Cassidy, Cobb, Coker, Connelly, Crutchfield, Cunniff, Cunningham, Ellinwood, Feeney, Goldwater, Jones, A. M., Jones, F. A., Keegan, Lynch, Osborn, Parsons, Tuthill, Webb, Weinberger, Wills, Wood, Mr. President. Total 25.

Nays—Colter, Cooper, Curtis, Franklin, Hutchinson, Ingraham, Jacome, Kingan, Kinney, Langdon, Lovin, Orme, Pusch, Roberts, Scott, Short, Sims, R. B., Simms, Mit, Wells, Winsor. Total 20.

Absent—Moeur, Moore, Morgan, Standage.

Excused—Doe, Tovrea, White.

(The Records of the Arizona Constitutional Convention of 1910, Page 566)

[e940926] Mr. Ellinwood: I wish to offer an amendment to section 2, on line 12, after the last word, add the following: “Provided further, that no persons under guardianship, non compos mentis or insane shall be qualified to vote at any election, nor shall any person convicted of treason, or felony, vote at any election, unless restored to civil rights.”

Mr. Crutchfield: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 566)

[e940932] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 566)

[e940937] Mr. Webb: Mr. Chairman, I would also amend section 2 by adding at the end of line 5, the following words: "Except on questions provided for in section 15 of this article, which may be submitted to the vote of qualified taxpayers."

Mr. Ellinwood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 566)

[e940941] Mr. Jones (Yavapai): Mr. Chairman, I do not like to see this go into our constitution. I do not think a property qualification should be incorporated in our constitution. I think a man has the right to vote, whether he owns property, or whether he does not in the management of the government he ought to have just as much to say as anyone else, and you might as well say because he only has a lot worth \$50.00 a man worth \$50,000.00 should have that many times as many votes. I think it is absolutely un-American. These property qualifications have been frowned down for fifty years. We do not want to go back. This thing is going back for fifty years. Today it is a government of the people, not a government of the property owner.

[Speech by Cunniff of Yavapai not found.]

Mr. Weinberger: Mr. Chairman, I move to amend the amendment by striking out the words "or taxes" so as to give the women a right to vote on matters concerning bond issues.

Mr. Ellinwood: Mr. Chairman, I would like to ask if in place of striking out the words "or taxes," if that ought not to be "or special assessments."

Mr. Weinberger: The wording here is "or taxes."

Mr. Ellinwood: I think it ought to be "bond issues or special assessments."

Mr. Weinberger: I will accept the amendment, so that the words "or special assessments" will follow.

Mr. Webb: I simply desire to say in answer to the criticism of the gentleman from Yuma, on section 15, that it certainly is not under consideration, and his criticism was out of order. I have not read it. I had nothing to do with drawing it, and if it is objectionable when we reach it, he will have opportunity to amend it at that time.

[Editor's Note: Weinberger's amendment repeats later on in the session as an amendment to section 15 and is more logically placed there. The editors assume that the above exchange is a placement mistake in the Secretary's notes.]

(The Records of the Arizona Constitutional Convention of 1910, Pages 566-567)

[e940945] Except on questions provided for in section 15 of this article, which may be submitted to the vote of qualified taxpayers.

Mr. Ellinwood moved to amend so that the above phrase should be inserted after the word "people" in line 5.

(The Minutes of the Arizona Constitutional Convention, Page 259)

[e940950] Amendment accepted by Mr. Webb.

(The Minutes of the Arizona Constitutional Convention, Page 259)

[e940952] Mr. Chairman: Are you ready for the question on the amendment offered by the gentleman from Graham, Mr. Webb? All those in favor manifest by saying "aye;" opposed "no." Call the roll, Mr. Secretary.

Roll call showed 19 "ayes" and 25 "nays."

Mr. Chairman: The motion is lost, the section now is ready for further amendments.

(The Records of the Arizona Constitutional Convention of 1910, Page 567)

[e940975] Mr. Cassidy: Mr. Chairman, I wish to amend line 6 by inserting after the word "state" the words "or the territory of Arizona." The reason I make this amendment is that the first general election will probably be in November 1912, and it is not likely that any person in Arizona will have resided in the state one year, at that time.

Mr. Osborn: I second the amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 567)

[e940978] Mr. Jones (Yavapai): Mr. Chairman, no officer of the state will be elected under this constitution for a year, or a year and a half, after the constitution is adopted, because a new set of officers will go in who have been elected under the ordinance of this constitution, when this state comes into the Union. Therefore, the first election that comes under this constitution will be anyway, eighteen months, or two years thereafter. Therefore, that is absolutely necessary.

Mr. Cassidy: Mr. Chairman, it is not likely we will be admitted as a state before a year and a half. It is not possible.

Mr. Chairman: We won't be through with this convention before that time.

Mr. Cassidy: If that be true then the following general election will occur before six months after the time of our admission as a state.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
567-568)

[e940981] Mr. Weinberger: I wish to offer another amendment, and I think it will be acceptable to the gentleman from Maricopa, so that the sentence will read: "He shall have resided in Arizona one year." That will leave the question open as to whether it is a state or a territory.

(The Records of the Arizona Constitutional Convention of 1910, Page 568)

[e940983] Mr. Cassidy: I will accept the amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 568)

[e940985] Mr. Chairman: The question is upon the motion of the gentleman from Maricopa, Mr. Cassidy, to strike out the words "this state" and insert in lieu thereof the word "Arizona." Are you ready for the question? All in favor will signify by saying "aye." Those opposed "no." The "ayes" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 568)

[e940987] Mr. Winsor: I move an amendment by striking out all after and including the word "third" in line 8 down to the word "name" in line 9.

(The Records of the Arizona Constitutional Convention of 1910, Page 568)

[e940989] Mr. Webb: I rise to a point of order. That would leave it practically as the amendment proposed by the gentleman from Yuma. The only question at issue is shall the educational qualification remain or not.

Mr. Winsor: That was not the question at all before. That was a negative proposition I submitted and this is an affirmation. I move to strike out.

Mr. Osborn: I would like to ask the gentleman from Yuma his reason for wanting to strike out the educational qualifications.

Mr. Winsor: Simply I do not want the educational qualifications in the constitution.

[Speech by Cunniff of Yavapai not found.]

[Speech by Winsor of Yuma not found.]

Mr. Cobb: The substitute proposition which you introduced would not repeal our present law.

Mr. Winsor: You are right.

Mr. Cobb: Do you think we could hood wink Congress? Why not say plainly in our constitution we believe in an educational qualification instead of leaving it on the statute books?

Mr. Winsor: I cannot say how strict Congress is. I simply know what action they have taken.

Mr. Connelly: I cannot see after listening to all this pro and con talk (mostly con) that it has done any good. I do not see any use of taking any chance; let us let our legislature fix that up.

Mr. Ellinwood: If you pass this resolution the legislature cannot pass an educational qualification, and that is the end of it.

Mr. Winsor: In reply to the gentleman, he has just confessed what I charge; he is placing here a qualification which absolutely closes the door. This is no place to close the door on questions of this sort. I would like to ask further what has come over the spirit of the gentleman since he introduced Proposition Number 51, which provides that this educational qualification should not apply to voters able to vote at the time of admission.

Mr. Ellinwood: I would say I thought that was as far as I could go. I found the sentiment of the convention is different, as I always was in favor of this proposition.

Mr. Ingraham: I consider this absolutely the most dangerous thing this convention has had under consideration, without question.

Mr. Parsons: I do not like to take up the time of this body, but the gentleman has said how important he thinks this is. I think it is the most ridiculous exhibition of foolishness—

Mr. Winsor: That is getting pretty personal.

Mr. Parsons: I am talking about the argument, not about your person. I say that the proposition that Congress would refuse to accept our constitution on the ground taken here is the most ridiculous talk I have heard in this convention (and that is saying a good deal). I am in favor of the amendment. I am in favor of having an educational qualification for the reason that I have always, ever since I was old enough to know what a ballot was, believed that no ballot should go into the box that did not register an honest opinion. (applause) I was in favor of this before I heard of the initiative and referendum, and I hope it will prevail.

[e941147] Mr. Connelly: I would like to refer back to section 13 for information. Would the general election of state, county, and precinct officers bar us from voting for congressman and senators? The United States constitution provides we shall elect congressmen and senators; therefore, I did not think it worth while to provide in our constitution for that.

[Editor’s Note: Connelly’s suggestion does not appear to have been taken up.]

[e941151] Mr. Chairman: Hearing no objections, section 14 will be adopted as read.

[e941156] Mr. Cunniff: I move section 15 be stricken out.

Mr. Parsons: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 570)

[e941159] Mr. Weinberger: I move to amend by striking out "or taxes," on line 11, and insert in lieu thereof "or special assessments."

(The Records of the Arizona Constitutional Convention of 1910, Page 570)

[e941163] Mr. Cunniff: If the motion to strike out prevails the others will be unnecessary.

Mr. Chairman: It will be more expedient to pass on that first.

Mr. Cunniff: I do not like to take up time, but I should like to point out that our sister state of California has arrived at its present stage of development and wealth with his provision, and if she can afford to have a provision like this, we can afford to be as democratic as California.

Mr. Connelly: The last Republican platform in California has woman suffrage.

Mr. Chairman: We are not passing on platforms. The question before the house is the motion of Mr. Cunniff to strike out section 15. The secretary will call the roll.

Mr. Cunniff: I should like to say in all sincerity I hope to be able to sign the constitution, and I hope to be able to urge the adoption of this constitution, and I have serious doubts if I can if that proposition goes in.

Mr. Ingraham: Unless that goes in, you won't have any constitution.

Mr. Connelly: If it goes in, I am not sure I will sign it.

(The Records of the Arizona Constitutional Convention of 1910, Pages 570-571)

[e941165] [Editor's Note: No decision appears to have been made on Weinberger's amendment, possibly because passing Cunniff's amendment would make Weinberger's irrelevant.]

[e940965] Secretary (reading): "Report of the Committee on Legislative Department, Distribution of Powers and Apportionment on Proposition Number 6, recommending that the Substitute Proposition Number 6 be adopted."

(The Records of the Arizona Constitutional Convention of 1910, Page 572)

[e940972] Mr. Chairman: You have heard the report of the committee. What will you do with section 1 of Substitute Proposition Number 6?

(The Records of the Arizona Constitutional Convention of 1910, Page 572)

[e940980] Mr. Osborn: Mr. Chairman, I move you that in line 2 that the word "nineteen" before the word "members" be changed to "four-teen," and in the remainder of the paragraph wherever the figure "2" comes before the word "senator" that it be changed to "1."

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 572)

[e940984] Mr. Cassidy: Mr. Chairman, I move an amendment. As the proposition now stands it gives the larger counties only two senators and the smaller counties one senator. It gives the smaller counties a much larger proportionate representation than it does the larger counties. Now, it is proposed to make this inequality a great deal greater than it now is. I am utterly opposed to this amendment.

[Speech by Osborn of Maricopa not in journals. Arizona Republican, November 24, 1910 reported: "Mr. Osborn replied that the senate was not supposed to be representative of a certain number of people. Such representation was to be found in the house."]

Mr. Lynch: Mr. Chairman, the remarks of the gentleman from Maricopa are not only theoretically correct but they are correct from a political standpoint. So far as the theory of a dual house and senate is concerned, it has been conceded that it should be based upon the unit of representation. We have a legislative committee working on the most delicate and intricate proposition that we have to contend with, that of apportionment. They have brought in this report, and so far as I can see from every point of view it is as fair as can be made. There is no absolute scale which can be made with absolute fairness to all counties. Therefore, I believe in standing by the report as presented, and will urge that the committee's report, which is the fruit of their work for days, be accepted without amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 572)

[e940988] Mr. Chairman: Gentlemen, you have heard the amendment of the gentleman from Maricopa, Mr. Osborn, whereby he proposes to insert "14" instead of "19" in the second line, and that wherever the figure "2" occurs

before "senator" it be changed to "1". Those in favor of the amendment will answer "aye" as their names are called; those opposed will answer "no."

Roll call showed 18 "ayes" and 29 "nays".

Mr. Chairman: The amendment is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 573)

[e941016] Mr. Cobb: I move an amendment to section 1, that "19" be stricken out, and "17" be substituted therefore, and that "1" be placed before every county except Cochise, Maricopa and Pima, and "2" be placed before those counties.

Mr. Osborn: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 573)

[e941020] Mr. Winsor: I would like to ask the gentleman what he bases that on?

Mr. Cobb: I am basing it upon population, the same as every state in the union which is represented in Congress. Now, the reason that I suggest that two senators be given to these counties is on account of the large break in population in Yuma county with 15,996 and Pima with 28,108, Cochise with 34,591 and Maricopa with 34,488; the next Yavapai with 15,977, the next Gila with 16,780 and Greenlee with 14,818. There is only about 1,000 difference between Greenlee and Yavapai, and yet according to the report of the legislative committee Greenlee gets one senator and Yavapai two and Gila two.

Mr. Weinberger: Mr. Chairman, may I ask the gentleman a question? How many voters have you in Greenlee county?

Mr. Cobb: It doesn't make any difference. I would like to tell the gentleman that for years the Republican party has been striving to strike down representation in the south because they did not have the voters in the south, and the Democratic party has always fought it.

Mr. Cunniff: Mr. Chairman, I would like to call attention to the scheme already adopted in an effort to arrive at some sound basis of accurate figures. In discussing this matter we found that Apache had about 10,000 population and about 600 voters, and there seemed to be a gross disproportion there. We have no means of knowing how that disproportion exists in other places.

(The Records of the Arizona Constitutional Convention of 1910, Page 573)

[e941021] Mr. Feeney: Mr. Chairman, is an amendment in order. I move that section 1 stand approved as read, as amended.

(The Records of the Arizona Constitutional Convention of 1910, Page 573)

[e941023] Mr. Coker: Mr. Chairman, I ask for a division of the question on representation and senators.

(The Records of the Arizona Constitutional Convention of 1910, Page 573)

[e941025] Mr. Chairman: Division is asked for and the chair is in doubt as to the possibility of extricating the vote on representatives and the vote on senators but rules that [it] should be fair to consider them separately.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
573-574)

[e941030] Mr. Goldwater: I desire to point out that while this minority report is only signed by one member of the committee, still it is of considerable size and should have considerable weight. (applause)

Mr. Webb: Mr. Chairman, I desire to say that as the minority report recommends nothing, no action can be taken on it. It simply does not concur.

Mr. Chairman: The chair will hold that it is fair to have a division of this question and will vote first on representatives if the gentlemen desires.

Mr. Weinberger: How are you going to divide this question? A division usually you divide one portion of a paragraph from another. How are you going to divide this question?

Mr. Chairman: if you leave it to the chair, the chair will hold that in the vote for senators these figures touching senators, if the majority report is approved, they will stand as they are.

Mr. Winsor: Mr. Chairman, I would suggest that that very question has already been voted upon; and amendment touching upon senators has been proposed and defeated. I do not see how you can have any further vote.

Mr. Webb: I have not the slightest objection to any sort of a division that a fair expression of this committee may be had, and I would suggest that the question be divided as the chair has ruled it should be, and on the motion of the gentlemen from Cochise, Mr. Feeney, the first question will be, "shall the committee when it arises recommend the adoption of that part of section 1, which provides they will be apportioned as apportioned in section 1." Those who vote "aye" will vote for sustaining the number and apportionment of senators as proposed here.

(The Records of the Arizona Constitutional Convention of 1910, Page 574)

[e941035] [Editor's Note: A working version of section 1 with blanks for the numbers of senators and representatives has been proposed onto the document in order to model the questions of representation and senators separately.]

(Editorial)

[e941036] Mr. Chairman: The question before you will be the question of senators—adopting the report of the committee as it stands now for senators in the first part of this section. The question is asked for and roll is demanded. Those who favor the report of the majority committee as it now stands giving a senate of nineteen members apportioned among the counties as the report shows—section 1, second paragraph shows,—will make it known by saying "aye" when their names are called. Those opposed "no."

(The Records of the Arizona Constitutional Convention of 1910, Page 574)

[e941037] Mr. Jones (Maricopa): Mr. Chairman, I want to explain my vote. I am not in favor of any senate or senators. I vote "aye" on this however to get it out of the way.

(The Records of the Arizona Constitutional Convention of 1910, Page 574)

[e941039] Roll call showed 35 "ayes" and 14 "nays."

Mr. Chairman: The "ayes" have prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 574)

[e941041] Mr. Coker: I would like to make an amendment.

[Editor's Note: As a point of order was raised before Coker could describe his proposed amendment, the amendment has not been modelled onto the document text.]

(The Records of the Arizona Constitutional Convention of 1910, Page 574)

[e941046] Mr. Webb: Until both parts of the question have been put, nothing is in order.

(The Records of the Arizona Constitutional Convention of 1910, Page 574)

[e941049] Mr. Coker: I beg to call your attention that the division on this question took away with it the first motion of Mr. Cobb, therefore an amendment is now in order, an amendment to the question now pending.

Mr. Webb: My point of order is, that with a motion pending and no debate is in order and the vote is partly taken on this.

Mr. Coker: Mr. Chairman, a different condition now exists than existed when the other vote was taken. I insist that we [are] entitled to an amendment at this time.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
574-575)

[e941050] Mr. Chairman: The chair will rule that the amendment is out of order.

(The Records of the Arizona Constitutional Convention of 1910, Page 575)

[e941057] [Editor's Note: The second half of the question, relating to representatives, came up for discussion.]

(Editorial)

[e941063] Mr. Coker: Mr. Chairman, I make a motion that this motion now be laid upon the table.

(The Records of the Arizona Constitutional Convention of 1910, Page 575)

[e941064] Mr. Webb: Mr. Chairman, no motion is in order with a question partly settled. Until that is finished, nothing is in order.

(The Records of the Arizona Constitutional Convention of 1910, Page 575)

[e941066] Mr. Chairman: The chair will so rule.

(The Records of the Arizona Constitutional Convention of 1910, Page 575)

[e941068] Mr. Osborn: I think it is manifestly unfair to cut off debate on this proposition of these representatives. That part of the question was not debated at all. If you want to bring in a question here to work the "gag rule" on us, all right, but I do not think that is democratic. I would like to say that I see something here that is unfair. Cochise with only 103 more people than Maricopa gets one more representative.

(The Records of the Arizona Constitutional Convention of 1910, Page 575)

[e941070] Mr. Cobb: Mr. Chairman, you have cut off amendments on this by your first decision, and I appeal from the decision of the chair.

[...]

Mr. Cunniff: There has been no second to the appeal from the decision of the chair.

Mr. Osborn: I seconded it long ago.

(The Records of the Arizona Constitutional Convention of 1910, Page 575)

[e941072] Mr. Chairman: The decision of the chair is appealed from.

Mr. Webb: I ask which decision. He cannot appeal from the decision of the chair after the vote has been taken.

Mr. Chairman: I will not entertain an appeal from this first decision.

Mr. Cobb: The last one, I said.

Mr. Chairman: The chair has decided that no amendment is in order upon the division. The chair has not held, no debate is in order, but no amendment is in order, and the Gentleman from Graham, Mr. Cobb, appeals.

Mr. Cunniff: There has been no second to the appeal from the decision of the chair.

Mr. Osborn: I seconded it long ago.

(Editorial)

[e941073] Mr. Chairman: I will ask Mr. Keegan to take the chair.

[Editor's Note: The chairman entertained Cobb's motion for an appeal, asking Mr. Keegan to be temporary chair.]

(The Records of the Arizona Constitutional Convention of 1910, Page 575)

[e941078] Temporary Chairman: You have heard the motion on appeal. All in favor of the chair being sustained, will stand up, those opposed stand up.

Rising vote showed 35 "ayes" and 6 "nays."

Mr. Chairman: The chair is sustained.

(Editorial)

[e941086] Mr. Chairman: The chair is sustained. What is your pleasure?

[Speech by Osborn of Maricopa not found.]

Mr. Cunniff: Mr. Chairman, I would like to say, we tried to be fair but we had to get some kind of a basis to work on and the only sound figures we had to work on was that Cochise had something like 700 more votes than Maricopa County.

Mr. Osborn: Mr. Chairman, that is possibly true, but it seems to me we are getting away from the sound basis when we take the votes cast. We have been

trying to follow the constitution of the United States, and I think the majority of the members have been trying to follow the provisions of the constitution of the United States, but when it comes to apportionment, they have taken other bases. It seems to me that this was made in the interest of two or three counties in this territory.

Mr. Weinberger: I will say that Maricopa county had a representative in that legislative committee, and that committee worked faithfully for a considerable time in getting a fair basis for every county, and if you are going to chop this thing in two, we will be here for two months because every county will take exception and I believe the committee's report ought to be sustained. Every county was represented and every one had a voice before this report was recommended.

Mr. Sims: Mr. Chairman, I would like to ask the gentleman from Yavapai, Mr. Cunniff, in the spirit of fairness, if he thinks his county with 15,996 population is entitled to the same representation as Cochise with 33,459.

Mr. Cunniff: Mr. President, I would like to say that the gentleman from Yavapai does not agree that the population is that. The population of Yavapai is considerably more than that, I should say in this report Yavapai does not get the same representation that Cochise county has.

Mr. Sims: In the Senate?

Mr. Cunniff: That has already been settled.

Mr. Sims: If my figures are correct, under the conditions of this bill we have fifty-four officers, which will cost this territory \$500 a day, which would be \$30,000 for the sixty days session.

Mr. Coker: Mr. Chairman, in answer to the statements of some members of this committee that all counties were fairly represented, and that they tried to arrive at a fair apportionment, I will state all counties were represented except Greenlee and Graham county, which had two representatives, and I assume that when this committee was made up that all the persons thought that Greenlee had not been segregated at that time.

Mr. Cobb: Greenlee was misrepresented.

Mr. Coker: Mr. Chairman, but the smaller counties could not get a fair deal in this committee. Our county has 9,000 population. Yavapai has 15,000. Yavapai has three times the representation that Pinal has. Yuma has 7,000 in population, and has one more representative than Pinal has. Cochise county has 34,000 and yet has seven times the representation that Pinal has, and only four times the population. Where is your equality and fairness? I insist, Mr. Chairman, that this apportionment is manifestly unfair.

[Speech by Winsor of Yuma not in records. The Arizona Gazette, November 23, 1910 reported: "Winsor said one reason for the injustice was that the committee had tried to base its apportionment on the census figures when, as everybody knew, those figures, in many instances were notoriously incorrect. Mr. Winsor said that in his own neighborhood he knew of a dozen farmers who had not been counted by the enumerators, and he believed that his country really has double the population shown by the census figures."]

Mr. Coker: Mr. Chairman, on the same line argument I beg to point out to the convention that the number of votes might be accounted for on account of the railroad construction going on in Yuma.

Mr. Colter: I would like to impress upon Mr. Winsor's mind that we do not vote Indians in Apache county.

Mr. Winsor: It is very evident you do not, Mr. Colter.

Mr. Jones (Maricopa): I simply want to say I agree with the gentleman from Cochise, Mr. Sims, that we are running headlong into a proposition here of increasing our legislature from 36 to 59 after we have made provision for the people of the territory to enact laws, and the whole thing looks to me to be absurd. I am very much in favor of eliminating the senate. It appears to me that almost all the states in the union are trying to get rid of their senates, and we ought not try and create one. When the time comes I shall move, and ask for roll call, on the elimination of the senate, making the body a house of representatives consisting of thirty-five members apportioned as they are apportioned here, and I think this convention could not do a better work this morning than to do that very thing. It will eliminate lots of unsatisfactory legislation and the shifting from one house to the other of responsibilities.

Mr. Cobb: Mr. Chairman, I think probably I can explain the difference in the vote in Yuma county and in Pinal. They have to work harder for their election over there and need more votes in Yuma than in Pinal. I want to call attention again to the fact that Greenlee had no representation, and the population of Greenlee is almost the same as Gila and Yavapai, and yet Gila and Yavapai get double the representation in the Assembly.

Mr. Sims: Mr. Chairman, I would like to state further that it seems to me, at the rate that we are creating offices here it would be well to check up our list of offices against our population. We will have more offices than we have voters.

Mr. Lynch: Mr. Chairman, I cannot see how the objection to creating offices can be valid, because every one of these gentlemen who are speaking against this measure wanted more representation for their counties.

Mr. Colter: Mr. Chairman, I will say that if the larger counties will reduce their representation the smaller counties will not object. They are in favor of smaller representation, but as long as the larger counties insist on the unfair representation the smaller counties shall certainly object.

Mr. Cunniff: Mr. Chairman, I would like to say that the last act of the committee in making up this apportionment was to cut off one representative in the lower house from every one of the counties.

Mr. Sims: Mr. Chairman, I would like to state that I voted to cute these down.

Mr. Osborn: Mr. Chairman, I might say to Mr. Lynch that I tried to cut my own county down. I think I tried to dispel that idea that Maricopa was trying to "hog" everything in sight.

Mr. Cobb: Mr. Chairman, I want to answer Mr. Lynch too. If I had been permitted to offer an amendment I meant to offer one calling for 29 instead of 35.

Mr. Webb: Mr. Chairman, I want to say that there are members of that committee who are not supporting this proposition, who fought for weeks to work that down, and we did work it down from 60 to what it is, and if it had been reported in 60 I question whether it would have carried.

Mr. Coker: Mr. Chairman, I would say that the representatives of the larger counties tried to reduce the percentage by taking it from the smaller counties and leaving the larger counties are they are.

Mr. Orme: Mr. Chairman, I would beg the gentleman's pardon, but I tried to cut all these down, and if it is in order, I would like to move that we take the same representation that we have in the territory today.

Mr. Chairman: The chair will rule the motion is not in order.

Mr. Sims: I would like to ask the gentleman from Graham a question.

Mr. Webb: With pleasure, sir.

Mr. Sims: Do you think that we could cut all these down without doing an injustice to any county in the territory, and get the same result? Do you not think it would be fair if each county was cut down in proportion?

Mr. Webb: I will say that I personally fought for smaller membership in the legislative bodies from beginning to end but out of all the innumerable propositions that were presented we finally agreed to this, thinking it was the best we could get.

(The Records of the Arizona Constitutional Convention of 1910, Page 575-578)

[e941088] Mr. Chairman: The question is called for, gentlemen. Those in favor of the majority report on representatives, leaving it stand as it is now, will vote "aye" as their names are called, those opposed will vote "no."

Roll call showed 35 "ayes" and 14 "nays."

Mr. Chairman: The motion is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 578)

[e941090] Mr. Coker: Mr. Chairman, I now make a motion to reconsider the motion just voted upon. I wish to state that I do this for the purpose of making an amendment to reduce the number of representatives. If these people from the larger counties are consistent in their statement as to an economical number of representatives, based upon population, this will give them an opportunity to vote upon it.

Mr. Sims: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 578)

[e941091] Mr. Chairman: Are you ready for the question? Those in favor of reconsidering the action just taken will make it known by rising. Those opposed will rise.

Rising vote showed 12 in favor and 26 against.

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 578)

[e941092] Mr. Osborn: I would like to ask if there is any hypnotist on this committee.

Mr. Webb: In answer I would say there was a member of the committee that we have heard called a hypnotist.

Mr. Coker: It seems to me the spirit of Madison and the spirit of Jefferson work in harmony this morning.

Mr. Jones (Maricopa): I note with some surprise that we have more representatives and senators than we have members in this convention, and of course that is unnecessary. Fifty-two is all we ought to have to take care of everybody here. I move you, Mr. Chairman, that all reference in section 1 to senators—

(The Records of the Arizona Constitutional Convention of 1910, Pages 578-579)

[e941094] Mr. Webb: Mr. Chairman, I rise to a point of order. It takes a reconsideration to bring that before us again.

(The Records of the Arizona Constitutional Convention of 1910, Page 579)

[e941095] Mr. Jones (Maricopa): That is a new motion.

Mr. Chairman: The chair will give Mr. Webb the floor to state his point of order.

Mr. Webb: I think the gentleman from Maricopa must have forgotten what the proposition was. It was that when this committee arise it report back to the convention that it has examined section 1 of Proposition Number 6 and recommend that it do pass. The motion was made, and I appeal to the records.

Mr. Chairman: The record upon Mr. Feeney's motion is asked for.

Mr. Osborn: I think Mr. Feeney made a motion; at least he started to make one. But the gentleman from Graham made it for him.

Mr. Jones (Maricopa): My motion is an entirely new matter. I maintain that the point of order is not well taken if even the record should show—

(The Records of the Arizona Constitutional Convention of 1910, Page 579)

[e941096] Mr. Chairman: The records show the motion was made to adopt section 1 and the convention has sustained the motion and refuses to reconsider. The chair rules that any other motion is out of order.

(The Records of the Arizona Constitutional Convention of 1910, Page 579)

[e941098] Mr. Jones (Maricopa): This convention has had no opportunity to vote on a question that I believe a great many are in favor of. That objection has been eliminated. If the motion was made I failed to catch the motion. I understood [we] were voting on the number of representatives. The question was to be divided, and we were to vote on the number of representatives and then senators, and if that is true it was done in a very small tone of voice. I maintain that this convention has a right to change this entire system, and that this thing should not be forced through in this way. I think every man in this convention will go home ashamed of this representation we have put here.

Mr. Cunningham: Mr. Chairman, I would like to ask what question is before the house. The chair holds that there is no amendment possible to section 1 at this time, and section 2 is before you.

Mr. Coker: I would like to be heard, Mr. Chairman.

Mr. Chairman: Has the gentleman from Pinal a motion to make?

Mr. Webb: If I am called upon to speak any further, I can simply say I am still opposed to pushing this motion any farther and if it were voted upon a thousand times I believe it would still bring a similar result. It has had two or three votes now and with the same result.

Mr. Chairman: If there are no objectives the chair will suggest that the gentleman from Pinal be given an opportunity to make the motion.

Mr. Jones (Maricopa): I move now that the house of representatives and senate be limited—

Mr. Weinberger: Mr. Chairman, a proposition has been introduced by Mr. Cassidy relative to the senate.

Mr. Cassidy: While I introduced a proposition that did not provide for a senate, I am in favor of having one house and having that of a small number

of membership. I think it is absolutely impossible to do any better than this. We have thrashed this over and over in the committee for three weeks, and this is the best that it ever arrived at, and it will have the desired effect. I am in favor of supporting the report by the committee and it is the best proposition we can obtain. In reading other constitutions I find that in Wyoming there is provided for in the senate 16 members and 35 representatives. North Dakota has 30 senators and 60 representatives. I have not investigated the western states but I presume they would compare along these lines. In providing for 54 members of the legislature we will have as small number as has been provided for in any state in the union and yet it is amply large to take care of the work of that branch of government.

Mr. Coker: Will the gentleman state the population of these states when they were admitted into the Union?

Mr. Cassidy: I have no figures on that question.

Mr. Jones (Maricopa): With the initiative and referendum I would be in favor of this.

Mr. Parsons: I beg to call your attention to the state of Nebraska. When it was admitted into the Union it was a great American desert. The house of representatives consisted of 108 members and senate 84. We want no such body as that.

Mr. Coker: Is there an amendment to section 2? If not, I ask unanimous consent to offer an amendment to section 1. Is there an amendment before the house?

Mr. Chairman: I think that the gentleman from Maricopa desires to re-state his amendment.

(The Records of the Arizona Constitutional Convention of 1910, Pages 579-580)

[*e941102*] Mr. Jones (Maricopa): I move to amend that all references to senators be stricken out and that the words "The senate shall consist," in line 1, section 1, "of 10 members" and in line 2, section 1, and the words, "which senators and representatives."

Mr. Cassidy: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 580)

[*e941103*] Mr. Chairman: All those in favor of the amendment offered by the gentleman from Maricopa, Mr. Jones, will answer "aye;" those opposed "nay."

Mr. Osborn: Mr. Chairman, I cannot see the reason for this. I do not like to see this old system thrown out, the system by which area is represented and leaving the population representation alone in the legislative body.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[*e941104*] Mr. Chairman: The secretary will call the roll.

Roll call showed 10 "ayes" and 39 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941106] Mr. Winsor: I am an adherent of the single house idea but I cannot see how we can provide for that now.

Mr. Hunt: I am very much in favor of having a single house and I think it will be only a matter of time until we do have one and for this reason I voted no.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941114] Mr. Coker: In the interest of economy and in the interest of the people I voted "aye," but I would further state that in the same interests I move that this matter of senatorship be limited and I desire to change the number "9" in line 2, section 1, to "14," and I further move that the apportionment of the representatives be at the ration of one for each 10,000 population or a majority fraction thereof.

Mr. Wills: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941119] Mr. Chairman: Those in favor of the motion of the gentleman from Pinal, Mr. Coker, will answer "aye;" those opposed "no," as the roll is called.

Roll call showed 18 "ayes" and 31 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941124] Mr. Coker: I move the figure "1" in line 12 after the first word "senator" be changed to "2" and the figures "35" in line 2, section 1, before members be changed to "36."

[...]

Mr. Parsons: I second the motion of the gentleman from Pinal.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941128] Mr. Weinberger: Is this in the interest of economy?

Mr. Coker: This is the same kind of economy that the members of this committee have voted for tonight.

Mr. Parsons: I second the motion of the gentleman from Pinal.

Mr. Webb: I certainly oppose the method of apportionment, as I think that there was no discriminating in the apportionment for Pinal county. I think the method used is a good one and cannot be bettered by the proposed amendment.

Mr. Chairman: Those in favor of the motion will rise. Those opposed now rise.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941131] Rising vote showed 7 in favor and 27 against.

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941133] Section 1 approved as read.

(The Minutes of the Arizona Constitutional Convention, Page 264)

[e941139] Mr. Chairman: Are there no corrections or amendment to section 2?

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941143] Mr. Parsons: I move that the word "state" in line 18, page 1, be changed to read "Arizona."

Mr. Weinberger: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941145] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 581)

[e941148] Mr. Ingraham: I move the words "twenty-two" in line 17 be changed to "twenty-one."

Mr. Jones (Yavapai): I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 582)

[e941154] Mr. Hunt: I move to amend and make it twenty-five as I do not think any boy of twenty-one should come to the legislature and make laws.

Mr. Keegan: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 582)

[e941157] Mr. Chairman: The question before the committee is to change the words "twenty-two" to "twenty-one" amended by Mr. Hunt to change the words "twenty-two" to "twenty-five." Those in favor of the motion will please rise; those opposed the same, arise.

[Editor's Note: The Chairman implies here that Hunt's motion to amend was accepted and that the vote was taken on Ingraham's Sims' motion as amended by Hunt's.]

(The Records of the Arizona Constitutional Convention of 1910, Page 582)

[e941158] Mr. Chairman: The question before the committee is to change the words "twenty-two" to "twenty-one" amended by Mr. Hunt to change the words "twenty-two" to "twenty-five." Those in favor of the motion will please rise; those opposed the same, arise.

Rising vote showed 29 in favor and 12 against.

Mr. Chairman: The motion has carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 582)

[e941161] Mr. Standage moved, seconded by Mr. Baker, to insert a provision that only native sons of Arizona are eligible to the legislature; lost by rising vote of 8 to 16.

[Editor's Note: It is not clear where this amendment was made or its exact wording, so the editors have made an approximation.]

(The Minutes of the Arizona Constitutional Convention, Page 264)

[e941164] Mr. Standage moved, seconded by Mr. Baker, to insert a provision that only native sons of Arizona are eligible to the legislature; lost by rising vote of 8 to 16.

(The Minutes of the Arizona Constitutional Convention, Page 264)

[e941167] Mr. Winsor: I move to amend by striking out the word "five" in line 18 and inserting the word "three," for the reason that some of our most useful citizens, for instance Mr. Cunniff, whom I know we would all very much like to see in the first state legislature, are barred by this provision. Therefore, I offer the amendment.

Mr. Orme: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 582)

[e941169] Mr. Cunniff: I would just say not for my own benefit, but for the reason that I believe that most of the state[s] place the number of years at three rather than five or higher because it invites a good and higher class of citizens to come into the state, and is a very good law, or it has proven so according to the record of other states, if this can be any guide to us.

(The Records of the Arizona Constitutional Convention of 1910, Page 582)

[e941170] Mr. Chairman: It has been moved and seconded that the word "five" in line 12 be stricken out and the word "three" be inserted. Those in favor of the motion will say "aye;" those opposed "nay" as the roll is called.

Roll call showed 29 "ayes" and 17 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 582)

[e941172] Mr. Chairman: The motion prevails. Are there any other corrections to this section? Hearing none we will pass on to the next section.

[e941217] Mr. Chairman: [...] What will you do with section 12?

(The Records of the Arizona Constitutional Convention of 1910, Page 583)

[e941219] Mr. Cunningham: I would like to know why this is filed with the governor and not with the secretary of state.

Mr. Winsor: Inasmuch as it is the governor who passes upon measures after the legislature has passed them, it is necessary to file them with the governor.

Mr. Franklin: I do not understand that to be the purpose of this when the bill is filed with the governor. After a measure is passed by the legislature and signed by the governor, it is filed with the office of the secretary.

Mr. Webb: I desire to call the attention of the gentlemen to the fact that a bill after final passage is submitted to the governor for his approval or disapproval and if he does approve, it is signed by him and filed in the office of the secretary.

Mr. Franklin: If the gentleman will pardon me I will call his attention to the fact that when you send a bill after passage to the governor you do not file it but submit it.

Mr. Webb: I contradict the gentleman's statement. After final passage it is filed with the governor, and it is never returned and he files it with the secretary of state.

Mr. Winsor: I would say that the procedure is that after a bill is finally passed by the legislature it is filed with the governor for his action. If he approves he signifies that fact in a message to the legislature, or if he does not approve it he may keep the bill ten days and then return it to the legislature with his disapproval.

Mr. Franklin: I do not agree with the gentleman. When the bill is passed by the legislature, it is submitted to the governor who may or may not approve of it and if he does he returns it with his signature to that effect, but if not he may keep it ten days and return it or return it before that time, but, however, it is then filed in the office of the secretary of state if it becomes a law by the signature of the governor or by his pocketing the bill, but there is never any filing marks upon it after the governor has passed upon it.

(The Records of the Arizona Constitutional Convention of 1910, Page 583)

[e941222] Mr. Cunningham: I think the gentleman misunderstands the word file in this matter. I simply suggested that it should be filed with the secretary of state after it becomes a law and not with the governor. After it is filed in the office of the secretary it is recorded and made a law of the state. I move that this change be made in this section.

Mr. Franklin: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 583)

[e941224] Mr. Short: Mr. Chairman, I move to amend the amendment, and call attention to Substitute Proposition Number 33 which has been adopted. I move that the words in line 24 and 25 be stricken out and the words in the Substitute Proposition 33, section 7, be adopted instead.

Mr. Jones (Maricopa): I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 584)

[e941226] Mr. Cunniff: If my recollection is correct that bill is on the calendar this morning.

Mr. Webb: I would just like to state that the purpose of this section is to provide a means of tracing the bill from the time it is introduced until it is signed by the governor and becomes a law.

(The Records of the Arizona Constitutional Convention of 1910, Page 584)

[e941227] Mr. Chairman: The motion is to strike out the entire section. Those in favor of the motion will answer "aye;" those opposed "nay." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 584)

[e941229] Mr. Cassidy: I wish to amend the motion of the gentleman from Cochise by inserting the words “and approved by the governor” before the words “shall be filed in the office of the secretary.”

Mr. Cooper: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 584)

[e941231] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 584)

[e941233] Mr. Chairman: The question comes upon the motion of the gentleman from Cochise.

Mr. Cunningham: I will re-state my motion to say or to use the word “sent” to the office of governor.

Mr. Webb: I will second that motion. That will cover the whole matter.

(The Records of the Arizona Constitutional Convention of 1910, Page 584)

[e941237] Mr. Chairman: Those in favor of the motion will answer “aye;” those not in favor will say “nay.” The motion is carried.

[e941248] Mr. Osborn: I move that the committee do now arise and ask leave to sit again.

Mr. Franklin: I second the motion.

[e941249] The motion prevailed.

The President resumed the chair.

### **32.34 Wednesday, 23 November 1910, at 13:30 (s16173)**

[e941278] Mr. President: The convention will come to order. There is a quorum present. If there is no objection, the convention will resolve itself into a committee of the whole, with the gentleman from Maricopa, Mr. Crutchfield, in the chair.

(The Records of the Arizona Constitutional Convention of 1910, Page 585)

[e941280] Mr. President: The convention will come to order. There is a quorum present. If there is no objection, the convention will resolve itself into a committee of the whole, with the gentleman from Maricopa, Mr. Crutchfield, in the chair.

(The Records of the Arizona Constitutional Convention of 1910, Page 585)

[e941282] Mr. Ellinwood: I move to substitute the following for section 12: "Every bill shall be read in full on three different days, in each house, and no bill shall be passed or become law unless it shall have been printed, and upon the desk of the members, at least three calendar legislative days prior to its final passage, two thirds of all the members elected thereto by vote of yeas and nays dispenses with this provision. Every measure when finally passed shall be sent to the Governor.

No special or local law shall be considered by the Legislature until notice of the intended introduction of such bill or bills, shall first have been published for ten consecutive days in some newspaper published, or of general circulation, in the city or county effected by such law, stating in substance the contents thereof, and verified proof of such publication filed with the Secretary of State."

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 585)

[e941283] Mr. Ellinwood: I have taken this provision from the constitution of New York of 1894, from the constitution of Oklahoma, and from the recent constitution of Michigan of 1908. I am one of those who believe that if there is any cure for our legislation on the subject of corporations, etc., it is a question of publicity. If there is anything that [can] cure the defect, it is publicity. That has been the history in this territory and in other states that measures proposed are never published, and on some day convenient to the proposers are put on final passage, and the people affected know nothing about the matter until the matter is concluded. It seems to me a legislative body should have the laws printed, so [they] may be on the desks, and better considered by the members. When you are sitting in this convention and a complicated law is being passed on, you are unwilling to pass upon it until you know what the proposed law is, and until you have a copy on your desk. How much more so is the case with public at large to know what is going on in the legislature? When it comes to special legislation alone affecting some particular town, such as Bisbee or Yuma, it could be proposed and passed and the people know nothing of it until the matter is at an end.

Mr. Short: I do not see any occasion for this amendment. We have provided a cure for ills of that kind in the initiative and referendum, and the people will have the opportunity to persue them, and if desired to report on them. I think it is an unnecessary piece of legislation, which has no place in the constitution, and provides for a routine that makes it very difficulty to persons to advertise in a paper before you present a bill for passage by the legislature. I do not see any necessity for it when we have the initiative and referendum.

Mr. Cunniff: It seems to me you are so handicapping the legislature, that it can do nothing during its sixty days session.

Mr. Ellinwood: There is nothing in this proposal to prevent the legislature from passing laws, except that on the last three days no new bills could be introduced. Everyone who knows about bills for the last ten days. This simply provides that it be on the gentlemen's desks three days before final action. I would say in answer to the gentleman from Yuma, that the referendum does not cover the case. If a measure is passed by the legislature clandestinely, the people can resort to the referendum at an expense of \$50,000 for a special election. If they do not call a special election at that expense, they would have to wait for the next session, and then the new legislature might do the same thing.

Mr. Winsor: Mr. Ellinwood evidently has not studied the referendum proposition. In the event of the people exercising the powers of the referendum and securing of a petition that a certain measure be referred to the people, that measure shall not become law until passed upon and approved by the people. In no event shall it become a law for ninety days, to allow the people time in which to file a referendum petition.

Mr. Ellinwood: The gentleman is eminently correct, but your petition must be gathered from all over the territory in order to put this law into operation. But I am surprised that the gentleman from Yuma should stand in this convention and oppose the giving of light and information to the people, and let them know what is going on.

Mr. Winsor: I am equally surprised that the gentleman has gained the idea that I oppose light. I cannot see that any particular light is afforded by this provision. It is nothing more or less than preventing the passage of bills by the legislature during the last three days. At the present time, the legislature provides that bills shall not be introduced during the closing days of the session, and future legislatures will provide likewise. I say that bills with jokers in them should be amended at any time, and this provision would prevent any amendment during the last three days.

Mr. Cunniff: After giving some examination to this measure I should say it is not only unnecessary constitutional matter it is not even legislative matter, but it is a matter that should be placed in the rules of the legislature, and such rules should have at least such elasticity as the rules of this body. We have provided in this body that no matters shall be considered until they have been at least one day in printed form on the desks of the members, but we can change that rule, as we did last evening. It seems to me in many cases this measure would prevent the passage of necessary legislation. It puts clogs and chains on the passage of matters that should be taken up by the legislature. I would say further that the legislative department considered this matter carefully and in detail, and came to the conclusion and it is my opinion now, that this matter in the legislative bill covers all the details it is necessary to cover.

Mr. Ellinwood: It is a new thought to me that this convention refuses to amend the rules or govern the functions of the legislature. The other day I was said to be the only one voting against a bill permitting no person not a member on the floor of the legislature. If the President of the United States or some state governor should visit this town, and the legislature should wish to honor him by giving the privilege of the floor, they could not do so. The constitutions of the most recent drawings have this provision, and this convention can do no better than follow their precedents.

Mr. Cunniff: In correction of the gentleman, I would say that it was not my statement that no restrictions should be made on the legislature. I said all

necessary restrictions were made in section 12.

Mr. Cobb: Can a distinct line be drawn between special or local, and general legislation?

Mr. Ellinwood: It can. I will read to you from the debates of Michigan in the constitutional convention of 1908. (He reads.)

Mr. Cunniff: I should like to say I sat in that gallery during one legislature and heard a motion passed to postpone consideration of a certain bill over Sunday, and in the afternoon of that same day a motion was made here to reconsider because, as was said on the floor of the legislature, and I have no doubt it was true, and that immediately upon that motion being carried to postpone consideration, a telegram was sent out to the legislative agent or attorney or every large corporation in this territory interested in that bill, and the reason reconsideration was asked for and the measure immediately passed was, as urged by those who favored the bill, they did not want that Sunday to intervene in order that the attorneys of the corporations should put in the time in soliciting members to vote against the bill. Though I do not urge that was a sound or proper bill, I think a proposition of that kind cuts both ways, and I am opposed to it.

Mr. Winsor: I wish to add another word. In the case mentioned, if some special legislation were proposed, three days' publicity would not be sufficient to ascertain the wishes of the people in the community affected by this matter. For instance, I as a representative from Yuma county would not have any more idea of the desires of my constituents in three days than I would have at the time of the proposal.

(The Records of the Arizona Constitutional Convention of 1910, Page 585-587)

[e941289] Mr. Chairman: Those desiring to substitute will answer "aye;" opposed "nay," when their names are called.

Roll call showed 23 "ayes" and 17 "nays."

Mr. Chairman: The motion prevails, and the amendment offered by Mr. Ellinwood for section 12 is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 587)

[e941292] Mr. Franklin moved that when the Committee arise that it recommend that the Convention adjourn until 9:30 a.m., November 25, 1910.

Seconded by Mr. Webb.

(The Minutes of the Arizona Constitutional Convention, Page 267)

[e941294] Mr. Winsor moved to amend that when the Committee arise it ask leave to sit again tonight, tomorrow morning and tomorrow evening.

(The Minutes of the Arizona Constitutional Convention, Page 267)

[e941299] Amendment carried by rising vote of 26 to 17.

(The Minutes of the Arizona Constitutional Convention, Page 267)

[e941302] Mr. Jones (Yavapai): I want to make an amendment to section 12. After the words "aye and nay" insert "on roll call."

Mr. Webb: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 588)

[e941303] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 588)

[e941305] Mr. Baker: I would like to know what you mean in this by "to be sent to the governor."

Mr. Ellinwood: I would say for the information of the gentleman from Maricopa that this was discussed this morning for over an hour, although I took no part in it, the committee decided to adopt this language.

Mr. Hunt: This provides that it shall be "publishes for ten consecutive days." Does the gentleman from Cochise want to have a newspaper trust? Who is going to pay for that?

Mr. Short: I would like to further ask the gentleman from Cochise if there is no daily paper how is he going to publish it for ten consecutive days.

(The Records of the Arizona Constitutional Convention of 1910, Page 588)

[e941307] Mr. Cunniff: I move paragraph 2 of section 12 be stricken out.

Mr. Winsor: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 588)

[e941309] Mr. Ellinwood: If the gentleman from Gila will look at the substitute proposition he will find it does not require a daily paper; it requires to be published in some paper of general circulation. That is taken verbatim from the Oklahoma statute, and Michigan and New York have similar provisions.

Mr. Cobb: I rise to a point of order. No business has intervened, since this was disposed of, and a motion to reconsider would be the proper proceeding.

Mr. Chairman: The chair would rule that section 12 of the report has been supplemented by the amendment offered by Mr. Ellinwood, and that amendment is subjected to amendment. One amendment has already been made, and the chair entertains a second amendment that one paragraph be stricken out.

Mr. Osborn: Has the gentleman from Cochise any idea of the cost during one session of the legislature?

Mr. Ellinwood: As a minimum it would be 75 cents or \$1.50 for each measure. Anybody asking for a law affecting a community and in which a community is interested, could bear a small cost of 75 cents or \$1.50 so the people could have the information.

Mr. Franklin: I do not quite understand this. If we publish the things for "ten consecutive days." I do not know of any decisions that say that you can publish it once a week. Now I understand "four consecutive weeks" would be covered by putting it in a weekly paper for four issues. If the status provides "twenty-eight consecutive days" the publication in a weekly paper would not cover that. I do not want any such provision.

Mr. Winsor: I would ask Mr. Ellinwood how he would publish anything for "ten consecutive days," even in a daily paper that gets out six issues a week. It would not be published on Sunday, as most of our papers do not issue on that day.

Mr. Ellinwood: As I said before, it has been decided time and time again that as to service of summons, the time from the first publication to the last publication is the time in the contemplation of law.

Mr. Franklin: Does our statute provide we shall publish summons for twenty consecutive days? When you serve summons by publication, you serve it by publishing once a week for four consecutive weeks.

Mr. Ellinwood: If the gentleman are acting in good faith, and this I do not doubt, (laughter) they would offer an amendment here to make it two consecutive weeks. That would relieve the situation entirely. I do not object to such an amendment.

Mr. Cunniff: As no provision is made who is to pay for this matter, it looks to me as though with a provision like this the legislators who came from the ranges and from the towns would be running around in circles trying to find what to do. If a legislator intended to introduce a bill, he would have to have it published before he could introduce it.

Mr. Ellinwood: Just as at present, he would have to take it to a stenographer and have it written out, and it would amount to little more than street-car fare.

Mr. Cunniff: It seems to me that this is so involved we should leave it to the legislature and let them work it out in detail. As to the expense, I do not believe in putting them to any such expense.

Mr. Ingraham: As to this whole proposition, I came in late, but it looks like an attempt to fix in the constitution the rules of the legislature, and we have clipped the wings of the legislature enough already.

(The Records of the Arizona Constitutional Convention of 1910, Pages 588-589)

[e941317] Mr. Chairman: Those in favor of striking out the second section will answer "aye" to their names as the roll is called; opposed "no."

Roll call showed 24 "ayes" and 20 "nays."

Mr. Chairman: The motion to strike out has prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 589)

[e941319] Mr. Cobb: I move you that section 12 be substituted for this amendment. The whole purport was changed when it was amended.

Mr. Winsor: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 589)

[e941321] Mr. Chairman: The question is upon the substitution of the original section 12 as printed in the committee report with the amendment, for the amendment made by Mr. Ellinwood, from which you have stricken out section 2.

Mr. Ellinwood: I wish to call attention to the fact that the only amendment to the printed copy of section 12 was to cut out the last two words in line 24 and the first three words in line 25, and insert "sent to," in their stead. I ask for a roll call.

Mr. Chairman: Those in favor of this motion make it known by saying "aye" as their names are called; opposed "no."

(The Records of the Arizona Constitutional Convention of 1910, Pages  
589-590)

[e941438] Mr. Goldwater: I desire to be excused from voting. In the first place you struck out section 12 and now you are trying to put it back in. I do not think you can do it parliamentarily. If I have to vote I vote one-half for one and one-half for the other.

(Editorial)

[e941440] Mr. Winsor: Let him be excused.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941444] Roll call showed 22 "ayes" and 23 "nays."

Mr. Chairman: The motion does not prevail.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941452] Mr. Cunniff: I move that section 12 as it now stands be amended as follows: after the word "provision" (the last word in the next to the last sentence) insert this sentence "The reading of the bill by sections on its final passage shall in no case be dispensed with, and the vote on its final passage shall be taken by ayes and nays on roll call," being the matter in the substitute proposition from line 21 to line 24. In Mr. Ellinwood's substitute that matter was left out.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941455] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941458] Mr. Cunniff: I move a further amendment in the first line, insert the words "by sections" after the word "read," to make it read "Every bill shall be read by section."

Mr. Ellinwood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941462] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941469] [Editor's Note: This blank document has been created in order to mimic the process of the Committee of the Whole proposing and considering individual recommendations relating to Substitute Proposition Number 6.]

(Editorial)

[e941473] Mr. Franklin: I have a motion, which would take precedence. I move you that section 12 of Substitute Number 6 be re-referred to the Committee on Legislative Department, Distribution of Powers and Apportionment, with instructions to report within two days.

Mr. Webb: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941476] Mr. Cunniff: It does not seem to me any good would come of referring it to this committee. I do not know what the committee can do further with it.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941487] Mr. Chairman: All those in favor of the motion will answer "aye;" opposed "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941489] Mr. Chairman: [...] Any objections to section 13?

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941492] Mr. Chairman: [...] Any objections to section 13?

(The Records of the Arizona Constitutional Convention of 1910, Page 590)

[e941500] Mr. Ingraham: If that provision goes into the constitution it will be the most dangerous two lines in the constitution. There will be more laws declared unconstitutional because of these two lines than any other two lines in the constitution. Take a long and complicated act, and if there is any subject in that act that is not expressed in the title your law is unconstitutional. I cannot see any good purpose to be gained by it; it leaves a handle or a string upon every law by which the court can declare it unconstitutional. You cannot draw a long act like a primary act for instance, and put a title on it so the supreme court cannot take hold of that string and explode your law. You cannot make the title perfect; you cannot make it court-proof. It seems to me with referendum we have sufficient check upon the legislature without this. Section 13 proposes an absolute impossibility. I make a motion that section 13 be stricken out.

Mr. Keegan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 590-591)

[e941503] Mr. Cunniff: I would suggest that Congress has worried alone for a long time under a rule like this.

Mr. Ingraham: That chamber is full of the best lawyers in the United States and we cannot expect to have such lawyers. As to this question, I remember an instance in the State of Michigan. After a long and expensive campaign the prohibitionists carried the election and put upon the statute books a law entitled "A law to regulate the manufacture and sale of intoxicating liquors," or something to that effect, and on a case being carried to the supreme court, the law was held unconstitutional because the subject of the act was not expressed to the courts' taste in the title. The court decided that prohibition was not regulation. This is a specific example of the evils of a clause like this. You will find you cannot draw an act that is not open to some objections when the supreme court want to object.

(The Records of the Arizona Constitutional Convention of 1910, Page 591)

[e941508] Mr. Cobb: I move an amendment that this section be stricken out, and the following substituted: "Every act shall embrace but one subject and matters properly connected therewith, such subject shall be expressed in the title; but if any subject shall be embraced in an act which shall not be expressed in the title, such an act shall be void only as to so much thereof as shall not be embraced in the title." This is taken from the Idaho constitution.

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 591)

[e941510] Mr. Chairman: The question is upon the amendment of the gentleman from Greenlee, Mr. Cobb. Those in favor answer "aye;" opposed "no." The "ayes" have it.

[e941515] Mr. Chairman: [...] What will you do with section 14?

(The Records of the Arizona Constitutional Convention of 1910, Page 591)

[e941516] Mr. Webb: I am a member of the committee that reported this proposition, but I did not notice this. I cannot see any reason why this should be left in, and I move to strike it out.

Mr. Goldwater: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 591)

[e941524] Mr. Franklin: I think the object is to prevent riders from being placed, for instance, on appropriation bills. The least days of a session a rider is placed upon the appropriation bill changing its meaning completely. I am heartily in favor of this provision.

Mr. Webb: For this information of the gentleman from Maricopa, I would say that it is a safe-guard.

Mr. Cunniff: If the gentleman from Graham cannot imagine why, I commend him to a recollection of the event of today and yesterday, for of all occasions on which amendments were offered I never heard in all my life before such a collection of amendments as we have had yesterday and today.

Mr. Chairman: The question is on Mr. Webb's motion. All in favor will make it known by rising; opposed will make it known by rising.

(The Records of the Arizona Constitutional Convention of 1910, Page 591)

[e941530] Mr. Parsons: As the gentleman Graham seems to have had good success by using Idaho, I desire to strike out section 14, and substitute in place thereof the following: "No act shall be revised or amended by mere reference to its title, but the section as amended shall be set forth and published at full length."

(The Records of the Arizona Constitutional Convention of 1910, Pages 591-592)

[e941538] Mr. Baker: I want to say before you vote on this, it has nothing to do with the section you have stricken out. It is not germane to that subject; it has nothing to do with it.

Mr. Parsons: I move it as a substitute to take the place of the section that was stricken out.

(The Records of the Arizona Constitutional Convention of 1910, Page 592)

[e941539] Mr. Chairman: Are you ready to vote? Those in favor will answer "aye;" opposed "no." The motion has prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 592)

[e941590] Mr. Feeney: Mr. Chairman, I move that in section 23, line 6, the word "seven" be changed to "ten."

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 592)

[e941605] Mr. Jones (Maricopa): I offer an amendment changing it to "five."

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 592)

[e941611] Mr. Chairman: The first amendment is to change the word "seven" in line 6, to "ten," amended further that it be changed to "five."

Mr. Feeney: Mr. Chairman, in making that \ \$5.00 a day, the legislature in the past has always been held very cheaply. The reason I want it \ \$10.00 is if the supreme court judges are worth \ \$6,000 a year, certainly the legislator that comes down here for sixty days is worth \ \$10.00 and mileage. The legislator who comes down here in the future will come here untainted by the conditions under which they have come here in the past, and they ought to be reimbursed enough to pay their living expenses.

Mr. Parsons: Mr. Chairman, I want to support the amendment offered by my colleague, and my reason is this: take, for example, such men as the gentleman who has just addressed you, a man who earns his living by the sweat of his own brow rather than off the sweat of the other fellow's brow, a man who is qualified by nature and attainments to represent a class of men of whom he considers himself a proud unit. Such a man under the circumstances that usually exist, where a small salary fixed for a member of the legislature, find that it will not pay his actual living expenses to say nothing about saving him from the loss that he sustains in giving up his labor when he leaves home. I say to you that in order that men of just the class of this man may be chosen to come to the legislature of Arizona and represent every class and those men with whom he works. Ten dollars is as little as we ought to fix, and I support the amendment.

Mr. Short: Mr. Chairman, I want to support the motion of the gentleman from Cochise to make the per diem of legislators \ \$10.00. I want to say to you that the State of Arizona should be in a position to pay its legislators at the rate of \ \$3650 per year if the supreme judges who interpret the laws the legislators make are worth \ \$6,000 a year. I submit to you that a legislator is worth at the rate of \ \$3650, and I would like to see them well enough paid that it will not be necessary for the corporations to pay them anything in order to get them here to make the laws; so that any poor man who has the ability may come here and raise his voice in making laws for the government of the people of the state of Arizona. I submit that to pay them \ \$5.00 per day is a meager compensation, and I hope the members of this convention will never submit to it. I think \ \$10.00 is little enough.

Mr. Wills: Mr. Chairman, I do not want to support either one of these amendments. I think \ \$5.00 is too small and \ \$10.00 is too large. I think \ \$7.00 as fixed by the committee is just right.

Mr. Webb: Mr. Chairman, I desire to pay that one of the conditions upon which I consented to the apportionment being made as high as it was—and I want to state the committee were not all present—that one of the conditions upon which I finally consented that the number of legislators should be so high was that the pay be fixed at \ \$7.00. We comprised on \ \$7.00, and it was one of the inducements that led me to support the first section of this bill.

Mr. Osborn: Mr. Chairman, I am glad to learn what inducement caused the gentleman from Graham to support that first section. I think it would be a great deal better to pay the legislators \ \$10.00 and cut the number down. Out of that fifty-four members you will probably find thirty-four who will come here and do what somebody tells them.

Mr. Connelly: Mr. Chairman, I am in favor of \ \$10.00 a day first, last and all the time. My reason for that is that I do not believe any man can come down here and live for any less. The least any state officer will have is to receive \ \$3000.00 a year, which is over \ \$250.00 a month, and other state officers are getting from \ \$8.50 to \ \$18.00 or \ \$19.00 a day. Now, you want to place the legislators below anybody else. If you have too many men in the legislature cut the number down. I do not believe in starving anybody to give somebody else a good job. These men are coming here and they are under extra expense, just as we are. Why should they work for \ \$2.00 or \ \$3.00 a day less than men who are stationed here?

Mr. Bolan: Mr. Chairman, I would like to speak a few words in favor of the motion made by Mr. Feeney. I will speak for myself in this matter, and I think the rest of the delegation will bear me out in these few remarks that I shall make. When the delegates from our portion of the country were looking around to see who they could nominate to run on the Democratic ticket to represent them as delegations to this convention, they found that very few people would consent to run on this ticket on account of the salary, and I myself did not feel at that time, when I was first approached, that I could afford to leave my position and come up here for the small salary that was paid to these delegates, but under their earnest solicitation I accepted, and every man with whom I talked, including businessmen, working men, and everybody alike, said they should receive at least ten dollars a day—the legislators should. I do not think that is any too much. I think it will give the men a chance to not lose money during the time the legislature is in session.

Mr. Cobb: Mr. Chairman, I wish to say that I heartily agree with my friends. I think it ought to be \ \$10.00 and no less.

Mr. Standage: Mr. Chairman, I also agree with my friends from Cochise. I think they should be paid enough to justify them to come here. If we are going to cut down salaries we should have begun a long time ago and cut some of these offices we have been making. Give the legislators \ \$10.00. I am heartily in favor of it.

Mr. Feeney: Mr. Chairman, I have been an advocate here of high salaries. I believe if the corporation can pay their high class employees high salaries, we people ought to do the same. The crying evil of our legislature is “jack pots,” and small pay causes the very conditions that make men take money that taints their conscience. That is why I advocate \ \$10.00 a day, and that is little enough. (applause)

Mr. Roberts: Mr. Chairman, I submit that if we raise the pay \ \$2.00 per day we have done pretty well, and if the people want the salary higher they can

get it under the initiative.

(The Records of the Arizona Constitutional Convention of 1910, Page 592)

[e941612] Mr. Chairman: The question is on the amendment of section 23, line 6. The last amendment offered is substituting the word "five" for the word "seven," making it read "Until otherwise provided by law, members of the legislature shall receive a per diem of \ \$5.00 per day. Those in favor will make it known by rising. Those opposed same sign. The motion is lost by a vote of 3 to 40.

(The Records of the Arizona Constitutional Convention of 1910, Page 594)

[e941600] Mr. Chairman: [...] The question now upon the amendment offered by the other gentleman to amend the same line and the same word by substituting the word "ten." Those in favor of substituting the word "ten" for the word "seven" will make it known by saying "aye" when their names are called; those opposed no.

Mr. Coker: Mr. Chairman, in explanation of this vote, if it needs any explanation, I wish to state that the proposition of economy could more profitably be arrived at by the number of members, which was turned down this morning, and therefore I must vote "aye," at this time.

(The Records of the Arizona Constitutional Convention of 1910, Pages 594-595)

[e941604] Roll call showed 19 "ayes" an 27 "nays."

Mr. Chairman: The motion is lost.

[Editor's Note: The Minutes lists the vote count as 18 to 28.]

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941616] Mr. Ellinwood: Mr. Chairman, I move an amendment in line 6, section 23, that the word "seven" be stricken out and the word "eight" be inserted.

Mr. Cobb: I second the motion.

Mr. Chairman: Gentlemen, you have heard the motion. Those in favor will make it known by saying "aye" as their names are called; opposed "no."

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941618] Mr. Roberts: Is an amendment in order?

Mr. Chairman: No, I think not, when the vote is being taken.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941620] Roll call showed 19 "ayes" and 27 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941622] Mr. Curtis: I move section 23 be adopted as reported.

Mr. Cooper: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941625] Mr. Connelly: Mr. Chairman, I move that in line 8 where it says "sixty days" we add the words "excepting the first session." I believe it will take more than sixty days. We have been here almost sixty days and we have not started.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941626] Mr. Chairman: Is there a second? There being no second to the amendment, the question will be upon the motion of the gentleman from Santa Cruz that section 23 be adopted as reported by the committee.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941628] Mr. Cobb: I move to amend by adding the words: "Provided that the salaries of the members of the legislature herein enumerated shall be paid by the counties which they represent."

Mr. Coker: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941629] Mr. Chairman: You have heard the amendment that there be added the words: "Provided that the salaries of the members of the legislature herein enumerated shall be paid by the counties which they represent." Those in favor will answer "aye."

Mr. Colter: I would like to ask if a legislator is a county officer of a territorial officer.

Mr. Cobb: He is here to represent his constituents.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941631] Mr. Chairman: Those in favor of the amendment will make it known by answering "aye" as their names are called. Those opposed "no." The secretary will call the roll.

Roll call showed 10 "ayes" and 36 "nays."

Mr. Chairman: The motion is lost.

(The Minutes of the Arizona Constitutional Convention, Page 595)

[e941633] Mr. Chairman: [...] The question recurs upon the motion of the gentleman from Santa Cruz, Mr. Curtis, that section 23 be adopted as reported by the committee. Those in favor will make it known by saying "aye;" opposed "no." It is adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941637] Mr. Chairman: [...] Any amendments to section 24?

(The Records of the Arizona Constitutional Convention of 1910, Page 595)

[e941641] Mr. Tuthill: Mr. Chairman, I would like to introduce an amendment to read as follows: "other than the officers or men of the National Guard traveling under order." There is a statue that they travel for 2 cents a mile.

[...]

Mr. Curtis: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 595-596)

[e941642] Mr. Chairman: It says "holding public office in this state."

Mr. Tuthill: It is a question whether a National Guard officer is a public officer or not.

Mr. Curtis: I second the motion.

Mr. Weinberger: I do not believe a member of the National Guard is a public officer. I think that is not necessary.

Mr. Feeney: Mr. Chairman, I introduced a measure here and my object was to lift the militia and public defense of the government out of the taint that it has been in before, and I feel that an exemption of the state militia is one of those efforts that today has tended toward having the state militia held in contempt in the territory.

Mr. Winsor: I rise for information. I would like to ask if under the laws of Arizona officers and members of the territorial militia have their expenses paid when they are acting under orders.

Mr. Tuthill: The expenses of officers, so far as traveling is concerned, are paid. Their personal expenses are not paid.

Mr. Winsor: This does not refer to personal expenses.

Mr. Tuthill: This refers to transportation. We have had a great deal of trouble over transportation. The railroads have tried to hold us up, and have partially succeeded, and I believe that unless it is the sense of the legal talent of this convention, that we will not in any way interfere with the statutes now on the books providing for two cents a mile for the National Guard when traveling under orders, that this should be inserted.

Mr. Jones (Maricopa): I want to call the attention of the gentleman to the fact that this won't prevent the railroad companies giving free transportation. As it reads it says that no person shall accept or use a pass of purchase transportation from any railroad, etc. There is nothing there to prevent an officer from purchasing transportation and getting a refund, and I want to tell you that that is the favorite way of giving officers transportation. I want to say further that this can safely be eliminated. If you refer to committee substitute Number 113 you will find that every one is prohibited from accepting or using, and railroads are prohibited from giving transportation to anyone except as may be in accordance with the interstate commerce commission, which exempts employees of railroads. I think this should be stricken out entirely, and we should rest upon the provisions that are in Substitute Number 113.

Mr. Cunniff: Mr. Chairman, I would like to say that in one the state holds the railroad by one hand and in the other the state holds the public officer by the other hand.

(The Records of the Arizona Constitutional Convention of 1910, Page 596)

[e941644] Mr. Chairman: The question comes up on the amendment of the gentleman from Graham, Dr. Tuthill. Those in favor of the amendment make it known by rising. Those opposed the same sign. The amendment prevails.

[e941761] Mr. Chairman: If there is no objection to section 1, we will pass to consideration of section 2.

(The Records of the Arizona Constitutional Convention of 1910, Page 597)

[e941766] Mr. Parsons: Mr. Chairman, in line 7 of section 2 I find the words "except for municipal purposes." Yesterday we recommended the adoption of a provision that said no municipal corporation should be formed by special law.

(The Records of the Arizona Constitutional Convention of 1910, Pages 597-598)

[e941768] Mr. Short: Mr. Chairman, I move you that in line 9 in section 2, the words "at any time" be stricken out. The legislature cannot pass a law when they are not in session. I do not see any occasion to use these three words.

Mr. Winsor: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 598)

[e941782] Mr. Chairman: The chair does not understand what Mr. Parsons made as a motion.

Mr. Parsons: I only called attention to the fact that there is a conflict between the terms of this section and one that we recommended for adoption yesterday. When in speaking of laws that should not be passed or corporations that should not be formed it said that no municipal corporation should be formed by special act of the legislature. This says corporations may be formed under general law but shall not be created except for municipal purposes. That means that municipal corporations may be organized by special act of the legislature. The reason I mention this is because I thought perhaps there was some explanation on the part of the members of the committee.

Mr. Roberts: We had not passed that yesterday when we prepared this report.

Mr. Parsons: I move to strike it out.

Mr. Jones (Yavapai): I second the motion.

(Editorial)

[e941783] Mr. Curtis: Mr. Chairman, it seems to me that the committee on style and revision can rectify that.

Mr. Parsons: It might be possible that the Committee on Style, Revision and Compilation might correct it, but how would they know what the will of the committee is. It seems to me it requires action by this convention to direct the committee on style, revision and compilation which one to put in.

Mr. Cassidy: Mr. Chairman, the words excepted to by the gentlemen from Cochise in line 7 are also in conflict with line 16 on page 6 of the proposition we have just been considering, in which it says: "No special law shall be passed regarding incorporation of cities, towns or villages or amending their charter."

Mr. Weinberger: Mr. Chairman, I presume Mr. Parsons is going to call attention to the same thing in section 1 which provides "that municipal corporation shall not be created by special laws but the legislature by general laws shall provide for incorporation and organization of cities," etc.

(The Records of the Arizona Constitutional Convention of 1910, Page 598)

[e941784] Mr. Chairman: The question is upon the amendment of Mr. Parsons of Cochise to strike out in line 7 beginning at the word “act” the words “except for municipal purposes.” Those in favor will say “aye;” opposed “no.” They are stricken out. The question now recurs upon the motion of Mr. Short of Yuma that in line 9 the words “at any time” be stricken out after the word “legislature.”

(The Records of the Arizona Constitutional Convention of 1910, Page 598)

[e941785] Mr. Baker: Mr. Chairman, I hope that motion will not prevail, because I can see some danger in that. It might be possible that a corporation could exercise a charter so long that the legislature in acting against them, the corporation possible could stand up and plead the statute of limitations; or it had exercised it so long—had accumulated so many rights under it, or privileges, or things had grown up in connection with this that to change or alter it at a late date would seriously affect certain parties. I think they might plead the statute of limitation; whereas this term will allow the legislature at any time to alter or change.

Mr. Short: Mr. Chairman, I fail to see wherein the legislature would be prohibited from making this change at any time they were in session. Those words absolutely lend no force to the matter. The legislature cannot do this at any time because they are not in session at all times.

Mr. Baker: Mr. Chairman, this section was taken from the constitution of Washington, and I have compared it carefully with a number of similar constitutions and all of them have those exact words.

(The Records of the Arizona Constitutional Convention of 1910, Pages 598-599)

[e941786] Mr. Chairman: Those in favor of the amendment as offered by the gentleman from Yuma, Mr. Short, make it known by saying “aye;” opposed “no.” It does not prevail.

(The Records of the Arizona Constitutional Convention of 1910, Page 599)

[e941788] Mr. Chairman: [...] What will you do with section 3?

(The Records of the Arizona Constitutional Convention of 1910, Page 599)

[e941789] Mr. Chairman: [...] What will you do with section 3?

(The Records of the Arizona Constitutional Convention of 1910, Page 559)

[e941791] Mr. Cassidy: Mr. Chairman, it seems to me that there is uncertainty in that provision—that word “approval.” Approval by the people or by Congress or by the President? It does not say.

(The Records of the Arizona Constitutional Convention of 1910, Page 599)

[e941792] Mr. Chairman: If there is no amendment the section will be passed.

(The Records of the Arizona Constitutional Convention of 1910, Page 599)

[e941793] Mr. Chairman: [...] Any amendments to section 4? Any to section 5?

(The Records of the Arizona Constitutional Convention of 1910, Page 599)

[e941795] Mr. Baker: Mr. Chairman, I would like to inquire about this. This section is in the substitute proposition. I do not know where it came from; it sounds strange to me. Whether it was in Mr. Ellinwood's bill or whether it was substituted in the committee of the whole, I do not know. Can some member of the Committee on Corporations tell me where he got section 4? I do not care anything about the question "the legislature shall not remit the forfeiture of the charter of any corporation now existing," but to say "or amend the same" looks to me dangerous. I do not know where the section comes from.

Mr. Chairman: Can any gentleman of the committee give the gentleman the information he desires?

Mr. Winsor: Mr. Chairman, if my memory serves me correctly, this section was taken from the proposition [of] the committee on corporations, submitted by Judge Wells. That is my recollection.

Mr. Chairman: If there is no further objection to it it will pass for the present.

(Editorial)

[e941796] Mr. Franklin: Mr. Chairman, before we pass from section 4, it seems to me we ought to do it unadvisably. It seems to me that it is pregnant with a great deal of meaning. I move you, Mr. Chairman, reverting to section 4, that we amend that section by striking out all of the section beginning on line 17, after the word "existing," so that the section as amended will read: "The legislature shall not remit the forfeiture of the charter of any corporation now existing."

(The Records of the Arizona Constitutional Convention of 1910, Page 599)

[e941798] Mr. Ellinwood: I would state that the statute to which Judge Baker referred was taken from Article 12 of Alabama, 1901, verbatim.

Mr. Franklin: What has been the construction of that provision?

Mr. Ellinwood: I do not know, sir. That is where it came from.

Mr. Franklin: I am very much opposed to putting in the constitution of Arizona things that we have simply gathered from other constitutions. As I suggested before, that is a very doubtful interpretation, and the extent of the power to do things in this manner is such that we ought not to get it in the dark.

Mr. Cassidy: Mr. Chairman, I see in referring to the constitution of North Dakota that it has a section verbatim with section 4.

Mr. Franklin: What is the purpose of it?

Mr. Cassidy: I do not know.

Mr. Jones (Maricopa): Mr. Chairman, it looks to me as though the purpose of it might be wholesale. It puts a check on the legislature amending or altering a charter of a corporation, which I think it a wholesome thing. A corporation might make application, if this were not in here, to the legislature to change

some feature of their corporation. It might be a bad thing for the state. Unless someone can point to come objection to it I shall vote in favor of retaining it.

Mr. Wells: Mr. Chairman, in Proposition Number 105, section 3, it says: "The legislature shall not extend any franchise or charter, nor remit the forfeiture of any franchise or charter of any corporation now existing or which shall hereafter exist under the laws of this state." Other propositions were referred to the committee, and from all that were referred to the committee, and from all that were introduced they produced section 4 as placed in the substitute. It was done after consideration, and we thought it would cover any objection that was made by the members of the committee; just to what point the objection is made I do not know.

Mr. Webb: Mr. Chairman, I desire to say I do not know the purpose of it, and every gentleman to whom the question has been put has confessed that they do not know, and I am going to vote against it.

Mr. Roberts: Mr. Chairman, it seems to me if we read on down to the last two lines "except on condition that such corporation shall thereafter hold its charter subject to the provisions of this constitution," one can readily see why it was done. The corporations that are in existence are not subject to the provisions of this constitution, and if they want to make any change it just requires them to become subject to this constitution.

(The Records of the Arizona Constitutional Convention of 1910, Pages 599-600)

[e941800] Mr. Chairman: The question recurs upon the motion of Mr. Franklin to strike out all of section 4 after the word "existing" in line 17. Those in favor make it known by saying "aye;" opposed "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 600)

[e941810] Mr. Chairman: [...] Any to section 6?

(The Records of the Arizona Constitutional Convention of 1910, Page 600)

[e941813] Mr. Baker: Mr. Chairman, I ask the gentleman from Cochise, Mr. Ellinwood, if he is the author of the peculiar language here. I am inclined to vote for it, but I would like to understand the necessity of a provision of this kind, why it arose.

Mr. Ellinwood: I would state, Mr. Chairman, that in Nevada, and probably several other states, who are seeking to have corporations incorporated under their laws for the benefit of the fees, have laws by which they provide that

an incorporation [sic, corporation] may incorporated in that state, provided, however, they never can do business in the state of their creation. I will read you from the laws of Nevada of 1903, – and there is one corporation in the territory of Arizona now doing busines under this charter. “Any number of persons, not less than three, may associate to establish a corporation for the transaction of any lawful business, or to promote or to conduct any legitimate object or purpose under the provisions of and subject to the requirements of this Act as hereinafter provided; except to carry on within this state, an insurance business or that of surety company or that of a railroad company, other than a street railroad... Notwithstanding the exceptions in the preceding section of this Act, a corporation may be incorporated under this Act to transact the business of an insurance company, life, fire, marine or accident or other form of an insurance or of a surety company or of a railroad company, or for other cognate or other like purposes, to operate wholly without this state.”

Mr. Baker: Then is it a question of reprisal on our part.

Mr. Ellinwood: Not let them do business here if they cannot do business at home.

[e941815] Mr. Chairman: Any objection to number 7?

[e941816] Mr. Chairman: Any objection to number 7?

(The Records of the Arizona Constitutional Convention of 1910, Page 601)

[e941818] Mr. Cunningham: Mr. Chairman, do I understand this correctly? Beginning with the words “The stock and indebtedness of corporations shall not be increased except in pursuance of general law nor without the consent of the persons holding the larger amount in value of the stock, at a meeting to be held after sixty days’ notice given in pursuance of law.” It is possible that is the meaning of this section? If it is, all the corporations will have to go out of business, if you have to give sixty days’ notice before you can increase your indebtedness. You could not work labor day after day, because that would certainly increase your indebtedness.

(The Records of the Arizona Constitutional Convention of 1910, Page 601)

[e941821] Mr. Roberts moved, seconded by Mr. Feeney, to strike out in line 11, page 3, after the word ”stop” the words ”an indebtedness of”; lost.

(The Minutes of the Arizona Constitutional Convention, Page 270)

[e941824] Mr. Curtis: Mr. Chairman, I wish to amend by leaving the words in before “indebtedness” on page 11 and between “and” and “indebtedness” put “bonded.”

Mr. Jones (Maricopa): I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 601)

[e941826] Mr. Roberts: I withdraw my motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 601)

[e941829] Mr. Baker: I offer, then, an amendment to the motion of the gentleman from Santa Cruz. I offer section 6 in the original Proposition Number 22 that was introduced by myself, as a substitute for section 7 in the present bill. The language of this amendment is as follows: "Corporations shall not issue stock, except to bona fide subscribers therefore, or their assignees; nor shall any corporation issue any bond, or other obligation, for the payment of money, except for money or property received or labor done. The stock of corporations shall not be increased, except in pursuance of general law, nor shall any law authorize the increase of stock, without the consent of the person or persons holding the larger amount in value of the stock, nor without due notice of the proposed increase having been previously given in such manner as may be prescribed by law. All fictitious increase of stock or indebtedness shall be void." I believe that section will be more effective.

Mr. Cassidy: I second the motion of the gentleman from Maricopa.

(The Records of the Arizona Constitutional Convention of 1910, Pages 601-602)

[e941831] Mr. Ellinwood: Mr. Chairman, I would state that the paragraph just read by Mr. Baker is taken verbatim from the Utah constitution.

Mr. Baker: Also Washington.

Mr. Winsor: Mr. Chairman, I would like, as a matter of information, to have the gentleman from Maricopa a point out in what respect his amendment differs from the section as it now stands in the proposition, except in this one particular, that in section 7 sixty days' notice is required before the stock or bonded indebtedness may be increased, whereas in the amendment proposed merely consent of a majority of the stock is required.

Mr. Parsons: Mr. Chairman, I would call the attention of the gentleman from Yuma to the fact that section 7 as proposed to be amended covers bonded indebtedness; that is not provided for in section 6.

Mr. Winsor: Bonded indebtedness is provided for in the section as it now appears.

Mr. Parsons: Yes, but not in Judge Baker's proposition.

Mr. Chairman: The question is upon the substitution of section 6 for section 7.

Mr. Curtis: Mr. Chairman, I would say that section 7 in Substitute Proposition Number 22 is a verbatim copy of the South Dakota provision.

(The Records of the Arizona Constitutional Convention of 1910, Page 602)

[e941832] Mr. Chairman: Those in favor of Judge Baker's amendment will rise; those opposed, the same sign.

Rising vote showed 22 in favor and 17 against.

Mr. Chairman: The amendment is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 602)

[e941836] Mr. Cunniff: Mr. Chairman, I move that this section now incorporated as section 7 be amended as follows. In line 5, the phrase “bona fide subscribers therefore,” that “labor done or property actually received therefore” be inserted in lieu thereof. That is taking the phrasing from the committee’s substitute report in regard to that particular matter.

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 602)

[e941839] Mr. Parsons: Mr. Chairman, I would like to call the attention of the gentleman from Yavapai to the fact that the language in substance follows in the next two lines.

Mr. Cunniff: It occurs there as only covering bonds.

Mr. Parsons: That will leave it so that will be repeated.

Mr. Cunniff: The phrase is used on the stock and used again on the bonds, but it has been pointed out that it is necessary, so the words stricken out would be beginning with the word “to” on line 3 and including the word “assignees” on line 6.

(The Records of the Arizona Constitutional Convention of 1910, Pages 602-603)

[e941843] Mr. Chairman: You have heard the assignment. All those in favor will stand to their feet. Opposed same sign. The amendment is lost. Are there any further amendments to section 6 of Proposition Number 22? We will pass to section 7.

(The Records of the Arizona Constitutional Convention of 1910, Page 603)

[e941845] Mr. Cunniff: Mr. Chairman, I move that on line 14 before the word “indebtedness” the word “bonded” be added.

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 603)

[e941847] Mr. Baker: Mr. Chairman, of course I am not opposed to anything that will restrict those corporations all we possibly can, but I do not want to vote for an amendment that will let them loose instead of tying them down. With this amendment they could increase their indebtedness other than bonded indebtedness. Don’t you see? You only limit them to fictitious increase of bonded indebtedness. We had better let that general language stay.

(The Records of the Arizona Constitutional Convention of 1910, Page 603)

[e941849] Mr. Cunniff: I agree. I will withdraw that.

Mr. Chairman: The amendment is withdrawn and the motion stands.

[e941858] Mr. Short: As a matter of information I would like to inquire if the present statutes do not require that articles of incorporation be filed with the secretary of state.

(The Records of the Arizona Constitutional Convention of 1910, Page 603)

[e941861] Mr. Cassidy: This says without having first filed their articles. Under the present statute the articles are filed with the county recorder and a certified copy filed with the territorial auditor. I move that after the word "incorporation" we insert the words "or a certified copy thereof," on line 23.

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 603)

[e941864] Mr. Chairman: Those in favor of the amendment will signify by saying "aye;" opposed "no." It is carried.

[e941879] Mr. Weinberger: Mr. Chairman, I do not believe that this accumulative system of voting ought to be in the constitution. I think it should up to the corporation whether it sees fit to adopt this system or not, and I therefore move to strike out section 11.

Mr. Keegan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 603)

[e941881] Mr. Cunniff: This seems to me to be an obvious protection of the minority stockholders.

Mr. Weinberger: The corporation itself can adopt this system of voting if they see fit.

Mr. Cunniff: As a protection to stockholders I think we should say whether the corporations want it or not.

Mr. Parsons: Mr. Chairman, the argument of the gentleman from Gila would apply to any other regulation we are seeking to impose on corporations. We should protect the stockholders to the extent of saying how they shall elect their directors.

Mr. Ellinwood: Mr. Chairman, this provision in one form or the other is in effect in California, Illinois, Idaho, Missouri, Montana, South Dakota, Pennsylvania, North Dakota, West Virginia, and it seems to me it is very essential. It gives the minority stockholder a look-in. While he cannot control the corporation, he can have a member on the board so he knows what is going on, and I think if this system is adopted the minority stockholders will be protected.

(The Records of the Arizona Constitutional Convention of 1910, Pages 603-604)

[e941884] Mr. Chairman: Those in favor of the motion of the gentleman from Gila, Mr. Weinberger, to strike out section 11, make it known by saying "aye;" opposed "no." The motion is lost.

[e941889] Mr. Baker: Mr. Chairman, I am interested in this subject. While I am not prepared to offer an amendment, I would like to understand the section if I possibly can. Can the committee, or any member of the committee, indicate to me where they obtained this section—from what constitution, or what statute?

Mr. Roberts: I think it was from North Dakota.

Mr. Winsor: As I understand it, this is what is known as the double liability clause, which appears in the national banking law. It was under that apprehension that it was included in this proposition, with the exception of the last paragraph. By the addition of the last paragraph the liability of a stockholder or shareholder is extended one year after the sale or transfer of stock, the idea of that being to prevent the sale of stock when the owner of it knew that the concern was about to go under.

(The Records of the Arizona Constitutional Convention of 1910, Page 604)

[e941893] Mr. Cunniff: I have given considerable thought to that matter, and it seems to me those remedies which aim to cure the disease, are worse than the disease. It is true it would prevent anybody from stepping from under when a corporation has reached a bad condition, but it is also true that if a person sell[s] control in a corporation under these conditions, that the person to whom the corporation was sold might direct the corporation during that year and then the seller of the stock or control in that corporation should be held responsible. After seeing the advantages offered from one side, and considering the disadvantages on the other side, I think the disadvantage outweigh the advantages. I move to strike out all that part of the section after the word "stock" on line 20.

Mr. Curtis: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 604)

[e941900] Mr. Roberts: When considering this the committee took into consideration the people who do business with such companies. And I would say that in a case like this, where a man, whom the people respect and trust as an honorable and honest man and when they have the utmost confidence in him, opens a bank and secures the custom and some other party comes along and purchases the bank, the second party being a stranger to the people and unknown generally, I think that people's interest should be protected from such a transfer of property. I think this man should be held responsible for this transaction and that the people should at all times have protection from such possible transfers, where their own interests are so much at stake.

Mr. Curtis: If the deposits are made with the bank before such transfer is effected and entered into the people should be apprised of the deal and I would say also that the people are protected as they have a right to withdraw their deposits at any time.

Mr. Weinberger: Does this not mean that all stockholders are recorded and all stock can be had in cash when such transfer is made?

Mr. Curtis: The transfer of stock provides a certificate of transfer and to be complete must be certified on the back to that effect by the company.

Mr. Ellinwood: This is a statute law.

(The Records of the Arizona Constitutional Convention of 1910, Page 604)

[e941902] Mr. Chairman: The amendment of Mr. Cunniff is that the words after the word "stock" in line 20 and all the rest of the section from there be stricken out. Those in favor of the motion say "aye;" those opposed "nay." The motion prevails.

[e941911] Mr. Baker: This section, of course, abolishes the fellow servant law doctrine. We have passed a provision for a liability law, and I suggest that the Committee on Style, Revision and Compilation substitute this section for that when they come to compile the constitution.

Mr. Cunniff: I agree with the gentleman from Maricopa upon that.

Mr. Feeney: I would like to ask the gentleman if the common law doctrine is abolishes to cover every form of labor?

Mr. Baker: It covers everything and is not [sic, now]

Mr. Feeney: I would like to have it cover every form of labor and every firm and corporation and even apply to the machinists.

Mr. Baker: It will cover everything; in fact, I cannot conceive of anything it does not cover, and if it not broad enough I am not opposed to make it broader, but can see nothing omitted.

Mr. Jones (Yavapai): I second the motion of the gentleman from Yavapai.

Mr. Ellinwood: I think I understand the motive of the gentleman from Yavapai in desiring to change the wording here, but I would suggest that the present wording is legal and right and is interpreted by law much quicker than the suggested terms would be.

Mr. Cunniff: I do not believe the gentleman from Cochise is right.

[e941886] Mr. Ellinwood: I move you that sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 14, 15, 16, 17, 18, 19 be stricken out, leaving only section 11, and that the proposition as amended do pass.

Mr. Feeney: I second that motion.

Mr. Crutchfield: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 610)

[e941892] Mr. Wills: I rise to a point of information. I want to know what they are going to do with this section if the rest are knocked out?

Mr. Ellinwood: It will go to the revision committee, and go into the constitution like any other proposition.

Mr. Weinberger: It seems to me absolutely unjust to require every stockholder to be liable for the par value of his stock. I think the proposition as it originally reads is correct.

Mr. Ellinwood: I agree that the amendment striking out "and unpaid" would make it too drastic. This simply makes him liable for the amount he has subscribed for and not paid for.

Mr. Roberts: I submit a large corporation has its stock paid in, and a small corporation of necessity has not its stock paid in full, and this would work a hardship on the small corporation stockholders, and leave the stockholders of large corporations not liable. I hope this will be amended.

Mr. Connelly: I just want to say this proposition would ruin the industrial prosperity of Arizona and should be killed.

(The Records of the Arizona Constitutional Convention of 1910, Page 610)

[e941894] Mr. Chairman: All in favor of this motion will make it known by saying "aye;" opposed "no." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 610)

[e941896] Mr. Weinberger: I move to amend this section by striking out line 21 beginning with the word "and," line 22, and line 23. I think that would be unjust likewise.

(The Records of the Arizona Constitutional Convention of 1910, Page 610)

[e941897] [Editor's Note: Weinberger's amendment was not mentioned again and was presumably dropped for lack of a second.]

(Editorial)

[e941899] Mr. Winsor: If there were any good in the proposition, that would be the best part of it.

Mr. Cobb: I would like to inquire of the committee, which reported this back of they had any provisions in their bill covering this subject?

Mr. Ellinwood: I would state we have none. I was on this committee, and there is no such proposition.

Mr. Short: I am very glad to hear there is no other provision covering this. I want to say if you pass this section 11 you will put every small corporation in Arizona out of business. You cannot sell a dollar's worth of stock because they would be buying a "white elephant." If they paid twenty cents on the dollar in promoting some scheme, whether legitimate or otherwise, they could be held responsible for whatever the par value is. The stockholders in a large corporation whose stock has gone up from \\$.100 to \\$.50.00 has absolutely nothing to fear from a provision of this kind, but the smaller corporations would be ruined in a great many cases. They could not sell enough stock to do their assessment work, and the large corporations along side would be able to gobble up their claims.

Mr. Ellinwood: I exercise no originality in drafting this paragraph in Proposition Number 29. I took it bodily from Oregon and Michigan. This is not as drastic as many laws. It has not driven the smaller corporations, or any corporations, out of the state of Oregon or Michigan. On the contrary, our neighbor state of California, which has done very well in the last few years, has this provision, that the stockholder is liable for all the debts of the corporation in the proposition [sic, proposition] that the amount of stock or shares owned by him bears to the total amount of shares.

Mr. Short: I will submit the provision in the California law is very good; I do not see any harm in that, but I still submit there must be very few if any small corporations in Michigan. It is absolutely in the hands of the large corporations.

Mr. Crutchfield: While I do not intend [sic, pretend] to be an expert, the study I have made of so-called "wild cat" corporations, and those of a more solid and permanent form shows that the trouble lies in just the point that is sought to be remedied here. The ease with which professional gamblers induce the people to take stock in a proposition where they stand a chance of making ten to one, and are not subject to any claim, is the string by which most promoters get hold of the people; and if you make the stockholders personally liable for their part of the expense, all kinds of joint-stock companies will become an investment rather than merely gambling concerns, and the more solid development of this country will result. I am not in favor of large companies against small companies; on the other hand I am in favor of development by small companies. Therefore, I am in favor of this so far as I see its meaning.

Mr. Lynch: May I ask the gentleman a question? The average stock that is sold is sold way below par; that is it is sold at 15 cents. That is the actual cash

market price at the time. The man that buys the stock pays every cent that it is worth at the time. It is the understanding that he must, in case of debts, pay the difference between the actual cash value at the time he bought it, and the par value?

Mr. Ellinwood: I understand so. The effect will be that when a corporation incorporates in place of having a capitalization of one million dollars, they will the proper capital, \ \$100,000, or \ \$200,000.

Mr. Cunniff: I want to say first that my mining interest is a close corporation, that has no stock to sell. From my experience, I believe this would be absolutely ruin the mining industry except for the large companies and large corporations. I am astounded that any such proposition should be brought into this body.

[e941901] Mr. Chairman: The question is on the motion of Mr. Ellinwood. All in favor of this motion answer "aye;" opposed "no." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 613)

[e942163] Mr. Ellinwood: I move to strike out the word "private" and insert the words "public service."

Mr. Lynch: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 613)

[e942169] Mr. Winsor: I know it is the sense of a great many members of this convention—it should be the sense of all—that there should be some supervision of all corporations in general, and it seems to me the last gentleman who should oppose such a proposition is the one who submitted Proposition Number 29. That proposition, if aimed ostensibly to reach the “wild cats,” would if embodied in our constitution, put 99 percent of all corporations out of business. We want reasonable restriction, however, and the purpose of this is to place reasonable restrictions upon all corporations in the state. I hope the amendment will not be adopted.

Mr. Lynch: The proposition as it refers to public service corporations is all right. If you stop to think, there are hundreds of little corporations, some doing a mercantile business or cattle companies or fire associations, formed to avoid having to go into partnership and to facilitate business. They are engaged in private pursuits. For example, if you went into a partnership, what would you say when a state board came to investigate your partnership concern, that is, your particular private business. That is exactly what they could do under this proposition, and I do not believe the members really mean that this proposition, and I do not believe the members really mean that this corporation commission shall have charge of private corporations. The intent certainly must be these public service corporations in which the public is interested. I should [not] like to see this amendment adopted; I do not believe it has a place in any constitution.

Mr. Weinberger: If you give this power, you are giving dangerous power to any set of people or officers. If you want to control corporations, control them by general law, and not arbitrarily.

Mr. Winsor: This corporation commission has no powers as to private corporations except such as may be conferred upon it by law.

Mr. Webb: If this provision remain[s], I shall certainly move to include private concerns for it is exactly the same thing.

Mr. Jones (Maricopa): In preparing this proposition the form was changed somewhat, and there were several copies. the copy that should have gone to the printer did not go, and I notice that in the original copy the words “private corporations” does not appear in either line 1 or line 7. These words should be stricken out here. That will change the sense quite materially.

Mr. Cunniff: One distinction of the state of Texas is that that state, so far as I have been able to observe in my travels, is the only one that controls corporations, and in almost every other state I know the corporations have altogether too much influence in the direction and control of the state. This is a provision that will permit the State of Arizona to have the same reason for pride that the state of Texas has, and I am in favor of allowing that paragraph to remain exactly as it is. It does not empower this corporation commission to look into or poke its nose into the business of every corporation in the state, and this constitution, if that paragraph prevails, establishes in this state a body which will be in a position to enforce any general law of the legislature, or the people will do it through the initiative and referendum.

Mr. Lynch: I still want to insist that the business of a private corporation is not a matter of public concern. Texas controls its quasi-public corporations, those in which the public is interested. There is not a member of this floor, but has some little private business concern in which he is interested and which he is working for his own advancement. As the public, you have nothing to do with those things; it is none of your business. I want to impress upon you again that

this is not a public matter on which we should spend public funds. Why would we expend money as the public to investigate private affairs? Let us vote this down.

Mr. Cunniff: We need to have supervision over banks, and supervision over insurance companies, and supervision over mining companies, and while I believe in the intelligence and integrity of legislatures, there is nothing more valuable than this establishment of machinery to do these things.

(The Records of the Arizona Constitutional Convention of 1910, Pages 613-614)

[e942175] Mr. Cobb: I would like to ask Mr. Jones if he knows of any other mistakes in this copy. We have not the report of the committee before us. I have great respect for that committee, but as I do not know whether this is the report of the committee, I move that this be re-referred to the Committees on Railroads and Public Service Corporations Other Than Railroads. Otherwise, I cannot vote for it.

(The Records of the Arizona Constitutional Convention of 1910, Page 614)

[e942179] Mr. Jones (Maricopa): If anybody is looking for a change to vote against this, he is perfectly welcome.

Mr. Colter: I have sincere interest in the welfare of this new State of Arizona, and Mr. Lynch of Graham County, has expressed my sentiments exactly.

Mr. Roberts: He has not expressed mine by a good deal. It seems to me God Almighty did not create any corporations, and they have no power the state did not grant them, and the fact would necessarily mean that the state has the right to exercise jurisdiction over the powers it has given to these corporations. I am in favor of this proposition.

[Remarks by Cassidy of Maricopa not found.]

[Remarks by Lynch of Graham not found.]

Mr. Ellinwood: I want to call to your attention the fact that the committee on private corporations has not given its approval of this proposition. That is the creature of the joint committee of the railroad committee and the committee on public service corporations. If this is a private corporation matter, as it seems to be, it ought to have the approval of the committee on private corporations.

[Remarks by Cunniff of Yavapai not found.]

Mr. Lynch: Just one parting word. The gentleman from Yavapai hears, or seems to think he hears, in his wild dreams, the voices of Aldrich, Crane and Hale and gentlemen of that class. I was listening to those same voices, and it sounded more like the voice of Sockless Jerry Simpson, and while he may have the idea it is the voice of Jefferson or Jeffersonian democracy I think it is the voice of this illustrious patriot I have just named.

Mr. Winsor: I am not very long on voices, but I want to say in reference to the gentleman from Cochise, that while this provision did not have the formal authorization of the Committee on Private Corporations, in a way it did have the authorization of that committee. A proposition was submitted by, I think, Mr. Roberts, for the creation of a banking commission, which was discussed to some extent in the Committee on Private Corporations. That committee expressed itself unanimously in favor of such a commission, but it was informally decided by the members that it would be just as well to act on the proposition,

since it was understood that the joint Committee on Railroads and Public Service Corporations Other Than Railroads would provide for a commission with authority to investigate and supervise other corporations.

(The Records of the Arizona Constitutional Convention of 1910, Page 614)

[e942183] Mr. Chairman: The question comes up now on the amendment of Mr. Cobb to re-refer this. All in favor answer "aye;" opposed "no." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942188] Mr. Ellinwood moved, seconded by Mr. Cunningham to amend line 23, page 2 by striking out the word "private" and inserting the words "public service"; carried by the following vote:

Ayes—Cassidy, Cobb, Colter, Cooper, Cunningham, Curtis, Ellinwood, Goldwater, Hutchinson, Jacome, Keegan, Kingan, Langdon, Lovin, Lynch, Pusch, Scott, Simms, Mit, Tuthill, Webb, Weinberger, White, Wells, Wills. Total 24.

Nays—Bolan, Bradner, Coker, Connelly, Crutchfield, Cunniff, Feeney, Jones, A. M., Jones. F. A., Kinney, Moore, Morgan, Orme, Osborn, Parsons, Roberts, Short, Winsor, Wood, Mr. President. Total 20.

Absent—Baker, Franklin, Ingraham, Sims, R. B., Standage.

Excused—Doe, Moeur, Tovrea.

(The Minutes of the Arizona Constitutional Convention, Page 275)

[e942193] Mr. Short: I desire to say that section 2 provided what authority the public service corporation should have over private corporations. If you make section 2 applicable to public service corporations, then the balance of this proposition I submit is absolutely worthless.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942195] Mr. Winsor: Inasmuch as the value of this section has been absolutely destroyed, I move you to amend by striking out section 2.

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942198] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942202] [Editor's Note: Section 2 as amended—i.e. stricken—was agreed.]

(Editorial)

[e942203] Mr. Chairman: Any amendments to section 3?

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942204] Mr. Webb: I move you that the word "private" where it occurs in the first line and where it occurs in line 7 be stricken out.

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942206] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942209] Mr. Goldwater: Mr. Chairman, in line 3 of Substitute Proposition 113, I would insert after the word "gas" the word "oil."

Mr. Colter: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942214] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942215] Mr. Chairman: Any objections to section 4?

[e942227] Mr. Chairman: Any objections to section 4? Any to section 5?

(The Records of the Arizona Constitutional Convention of 1910, Page 615)

[e942234] Mr. Webb: Mr. Chairman, I move that in line 7 after the word "any" the words "public service" be inserted.

Mr. Cobb: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 615-616)

[e942820] Mr. Chairman: Those in favor of the motion of the gentleman from Graham to insert in line 7 after the word "any" the words "public service," will say "aye;" those opposed "nay." The "ayes" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942823] Mr. Cunniff: I would ask for permission to refer back to section 3. There was a final amendment made in a hurry that the word "oil" be placed after the word "gas." Now this has taken in more scope than it was intended.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942824] [Editor's Note: The Committee of the Whole referred back to Section 3.]

(Editorial)

[e942826] Mr. Goldwater: I did not intend to convey that power, but you have investigated and find that possible the amendment does not mean what I had in mind.

Mr. Ellinwood: I think that word is not essential.

Mr. Crutchfield: I was the only one who voted against "oil" and I did so because I could not see how that could apply.

Mr. Cunniff: I would like to have this take in the Standard Oil corporations.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942839] Mr. Ellinwood: I move the word "oil" be stricken out.

Mr. Webb: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942845] Mr. Chairman: Those in favor of the motion to strike out the word "oil" in line 2, section 3, will rise. Those opposed now rise.

Rising vote showed 13 in favor and 20 against.

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942849] Mr. Chairman: [...] If there are no objections we will now take up section 5.

[e942870] Mr. Chairman: [...] Any to section 10?

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942871] Mr. Goldwater: Does this include Pullman cars?

Mr. Parsons: I think it does.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942872] Mr. Cunniff: Mr. Chairman, I move that in line 6, page 6, the word "oil" be inserted.

Mr. Winsor: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942873] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942879] Mr. Chairman: [...] Any to section 13?

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942880] Mr. Cunniff: May I ask for an explanation? Does this include the officers of the interstate commerce?

Mr. Jones (Maricopa): They are. There are reductions for transportation officials, employees, charitable institutions, preachers, etc.

Mr. Short: This interstate commerce act includes Arizona at the present time and just as they stand now.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942881] Mr. Chairman: If there are no corrections we will pass on to section 14.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942882] Mr. Chairman: If there are no corrections we will pass on to section 14.

(The Records of the Arizona Constitutional Convention of 1910, Page 616)

[e942883] Mr. Ellinwood: I move that we strike out, in line 7, after the word "commission" the rest of the section. It seems to me that this is an unjust provision. If the railroads were forced to give full value it would make them lose the whole of their tariff. I understand from your assessor here that the people of this country are assessed only one-fourth. Under this provision they would be compelled to enter this property at full value and if so would be paying two-thirds of their tariff.

(The Records of the Arizona Constitutional Convention of 1910, Pages 616-617)

[e942884] Mr. Winsor: I would like to say that while this may be true I would just state that the railroads in this territory have never been taxed their full value, in fact, we have never been able to get more than one-third or one-fourth. They will state for the purpose of assessment that their property is worth \$7,000 per mile and then they will another time swear that the same property is worth \$42,000 in order to justify high rates.

Mr. Webb: Mr. Chairman, the position taken by the gentleman from Cochise is well taken. If a full cash value were to be taken of the property it would force them to undervalue their property, but if you make the proposition at a lower rate then they possible pay more if they were forced to state the full value.

Mr. Short: I hope this amendment will not prevail, for it gives them the discretion of saying how much their property shall be taxed for. Anyone does not mind them lying a little but when you fix a thing so they will lie seven-fold then it is going too far, as I know the lines here have done.

Mr. Ellinwood: I am not here to apologize for the Maricopa and Phoenix Railroad but I know that the statements made by some of them have through unjust assessments.

Mr. Parsons: I do not believe in making a law that will cause men or corporations to lie, but I believe in fixing the rate and the law so that all property shall be taxed at its full cash value, and then make it a felony for anyone to swear it is less than it is worth.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942886] Mr. Chairman: Was there any second to this motion?

Mr. Webb: No.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942890] Mr. Chairman: We will pass on to section 15.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942892] Mr. Chairman: We will pass on to section 15.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942893] Mr. Chairman: [...] Any objections to this section? Hearing none we will pass on to section 16.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942895] Mr. Chairman: [...] Hearing none we will pass on to section 16. Are there any alterations or amendments.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942898] Mr. Ellinwood: I think that section 16 is absolutely in conflict with the statutes of the United States, defining a crime and punishing it, and I do not think this is right.

Mr. Parsons: That is taken verbatim from the constitution of the state of Louisiana.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942899] Mr. Chairman: If there are not amendments we will consider section 17.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942902] Mr. Chairman: If there are not amendments we will consider section 17.

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942905] Mr. Chairman: If there are not amendments we will consider section 17. Are there no objections? Any to section 18?

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942906] Mr. Chairman: [...] Any to section 18?

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942909] Mr. Coker: In line 17, I move you that section 18 be amended by striking out the words "away from home," and inserting the words "while traveling."

(The Records of the Arizona Constitutional Convention of 1910, Page 617)

[e942911] [Editor's Note: Coker's amendment was not mentioned again, presumably because it did not receive a second.]

(Editorial)

[e942917] Mr. Osborn: Are any other amendments in order? I move to amend line 16 by striking out the figures \ \$3,000 and inserting \ \$500. I think this entirely too much to allow those officers when you compare their salary with other officers, for instance the superintendent of public instruction and others. We have been trying to equalize salaries and to make them somewhat within the bounds of reason, but we have or will depart from this good democratic rule if we permit this to remain as it now stands.

Mr. Webb: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 617-618)

[e942919] Mr. Ellinwood: I did not know that any one else had an idea of amending this section but myself, however, I shall move to amend the amendment by asking that the figures be changed to read \ \$5,000 in lieu of \ \$3,000, as I think we can secure better service at that rate than at the lower rate of salary.

Mr. Cobb: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 618)

[e942921] Mr. Osborn: I do not think that the labors of this commission will demand such a salary any more than some other offices we have created here and I am not in favor of paying such extreme salaries to some officers and making the others so extremely low.

Mr. Ellinwood: I would say that if the salary is put at a low figure no expert man or body of men would undertake the work at such a salary, but if you offer them a sum sufficient to demand their good and efficient labors you will get more for the \ \$5,000 than for the \ \$3,000 or \ \$500.

(The Records of the Arizona Constitutional Convention of 1910, Page 618)

[e942923] Mr. Chairman: Those in favor of the amendment offered to the amendment of Mr. Osborn, will answer "aye," those opposed "nay." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 618)

[e942925] Mr. Chairman: [...] The question now comes up on the original motion of Mr. Osborn to strike out the figures \ \$3,000 and insert \ \$500, those in favor of the motion will answer "aye;" those opposed "nay." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 618)

[e942926] Mr. Weinberger: I move to amend section 18 by striking out the words and figures \ \$3,000 and inserting the words, at the beginning of the paragraph, "until otherwise provided by law."

Mr. Osborn: I second that motion.

[Editor's Note: The Minutes, page 276, indicate that "until otherwise provided by law" was added to the beginning of the paragraph, but nothing was stricken out. As the Minutes' account is the way the section appears in the final Constitution, the editors have followed this version.]

(The Records of the Arizona Constitutional Convention of 1910, Page 618)

[e942928] Mr. Chairman: It has been moved and seconded that section 18 be amended by striking out \"\$3,000 and inserting at the beginning of the paragraph the words “until otherwise provided by law.” Those in favor of this motion will say “aye;” those opposed “nay.” The “ayes” have it and it is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 618)

[e942929] Section 18 approved as amended.

(The Minutes of the Arizona Constitutional Convention, Page 276)

[e942931] [Editor’s Note: There is no account in the Records or the Minutes of the Committee taking up Section 19. The editors have inferred, given the Committee’s typical procedure, that the Committee raised no objections to Section 19, and thus, the section was adopted.]

[e943577] Mr. Ellinwood: Mr. Chairman, I move to amend the word "18" in the fourth line to read "16."

Mr. Bolan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910)

[e943592] Mr. Crutchfield: Mr. Chairman, I hope that amendment will not prevail. The period of life especially during which most crime is committed is that period of adolescence from about 14 years and in some cases up to 19 and 20 years. Eighteen years is the age at which a safe limit may be placed. Practically every state allows the juvenile court proceedings to control up to 18 years, and I trust that the amendment will not prevail, but that it will stand as has been reported by the committee. There are some instances in which justice would not prevail by allowing a boy under 16 [18] to be tried in the regular court, and I hope that the amendment will not prevail.

Mr. Ingraham: Mr. Chairman, the convention will notice that it is not necessary that criminal prosecution be checked by this. It is entirely within the discretion of the judge, and it seems to me that that discretion of the judge ought to extend up to 18 years instead of 16 years, as it now is in the territorial statute. There are many cases that occur about the age of 16 or 17, which should not be excluded from the law where the judge should have discretion and be allowed to temper the law with mercy.

Mr. Cunniff: Mr. Chairman, I agree with the gentleman from Maricopa and the gentleman from Yuma on the ground that all psychologists practically agree that the age of adolescence runs up to 18 years.

[e943637] Mr. Cassidy: Mr. Chairman, I move that when the committee arises it recommend that Substitute Proposition Number 103 be adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 625)

[e943646] Mr. Hunt: Mr. Chairman, I would like to ask the gentlemen why should they put the president of the senate in there?

Mr. Cassidy: Mr. Chairman, the president of the senate is connected with the legislature, and I suppose he may be regarded as the highest official in the legislative department, and I think it would only be right and proper that the legislative department be represented in the governing body, controlling the legislative body.

Mr. Hunt: Then I should include the speaker of the house of representatives.

Mr. Cassidy: I have no objection to putting in also the speaker of the house of representatives.

Mr. Winsor: Mr. Chairman, I do not believe that would be a good idea. You would have an advisory board then, consisting of an even number of members, and it appears to me that the president of the upper house of the legislative body is all sufficient in that direction. The attorney general is the chief of the law construing power, and the governor the head of the executive department.

Mr. Cunningham: Mr. Chairman, it strikes me the clerk of the supreme court ought to be a member of that board, as well as the judges, so that they could work out something from all the departments.

Mr. Osborn: It strikes me, Mr. Chairman, that this is a question that could be left to the legislature. We have created a great many offices of late—I believe too many—and it strikes me again we are creating an office to do what the legislature comes here to do, and if we are going to create an officer, who shall create those laws, and gather them together, we had better get the legislators here.

Mr. Bolan: It is my understanding that we have at the present time a territorial librarian, and we also have a governor and an attorney general, and will have a president of the senate. This just simply provides the librarian shall be the legislative secretary, and the only thing provided for here is that he shall be appointed by the governor.

Mr. Feeney: Mr. Chairman, the history of the bureau of legislative research will show it was established first, I believe, in Wisconsin. I think there are a number of members of this convention, who received information on the subject of political economy from them. It was brought out by the action of the legislators in trying to write laws while not having the proper data there, and inquiring at the University at Madison, as to where they would get it. Through that became established the department of legislative research, which has been most of valuable assistance to the legislature of the state of Wisconsin. As long as this does not establish a new office, I believe it would be a very valuable acquisition to our next legislature.

Mr. Cunningham: Mr. Chairman, I do not believe that some of us understand exactly the intention of this. It strikes me that this is organizing a correspondence school, in a measure.

Mr. Lynch: Mr. Chairman, I can see no particular objection to the establishment of a bureau of legislative research. There are some provisions in here that do not seem to me ought to be in. For instance, it gives that bureau the right to employ all necessary clerks of the legislature under a merit system. Are we going to say to our legislature that “you can come here, and do the work, but we shall employ the clerks for you because you cannot do it?”

Mr. Chairman: I believe that would be a good scheme.

[e944045] Mr. Lynch: I do not think so, Mr. Chairman. We did not have the governor, or the secretary of the territory employing our clerks, and why should we say to a legislature "You can come here, but you do not have enough sense to employ your own clerks." If, for instance, this bureau happens to be of one political party, and the legislature of another, I can readily see that the bureau will be able to find sufficient merit in their party to get every clerk out of the membership of their party. I move to strike out the words in the second paragraph "employ all necessary clerks for the legislature under a merit system."

Mr. Parsons: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 627)

[e944048] Mr. Cunniff: I move an amendment to the motion that after the word system in the last line, add the words "as provided by law," that the method of selection shall be a method as prescribed by law. Then this bureau will not have the power to do what the gentleman objects to.

(The Records of the Arizona Constitutional Convention of 1910, Page 627)

[e944065] Mr. Lynch: I would support the motion if it meant anything. How can you provide by law that the legislature can appoint its own clerks, and at the same time provide in the constitution that the bureau of legislative research can employ these clerks?

Mr. Parsons: Mr. Chairman, in addition to what the gentleman from Graham has said as criticism of this, and in support of the amendment he offers to strike out this provision, I want to call attention to this fact, if these clerks are to be appointed on the merit system, that, of course, will mean that every job will require a competitive examination. I know of no way they can arrive at the merits otherwise, and if it is to be a merit system it will mean a competitive examination and you might just as well add to it that no one can be employed unless he lives in Phoenix or Maricopa County, because no clerk would come here from any other county with the prospect of getting a four dollar a day job for sixty days, and if you are going to do this you might just as well add that the name of the new state be Maricopa.

Mr. Winsor: Mr. Chairman, it seems to me the attempt to strike out has a great number of good features. No disgrace has ever been brought upon an Arizona legislature and many disgraces have been brought greater than that of the riot employing attaches. In legislature after legislature there has been a mad scramble for places, for political fruits, without regard to their merit or their ability to perform the duties expected of them, and it has been embarrassing alike to the parties sending the representatives here and to the representatives themselves. If I were ever a member of the legislature I certainly would wish

nothing more than to have taken from me the power to appoint clerks so that I might be able to say to the scores of those who ask for assistance that it is not in my power to render it. Certainly the legislature and the people who send the members of the legislature here have a right to have the work performed properly and I know of no other way to get it done properly except to place the appointing power in the hands of some officer whose duty it is to look out for their qualifications. The territory will save a great deal of money and a great deal of disgrace.

Mr. Cunniff: Mr. Chairman, I should like to say that the report of the Committee on Printing and Clerks the other morning was a sufficient answer to most of the arguments made.

Mr. Kingan: Mr. Chairman, I would like to ask also the originators of this proposal if one of the chief duties of this clerk will be to gather data on the initiative, referendum and recall.

Mr. Winsor: I think so, but the data on that subject is so one-sided that the people won't need any more information.

Mr. Webb: Mr. Chairman, we have been told that this creates no new office. If it does not do that it creates a lot of new work. I say we are creating too many offices. Let the people of Arizona, through the initiative and referendum and the legislator, whom they elect to enact their laws, provide for these things as we see we need them. Our needs and our conditions here are different from those old states where this officer has accomplished some good. We have responsibility enough on our shoulders to take care of those things. We are bound to take care of them without assuming the responsibility of legislating for Arizona for all time to come.

(The Records of the Arizona Constitutional Convention of 1910, Pages 627-628)

[e944103] Mr. Ellinwood: Mr. Chairman, I think this does create a new office and I am very glad that it does. It creates the office of legislative secretary. It abolishes the office of state librarian and puts the duties of the state librarian on the legislative secretary. I know of no office that could be created within the confines of Arizona that would be as beneficial to the new state as the one proposed. If the members will stop to think of the research they have been compelled to make on this convention during this session, they can see that half probably of their labors would have been dispensed with had they had a bureau of this kind to which they could have gone for information. As has been said by Mr. Feeney, it has been in operation in Wisconsin for a great many years and the pamphlets from Wisconsin are sent into every state in the Union. The American Federation of Labor has established their headquarters in Madison and sent out their monthly bulletins. It seems to me no more beneficial help could be given than that which is proposed by this measure and if an amendment is in order I wish to move a further amendment in the first paragraph.

(The Records of the Arizona Constitutional Convention of 1910, Page 628)

[e944083] Mr. Cunniff: Mr. Chairman, I arise to a point of order. This is really not an amendment that Mr. Ellinwood is offering to the amendment already before us. If he would withhold his amendment until those two have been acted upon, we will make more headway.

(Editorial, Page 628)

[e944111] [Editor's Note: The debate continued and Mr. Ellinwood re-proposed his amendment to paragraph 1 after the committee acted upon the two amendments already before them so we have represented Cunniff's Point of Order as being accepted.]

(Editorial)

[e944134] Mr. Jones (Maricopa): Mr. Chairman, it seems to me that when we all look at this thing carefully we must agree that this is one of the best things that this convention could do, and I think it would be particularly beneficial under the system of the initiative and referendum. If we expect the people of the territory to investigate as would be necessary the constitutionality of measures they simply could not do it. This provides that this bureau do that, and I should like to see it passed as it now reads without the permission of employing the attaches. I believe if we can eliminate politics from the unseemly scramble for little political jobs here, we will do a good thing.

Mr. Parsons: I want to—

Mr. Chairman: Mr. Cunniff has the floor.

Mr. Cunniff: This as a constitutional matter gives very sweeping power without applying any system, and as Mr. Parsons point out there will be competitive examinations. This does not say so. It provides no form of merit system and the reason this is not explained more fully is that it is purely legislative matter to provide the machinery for competitive examinations. These examinations might be held in Prescott, Tucson and Yuma as well as Phoenix.

Mr. Cassidy: Mr. Chairman, I think this proposition is one of the most important that has come before this convention. There are now seven or eight states that have a bureau of legislative research. The principal one is in Madison. I have here on my desk copies of about two hundred letters that are answers to letters sent out by Mr. Norman H. White of Boston, Massachusetts, who was the chairman of the educational committee in the Massachusetts legislature. Mr. White sent these letters out for the purpose of obtaining the views of the people who had had experience along this line. The legislature of Massachusetts was contemplating establishing the same thing. I have read a great many of these letters and invariably they speak of the Bureau of Legislative Research as something of great assistance in matters of legislation. (Mr. Cassidy reads various extracts.) Now, gentlemen, there are two hundred other letters along the same line. Something has been said of economy. I feel that this bureau will save the people of Arizona ten times what it will cost. The other day we provided for a state examiner, and I believe that was a good office because it will save far more than it will cost. This is just as important and it will save the people of Arizona far more than it will cost. Furthermore, the way the bill is drawn, it does away with the office of state librarian. Now, we would have to have, if we did not have this, a state librarian and would have to pay him perhaps almost as much as we would have to pay a competent man along the lines of legislative research. Why not add just a little more to the salary and have a first class man who would be able to assist the legislature of Arizona? Now, I do not believe that we can do anything in this convention that will be more along the lines of true and genuine progressing government than to adopt

this proposition. If we sent the constitution back to Congress with a proposition of this kind in it, I believe they will feel that we are up to date in this matter of modern legislature and methods of modern legislature and that they will think the people of Arizona are wide awake and know that they are doing and intend to do the right thing in matters of legislation. (applause)

[Remarks by Webb of Graham not found.]

Mr. Parsons: Mr. Chairman. I want to add just a word with reference to the proposition suggested by the gentleman from Graham. Not only does this proposition allow this commission to select by the merit system the employees of the legislature, but gentleman, just consider a moment, who is going to determine how many clerks the legislature needs? I submit to you that if it is an insult to the intelligence of the legislature to say that they do not know enough to employ their clerks, what in God Almighty's name will you call it not to give them the power to say how many clerks they shall have? You are taking away from the men in the legislature a portion of the right granted to them by a provision granting to them that they shall make their own rules. The gentleman in answer to my proposition said that there would be nobody but Maricopa applicants; said there probably would be examinations held in Douglas and in Prescott. I think every county would be entitled to one, and if that be true and you would have to send a member of the board to Apache County, one to Yuma county, and so on all over the state, the expense of your preliminary examination would amount to half as much as your entire legislature. I want to ask Mr. Jones if he thinks this were adopted there would be a single employee in the legislature so long as this law remained in force that was not a resident of Maricopa County, and would it be fair for us to impose upon the coming legislators the absolute necessity of employing them all from there? I think we ought to give them the right of selection.

Mr. Cunniff: Mr. Chairman, these examinations could all be held in high schools, under people who could be trusted, and it need not cost anything.

Mr. Winsor: Mr. Chairman, it seems to me that the gentlemen are assuming that it is more important that the legislature have a few jobs to give out than that they should have employees who are competent to do the work. I do not believe a member of this convention who has ever been a member of an Arizona legislature, not excluding the gentleman from Graham, Mr. Webb, will deny that not in nine times out of ten, but in ten times out of ten, that three-fourths of the employees of the legislature are absolutely incompetent to do the work assigned to them, and I want to say that in the few legislatures with which I have been connected, in the mad scramble for office, out of an average of ten stenographers, so called stenographers, there would not be to exceed two who were actual stenographers, and I know of more than one time when the absolute limit of real stenographers was one in either house, while ten were being paid. I insist, Mr. Chairman, that the giving out of a little political patronage is of absolutely no importance to the people of Arizona whatsoever, and if the legislatures in the past have acted in a manner to bring this insult upon them, I say the insult is called for and I do not call it an insult.

Mr. Crutchfield: Mr. Chairman, I want to call attention to the fact that there is aside from this matter that is causing a great deal of discussion here, a very important movement, one that is probably—against which there cannot be said one single word in opposition, and which has helped to place Arizona in the very front rank, an endeavor to establish a bureau of legislative inquiry

that will enable legislators and the people at large to get a more perfect understanding of the needs of their territory; laws that are being passed in other states; and that the matter of the employment of clerks—I am not making any criticism to the gentlemen who have offered this amendment—but really I am in favor of amending it. By combing these two things together there [is] one very important principle embodied here. And then there is the matter of the policy of employing clerks, which is entirely superfluous, which does not belong with this proposition, and might very well be taken away from it and affect the germ and the force of this movement. Remember that here is a bureau that is absolutely necessary,—that will pay for itself ten times over and over again—that is a valuable adjunct to legislation, and without which, under our present system we can hardly approach at all or pass or purpose any good or effective laws—an absolute necessity. That is one proposition; this other is of secondary consideration—a matter of policy—has nothing to do with the heart of this proposition as suggested.

Mr. Osborn: Mr. Chairman, I know less about this proposition now than I did before we had all this oratory, and I trust we can have a vote.

Mr. Ingraham: Mr. Chairman, one reason why we people down in Yuma are not worrying about the appointing power of the legislature, is that since a provision excluding all Mexicans voting has been passed we do not expect Yuma will elect any Democrat members to anything, and therefore, I am not interested in this matter.

(The Records of the Arizona Constitutional Convention of 1910, Pages 268-231)

[e944137] Mr. Chairman: The first amendment is that of Mr. Cunniff of Yavapai. In next to the last line he adds the words “as provided by law” after the word “system.” All those in favor of that motion signify by saying “aye;” contrary minded “no.” It is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 631)

[e944141] Mr. Chairman: [...] The next motion is by Mr. Lynch, to strike out in line 4, ending in line 5 with the word “system” after the word “laws” in line 4 “to employ all necessary clerks for the legislature under the merit system as provided by law.” Call the roll.

Roll call showed 11 “ayes” and 32 “nays.”

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 631)

[e944143] Mr. Wells: I move to strike out the whole section.

Mr. Webb: I second the motion.

[e944144] Mr. Ellinwood: Mr. Chairman, I move an amendment that after “governor” the last word in the first paragraph, that the following be inserted: “and until otherwise provided by law he shall receive an annual salary of \$2,500.”

Mr. Weinberger: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 631)

[e944145] Mr. Chairman: The chair rules that Mr. Wells' motion is in order. It has been moved and seconded that the entire section 2 be stricken out. All those in favor of striking out paragraph two will rise. Contrary minded same sign. The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Pages 631-632)

[e944146] Mr. Ellinwood: Now is my motion in order?

Mr. Chairman: It has been moved and seconded that after the last line following the word "governor" the words be added: "and until otherwise provided by law he shall receive a salary of \$2,500 per year." All those in favor signify by saying "aye;" opposed "no." The ayes have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 632)

[e944156] Mr. Winsor: Mr. Chairman, I move that Substitute Proposition Number 103 be adopted as amended.

Mr. Cassidy: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 632)

[e944161] Mr. Chairman: It was been moved and seconded that Substitute Proposition Number 103 be adopted as amended. The secretary will call the roll.

Roll call showed 23 "ayes" and 18 "nays."

Mr. Chairman: Substitute Proposition Number 103 is adopted as amended.

(Editorial)

[e942841] Mr. Webb: I desire to say I introduced original Proposition Number 60. The substitute changes it quite materially from the original. However, I have no objection to the substitute if it meets with the approval of the majority of this convention, and will be perfectly satisfied if it pass. The purpose was simply this: to restrict and forbid (which seems to me to be a perfectly constitutional power) the legislature from discriminating against any school of medicine. It does not prevent the legislature from placing all proper restrictions on the practice of medicine in Arizona, but such restrictions shall fall equally upon every school of medicine, and if one particular school be required to pass stringent examination, and nothing more.

(The Records of the Arizona Constitutional Convention of 1910, Page 635)

[e942844] Description Mr. Cunniff: I think this is one of the most dangerous propositions introduced in this convention. I move when the committee arises, it recommend that this proposition be indefinitely postponed.

Mr. Sims: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 635)

[e942846] Mr. Cunniff: The dangerous features lie in the fact that this may be interpreted as forbidding the legislature to pass any law forbidding any method of healing. Throughout the whole history of medicine you will find schools of healing leaving trails of corpses in their wake through some mania or fanaticism. Under this provision schools of that kind will spring up like mushrooms. The State of Arizona, if this pass, would offer a fertile field for cranks. I think that this is dangerous to the health and safety of every man, woman and child in the state. It says that the law should not discriminate against any method of healing. Heaven only knows what is a method of healing. I have seen, for example, as many as five hundred people with the marks of every known organic disease known to medicine, gathered in a building to go through all sorts of extravagant emotional performances, and the thing was one of the most pathetic and horrible sights I ever saw. I believe the legislature should be empowered to pass laws against such things as this.

Mr. Webb: I desire to say the objectionable part of this bill to which the gentleman from Yavapai has devoted his entire criticism is the material change made by the committee substitute from my original proposition. I have no particular interest in that part of it, but since the committee reported out that substitute I will vote for it; but were it not for the consideration I owe them I would move to strike that off. In answer to the argument of the gentleman from Yavapai: As I understand this (and I have consulted attorneys and doctors on it) it does not say the legislature shall not require the most rigid examinations before allowing anyone to practice medicine but it simply says to give every man an equal opportunity. Do you want them to legislate for some school and against another? The action of the gentlemen of this convention has been that there should be no special privileges or special opportunities. I care not how stringent the examination may be, but I do ask for every school of medicine the same opportunity to pass.

Mr. Feeney: May I ask the gentleman from Graham a question? I have received several letters from, and I have some very good friends and staunch supporters who are, Christian Scientists. Is this going to discriminate against them?

Mr. Webb: This last clause added by the substitute is intended to protect Christian Scientists. If you want to give them a show, you should support the substitute.

Mr. Feeney: I was personally acquainted with that famous and miraculous healer, Dowie, and saw some of his works of flim-flam, and I know there are some methods of healing that should be prohibited, but I do not want such a movement as that instituted by Dr. Worcester in the East.

Mr. Lynch: I move we strike out these objectionable words "or other method of healing."

Mr. Cunniff: I do not think this is so much a question as to what the gentlemen interpret this as meaning, as what it says, and if it carries the intent set forth by the gentleman from Graham, that the examining board shall have such standards as it may desire, the proposition as introduced by Mr. Webb is of absolutely no value, and there is no point in placing it in the constitution.

Mr. Webb: I desire to say the whole cause of the introduction is that we have a medical board in this territory on which some schools are represented, and others not, and we claim for all an equal opportunity to pass, and no special privileges to any.

(The Records of the Arizona Constitutional Convention of 1910, Pages 635-636)

[e942850] Mr. Cunningham: I offer an amendment, that when this committee arises it report that Substitute Proposition Number 60 be adopted by adding the word "recognized" before the word "method," and as amended, be adopted by the committee.

Mr. Webb: I second the motion; I see no objection to that.

(The Records of the Arizona Constitutional Convention of 1910, Page 636)

[e942857] Mr. Short: I fail to understand why we should support a proposition of this kind. Why should we not fill up our constitution with propositions declaring that dry good merchants shall not be discriminated against, or the grocery man, or like propositions. It seems to me that we are filling, or intending to fill, our constitution with useless provisions that do not mean anything. I do not see why we should single out a school of medicine, and say it shall not be discriminated against.

Mr. Webb: I do not think the critics intend to be unfair. Arizona is one of the six or seven out of 49 states and territories that does discriminate in her laws. Forty do not discriminate and declare against it; six or seven do, and Arizona is one of them. That is why this is necessary. Arizona does not discriminate as to dry goods merchants. There are gentlemen on the medical examining board who frankly confessed to me they cannot give a fair and impartial examination to any but brothers in the same school of medicine.

Mr. Jones (Maricopa): Is it the purpose of the gentleman to have every individual school of medicine represented upon this examining board in the territory? We should have an examining board that would take in almost all the doctors in the territory.

Mr. Chairman: The question comes up on the amendment of Mr. Cunningham.

Mr. Weinberger: I would like to ask the gentleman from Cochise, Mr. Cunningham, a question. What does a "recognized method of healing" mean?

Mr. Cunningham: Mr. President, I would be glad to inform the gentleman from Gila if I thought I could do so in any reasonable time. I think he understands the meaning of the word "recognized," and I do not think the gentleman is hardly sincere when he desires me to give the definition.

Mr. Weinberger: I asked because I do not know. I want to vote intelligently.

Mr. Morgan: The gentleman from Graham has talked more sense than any gentleman. I think he is right and I propose to stay with him.

Mr. Tuthill: I did not intend to take part in this discussion, because it might be thought I had some personal motive. We have at present a good medical law; every man who attempts to practice medicine must take the examination. I had to take it, although I had been admitted to practice in California. Now in this examination, treatment of disease has a value of one tenth; there is no examination in therapeutics. You are examined in the fundamentals: anatomy, physiology, etc. the laws on which medicine is based, and there is no reason why the osteopath if he is competent cannot pass this examination and be admitted to practice. You would not call a watchmaker to fix a locomotive, for the reason that he would have no idea of the construction of that locomotive. He might be ever so fine an artisan, and at the same time he does not know the normal condition of what he is trying to fix; and therefore in our examination we question as to the anatomy and pathology, and the matter of treatment is merely detail. That is the smallest part of medicine and no one, I care not what school of medicine he belongs to, if he cannot take a thorough examination in physiology, pathology and anatomy is absolutely unfit to practice medicine or anything else along these lines.

Mr. Webb: I regret very much that there is a division in the Graham delegation, but it seems unavoidable. I will say frankly that the purpose of this bill was to make it possible for osteopaths to practice in Arizona. They are admitted to practice on equal footing in more than forty states; in Arizona we claim they should have the right. They simply ask for fair play; they have a four years' course, and I have here a pamphlet showing the branches taught in their colleges.

Mr. Morgan: I have known of hundreds of cases where the osteopaths and allopaths have failed to cure a man, and the physical culturalists came in and worked a cure. Now, this proposition would not prevent the physical culturalists from practicing in Arizona, or the Mormon elder. If I was sick and had more faith in the administrations [sic] of the Mormon elder, if I choose to have him work on me, would he be any more responsible if I died than the ordinary doctors, Dr. Tuthill, for instance?

Mr. Webb: I see I was mistaken about the length of the course of the osteopaths. They have three terms of nine months.

Mr. Tuthill: In reference to this, I will say that this requires only three years' course. There is no recognized college of first class reputation at the present time outside of osteopaths, which recognize less than a four years' course. Some have longer. I am absolutely fair; I believe the practice of medicine should be made more difficult to us who are practicing. I think we should do like the medical officers of the army, who are required to be examined every five years, to see whether they are studying or traveling the "cocktail route." This may seem foolish and idle, but literature with new discoveries in the line of medicine is accumulating very rapidly, and it requires an enormous amount of time to keep up with the latest researches on the subject.

Mr. Cooper: I wish to say a word in reference to this. I want first to make a statement which will rebuke any charge that I might be prejudiced against the medical fraternity. On the contrary, I have the utmost respect for practitioners of medicine, and there were four physicians in my family, all recognized as able men, and two lecturers in the medical college of the State of Ohio. I want to give two instances, however, which have put me in a position where I want to be left in cases of sickness in my family to employ whomsoever I choose. I have

not lost confidence in medical practitioners. When my oldest child was two years old, he was infected with a peculiar sickness of the stomach; I called in two of the best physicians in Tucson, but during two months' attendance he grew constantly worse, and at last they informed me he was going to die, and that there was no hope for him. After the doctors' departure, a neighbor called and recommended that we call to treat the child a Mexican woman who lived in Tucson. As a last resort she was called, and in three days the child began to improve, and was soon well. Less than five years ago the same thing occurred to another child at the same age. The doctors advised that it be taken to a cooler atmosphere, and in less than forty-eight hours a courier came to me saying that the child was dying, and wanted to come back to town. I brought the child back and was told the child would not live 48 hours, I again appealed to the Mexican woman who had saved the other child, and the child began to improve, and is now health[y] and is attending school. Without any reflection on the medical fraternity at all, I simply say the ailment, whatever it might be, was unknown to the physicians, and known to the Mexican; and if ever my children are sick I want to be able to hunt up this Mexican to save their lives after they have been given up by the regular practitioners.

(The Records of the Arizona Constitutional Convention of 1910, Pages 636-638)

[e942862] Mr. Cunningham: I rise for the purpose, with the consent of my second, of withdrawing that part of my motion to insert the word "recognized."

(The Records of the Arizona Constitutional Convention of 1910, Page 638)

[e942863] Mr. Webb: The second consents.

(The Records of the Arizona Constitutional Convention of 1910, Page 638)

[e942867] Mr. Wells: Then the question comes up on the original question. If you strike that out, it leaves nothing but the four recognized schools of medicine. These cannot be discriminated against. In other words, legislation in the future cannot touch them, and it will be establishing them upon an immovable foundation. In 1903 there were only three recognized schools, the regulars, the homeopaths, and the eclectics; the board of examination created by the state was composed of three regulars and one of each of the other two schools, but the public opinion has now changed to include the osteopath. I have the highest regard, both personally and professionally, for the physicians, but when one says: "Within my profession, within my clinic, is the only correct method of healing, to restore health and vigor to suffering humanity," I say "no."

Mr. Tuthill: I am sorry I have to take up the time of this convention. Mr. Cooper has a Mexican woman whom he wants for a doctor; that is all right. I can mention to Mr. Cooper any number of cases where if a dottering old woman had not been fired and I been called, the child would have died. And Judge Wells has mentioned instances; I could also mention specific instances to him where a woman was treated by an allopath and died, when I am willing to go on oath with a simple operation in three months I could have saved her life. Progressive physicians in Arizona do not deny to Christian Scientists and osteopaths. I have referred [very carefully selected] cases to the Christian Scientists with good

results. A German has said that no matter how crazy a German was he could get a following of crazier people who thought they understood him; [the same applies in the United States.] A man could go out and take water from the Salt River, muddy as it is, color it, and go around in a carriage with a negro to play the banjo, and make \ \$100,000 selling it as medicine.

(The Records of the Arizona Constitutional Convention of 1910, Page 639)

[e942885] Mr. Lynch: I want to renew the motion I made a few moments ago, to strike out the words "or other method of healing." Now, I cannot see any objections to the bill without those words, but I am free to confess that these words in it open the door to question. If you strike out these words, the clause cannot be objectionable to any recognized school of medicine, either the regulars, allopaths or osteopaths.

Mr. Keegan: I second the motion.

(Editorial)

[e942887] Mr. Wells: The motion is that the substitute do pass. On that question I would like to say this. As announced by Mr. Cooper, there have been physicians in my family, among them two brothers, one of the regulars and the other of the eclectics. One of these brothers was my boyhood chum, and I always wished him to succeed until a condition happened which changed my idea and conviction in that direction. Mrs. Wells, my wife, was an invalid, and the law of death was pronounced on her, she being under the charge of, among other physicians, my brother. She was gradually declining, until she tried another method of healing, by which she was restored to health, and she has been healthy for fifteen years and is now a youth, you might say. I know of another case (I am not intending to turn this into a testimonial meeting), I want to state facts to show how I understand there are other methods than materia medica. This patient was taken to the ... [balance of remarks not found.]

Mr. Parsons: Mr. Chairman, I have been keeping as close track of this discussion this morning with reference to Proposition Number 60. I was impressed when I first read it with the fact that we had made some progress in Arizona; that we had got along to where we were going to have four recognized schools of medicine, which, as the gentleman from Yavapai has intimated, up to 1903 was only three. And I thought of others that are excluded, and I thought of a case of which I read, and Dr. Tuthill could doubtless give me the name of the physician from Europe that was brought over to Philadelphia to treat the child of a millionaire there, and he was not either an allopath nor a homeopath, nor an osteopath, but he save the life of that child and cured the deformity, and went home with a million dollars in his pocket. And I say if there is a school of medicine not recognized here that can perform a cure that all the skilled surgeons and physicians that a man rated [sic,worth] 125 million could get in the United States,- who could with his bare hand save this child's life, we had better include that in it. I could stand here from now until the sun goes down telling of instances I have seen myself where electricity applied to diseases has wrought what was considered miracles; when physicians of both the old schools gave them up—where they were restored to health by an old farmer that has a battery and had taken some few lessons, and with that battery could perform miracles and cure people when they were just ready to be put into the grave.

The best thing we can do here is to trust our democratic doctrine. Let us have an equal chance and special privileges to none. The admission that the Doctor has made here is one of the strongest arguments I know of against adopting the minority report. He says that he, with all his education and with his study, has found it advisable to recommend some of his patients to go to he Christian Scientists. What a comment is that, gentlemen of this convention, that he, with all his skill, and with the result of all his study, has found it necessary to advise some of his patients to go to a Christian Scientist? Isn't it better, instead of covering one's mistakes with six feet of sod, to turn it over to the mental healer? Now if a physician will admit—that some of you might say it never happened, but even the gentleman from Graham admits this is true. Now I want to say this, if we are going to amend this law,- if you want to do anything with this question of regulating the practice of medicine, then let us follow the Chinese system,- let us put in here a provision that no physician shall be allowed to charge for his services except when his patients are well. (applause)

Mr. Tuthill: Will you put in a provision that will force the patients to pay the doctor?

Mr. Parsons: I would like to have it that the family physician draws pay for each member of the family while that member is well, and when he is sick the doctor gets no pay. It seems to me that here is the proposition. We are going to fix it so our legislators' hands will be tied and there will be only these four schools of medicine. I say that it is not right. We see there is progress even in the recognized system. First it was the allopath; then the homeopath; now the osteopaths have come. I say let us put ourselves on record as not being in favor of granting special favors to any of this class.

Mr. Tuthill: Mr. Chairman, they seem to have misunderstood my stand. My stand is not against the Christian Scientists. My stand is against the so-called branches of the regular schools, which are used largely in the United States to cover pure quackery. Take up an El Paso paper and you will see two pages of absolute lies. They will cure anything from ingrown toe nails to anything else, all by the same method. If you are going to put this in, make it wide open in the method of healing.

Mr. Kingan: Mr. Chairman, I simply want to call the attention of the committee to the fact that it is now fifteen minutes of eleven o'clock.

Mr. Webb: Mr. Chairman, just one word in answer to the last remarks of the gentleman from Graham. He has said some unfair things, but I hold no resentment for the reason that I know it is a misapprehension. I know the osteopaths have just as high a standard of ethics as any school of medicine I know of. In the gentleman's own school you will find quacks and it is not good professional ethics in any school of medicine to advertise, but the gentleman won't deny that there are members of his own school that are quacks.

Mr. Morgan: Mr. Chairman, before I vote on this question, I would like to tell of something that happened right here in Phoenix. I attended the justice court one morning and I found a doctor was being tried who did not belong to any of the regular schools, and knowing that the trial was coming on, he had the whole justice court full of his patients. There was [sic] also ten or fifteen Phoenix doctors there giving the justice of the peace pointers on how to go to work. "He cured me, he cured me," came from men and women, dozens of them, but the decision of the justice of the peace was, "One hundred dollars and costs," you don't belong to the regular schools.

Mr. Chairman: You have heard the motion. It is on the adoption of the amendment offered by Mr. Lynch. Those in favor say "aye;" those opposed "no."

Mr. Kingan: Mr. Chairman, I wish to say a word in explanation of my vote. I am not opposed to Christian Science, not opposed to osteopathy, but it seems to me the words there are entirely too broad and open the door to all sorts of trickery, and therefore I vote "aye."

(The Records of the Arizona Constitutional Convention of 1910, Pages 639-641)

[e942889] Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 641)

[e942896] Mr. Short: Just one moment. I would like to ask someone who might happen to know, if this will repeal the present laws on the statute book. If it does not, does this mean anything and had better be left out of the constitution?

Mr. Chairman: You have heard the motion. All those in favor of the adoption of the report will signify by saying "aye;" opposed "nay." Call the roll.

Mr. Short: I would like to explain my vote. If this meant anything I would vote for it. Under the present form I will have to vote no.

[e942910] Mr. Chairman: [...] A motion to indefinitely postpone is in order. The question comes up on the motion of Mr. Cunniff to indefinitely postpone. All in favor signify by saying "aye;" opposed "no." The "ayes" have it and it is so ordered.

Mr. Webb: Mr. Chairman, I want a roll call please.

Mr. Chairman: The clerk will call the roll.

Roll call showed 27 "ayes" and 17 "nays."

Mr. Chairman: The motion is carried, and so ordered. The secretary will read the next proposition on the calendar.

[e942922] Mr. Cunniff: Mr. Chairman, I would suggest that we get the committee's substitute on constitutional amendments before we pass any motion to postpone. On hearing the committee's report the other day it is a much better scheme of constitutional amendment and briefer and follows a better model than the one reported by the committee. I would like to hear what the committee has to say before we postpone this one. I move that the consideration of Proposition Number 14 be postponed until such time as the committee's substitute report proposing the form of constitutional amendment [Substitute Proposition Number 54] is before the committee of the whole.

[e942945] Mr. Parsons: Mr. Chairman, I move the adoption of the minority report.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 642)

[e942949] Mr. Cunniff: [...] Mr. Chairman, I would suggest that an amendment be made to that motion. I do not think that we ought to pass a motion here to the effect that this be indefinitely postponed for the reason that Mr. Kingan opposes the creation of any more state offices. I would suggest that Mr. Parsons change the form of his motion if he is willing to do so. Otherwise I would withdraw my second to that motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 642-643)

[e942952] Mr. Parsons: Mr. Kingan gives that as his reason, and I will move that it be indefinitely postponed without modification.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 643)

[e942955] Mr. Chairman: It is moved and seconded that Proposition Number 132 be indefinitely postponed.

Mr. Tuthill: I merely want to put myself on record as opposing the motion. I realize that there are a great many offices created by this convention, and I realize that Mr. Kingan's reason is a good one, but as a physician—a man who has the health of his country greatly at heart—I could not vote for that.

Mr. Weinberger: Mr. Chairman, I will say that the legislature will still have the authority to establish any other board or set of officers it sees fit, and for that reason I will vote to sustain the motion.

Mr. Colter: It is true that the legislature can establish any office that it sees fit, but that is no reason we cannot in this constitution establish such offices as we see fit, and I think we have established offices that are not, in my opinion,

as important as this one. It is an office that instead of being an expense to the taxpayers will be of profit to them, because by having this state sanitary inspector it will keep away a great many epidemics we are now having. We have to pay our health officers whenever these epidemics come \ \$10 a day and expenses. A few dollars spent in preventing this, which an experienced sanitary inspector could do, would mean a great deal. From an economical standpoint, and for the welfare of the people, I certainly insist we should establish an office of this kind.

Mr. Crutchfield: Mr. Chairman, I would like to say just a word. I believe there is in this proposition the germ of a most excellent provision, that if attended to now will save a great great deal of trouble in years to come. I believe that if the gentlemen on the real not creating any more state offices prohibits this proposition from carrying, they will do so on the ground that it is not well taken. The creation of state officers is absolutely necessary. The enabling act provides for it.

Mr. Kingan: Will the gentleman give way for a question?

Mr. Crutchfield: Certainly, sir.

Mr. Kingan: How much taxes have you paid this year?

Mr. Crutchfield: I have not figured my taxes; probably on \ \$7,500, if the gentleman has a right to ask. Mr. Kingan, will you also tell us how much taxes you are to pay?

Mr. Kingan: I have to pay more than that.

Mr. Chairman: The gentlemen will confine themselves to the question.

Mr. Crutchfield: In respect to the matter of laughing away a proposition of this kind, I believe that the gentlemen are providing for an abundance of state officers in many respects, but here I can see would be a serious omission. I believe in holding the medical fraternity responsible for the general health of the public, just as I believe in holding the conference responsible for the preachers they send out, and while I am not a stickler for any profession, I would hold the legal profession responsible for the lawyers they give to us, and I believe in holding the medical fraternity responsible for the public health. But unless we give them the power to control the evils and epidemics that are likely to hold sway over the people at some periods of the year, we cannot hold them responsible, so I should like to see a proper state board of health or sanitary inspector of some form or other established whereby, for instances, when the matter is before us of the introduction of diseased people into this state, that proper regulations for their isolation could be taken. Another instance: when the water supply of the city is apt to be contaminated from the public, some provision that will obviate the necessity of sitting in their homes and waiting for some disease to sweep down upon them. Somebody ought to be to blame when the water supply of a city is contaminated, and I see no other means than some such proposition that is here embodied, providing for the public health and safety. The lack of proper attention in the nick of time will sometimes cause an epidemic to spread through an entire school district. With a proper board this might be obviated, and I see no reason why, on the slight pretext of opposing the creation of another office, that the minority report should be adopted and this very important part of our state government should be done away with.

Mr. Colter: Mr. Chairman, I want to say that it takes a man well educated, one who gives his whole time and his whole life to be experienced in sanitation.

Very few of our doctors are informed on sanitation to the extent that it is necessary, and that is the reason why I insist that we should have a sanitary inspector, a man who is well educated along those lines. I want to say in reply to Mr. Kingan that I am a tax payer, and I have no interest in this matter any more than my interest in the welfare of the people, and that is the reason why I insist on it, from an economical standpoint and the future welfare of this new state.

(The Records of the Arizona Constitutional Convention of 1910, Pages 643-644)

[e942956] Mr. Chairman: You have heard the motion. All in favor of indefinitely postponing will signify by saying "aye;" those opposed "no." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 644)

[e942957] Mr. Hunt: I want the secretary to record the fact that I voted no on this proposition.

Mr. Chairman: The secretary will call the roll.

Mr. Winsor: Mr. Chairman, I believe I can vote for this proposition without being accused of attempting to prepare an office for myself, therefore, I vote no.

(The Records of the Arizona Constitutional Convention of 1910, Page 644)

[e942959] Roll call showed 33 "ayes" and 15 "nays."

The motion prevailed.

[e943030] Mr. Feeney: That was the substitute, if you will remember, in the discussion of the child labor law, which was referred back to the Committee on Labor. We went over the features that were objectionable, and finding that the sentiment of the convention was for the abolition of labor, we tried to write a substitute that would meet what was wanted. We eliminated those objectionable features,—such as the boys selling newspapers, night messenger boys, etc. This is the printed copy of that substitute.

Mr. Bolan: The main objection seems to be that of manufacturing plants; consequently this was referred to us in order that we should eliminate the objectionable points.

[e943032] Mr. Webb: Mr. Chairman, I move that when the committee arises it report to the convention and recommend that Substitute Proposition Number 141 be adopted.

Mr. Coker: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 645)

[e943035] Mr. Chairman: The question is upon the adoption of the committee's report.

Mr. Cunniff: I offer an amendment as follows: "No child under fourteen years of age shall be employed in any gainful occupation at any time during which the public schools of the district in which the child resides are in session; nor shall any child under sixteen years of age be employed underground in mines, or in any occupation injurious to health or morals, or hazardous to life or limb; nor in any occupation at night, or for more than eight hours in any one day."

Mr. Chairman, my reasons for offering this amendment are because I had the pleasure last evening of talking with a member of the National Labor Association and he informed me that they were endeavoring to bring this measure into effect for years. They have worked very carefully and have secured the provision in some states. I think that Arizona would be taking one of the wisest steps in adopting this measure. I do not think it has any evil or bad effect upon children or boys to work at certain kinds of work outside of school hours. I did it myself and was very much aided in so doing, yet I think this provision should be made to protect those children who might be subject to duties and labors that are injurious to them. It seems to me that this is a very thoughtful and carefully worked up measure that should be adopted.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
645-646)

[e943036] Mr. Feeney: The amendment offered by Mr. Cunniff is just what we needed and the Committee on Labor desired to make such a provision, but did not know just how to draw it up. For this reason we are glad now to have the amendment offered. It meets my idea exactly and I think I can speak for the other members of the committee.

Mr. Ellinwood: I heartily agree with the amendment offered but I want to know if the word "occupation" will be interpreted correctly.

Mr. Cunniff: In regard to this I do not think there will be any trouble in interpreting this clause. Hazardous occupations in the states of Massachusetts and New York, which have been carefully examined, are very similar to ours, and "gainful occupation" means an occupation for which wages are paid. This would also mean during the time of school hours. I think the compulsory law will take care of the rest of the day during the school term.

Mr. Webb: I think the gentleman from Yavapai is right in a general way, but I am like Mr. Ellinwood, I think there can be a wrong interpretation placed upon the clause. Does the word "session" mean months or hours?

Mr. Ellinwood: I have come to the conclusion that it means hours.

Mr. Webb: I am in sympathy with this provision and the subject, but what will you do about those people who live so far away from school that it is impossible for them to send their children to school, but have taught them at home. Would this be interpreted as a violation of the law? If not, I believe it is good.

Mr. Feeney: I think there will never be any question of this kind in the country, or on ranches. However, this is principally for the city boy. There will never be any question upon that.

Mr. Standage: I cannot see why it will not apply to ranches and farmers, as many children are kept out of school to work upon farms.

Mr. Cunniff: The compulsory school law should take care of that.

Mr. Webb: I simply say that where parents do not send their children to school they should be allowed to work on farms when they cannot do otherwise.

(The Records of the Arizona Constitutional Convention of 1910, Pages 646-647)

[e943038] Mr. Winsor: I move we adopt the amendment, and when the committee arises recommend it to the convention.

Mr. Parsons: I second the motion of the gentleman from Yuma.

[e943092] Mr. Bolan: In regard to this matter, I would say that the Committee on Labor drafted a new measure providing for a mining inspector and left it to be decided as to what that office should be, but thought that one of the commission might serve in that office and we have left it in the shape.

[Editor's Note: In the text of the Records that follows, a series of motions to adopt, re-refer, and indefinitely postpone Substitute Proposition Number 76 are repeated with slight variations in the proposers for each of the motions. The editors have assumed this is an error. Not only is it unlikely that two identical sets of votes would taken with the same outcome, but voting twice without a motion to reconsider would have been out of order. The editors have used the second version of the motions from the Records in the main descriptions, as these align with the Minutes. The first account of these motions has been used in additional descriptions, apart any additional debates. For this reason, the following sequence of events jumps back and forth between pages 647 and 648 of the Records.]

[e943105] Mr. Winsor: I will call your attention to the rules, which require that propositions must be considered section by section.

Mr. Webb: In answer to the gentleman from Yuma I will say that it is in order to move indefinite postponement of a question at any time before it is adopted.

Mr. Chairman: The question comes up on the motion to postpone indefinitely Proposition Number 76. Call the roll.

Mr. Connelly: I wish to make this explanation, that the question of creating the office of boiler inspector and mining inspector was under discussion and while we provided for one it was also our intention to provide for the other as well.

[e943517] Mr. Crutchfield: Mr. Chairman, a few words might be of assistance to the committee of the whole in the consideration of Substitute Proposition Number 94. Proposition Number 94 was taken entirely from the Constitution of the State of Washington, with two or three small omissions. The committee examined the bill of rights of the State of Washington, and decided to recommend the entire bill of rights from the constitution of the State of Washington, with the addition of four or five propositions, and in the consideration of Substitute Proposition Number 94 you will have the entire bill of rights from the State of Washington with one or two small amendments and four or five sections added. The only amendment of importance, I believe, that is to be noted to the bill of rights of Washington is that there should be no imprisonment for debt, Section 17. The committee recommended, instead of the language of Washington, “except in case of absconding debtors,” the words “except in cases of fraud,” and one or two verbal amendments, with the substitution of bill for doing away with the grand jury system, as already adopted by this committee of the whole in place of the verbiage which they have.

[e944046] Mr. Kingan: Mr. Chairman, I would like to ask a question. Section 8 as it stood before the amendment limited the legislature. It now limits the people. Is the gentleman afraid that the people of Arizona, by the exercise of the lawmaking power in their own hands, can ever so err as to ever irrevocably grant any privilege, franchise or immunity?

Mr. Cunniff: No.

Mr. Cunningham: Then I ask why strike it out?

Mr. Chairman: The motion has been put and carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 660)

[e944047] Mr. Short: Mr. Chairman, I move you that we further amend this section by striking out the word "passed" and inserting the word "enacted."

Mr. Cunniff: I second the motion.

[e944069] Mr. Short: Mr. Chairman, I move the same amendment in regard to this line 13 that the word "enacted" be inserted in place of the word "passed."

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 660)

[e944072] The motion prevailed.

[e944085] Mr. Chairman: If there are no objections section 13 will be adopted as read and is adopted. Section 14.

(The Records of the Arizona Constitutional Convention of 1910, Page 660)

[e944087] Mr. Ingraham: Mr. Chairman, I would like to ask what became of the word "unusual" before "punishment," which I believe is included in the customary phrase.

(The Records of the Arizona Constitutional Convention of 1910, Page 660)

[e944089] Mr. Cunningham: Mr. Chairman, I move to insert after the word "cruel" in line 20 the words "or unusual."

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 660)

[e944091] Mr. Ingraham: Mr. Chairman, the gentleman from Maricopa, the chairman of the committee on bill of rights, says that the words "or unusual" do not occur in the Washington bill of rights. I would say, Mr. Chairman, that the law in the state of New York, concerning execution of criminals by electricity, was attacked on the ground that it conflicted with the provision against unusual punishments. Probably a law to provide for the execution of criminals by that method would even now be held unconstitutional by most courts because it is an unusual punishment. I do not think the custom of electrocution has been sufficiently used so that a court would say that it was not an unusual punishment.

Mr. Cunniff: I would suggest that it was unusual when it was introduced in New York but it is no longer unusual.

(The Records of the Arizona Constitutional Convention of 1910, Pages 660-661)

[e944093] Mr. Franklin: Mr. Chairman, I would suggest that in this section we use the phrase "and in the constitution of the United States," and I therefore move an amendment to the motion of the gentleman from Cochise, Mr. Cunningham, by inserting the word "and" for the word "or." It will read "cruel and unusual."

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944094] Mr. Cunningham: I accept the amendment, with the consent of my second. I think it is the better and more proper word.

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944096] Mr. Chairman: The question is now upon the insertion of the words "and unusual" after the word "cruel" in line 20. As many as favor the motion will answer "aye;" contrary "no." The motion is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944097] Mr. Chairman: [...] If there are no further amendments section 14 will be considered adopted.

[e944102] Mr. Chairman: [...] If there are no further amendments section 15 will be considered adopted as read.

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944108] Mr. Chairman: [...] If there are no further amendments section 15 will be considered adopted as read.

[e944112] Mr. Chairman: [...] Section 16.

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944115] Mr. Cunniff: Mr. Chairman, I move that the word “the” before the word “fourth” in line 6 be stricken out on page 6 [sic. page 4].

Mr. Wood: I second the motion.

[Editor’s Note: The word ”fourth” does not appear in Section 16. However, the Minutes state that ”Mr. Cunniff moved, seconded by Mr. Short, to amend line 6, page 4 by striking out the word ’the’ where it first appears.” The editors have made the amendment in this manner.]

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944117] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944121] Mr. Franklin: Mr. Chairman, in reading this section I notice the words “and no right of way shall be appropriated to the use of any corporation other than municipal until full compensation therefor has been made in money, etc.” Do I understand the framers of this provision to mean that where a municipal corporation takes a man’s property for a street purpose or for an alley purpose, and has a right of way through his property, the property owner shall not be paid any compensation therefore? If this is the intention it seems to me that it is an absolute hardship. There are in this city private residences and under this provision the municipal authorities take that property and do not pay a single cent for it.

Mr. Parsons: Read the first four lines on that page.

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944124] Mr. Franklin: I move you, Mr. Chairman, that the words on line 4 in section 1 “other than municipal” be stricken out.

Mr. Cunningham: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 661)

[e944151] Mr. Chairman: The motion is made that the word “other than municipal” on line 4 be stricken out.

Mr. Parsons: Mr. Chairman, it seems to me that the gentleman from Maricopa misunderstands the meaning of the provision. It reads as follows: “No private property shall be taken or damaged for private or public use without just compensation having been first made or paid into court for the owner.” I take it that the meaning of this provision is that if a municipal corporation desire to open a street that it need not wait to do that until after a hearing would be required to be had in court and condemnation proceedings had, but that they might go ahead and open up the street, but that the question of compensation, so far as it referred to municipal corporations, would be determined afterward, and that the municipal corporation could not be interfered with in its work in laying out a street or highway until after those proceedings were had, but with reference to any other corporations. Before a railroad corporation could take possession and open it up they must first comply with the law, and either pay the compensation agreed upon or deposit the amount in court subject to the order of the court. It seems to me it is simply giving them the right for the time being, but it does not deprive the owner of his right to recover the damages.

Mr. Franklin: Mr. Chairman, I have two objections to this proposition. One is that a municipal corporation can take a man's property, under the theory of the gentleman from Cochise, and afterwards judge what the damages are and pay him for it irrespective of the benefits to be derived. I object to municipal corporations taking a man's property the same as I do any private corporation. I am very familiar with the rule that is recognized in this territory, and it was brought up in a case from Cochise County, where Mr. Perry, as an attorney for a man in Cochise County, had the judgment of the supreme court that you could not take a man's property and afterwards pay him for it, but you must first have the damages and give him due and just compensation before you could take it. After that decision was rendered a statute was enacted in this territory giving corporations, private and municipal, the authority to take the property and afterwards give the damage. I object to that, but I further object to the phraseology in this paragraph, for the reason that I do not believe it means what the gentleman from Cochise says. The phraseology is: "No private property shall be taken or damaged for public or private use without just compensation having been first made, and no right of way shall be appropriate to the use of any corporation other than municipal until full compensation therefore be made in money." As I understand the law about this matter, it is this: We have a general proposition that no private property can be taken or damaged without just compensation—an exception in favor of municipal corporations who may take it and may damage it without just compensation and without regard to the benefits of its use. I therefore think it would be a very serious thing for the property owners in cities and municipalities to have this paragraph enacted.

Mr. Ingraham: Mr. Chairman, there is another feature of the matter that I wish to say just a word about. This clause covers not only the taking of property, but it covers the damaging of property. For instance, in the construction in the city of an elevated railroad down a certain street. The courts in a great many places have held that that was not the taking of property, but it is damaging of property, and you can see the difference between these two terms—the mere taking of property and the damaging of property. This section, were the amendment adopted, might prevent the City of Phoenix from putting a double track railway down some street, if the city were to do it herself, because that might be a damage to the property. It would not be a taking of the property along that street, but it might be a damage to the property and the city could be forbidden from doing that, making that improvement, until all these questions of damage to the property have been settled. In other words you could make that improvement about twenty five years from now[.]

Mr. Chairman: As many as favor the motion to strike out the words "other than municipal" after the word "corporation" on line 4, will signify by saying "aye;" opposed "no." The secretary will call the roll.

Mr. Ingraham: The amendment offered reverts in some particulars to the present rule of the statute. The present rule of the statute is that in cases of municipal improvement, property shall not be damaged without just compensation, but the improvement may be made and the compensation paid afterward. This rule is followed in estimating the damage. The damage is found by taking from the total damage and benefit that the improvement may be to the property. For instance, it is possible to think of a large lot. The city opens a street through the lot. Now the opening of the street is a damage to the lot because it takes a portion of it, but the opening of that street may cause a business

district in that vicinity and this the street would be a great improvement to the remainder of the lot. The rule is in that case that the benefits that have resulted to the property may be deducted from the total loss that would otherwise come. It seems to me that this expression "other than municipal" is put here for the purpose of protecting that peculiar feature of the law and making an exception with municipal corporations.

(The Records of the Arizona Constitutional Convention of 1910, Pages 661-663)

[e944158] Mr. Chairman: The secretary will call the roll.

Roll call showed 20 "ayes" and 28 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 663)

[e944160] Mr. Webb: Mr. Chairman, I ask your indulgence, please, to refer back to section 11. You passed it hurriedly.

(The Records of the Arizona Constitutional Convention of 1910, Page 663)

[e944167] Mr. Chairman: If the gentleman from Graham will wait until we have completed section 16.

(The Records of the Arizona Constitutional Convention of 1910, Page 663)

[e944170] Mr. Chairman: If the gentleman from Graham will wait until we have completed section 16. Are there any further amendments to section 16? If not, the section will be considered adopted as read.

(The Records of the Arizona Constitutional Convention of 1910, Page 663)

[e944172] Mr. Chairman: [...] We will refer back to section 11.

(The Records of the Arizona Constitutional Convention of 1910, Page 663)

[e944174] Mr. Webb: I believe that it is the desire of every member of this convention that the constitution should be brief, concise and to the point, and that there should be as few repetitions as possible, and I will ask the members to kindly refer to Proposition 119 from which I will now read: "Perfect toleration of religious sentiment shall be secured to every inhabitant of this state, and no inhabitant of this state shall ever be molested in person or property on account of his or her mode of religious worship." Now that is covered again, a repetition almost of the identical language in section 11 of this proposition. I therefore move to strike out section 11 from the beginning down to and including "but" where the same occurs in line 3, striking out "hereby" in line 3, inserting after the word "secured" in line 4 "by the provisions of this constitution." It would then strike out "absolute freedom of conscience in all matters of religious sentiment, belief and worship shall be guaranteed to every individual, and no one shall be molested or disturbed in person or property on account of religion or lack of same, but --"

Mr. Weinberger: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 663-664)

[e944191] Mr. Chairman: You have heard the motion. All those in favor signify by saying "aye;" opposed "no." The secretary will call the roll.

Roll call showed 36 "ayes" and 10 "nays."

Mr. Chairman: The motion is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 664)

[e944193] Mr. Jones (Yavapai): Mr. Chairman, I move that in line 6 the words "no public property or money shall be appropriated, etc." down in line 8 to the words "no" be stricken out. That appears in Proposition Number 100.

Mr. Webb: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 664)

[e944194] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 664)

[e944195] Mr. Chairman: Are there any further amendments? If not, we will pass to section 17.

(The Records of the Arizona Constitutional Convention of 1910, Page 664)

[e944201] Mr. Chairman: Are there any further amendments? If not, we will pass to section 17

(The Records of the Arizona Constitutional Convention of 1910, Page 664)

[e944205] Mr. Kingan: Mr. Chairman, what is the meaning of that sentence: "there shall be no imprisonment for debt except in cases of fraud." I move you that these words "except in cases of fraud" be stricken out.

Mr. Cooper: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 664)

[e944209] Mr. Tovrea: Mr. Chairman, that is the only way a man can be imprisoned for debt now. It prevents his getting out of the country and taking all his property with him. I object to having that taken out of here.

Mr. Connelly: I believe under the present law they have it that if a man beats out his board bill he cannot leave town. That was put in there so that if a man beats his board bill he cannot leave town and take his property with him.

Mr. Weinberger: Mr. Chairman, I agree with the gentleman from Pima that the words ought to be stricken out. If a man skips without paying his board bill he is punished for the crime and not guilty of a certain crime. There are certain crimes for certain kinds of debts and he is punished under the criminal law and not under the civil law. So I am in favor of excluding those words.

Mr. Colter: Mr. Chairman, I would like to ask for information. How could Mr. Weinberger consider it a crime if he skipped out without paying his debts? I do not see how you could term that a crime without you called [sic] it a fraud under the statutes. Would he not have to misinterpret [sic, misrepresent]?

Mr. Weinberger: I would refer the gentleman to the statutes. That defines what certain crimes are, and that would give better explanation than I could.

Mr. Colter: As I understand, you have to misrepresent. It is not simply the act of a man leaving town; he would have to misrepresent something.

Mr. Short: Mr. Chairman, I would also like to ask the gentleman from Gila where he would draw the line in defining this as a crime, whether it was because the man owed the debt or because he left town owing to the debt. I can see no good reason for having this stricken out. If it is a case of fraud and a man is trying fraudulently to beat his creditors I think he should be put in jail, and I believe it would be a very fine point to define the criminal law as to whether it was the act of leaving town, or being in debt.

Mr. Kingan: Mr. Chairman, the construction which the gentleman has given this section it seems to me would never be given to it by a court of law. "There shall be no imprisonment for debt except in cases of fraud." That must relate to the debt. The fact of a man getting out of the country cannot relate to the matter of debts. If he gets out of the country after he has created the debt he commits no offense.

(The Records of the Arizona Constitutional Convention of 1910, Pages 664-665)

[e944213] Mr. Cunniff: Mr. Chairman, I move an amendment to the motion to place in lieu of the words "except in case of fraud," "except in cases of absconding debtors."

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 665)

[e944217] Mr. Franklin: Mr. Chairman, when you put this question I would like to object to having this in the constitution for this reason: I think Section 17 is very intelligible. Anybody can extend credit if they see fit. If a merchant in this town, or a hotel keeper, or anybody else wants to extend credit he has a perfect right to do so, but as a condition of giving the man the right to board and lodging this man tells them that he has the money to pay for it and that he will settle for it, and on that basis they extend the credit. If he goes away without paying it he is guilty of fraud. This provision is designed to protect those people in such instances as that, and I think the provision is a very wise one. If a man obtains credit for board and lodging and violates his obligation he ought to be punished criminally. Under the statute I think it has proven a very wise one, and I think this convention will be doing wrong to change it.

Mr. Weinberger: I wish to ask Mr. Franklin, is it not a fact that a person may be convicted for the commission of a crime and not for contracting the debt?

Mr. Franklin: Not at all; if you go into a hotel and you expect board and lodging, under the statute now with regard to innkeepers, and you go away and do not pay, you are guilty of a fraud. If you go into the hotel and the keeper says "I cannot give you board and lodging. I do not know whether you will pay, you say, "If you will give me board and lodging, I will pay you at a certain time." If he extends you the privilege and you leave without paying you are guilty of a fraud and this is designated [sic, designed] to protect that very thing.

Mr. Weinberger: Mr. Chairman, doesn't the statute designate such a transaction a crime?

Mr. Franklin: It absolutely does.

Mr. Weinberger: That is my point exactly.

Mr. Crutchfield: I will say that this was the only instance I believe in which the committee changed the meaning of the Washington constitution. We followed with the words "except in cases of absconding debtors" when covering one part of fraud. There could be a fraud in connection with the creation of a debt as well as the effort to get out of paying it so we chose these words. They are not new words, they are old words, used a long time ago by various constitutions, and are well known, I understand, in their meaning. We took it that these words were the proper words for they covered every possible phase of fraud that a man could be guilty of in connection with either the creating or the refusing to pay a debt.

Mr. Webb: Mr. Chairman, I would like to ask the gentleman from Yavapai, who introduced the amendment, if it would not make immune those who incur debts under false pretenses.

Mr. Cunniff: I beg to reply that the imprisonment would be then for fraud and not for the debt. This is the only case where imprisonment could be for debt. The other is imprisonment for the crime.

Mr. Webb: Mr. Chairman, I take it that in neither instance is it logical to say that the imprisonment is for the debt since I do not think you can imprison a man for debt in out country, but you can imprison him for absconding under certain conditions if the statute so provides, and if the method in which he may incur the indebtedness is criminal. For the indebtedness itself imprisonment is impossible.

Mr. Cassidy: Mr. Chairman, this provision is word for word with the declaration of rights in the Wyoming Constitution, Section 5, which reads: "No person shall be imprisoned for debt except in case of fraud." In Oregon the wording is this way: "There shall be no imprisonment for debt in cases of fraud of absconding debtor." In North Dakota: "No person shall be imprisoned for debt unless upon refusal to deliver up his estate for the benefit of his credit in such manner as shall be prescribed by law or in cases of tort, or where there is strong presumption of fraud." I think these words "in cases of fraud" should stay.

Mr. Chairman: The question is upon the amendment of the gentleman from Yavapai, Mr. Cunniff, striking out the words "except in cases of fraud" in lines 14 and 15 on page 4, and inserting the words "except in cases of absconding debtors." This is an amendment to the motion of Mr. Kingan, striking out the words "except in cases of fraud." The vote will be upon the amendment of Mr. Cunniff.

Mr. Tovrea: I wish to withdraw my second.

Mr. Weinberger: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 665-667)

[e944222] Mr. Chairman: As many as favor the amendment will signify by saying "aye;" opposed "no." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 667)

[e944226] Mr. Chairman: As many as favor the amendment will signify by saying "aye;" opposed "no." The "nays" have it. The motion will come up on the original amendment by the gentleman from Pima County, Mr. Kingan, to strike out the words "except in cases of fraud." As many as favor the amendment will signify by saying "aye;" opposed "no." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 667)

[e944230] Mr. Hunt: Mr. Chairman, I offer an amendment that the words "absconding debtors" be inserted after the word "fraud" in line 15.

Mr. Keegan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 667)

[e944237] Mr. Franklin: Mr. Chairman, now I wish to say to the convention what I believe this section will mean if it is amended as Mr. Hunt says. If you go in good faith to a merchant in this town and get credit there, that merchant has the right to extend credit or not. If he gives you credit and afterwards you are in such condition that you cannot pay for it, and you want to leave this territory, and you do it without paying that bill, you are an absconding debtor. You can be put in prison for not paying a debt of ten dollars or fifteen dollars. I do not think it is the spirit of this convention to have any such thing in the constitution of this state. Where a man contracts a debt under false pretense he should suffer for it, but if in good faith the merchant extends credit, the mere fact that a man cannot pay it, and wants to go elsewhere to better his condition, he [sic] should not cause him to be brought back here prosecuted.

Mr. Webb: Mr. Chairman, I regret very much to differ from my friends in Maricopa, but I do not think imprisonment under these circumstances would be possible under the provision of this section, as undoubtedly it would require law to make that operative. With that inserted it would make it possible for the legislators (if they may be trusted) to pass laws governing these questions and providing for imprisonment for absconding debtors under certain circumstances and conditions, and certainly that appeals to me as being fair. The whole question is as to whether or not we may trust a legislator in Arizona to do the fair thing.

(The Records of the Arizona Constitutional Convention of 1910, Page 667)

[e944243] Mr. Chairman: The question will come up on the amendment of the gentleman from Gila, Mr. Hunt, inserting the words "and absconding debtors" in line 15. As many as favor the amendment will signify by saying "aye;" opposed "no." The "nays" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 667)

[e944249] Mr. Ingraham: Mr. Chairman, I wish to revert again to section 11. Words were stricken out of that section under the statement that similar matter occurred in another proposition, I believe Number 106. I fail to find any reference in Number 106 to that topic.

(The Records of the Arizona Constitutional Convention of 1910, Page 667)

[e944252] Mr. Ingraham: Mr. Chairman, I wish to revert again to section 11. Words were stricken out of that section under the statement that similar matter occurred in another proposition, I believe Number 106. I fail to find any reference in Number 106 to that topic.

Mr. Winsor: Number 119.

(The Records of the Arizona Constitutional Convention of 1910, Page 667)

[e944255] Mr. Ingraham: Let it pass for the present.

(The Records of the Arizona Constitutional Convention of 1910, Page 668)

[e944256] Mr. Chairman: If there are no further objections to section 17 it will be considered adopted as read.

(The Records of the Arizona Constitutional Convention of 1910, Page 668)

[e944263] Mr. Chairman: [...] Are there any amendments to section 18?

(The Records of the Arizona Constitutional Convention of 1910, Page 668)

[e944265] Mr. Parsons: Mr. Chairman, I think we will all, if we punch up our memories a little bit, remember a few months ago about the "immunity baths," that were given certain officials who had been discovered as participating in some of the principal grafting schemes in some of the eastern states. As I remember it, a difficulty similar to this was the constituent element of that "immunity bath," and that when certain individuals were found, or their friends discovered that they had been found, they hurriedly and in some instances by a most disgraceful prostitution of the powers of the courts were subpoenaed as witnesses, and by virtue of being subpoenaed as witnesses they were granted immunity, and there is today a large [number] of those who have been put through that "immunity bath," and if Arizona wants to put in her constitution similar language, and put themselves in a position where if they do get caught, or if the evidence is found and furnished against them, all they will have to do will be to have a subpoena issued, adopt this proposition. If you don't want this kind of a system, strike it out, and I therefore move to strike it out.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 668)

[e944266] Mr. Chairman: The motion is that this section be stricken out.

Mr. Cunniff: Just to cite a case. Johnson, indicted for murder, is being tried. Jones is subpoenaed as a witness in the case. Jones is subpoenaed as a witness in the case. Jones testified "I committed the murder." Johnson goes free and Jones is granted immunity thereby.

Mr. Ingraham: Mr. Chairman, it seems that whenever one of us wants to make an argument that suits our side in the case, we are willing to attack the courts, and on the other hand whenever our side of the argument puts us in that position we plead the immaculateness of the courts. I am surprised to see an attack on the judges coming from the gentleman from Cochise. There are two sides to this question. I suppose that some persons have avoided prosecution under this provision who perhaps ought to be prosecuted. I am willing to admit

that, but this is a wise proposition nevertheless. To make a specific illustration: Suppose bribery is committed. Now it is just as wrong to take a bribe as to offer a bribe. Both parties to the transaction are equally guilty, culpable, but so long as the rule of law is as it is, that a man cannot be compelled to give evidence against himself, you will never succeed in proving a case of bribery, except by third parties, and these instances are extremely rare. However, if you have this provision on the statute books or in your constitution, and the district attorney gets a case of this kind and gets one of the parties scared, one of them might be willing to talk and give evidence under an arrangement with the district attorney that he [several words missing] further than this. If the district attorney brought the man and put him on the stand,—one of the parties to the bribery,—he could compel him to testify by offering him immunity. Another very similar case is that of illegal rebating. Nearly always the legislature will make the taking of a rebate just as great an offense as giving a rebate, in the case of railroad freights and fares. Now if the party who takes a rebate— that is, the shipper— is allowed to go in and testify and not be prosecuted you can reach the officials of the railroad. If you have not this provision in the constitution you cannot compel testimony because both of the parties can stand back upon their constitutional rights and say “I cannot be compelled to testify because I have committed an offense.” Now it seems to me a wise provision to put the control of the situation in the hands of the district attorney and the court, in these difficult cases, where it is hard to get evidence, to allow those officers to grant immunity to one of the parties in a crime in order that they may convict the other.

Mr. Cunningham: Mr. Chairman, I would like to state the two cases cited as an example by the gentleman from Yuma were bribery and rebate of freights. We can now see who in cases of bribery would be the man that would take the “immunity bath,” it would be the man that offered the bribe, for no one has ever heard of a man seeking to be bribed, so that the man was the least to blame. Now another proposition would be the man who would get the punishment and the man who offered the bribe would be the man who was washed with the whitewash brush. In a case of rebating do you gentlemen believe that a railroad company to see itself punished would wait for the shipper to come and be summoned as a witness against them? They would be summoned and the poor devil who took advantage of the rebate would be the man to be punished.

Mr. Weinberger: I would like to ask the gentleman from Cochise a question, I would like to ask if he ever heard of a man who offered a bribe turning state’s evidence?

Mr. Cunningham: I am not a historian and I cannot answer the question.

Mr. Weinberger: He would have to have a great knowledge of ancient history if he could cite such cases. We have heard of a great many instances in which those who have received bribes have turned state’s evidence.

Mr. Jones (Yavapai): I do not think we have to go back very far in ancient history to find where the man who gave the rebate turned state’s evidence.

Mr. Parsons: Mr. Chairman, in reply to the remarks of the gentleman from Yuma, Mr. Ingraham, I want to call attention to the fact that right now the district attorney can do those things he is talking about, but by the adoption of this section you are going to give the other fellow a chance to jump right in and get a subpoena served on himself, and he will be where the district attorney cannot prosecute him. The district attorneys know right well that the law in

any state permits a district attorney and a trial court to make an arrangement with a person who is charged with a crime jointly with others by his turning evidence and helping to convict the [words missing] the real party goes in this fix-up by an agreement. He is arrested, and says "I know the facts about this. I can furnish you the evidence. He is the real guilty party," and they both go free. To answer the gentleman from Yuma, Mr. Winsor, who says that a man must be a student of ancient history, I want to tell him within Pittsburgh there were thirty-eight givers of bribes who offered to plead guilty. In Philadelphia twenty-seven more givers of bribes did this. The Associated Press and the magazines of this country have been publishing about them, and many of them are occupying a colony over in Canada. I want to say to you that you put this law in our constitution to accomplish what the chief advocate of the measure has said he wants in there, and I believe you just furnish a loophole for the big fish to get out every time they want to.

(The Records of the Arizona Constitutional Convention of 1910, Pages 668-670)

[e944268] Mr. Chairman: The question comes up on the motion of the gentleman from Cochise, Mr. Parsons, to strike out section 18, seconded by Mr. Cunniff. Those in favor of the motion say "aye;" opposed "nay." The chair is in doubt. Those in favor of the motion to strike out please rise. Those opposed now rise.

Rising vote showed 17 in favor and 20 against.

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944274] Mr. Cassidy: I move to amend by striking out the words "and offense against the laws of the state," and insert the words "bribery or illegal rebating."

Mr. Parsons: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944275] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944277] Mr. Chairman: Any objections to section 18? Hearing none we will pass to the next.

[e944279] Mr. Chairman: Any objections to section 18? Hearing none we will pass to the next.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944284] Mr. Ingraham: I would just like to point out an error made in amending section 11. I move to reconsider the vote wherein the sentence in lines 6, 7, and 8, page 3, was stricken out. There is no provision for this at any time.

Mr. Cunniff: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944289] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944295] Mr. Chairman: Now the question comes up on the original motion to strike out the sentence in lines 6, 7, and 8, on page 3. Those in favor of the motion to strike out this sentence of section 11 will say "aye;" those opposed "nay." The "nays" have it and the motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944297] Mr. Cassidy: I move to strike out section 19.

Mr. Feeney: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944300] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944308] Mr. Chairman: Any objection or correction to section 20?

[e944343] Mr. Chairman: [...] Any to section 22?

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944344] Mr. Cunningham: I move to amend by striking out the words "or criminal" in line 10, page 5.

Mr. Parsons: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944345] Mr. Crutchfield: I am opposed to striking out those words. I would like to cite you a personal letter from Judge Slaugh of California, who believed strong in such a measure. He thinks that it is sufficient evidence to convict or free a man if nine out of twelve jurors render their decision in harmony without the concurrence of all.

Mr. Weinberger: I would like to ask the gentleman a question if he will yield.

Mr. Crutchfield: I yield.

Mr. Weinberger: Do you know whether that is constitutional or not?

Mr. Crutchfield: I cannot say, but I think some of the constitutional lawyers can tell you.

Mr. Weinberger: You are speaking on this measure.

Mr. Crutchfield: I give you the quotations from Judge Slaugh, one of the best lawyers and judges in the west.

Mr. Weinberger: I believe it is unconstitutional.

(The Records of the Arizona Constitutional Convention of 1910, Page 670)

[e944346] Mr. Chairman: The question comes up on the motion of Mr. Cunningham. Those in favor of the motion will say "aye;" those opposed "nay." The "ayes" have it.

(The Arizona Republican, Page 671)

[e944347] Mr. Osborn: In line 8, page 5, I move to amend by striking out the words "the legislature may provide" and insert in lieu therefore the words "provision may be made by law."

Mr. Winsor: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944348] The motion prevailed.

(The Arizona Republican, Page 671)

[e944351] Section 22 approved as amended.

(The Minutes of the Arizona Constitutional Convention, Page 293)

[e944354] Mr. Jones (Yavapai): I move to amend section 20, if you will grant permission to turn back to section 20. I move to amend section 20, line 3, page 5 by adding to the end thereof, the words "by those entitled to such right."

Mr. Wood: I second the motion.

[e944356] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944360] Mr. Jones (Yavapai): I move to amend section 20, if you will grant permission to turn back to section 20. I move to amend section 20, line 3, page 5 by adding to the end thereof, the words "by those entitled to such right."

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944362] Mr. Jones of Yavapai moved, seconded by Mr. Wood, to amend Section 20, line 3, page 5 by adding the words at the end thereof "by those entitled to such right"; lost.

[Editor's note: The Records state that this amendment was adopted. In light of the fact that the version of this section adopted into the final Constitution does not include the inserted text, the editors have decided to represent Jones' amendment as rejected, following the Minutes' account.]

(The Minutes of the Arizona Constitutional Convention, Page 293)

[e944364] [Editor's note: As Jones' amendment was rejected, Section 20 was implicitly agreed as is.]

(Editorial)

[e944370] Mr. Chairman: If there are no objections to section 23 it will be adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944374] Mr. Cunningham: I would like to know what is meant by final judgment.

Mr. Wood: Supreme Court.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944381] Mr. Parsons: I move to strike out the words "before final judgment," in line 20, page 5.

Mr. Jones (Maricopa): I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944387] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944392] Mr. Chairman: Any amendments to section 24?

[Editor's Note: As the Committee of the Whole moved on to consider section 23, the editors have assumed that section 24 was implicitly passed.]

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944394] Mr. Chairman: Any amendments to section 24?

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944398] Mr. Weinberger: I move to amend by striking out section 24.

Mr. Jones (Yavapai): I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944399] Mr. Chairman: Those in favor of the motion of the gentleman from Gila to strike out section 24 will say “aye;” those opposed “no.” The secretary will call the roll.

Roll call showed 27 “ayes” and 13 “nays.”

Mr. Chairman: The motion is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944402] [Editor’s Note: Section 24 as amended—i.e. stricken—was adopted.]

(Editorial)

[e944435] [Editor’s Note: The Committee’s report was referred to the Convention.]

(Editorial)

[e944441] Mr. Franklin: I move that the committee do now arise and report progress.

(The Records of the Arizona Constitutional Convention of 1910, Page 671)

[e944444] Mr. Orme moved, seconded by Mr. Osborn that when the Committee arise it recommend that Propositions Nos. 78 and 66 be made a special order for Committee of the Whole at 2 p. m., November 26, 1910.

[Editor’s note: The account of Orme’s motion in the Records notes Weinberger as the seconder, and does not mention Proposition Number 66.]

(The Minutes of the Arizona Constitutional Convention, Page 294)

[e944450] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 672)

[e944453] Mr. Chairman: We will now vote on the motion of the gentleman from Maricopa County that the committee now arise and report progress. Those in favor of the motion will answer “aye;” those opposed “nay.” The “ayes” have it.

### **32.39 Friday, 25 November 1910, at 19:30 (s16210)**

[e943225] Mr. Chairman: The committee of the whole will come to order. The first matter for consideration is section 25 of Substitute Proposition Number 94.

(The Records of the Arizona Constitutional Convention of 1910, Pages 672-673)

[e943226] The committee of the whole will come to order.

(The Records of the Arizona Constitutional Convention of 1910, Pages 672-673)

[e944548] Mr. Chairman: The committee of the whole will come to order. The first matter for consideration is section 25 of Substitute Proposition Number 94.

(The Records of the Arizona Constitutional Convention of 1910, Pages 672-673)

[e944549] Mr. Crutchfield: The committee in recommending this section is conscious of the fact that it has used a word that can hardly be understood or defined. In the third line of the sixth page the word "third degree" is used. Though there has come to be quite a clear understanding as to something of what that means, it seems proper that as this is the expression of the fundamental principles connected with the rights and liberties of the human race, it is appropriate to have something such as this. We have had some very striking illustrations of rank injustice that has resulted from the practice the police sometimes follow in extorting confessions from prisoners under the influence of mental anguish, and while the word "third degree" may mean one thing in Phoenix and another in Los Angeles and another in Denver, it means the worst that each bunch of police and detectives can do to extort confession. This endeavors to strike at that, and if the words are offensive we will be glad to have it amended, but we hope you will embody the idea.

(The Records of the Arizona Constitutional Convention of 1910, Page 673)

[e944550] Mr. Cunniff: I move that this be adopted as amended.

Mr. Winsor: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 673)

[e944551] Mr. Baker: Do you intend to array this constitutional convention on the side of criminals; do you intend to put the state of Arizona in the position of protecting criminals? Is it possible that this constitutional convention is going to write a decree of this kind, that it will not try to protect the people? I am astounded that these gentlemen have run absolutely wild and crazy about a proposition of this kind.

Mr. Chairman: It has been regularly moved and seconded that section 25 be adopted as read.

Mr. Cunningham: It seems to me the language used in this section is entirely too broad. "The right of persons accused of crime is to be inviolate in person,"—what does that mean? "Shall not be denied or abridged." Does this mean that a man who has stolen goods on his person cannot have them taken away? I ask for information.

Mr. Crutchfield: I believe I had rather leave it to one of those lawyers.

Mr. Baker: I had rather leave it to a preacher.

(The Records of the Arizona Constitutional Convention of 1910, Page 673)

[e944552] Mr. Jones (Maricopa): I move that section 25 be stricken out.

Mr. Keegan: I second the motion. I think this is a mischievous thing to go into a constitution. I understand it was designed to meet a condition that should be corrected, but this is not the place to take care of the proposition.

(The Records of the Arizona Constitutional Convention of 1910, Page 673)

[e944556] Mr. Chairman: You have heard the motion of the gentleman from Maricopa to strike out section 25 from this proposition. All who are in favor will say "aye" as their names are called; opposed will say "no."

Roll call showed 27 "ayes" and 12 "nays."

Mr. Chairman: Section 25 is stricken from this proposition.

(The Records of the Arizona Constitutional Convention of 1910, Page 673)

[e944559] [Editor's Note: With the adoption of Jones' motion to strike out Cunniff's motion to adopt the section was made obsolete.]

(Editorial)

[e944561] Mr. Chairman: Section 25 is stricken from this proposition. What will you do with section 26?

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944563] Mr. Chairman: [...] What will you do with section 26?

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944567] Mr. Cunningham: I move you that section 26 be stricken out.

Mr. Baker: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944569] Mr. Crutchfield: I will just say that section 26 has already been adopted by this house, and if I am not mistaken has passed the roll call and been ordered engrossed. We just copied it in its place.

Mr. Cunningham: Mr. Chairman, it is wrong to put this in the bill of rights. There ought to be some method of getting a fair jury in the court, and simply to summon a jury in the open will give you the same men on the jury as long as the constitution stays in force. Therefore, you ought not to have it in the constitution unless it provides that a fair jury be drawn, which this does not provide.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944570] Mr. Chairman: All in favor will answer "aye;" contrary "no." The "ayes" have it and it is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944572] Mr. Chairman: All in favor will answer "aye;" contrary "no." The "ayes" have it and it is so ordered. Any amendments to section 27?

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944574] Mr. Chairman: [...] Any amendments to section 27?

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944575] Mr. Baker: I move an amendment to strike out the words “as shall be provided by law” on lines 11 and 12.

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944576] Mr. Jones (Yavapai): I move an amendment by striking out the whole of section 27.

Mr. Cunniff: I second the motion. It has already been adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944577] Mr. Cunningham: I think this has been adopted in another place, and the revision committee will necessarily find it if it has carried. I do not know whether the other provision is exactly like this or not.

Mr. Cunniff: This provision has already been before the committee, and has been adopted and referred to the Committee on Style, Revision and Compilation.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944578] Mr. Chairman: Gentlemen, you have heard the motion to strike out part of line 11, which motion was amended to strike out the entire section. The question is now on the striking out of the whole section. All in favor will say “aye;” contrary “no.” The “ayes” have it, and it is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944580] [Editor’s Note: With the adoption of Jones’ motion to strike out Baker’s motion to amend the section was made obsolete.]

(Editorial)

[e944582] [Editor’s Note: Section 27 as amended—i.e. stricken—was agreed]

(Editorial)

[e944583] Mr. Chairman: [...] Any objections to section 28?

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944584] Mr. Feeney: I would like to know what this means anyway. I move that this be stricken from the bill of rights.

Mr. Kingan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 674)

[e944586] Mr. Crutchfield: It seems to me there is nothing wrong with that section. It provides that no privilege or right shall be granted, the exercise of which right or privilege or right shall be granted, the exercise of which right or privilege shall endanger the lives, safety or moral welfare of the citizens of the state. In case a man suffers an injury the corporation can claim it had the right to engage in the business engaged in, and therefore the injury coming naturally

is not a part of their responsibility; that they are not guilty of negligence, etc. I do not see anything that might be objected to.

Mr. Cunniff: There is a law that permits the incorporation a mining company, and the mining company after it is incorporated has certain rights and privileges, and in exercising those rights and privileges under the articles of incorporation [it] endangers the lives of miners. Suppose a miner was killed. With such a provision as this, the law giving him right to damages would be unconstitutional.

Mr. Feeney: The other day when we abrogated the fellow-servant doctrine, I thought we gave to all the people the opportunity of getting the assistance of the courts whenever they were in danger. If this was written by the newspaper men to fill space, I would consider it a good proposition, but I cannot see where it can apply after we have written an employers' liability act, and wiped out forever the doctrine of fellow-servant.

Mr. Kingan: We have heard considerable about "jokers" during this convention, but this contains the biggest joker so far. "As would endanger the peace, safety or moral welfare." The State of Arizona licenses the sale of liquor, and this law in the eyes of a great many persons would prohibit such sale, as endangering the moral welfare of the State of Arizona.

Mr. Feeney: This is a joker from the dry side of the question; I could not savvy it.

Mr. Webb: I do not know what you are considering, as I have just stepped into the convention chamber. I have heard but the last two speeches, but it appeals to me as the proper thing. (laughter) I ask the gentleman from Cochise, my friend Mr. Feeney, if he thinks the law should permit any firm, corporation or person to exercise any right or privilege which would endanger the liberty, the peace, and the happiness of the boys and girls, the citizens of Arizona.

Mr. Feeney: I would state in granting licenses or rights we have shown no special privileges to any, and we came down here advocating "special privileges to none and equal rights to all." I did not know when I ran into this that this was one of the so-called "jokers," as Mr. Kingan says.

(The Records of the Arizona Constitutional Convention of 1910, Pages 674-675)

[e944588] Mr. Chairman: You have heard the motion to strike out section 28. All in favor will answer "aye;" contrary "no." The "ayes" have it, and it is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 675)

[e944589] [Editor's Note: Section 28 as amended—i.e. stricken—was agreed.]

(Editorial)

[e944591] Mr. Chairman: [...] Any amendments to section 29?

(The Records of the Arizona Constitutional Convention of 1910, Page 675)

[e944594] Mr. Baker: Mr. Chairman, I move that section 29 be stricken from the bill.

Mr. Webb: I want to second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 675)

[e944597] Mr. Feeney: I move to amend that motion by striking out all following the word "then" on line 20, to the end of the section.

(The Records of the Arizona Constitutional Convention of 1910, Page 675)

[e944599] Mr. Connelly: Is another amendment in order?

Mr. Chairman: An amendment is out of order. A motion to strike out an entire section has precedence over an amendment to strike out part.

Mr. Winsor: A ruling of that kind would be manifestly unfair, as a section might be amended so it would be favorable to the majority, and by putting the motion to strike out the entire section at a time when it is in a form not favorable to the majority would defeat the true expression of the members.

Mr. Webb: If the chair has ruled, I have nothing to say. If it has not ruled, I desire to say that one gentleman proposed an amendment to this proposition that the entire section be stricken out. Now, an amendment is susceptible of one amendment, and the gentleman from Cochise moved to amend that amendment, and certainly no more amendments are in order.

(The Records of the Arizona Constitutional Convention of 1910, Pages 675-676)

[e944600] Mr. Chairman: The chair so rules. The question is now on the amendment of Mr. Feeney. All who are in favor of the amendment will say "aye;" contrary "no." The secretary will call the roll.

Roll call showed 24 "ayes" and 17 "nays."

Mr. Chairman: The motion passed.

(The Records of the Arizona Constitutional Convention of 1910, Page 676)

[e944657] Mr. Connelly: I would like to make an amendment to Judge Baker's motion. I move that section 29 be adopted as amended.

Mr. Roberts: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 676)

[e944658] Mr. Baker: I want to call attention to the fact that you should not put in your constitution a provision of this kind. It is absolutely unnecessary and uncalled for. The people at all times have the right to organize into unions for the advancement of their interests and refrain from any work for any purpose.

Mr. Chairman: The question is on the amendment to strike out section 29.

Mr. Cassidy: Under the Enabling Act we must provide in this constitution that no law impairing the obligation of contracts shall ever be passed. Now it seems to me that if we pass this section as has been amended, we will come very nearly passing a law impairing the obligation of contracts. "The people individually shall have the right for any reason deemed sufficient to them to quit work." That is, any person who makes a contract for a certain length of time has the right to break that contract any time he sees fit. If it does not mean that, I do not know what it does mean. Is not that impairing the obligation of contracts to say any man making a contract has the right to break it for

any reason he sees fit? It seems to me if we put that provision in here we are violating that section of the constitution.

Mr. Baker: Why do you not take away all the power of the government to issue injunctions? Why do you not strip it of all power? Do not trust anybody with power. Do not trust any law. Take all law away. Why do you not do it? You must have trust somewhere or other. I do not care whether you like legislatures or not. You have got to trust somebody to exercise your power. The best way for you to do is to vote to have no constitution at all, no law.

Mr. Sims: I would like to know what law this was taken from. Is it copied from some other constitution?

Mr. Crutchfield: I am not certain, but I believe it was taken from Proposition Number 104 which was referred to us.

Mr. Baker: It was never taken from any constitution of any state in the union that was ever a state. I'll bet you that.

Mr. Cunniff: That looks very much like the language of Judge Alton B. Parker, chief justice, in deciding the case of Enterprise Association vs. the Steam Fitter. It is now the law of New York state by the decision of that Court of Appeals.

(The Records of the Arizona Constitutional Convention of 1910, Pages 676-677)

[e944659] Mr. Chairman: The question is on the motion to strike out section 29. All in favor of that motion will answer "aye;" all opposed "no." The secretary will call the roll.

Roll call showed 29 "ayes" and 13 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 677)

[e944661] Mr. Chairman: [...] The next is section 30.

(The Records of the Arizona Constitutional Convention of 1910, Page 677)

[e944662] Mr. Baker: I move to strike out that section.

Mr. Webb: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 677)

[e944663] Mr. Feeney: That is taken from the Constitution of Oklahoma, it is constitutional law, and I see no reason for striking it out. I believe it is a valuable proposition.

Mr. Ingraham: As has been stated, that comes verbatim from the constitution of Oklahoma, and I want to say just a word in favor of the proposition. Our constitutions are full of checks upon the legislature and checks upon the executive, and here is an attempt in the constitution of Oklahoma to put a slight restraint upon the injunction power of the courts. I want to call the attention of the gentlemen of the convention to the peculiarities of the injunction procedure. A judge in the injunction proceeding decides what the law is. He applies the law as he decides it to the facts in hand. He makes an order, a restraining order, saying that the defendant shall not do certain things. If the defendant does some act that is claimed by the plaintiff to be a breach of the injunction, the defendant is brought into the court, and the judge, having made

the injunction order, having determined what the law is, having applied the law to the facts in the case, now tries the accused for having violated the law as he has determined it to be and says to the defendant: "I find you guilty; I punish you thus and so." This comes the nearest to despotism of anything known to our law. It seems to me that that this proposition, to provide that where a contempt is committed outside of the court, outside of the presence or hearing of the judge, is no more than a reasonable measure. It merely provides that the judge shall act under the same principle of jury trial which has been a right of English men and women for hundreds of years.

(The Records of the Arizona Constitutional Convention of 1910, Page 677)

[e944664] Mr. Chairman: Gentlemen, you have heard the motion of the gentleman from Maricopa, seconded by the gentleman from Graham, to strike out all of section 30. Those in favor of the motion will say "aye;" those opposed "nay," as their names are called.

Roll call showed 30 "ayes" and 13 "nays."

Mr. Chairman: The motion is carried and section 30 is stricken out.

(The Records of the Arizona Constitutional Convention of 1910, Page 677)

[e944665] [Editor's Note: Section 30 as amended—i.e. stricken—was agreed.]

(Editorial)

[e944666] Mr. Chairman: [...] Any objections to section 31?

(The Records of the Arizona Constitutional Convention of 1910, Page 677)

[e944667] Mr. Baker: I move to strike out all of section 31 as it is useless and worthless because the United States provides for that in exact terms.

Mr. Webb: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 677-678)

[e944668] Mr. Osborn: Mr. Chairman, if we strike out section 31 I think that we might as well strike out the whole thing.

Mr. Jones (Maricopa): I would like to know what an "ex-post facto" law is so that I can vote.

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944669] Mr. Chairman: The question is on the motion of Mr. Baker to strike out section 31. Those in favor of the motion will answer "aye;" those opposed "no." The "nays" have it and the motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944670] Mr. Chairman: [...] Section 31 is adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944671] Mr. Chairman: [...] Are there any objections or corrections to section 32?

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944672] Mr. Baker: Mr. Chairman, I move to strike out all of section 32. I never in all my life found it necessary to carry a six shooter and I have passed through nearly all the scenes and experiences of this wild and unsettled country. Carrying arms is dangerous. It is a very dangerous thing to oneself and to one's associates and should not be permitted under any circumstances. I have seen lives lost and innocent blood spilled just through the carrying of arms, concealed weapons, under one's coat or shirt. It is most dangerous and vile, a practice that should never be permitted except in times of war and never in time of peace. Think of it: carrying a six shooter or a knife or some other terrible arm or defense, and then in a moment of heated passion using that weapon. I do not believe in it, and I move to strike out that section.

Mr. Webb: I second the motion for I agree with the gentleman from Maricopa that it is a pernicious thing and should not be included in this bill. I, too, in all my experiences have never seen the time when it was necessary to carry concealed weapons except in times of Indian troubles, and I have had many and varied experiences, in cow camps. I have been in many places where some might deem it necessary to come armed but I did not, nor do I believe it necessary to do so now. We are no longer a frontier country, and if we did not need arms in the early days of pioneering in this country we do not now, and I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944673] Mr. Crutchfield: I move to amend by inserting after the word "impaired" in line 9, page 7, the following words: "But the legislature shall have the right to regulate the wearing of weapons to prevent crime."

Mr. Baker: That is all right and I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944674] Mr. Parsons: Mr. Chairman, I move to amend by striking out all of section 32 and substituting the following in lieu thereof: "The people shall have the right to bear arms for their safety and defense, but the legislature shall regulate the exercise of this right by law."

Mr. Feeney: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944675] Mr. Chairman: The question comes up on the amendment offered by the gentleman from Cochise, Mr. Parsons, to strike out section 32, and insert in lieu thereof his amendment. Those in favor of this motion answer "aye;" opposed "nay." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944676] Mr. Baker's motion to strike out Section 32 lost by the following vote:

Ayes—Baker, Cassidy, Cobb, Cunningham, Curtis, Ellinwood, Franklin, Hutchinson, Jones, F. A., Keegan, Kinney, Langdon, Lovin, Moore, Orme, Pusch, Scott, Short, Simms, Mit., Standage, Tovrea, Webb. Total 22.

Nays—Bolan, Bradner, Coker, Colter, Connelly, Cooper, Crutchfield, Cunniff, Feeney, Ingraham, Jacome, Jones, A. M., Kingan, Osborn, Parsons, Roberts, Sims, R. B., Weinberger, White, Wells, Winsor, Wood, Mr. President. Total 23.

Absent—Goldwater, Lynch, Morgan, Tuthill, Wills.

Excused—Doe, Moeur.

(The Minutes of the Arizona Constitutional Convention, Page 297)

[e944677] Mr. Chairman: [...] The question now comes up on the amendment offered by Mr. Crutchfield to insert after the word “impaired” in line 9, page 7, the following words: “But the legislature shall have the right to regulate the wearing of weapons to prevent crime.” Those in favor of the amendment say “aye;” those opposed “nay.” The secretary will call the roll.

Roll call showed 22 “ayes” and 23 “nays.”

(The Records of the Arizona Constitutional Convention of 1910, Pages 678-679)

[e944678] Mr. Chairman: The motion is lost, and section 32 will stand approved as read unless there are other amendments.

[e944679] Mr. Chairman: [...] Are there any objections to section 33?

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944680] Mr. Chairman: [...] Are there any objections to section 33? If not we will take up the next section.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944681] Mr. Chairman: [...] Any objections to section 34?

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944682] Mr. Webb: I move to strike out section 34.

Mr. Jones (Maricopa): I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 679)

[e944683] Mr. Cassidy: This is in all constitutions and I think it should be in Arizona's.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944684] Mr. Chairman: All those in favor of the amendment of the gentleman from Graham will answer “aye;” those opposed “nay.” The chair is in doubt. Those in favor of the amendment will rise; those opposed will rise.

Rising vote showed 18 in favor and 23 against.

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944685] Section 34 approved as read.

(The Minutes of the Arizona Constitutional Convention, Page 297)

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944691] Mr. Cunningham: Mr. Chairman, I move to strike it out as it is absolutely the situation without stating it.

Mr. Curtis: I second the motion.

[e944696] Section 38 approved as read.

(The Minutes of the Arizona Constitutional Convention, Page 297)

[e944697] Mr. Sims: I ask consent to revert to section 21.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944698] Mr. Chairman: If there are no objections we will revert to section 21.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944699] Mr. Sims: Mr. Chairman, I move that in line 5 where it says "for murder or treason" be stricken out, and put in "capital crimes." We have capital crimes between murder and treason.

Mr. Bradner: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944700] Mr. Chairman: You have heard the motion to strike out the words "murder or treason" in line 5, and insert the words "capital crimes." Are you ready for the question? All in favor say "aye;" opposed "nay." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944701] Mr. Connelly: Is there not some other capital crime besides murder and treason?

Mr. Ingraham: The crime of rape in many cases is made capital, and I cannot see any reason why this should not be included in this same list.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944702] [Editor's Note: With the rejection of Sims' amendment, Section 21 was adopted.]

(Editorial)

[e944703] Mr. Feeney: Mr. Chairman, I will make a motion and somebody can make a motion to reconsider. I would like to refer back to section 16, page 4, line 4, to strike out three words "other than municipal."

Mr. Osborn: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 679)

[e944704] Mr. Chairman: Is your motion to reconsider section 16?

Mr. Baker: I would like to understand where this matter is.

Mr. Chairman: Just a moment, I wish to hear the motion.

Mr. Feeney: I made a motion to refer back to section 16, line 2. I want to amend by striking out the words "other than municipal."

Mr. Baker: Section 21 is an important section.

Mr. Chairman: If there are no objections we will refer back to section 16. You have heard the motion to strike out the words "other than municipal."

Mr. Connelly: Mr. Chairman, that has been voted on once.

Mr. Cunniff: Mr. Chairman, I understand the motion of the gentleman from Cochise, Mr. Feeney, is a motion to reconsider. I would like to ask if he voted "aye" to strike out.

Mr. Feeney: I voted "aye" to strike out, sure.

(The Records of the Arizona Constitutional Convention of 1910, Page 680)

[e944706] [Editor's Note: The Committee does not seem to have referred back to the section.]

(Editorial)

[e944707] Mr. Jones (Yavapai): I move the committee do now arise and report to the convention and recommend the adoption of Proposition Number 94 as amended.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 680)

[e944714] Mr. Jones (Yavapai): I move the committee do now arise and report to the convention and recommend the adoption of Proposition Number 94 as amended.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 680)

[e944715] Mr. Baker: Will the gentleman yield? I am interested in section 21. If it has been amended properly I have no objection. It says: "All persons charged with crime shall be bailable by sufficient sureties, except for murder and treason, when the proof is evident or the presumption great." That is a foolish expression. It is absolutely wrong. It ought to be amended, "all persons charged with crime shall be bailable except for capital offenses, when the proof is evident and the presumption great."

Mr. Chairman: You have heard the motion that when the committee arises it report to the convention and recommend that Proposition Number 94 be adopted as recommended.

(The Records of the Arizona Constitutional Convention of 1910, Page 680)

[e944709] Mr. Osborn: Mr. Chairman, I would like to amend the motion of the gentleman from Yavapai that when the committee arise the recommend that they have examined Proposition Number 94 and that it be indefinitely postponed.

Mr. Standage: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 680)

[e944712] Mr. Chairman: You have heard the motion of the gentleman from Maricopa. All in favor of the motion will say "aye;" contrary "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 680)

[e944716] Mr. Chairman: [...] The question is now on the motion of the gentleman from Yavapai, Mr. Jones. Are you ready for the question? All those in favor will say "aye;" contrary minded "no."

Mr. Baker: I would like to vote no for this same reason. I warn the convention right here, now, that you are doing a crime yourselves without knowing what you are doing under section 21, and that is the reason I vote no.

Mr. Chairman: The "ayes" have it, and it is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 680)

[e944717] Mr. Connelly: Mr. Chairman, I want to be put on record as voting “no.”

Mr. Chairman: I heard no demand for roll call.

Mr. Webb: The senior member from Maricopa demanded the right to go on record against it.

Mr. Cunniff: I understand the committee has arisen. Mr. President, I would suggest to the gentleman from Cochise, that he can vote no.

[e943788] Mr. Ellinwood: I move a further amendment as follows: "That the duties and compensation be prescribed by law."

(The Records of the Arizona Constitutional Convention of 1910, Page 685)

[e943789] Mr. Hunt: I do not know what the duties of this office are. Does it mean a gas engine inspector?

Mr. Feeney: A gas engine does not have a boiler. I would say that it is one of the greatest cries of thousands of laboring men that they have the protection of a boiler inspector. The locomotive firemen and the men who work in shops where boilers are in operation are very much in favor of the office of boiler inspector.

Mr. Webb: I do not think that this office is a necessity; in fact I agree with others who have stated that it is not needed and as to protection I believe there are other means of protection such as insurance. I think that there are companies who do insure machinery and that is what should be done in this case.

Mr. Crutchfield: I am in favor of creating this office as there are about 75 percent of the people in Arizona who are working around such machinery.

I believe that they should in all cases be protected, and the only way to be protected is to have an inspector who understands well his business and will attend to those duties. Thus he may avert many an accident or explosion by knowing when and where repairing is needed.

Mr. Curtis: I trust that this section will not pass as it is purely legislative and too, I shall state as did Mr. Webb, that there are insurance companies, which insure machinery, and this insurance is compulsory, thus protecting the laboring man for the shop owners and companies have to inspect their machinery.

Mr. Ellinwood: I am in favor of this measure and think that it should pass by all means. I think that all mining and railroad companies will favor it because it will save them and the expense of an inspector for if such an office is created it will be paid for by the state. (laughter and applause)

(The Records of the Arizona Constitutional Convention of 1910, Page 685)

[e943790] Mr. Chairman: The question is on the amendment by Mr. Bradner which includes the amendment of Mr. Ellinwood. Are you ready for the question? Those in favor of the motion will say "aye;" those opposed "nay." The "nays" have it.

[e943821] Mr. Cunniff: The motion of the gentleman from Cochise was the original motion and I move an amendment that we strike out the section of Substitute Proposition Number 54 and insert section 1 of Proposition Number 14.

Mr. Webb: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 686)

[e943822] Mr. Cunniff: Mr. Chairman, I should like to point out the relation of Proposition Number 14. Proposition Number 14 as drawn up conforms to our initiative and referendum proposition and conforms in its structure and method and policy to our initiative and referendum bill. It follows that of South Dakota. In examining the mode of amendments in the various constitutions, the South Dakota form seemed to those of us who worked on this proposition to be as carefully drawn up and as unmistakably a presentation of the idea that our constitution wished to convey as we could find. Into that the initiative method of proposing an amendment to the constitution was inserted, in the same manner (and following the same plan) by which an amendment to the constitution was worked out in our initiative and referendum article covering the method of initiating laws. In that way it conforms to measures that we have already adopted. It has further, this merit, which I should like to point out in comparing this with the majority report. In the majority report the plan followed [was] that followed in the older constitutions—I do not recall just which

on this comes from—and then the initiative idea permitting the people to propose amendments is taken up in section 3 in this vague way: “This article shall nor impair the right of the people to amend this Constitution” etc. This merely says that the article shall not impair the right. There is no place where that right is very specifically set forth. Now this Proposition Number 14 is drawn up in such a way as to make the machinery for amendment of the constitution operative immediately upon the adoption of the constitution, just as we have made our initiative and referendum operative as soon as the constitution is adopted. Further, following out the plan and policy of preparing a form of amendment which seems to me to be the plan, or the idea, that is demanded by practically all the people in Arizona. (I think that all the various political parties in Arizona demand a method of amending the constitution which shall be easy.) Here the method of amendment [is] practically as easy as the method of merely making a law, except that the percentage has been raised so that it will require a larger percentage to sign a petition for an amendment to the constitution than is required for the initiating of a law. The majority report requires a three-fifths vote of all the members of all the members elected to each of the two houses to prepare an amendment. I find the same thing in the minority report. The minority report, of course, comes from the other side of the chamber, and does not present any method whereby the people may propose an amendment. Now mark this, in line 10, the majority report, “If a majority of all electors voting at such election shall vote in favor of an amendment thereto, it shall thereby become part of the Constitution.” As I recollect, that is the provision in the Oklahoma constitution; now we find in constitutions of the eastern states a provision requiring a two-thirds vote of the people to pass an amendment to the constitution. We have in the majority report a demand that in an election which an amendment to the constitution is voted for there shall be required to pass an amendment a majority of the electors voting in such election. It is a matter of well known fact that the voters will cast the full strength of their vote for the higher offices on the ballot, going down the ballot, the vote will get smaller and smaller. Matters of legislation and amendments to the constitution practically always have a smaller vote than the vote for the head of a ticket. So a provision of this kind, requiring a majority of all the votes cast at an election, is practically a demand for a two-thirds vote of all those who vote upon the amendment at that election. Now Proposition Number 14 provides a method of amendment whereby a majority of the legislature or twenty percent of the electors can propose an amendment; and it further follows the amendment through, and states the specific duty of the secretary of state. It places the duty on the secretary of state, just as we do in our initiative and referendum measure, to put the amendment on the ballot, and it provides that a majority of all the voters voting thereon shall pass the amendment. It seems to me that this proposition is in accord with the recent constitutions which have made amendment easy, and the only question to my mind in regard to the possible acceptance of this by [words missing]

Mr. Colter: Mr. Chairman, I want to say that this proposition is a copy of the constitution of Oklahoma. In reply to Mr. Cunniff in regard to section 3, that was not set out in any other part of the constitution, I want to say that it is very clearly set out in that part where the initiative and referendum is taken care of in detail, and there is only a blank space left for the per cent. In regard to the per cent, 60 percent I find is a much easier way of amending

the constitution than 85 percent of the rest of our constitutions. I see some of them are 75 percent and a great many of them are 66 23 percent, and not only two-thirds of one house, but it has got to go through both houses at two different sessions. It seems to me that this is a very easy way of amendment. We have been over this proposition carefully and slowly, and I think it will answer the purpose very well.

Mr. Winsor: Mr. Chairman, I agree with the gentleman from Yavapai, Mr. Cunniff, that in his Proposition Number 14, he has provided a very much more comprehensive system of amendment to the constitution than is provided for in the majority or the minority reports. I would ask him if in submitting this substitute proposition he would be willing to leave the percentum blank in order that we may determine in the manner in which the percentages were determined in our initiative and referendum bill.

Mr. Cunniff: That is perfectly satisfactory to me.

Mr. Winsor: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 686-687)

[e943826] Mr. Chairman: The motion is upon the amendment of the gentleman from Cochise as amended, which was to strike out the words three-fifths on the third line of section 1 of the majority report, amended by the gentleman from Pima to insert section 1 of the minority report for section 1 of the majority report that is before the committee.

Mr. Cunniff: Amended by the gentleman from Yavapai to substitute Proposition Number 14 for section 1 of the majority report; that "20" be left out in the places where it appears.

Mr. Chairman: Those in favor will answer "aye" as their names are called; those opposed will answer "no."

Roll call showed 35 "ayes" and 11 "nays."

Mr. Chairman: The amendment is adopted.

[e943842] Mr. Connolly: I move that line 4 on page 1 and in line 2 the blank space—in the blank space the word "ten" be inserted.

(The Records of the Arizona Constitutional Convention of 1910, Page 688)

[e943843] Mr. Ingraham: I move that the blank space be filled up by the word "fifteen."

(The Records of the Arizona Constitutional Convention of 1910, Page 688)

[e943845] Mr. Cunniff: I move that the blank space be filled up by the word "twenty."

Mr. Simms: I second the motion.

[e943848] Mr. Winsor: Mr. Chairman, I move that consideration of all these blanks be postponed until Monday morning.

Mr. Weinberger: I second the motion.

[e943849] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 688)

[e943851] Mr. Chairman: The motion now comes up on the filling of the blanks, taking the lowest number. All in favor of filling this blank with the word "ten" signify by saying "aye," when their names are called; opposed will answer "no."

Roll call showed 13 "ayes" and 34 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Pages 688-689)

[e943853] Mr. Chairman: The motion is lost. All in favor of inserting the word "fifteen" in the blank signify by saying "aye" as their names are called; contrary minded "no."

Roll call showed 24 "ayes" and 23 "nays." (applause)

Mr. Chairman: The motion is carried.

(Editorial)

[e943859] Mr. Kingan: Mr. Chairman, I move to amend Proposition Number 54 by substituting therefore the entire minority report.

(The Records of the Arizona Constitutional Convention of 1910, Page 689)

[e943860] Mr. Parsons: Mr. Chairman, I desire to offer an amendment to Substitute Proposition Number 54 which has been substituted in lieu of section 1 in line 4 after the word "by" to strike out the words "not less than" and insert in their place "a number equal to" for the reason that if we leave it as it is "not less than" subsequent legislatures might be elected that were not in sympathy with the easy amendment of our constitution as suggested and recommended to us by our ex-President Colonel Roosevelt, and they might put it at any percent above that. It would leave it then subject to change by the legislative body. If we put in the words "a number equal to" when the fifteen percent has been received they cannot change it.

Mr. Pusch: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 689)

[e943862] Mr. Short: Will the gentleman from Cochise yield to a question?

Mr. Parsons: Certainly.

Mr. Short: Can you tell us any method whereby the legislature can change the constitution?

Mr. Parsons: If you put in this "not less than," if the legislature has anything to do with making any provision that might affect this law,—the initiative of our constitution,—they might increase that percentage and still claim they were within the provisions of the constitution because they were not less than 20 percent.

Mr. Cunniff: I agree with the gentleman from Cochise.

Mr. Short: Then I would suggest to the gentleman from Cochise that he change this to conform to the wording in another proposition we have and change the words "less than" to "more." That was the word used in the other proposition.

Mr. Parsons: If it will have the same effect I do not care.

Mr. Ellinwood: If you say "not more" the same legislature could reduce the amount to seven percent or one percent.

Mr. Weinberger: Mr. Chairman, I can offer a suggestion that it be changed to this: "signed by fifteen percent but not more." That will fix that figure permanently.

Mr. Parsons: Mr. Chairman, I would say to the gentleman you might run against the same objection that you find in our present primary law. You get fifteen percent and happen to have two votes over and it might be held to be an improper petition.

Mr. Weinberger: Then I would say the words could be used "signed by a number equal to fifteen percent, but no more."

Mr. Franklin: Mr. Chairman, as I understand the language by the gentleman from Gila, Mr. Weinberger, is the language used in the Oregon constitution for initiative and referendum matters. It is signed by twenty percent but no more.

Mr. Feeney: Mr. Chairman, in getting up an initiative petition there are always a great many names stricken out, and I am afraid if we say "not more"

it might be construed to have the absolute number, and I believe Mr. Parsons' amendment fits the case nicely.

Mr. Chairman: Are there further remarks? The question then presents itself upon the amendment offered by the gentleman from Pima, Mr. Kingan, the original amendment to insert in place of the substitute for Proposition Number 54 the whole of the minority report, which was amended by the gentleman from Cochise, Mr. Parsons, to amend line 4 after the word "by," by striking out the words "less than" and inserting "a number equal to" in place of "not less than."

Mr. Winsor: Inasmuch as the amendment proposed by the gentleman from Cochise, Mr. Parsons, is not at all germane to the original motion, I would suggest that he withdraw his motion until we have first disposed of the motion of the gentleman from Pima. Would that be agreeable?

(The Records of the Arizona Constitutional Convention of 1910, Pages 689-690)

[e943863] Mr. Parsons: I did not know it was not germane, but I will withdraw it.

(The Records of the Arizona Constitutional Convention of 1910, Page 690)

[e943864] Mr. Chairman: The question is upon the amendment of the gentleman from Pima, Mr. Kingan, to adopt the whole of the minority report for that of the majority report. I believe that is the question.

Mr. Kingan: In place of Proposition Number 54 as amended.

Mr. Chairman: All in favor answer "aye;" contrary "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 690)

[e943866] Mr. Chairman: [...] Now it comes up on the amendment of the gentleman from Cochise, Mr. Parsons, by striking out on the fourth line after the word "by" the words "not less than" and inserting "a number equal to" in lieu thereof. All in favor will answer "aye;" contrary "no." The "ayes" have it.

Mr. Chairman: All in favor answer "aye;" contrary "no." The motion is lost. [Editor's Note: Despite the fact that Parsons had withdrawn his amendment, the Chair put the question on it.]

(The Records of the Arizona Constitutional Convention of 1910, Page 690)

[e943869] Mr. Cunniff: I move at the end of line 5 and the beginning of line 6 the words "The highest office" be stricken out, and the word "governor" be inserted.

[e943874] Mr. Winsor: I move to amend lines 8 and 9 by striking out the last three words on line 8 and the first word on line 9, "by any member thereof." I cannot conceive that an amendment can be introduced in the legislature by any other than a member.

Mr. Lynch: I second the motion.

[e943875] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 690)

[e943877] Mr. Winsor: I want to offer another amendment on page 2, line 15, after the word "that" to insert the words "until a method of publicity shall be otherwise provided by law."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 691)

[e943879] Mr. Winsor: I want to explain the object of this amendment. In our initiative and referendum proposition we have provided that proposed laws shall be given publicity in the manner of giving publicity to constitutional amendments. I think we will all acknowledge that the plan here proposed for giving publicity to proposed constitutional amendments is not ideal, and that the plan set out in the initiative and referendum proposition offered by myself, of sending out publicity pamphlets by the secretary of state is superior. If the system laid down in this proposition were adopted, it would prohibit the adoption by the legislature of any other and better method. This I take it is merely a temporary provision, and the matter should be left open so that superior methods may be provided by law.

(The Records of the Arizona Constitutional Convention of 1910, Page 691)

[e943880] Mr. Chairman: You have heard the motion. All in favor will make it known by saying "aye;" contrary "no." The "ayes" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 691)

[e943882] Mr. Parsons: In line 2 on the second page I offer the same amendment I offered with reference to line 4 on page 1. After the word "by" strike out the words "not less than" and substitute in lieu thereof the words "a number equal to."

Mr. Short: I second the motion.

Mr. Cunniff: I second the motion.

Mr. Cunniff: In answer to the gentleman, it will be perfectly simple for the people twenty years from now to call a convention without any provision by us.

[e943381] Mr. Chairman: The committee will come to order. The first thing on the program this afternoon is committee Substitute Proposition Number 66. Read the report.

Secretary (reading): Mr. President, your Committee on Agriculture, Irrigation and Water Rights begs leave to report it has examined Proposition Number 66, and respectfully recommends that the proposition herewith submitted be substituted for said Proposition Number 66, and that said Substitute Number 66 be adopted.

[Editor's Note: This blank document has been created in order to mimic the process of the Committee of the Whole proposing and considering individual recommendations relating to Substitute Proposition Number 66.]

[e943308] Mr. Orme: Mr. Chairman, I move you that we adopt this proposition paragraph by paragraph.

(The Records of the Arizona Constitutional Convention of 1910, Page 692)

[e943309] Mr. Winsor: This is the procedure under the rules. We do not need a motion.

[e943311] [Editor's Note: The editors have created a blank version of Substitute Proposition Number 66 in order to replicate the process of the Committee of the Whole considering the Proposition paragraph by paragraph.]

(Editorial)

[e943312] Mr. Chairman: Any objection to the first paragraph?

(The Records of the Arizona Constitutional Convention of 1910, Page 693)

[e943314] Mr. Feeney: Will someone tell me what is meant by the "common law doctrine of riparian rights?"

Mr. Orme: That water had rather flow down the stream and not be appropriated and used from the stream.

(The Records of the Arizona Constitutional Convention of 1910, Page 693)

[e943320] Mr. Short: My understanding of a riparian right is the right which accrues to land adjoining the water. A man has no right to water that adjoins or flows through his land, and in this first paragraph the words "having never heretofore obtained within the territory included with the State" seems to me superfluous. I move that all after the word "rights" in line 1 to and including the word "state" be stricken out.

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 693)

[e943326] Mr. Cunniff: According to my recollection this is the form used in other states covering the ground. It is a statement of policy and information to the people, and I think it ought to remain in.

Mr. Crutchfield: Also it strengthens it by stating unquestionably that this has never been used in this state, and I think it ought to stay.

Mr. Parsons: Then there is the same reason for putting in a lengthy argument about this. I move the argument of the gentleman from Maricopa be added to it. I do not see any reason why we should put this clause in the constitution. It is purely argumentative.

Mr. Franklin: As I remember, the language is identically that used by Chief Justice Kent in settling this matter as a judicial question, and therefore I think it is proper to leave in the phraseology.

Mr. Parsons: I desire to say the language of the court in rendering his decision and his reasons would be very different from what we want in the constitution. He may give the reasons to satisfy counsel for the plaintiff and counsel for the defendant. We are not in that position. We are simply a proposition; we are stating what is the fact. I think the argument should be omitted.

Mr. Jones (Maricopa): The objection to me is that it would make it read by inference that heretofore riparian rights had prevailed, and that we were changing the system. If we strike out anything, I would favor striking out "hereafter."

(The Records of the Arizona Constitutional Convention of 1910, Page 693)

[e943332] Mr. Parsons: I move an amendment to strike out the word "hereafter" in addition to the other.

Mr. Short: I accept the amendment. That will make it read "the common law doctrine of riparian rights shall not obtain or be of any force and effect in this state."

(The Records of the Arizona Constitutional Convention of 1910)

[e943333] Mr. Short: I accept the amendment. That will make it read "the common law doctrine of riparian rights shall not obtain or be of any force and effect in this state."

(The Records of the Arizona Constitutional Convention of 1910, Pages 693-694)

[e943335] Mr. Chairman: The question before the House is to amend the first paragraph. All in favor will make it known by saying "aye;" opposed "no." The motion is carried.

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943337] Mr. Chairman: [...] Gentlemen, are there any other amendments to that paragraph? If not, it will stand approved as amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943339] Mr. Chairman: [...] What will you do with the next paragraph?

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943343] Mr. Cunniff: I move an amendment to insert in line 9 between the words “mining” and “manufacturing” the words “milling, ore reduction.”

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943346] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943348] Mr. Chairman: Any amendments to the third paragraph?

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943350] Mr. Chairman: Any amendments to the third paragraph?

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943355] Mr. Coker: Mr. Chairman, in line 10, second paragraph, I move that all from the beginning of that line down to and including the word “purposes” in line 16 be stricken out, and this be inserted in lieu thereof: “Priority of appropriation shall always give the better right, but when the waters of any natural stream are not sufficient for the service of all appropriators thereof, having equal priorities, desiring to use the same, those using the water for strictly domestic purposes and stock raising shall have the preference over those claiming the same for other purposes, and those using the same for agricultural purposes shall have preference over those using the water for mining, milling, ore reduction and manufacturing and power purposes, but such preference shall obtain and be recognized only in times of extreme scarcity due to drought or other natural causes, and, except in such times of extreme scarcity, no appropriator of such water shall ever be deprived of his rights in the use of proportionate part thereof by any other appropriator or any purpose without due compensation.”

Mr. Colter: I second that motion.

[Editor’s Note: While here Coker’s amendment is recorded as pertaining to paragraph 2, his amendment corresponds much more closely to paragraph 3.]

(The Records of the Arizona Constitutional Convention of 1910, Page 694)

[e943359] Mr. Roberts: I hope this amendment will not pass. It seems if these men have appropriated this water, and under the constitution their appropriation is guaranteed them, and they have acquired this prior right, I do not see anything right in saying that any other man in time of great need would have

the right to deprive him. It seems to me it would be the cause of needless litigation. In Colorado when this came up, it was a peculiar question. Here is a man five miles from the stream who has no domestic water. Some man prior to his coming had gone to work and appropriated this water. He had a good home, and he had taken nothing from anyone. He would be guaranteed that right under the constitution, and he would naturally expect that the laws would still work. It seems to me this question is a dangerous one, and I hope it will be killed.

Mr. Coker: Paragraph 3 of the committee substitute raises that very proposition, and it was to overcome some of the dangerous features raised by paragraph 3 that I submitted this amendment. Now under paragraph 3 a man who was 160 acres of land is irrigating the same from any particular stream, and if you or any one should come along and build a large hospital or sanitarium or some building that would use a lot of water, then in time of scarcity we could take all the water that this man was using, and it is to overcome that very idea that I submitted this amendment.

Mr. Orme: In drawing this bill I went to the legal lights of the territory, the men who have passed upon all the cases of water rights in the territory, Judge Kent for one, and other judges. They drew these articles as you see them, according to every decision that has been rendered in this territory. We have never had any statutes covering the water appropriations in this territory, and it is those decisions that we wish to protect and forever bar such litigation as that with which we have been burdened for years and years. To break up the general judicial decisions concerning water rights would be one of the greatest injustices that could be perpetrated, and I am opposed to any amendment to that section.

Mr. Winsor: I would like the gentleman from Pinal, Mr. Coker, to explain the difference between his amendment and the paragraph as it now reads. I cannot tell the difference from a mere reading.

Mr. Coker: I will be willing to have some typewritten copies stricken off, for the use of the members. There is only a few words difference but those few words make a great difference in meaning.

Mr. Crutchfield: I would call the attention of the gentleman to an important feature that is included in the committee report and omitted in the amendment of Mr. Coker. You will find in line 13 that it says water for domestic purposes, but qualifies that by saying "to the extent of their actual needs" which is necessary.

Mr. Roberts: I would like to ask a question, whether or not the courts of Arizona have ever defined what "water for domestic purposes" is? They say in Colorado that domestic water included only water you dip up, or allow your cattle to drink from the stream, or you could haul it away, but you cannot take it out in a ditch and use it 20 miles away.

(The Records of the Arizona Constitutional Convention of 1910, Pages 694-695)

[e943361] Mr. Winsor: I move this amendment of Mr. Coker's be typewritten, and that the matter be temporarily passed while copies are being made for the use of the members.

Mr. Coker: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 695)

[e943362] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 695)

[e943363] [Editor's Note: The Committee of the Whole proceed to consider paragraph 4 and 5 together.]

(Editorial)

[e943365] Mr. Cunniff: I move that on line 23 after the word "courts" the words "of Arizona" be inserted, and after the word "existing" the word "in Arizona" be inserted.

(The Records of the Arizona Constitutional Convention of 1910, Page 695)

[e943367] Mr. Weinberger: I would like to know what those existing rights are. I believe that ought to be set forth here if there are recognized rights. I do not know of any decision to that effect.

Mr. Lynch: I oppose that amendment. In the first place, I do not see its good. In the second place, it will involve the case in considerable confusion. The customs out of which have grown our irrigation systems have varied in different localities. For instance, in my locality (Graham County) we have certain methods of appropriating water, which is now distributed under court decree, while in Maricopa you have an entirely different system. In other words you had two distinct irrigation systems, one applicable to the people there, and one applicable to the people here, with a considerable degree of success in both places. Now then custom heretofore existing in Arizona would exclude them both, for the simple reason that the custom did not in either instance exist throughout the state of Arizona. Irrigation law is like mining law, it has grown out of customs—the local custom if you will please. To pass to the other part of that, "the courts of Arizona," that goes without saying. The decisions of the [words missing].

Mr. Orme: May I ask the gentleman a question? Was there ever a case in court but what it was tested on the application of the water to the land?

Mr. Lynch: That is not at issue. I will discuss it when the time comes.

Mr. Cunniff: Mr. Chairman, I beg to point out the first part of the argument, the amendment did not say "throughout Arizona." It said "existing in Arizona."

(The Records of the Arizona Constitutional Convention of 1910, Pages 695-696)

[e943371] Mr. Chairman: Are you ready for the question? The question is on the motion of Mr. Cunniff, seconded by Mr. Wood, to insert on line 23 after the word "courts" the words "of Arizona," and after "existing" on this line "in Arizona." All those in favor of this motion will make it known by saying "aye;" opposed "no." The motion is carried, gentlemen.

(The Records of the Arizona Constitutional Convention of 1910, Page 696)

[e943374] Mr. Coker: Mr. Chairman, in line 20 I move the word "particular" be stricken out.

Mr. Connelly: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 696)

[e943376] Mr. Colter: Mr. Chairman, I very seriously object to having that word stricken out because, as I understand, most of the decisions of the courts of Arizona, California, Colorado or any other irrigatable region—their decisions have been on the application of the water to the land—to that particular spot of land, and I think it would be very material to this subject, and will cause a lot of lawsuits and confusion in the ownership of water. Water rights are conflicting enough the very best we can make them.

Mr. Webb: Mr. Chairman, there are conditions in Arizona where an injustice might unquestionably be worked with that reading as a few years ago hundreds of acres of the most valuable land in the valley were washed away entirely. Men who had devoted twenty or thirty years of their lives to building up a home lost the entire thing. They had nothing left except and solely their water right. Under this with "particular" left in, could they have held the water rights? In a few instances the water right was worth thousands of dollars. Would they have lost it with this word "particular" in? I believe they would, but under the court decisions they have not. The custom permits them to transfer that water to other lands which they purchased or took up and entered from the government. In addition to that, in the lowlands of Gila Valley are many acres that is [sic] being ruined by alkali rises. The only thing they can take of value is their water right, which will enable them to build another home. That is the object in desiring that this word "particular" be stricken out, but we do hold that water can only be had by one who owns or has possession of land and applies it for beneficial purposes to that land, but there are cases where it works a hardship to insist that it must be a specific piece of land on which to use the water.

Mr. Orme: Mr. Chairman, when a man puts the water upon the land the first time right then and there he acquires a right to the water upon that individual land. He can take his water stock and put it upon a dozen other pieces of land, but if he continues to irrigate that piece the water is inalienable from that piece of land. The appropriation commences from the day the water is first applied to the land, and it is the only appropriation that a man can appropriate for irrigation. A man can move his stock on a half dozen pieces of land, but if they do they divide the water stock and put half of it down on new lands. They do not lose the right from the old lands by any means, but they acquire other rights. This does not prohibit a man from taking his stock and putting it on other new lands, but if you wipe out that word "particular" you wipe out the basis of all water appropriation for the appropriation can only be made for the particular land that has been irrigated.

Mr. Lynch: Mr. Chairman, now I cannot see that there is one particle of difference in opinion between the gentleman from Graham County and the gentleman from Maricopa County. It would leave that identically the same thing. When you put in that word "particular" and make that water pertinent to that land we claim that that water can be used on that land and no other land, and that if that land becomes waste by flood or seepage that the right

to that water is gone and that it goes back into the common store of water and goes to other people. Now then the gentleman says that the application of water to a particular tract of land is the basis which has been recognized in all states as the basis of appropriation. That is not true. The fundamental principle of the irrigation law, as I understand it, is that before you acquire water stock you must own or possess irrigatable land. Not any particular tract of land, but you must possess land upon which the water can be applied. A case in Idaho: A man had his land washed away and so wanted to take his water out of another place not in the river but in the canal and compel the canal company to deliver him water. They opposed it and refused to do it. He brought suit. It went to the supreme court and the decision was that when by calamity or by any other reason land was destroyed upon which the water was appropriated the water could be taken to another tract of land and the canal company would be compelled to distribute to him water at that point or at any point along the line of the canal where he wanted. We say that if our land is destroyed we should be able to take our water two or three tracts of land, but we say that if you insert the words "particular" tractor land and make the water appurtenant to that particular tract that you cannot say take that water to another tract of land but the water will go back to the common store of water and the first person in right of appropriation next to you will get your water if your land is destroyed. Furthermore, since the land to which the water is to be applied is an integral part of the appropriation, it follows that when the water is taken away from the land for which it is diverted, the right of appropriation of such water for such land ceases. It does not follow that when your land is destroyed your water appropriation is destroyed. It means that your water appropriation for that particular tract of land is destroyed. I say that this committee substitute as it now stands, inserting the words "particular" and the words "shall be appurtenant to such land" raises a serious doubt in our minds as to what will be the decisions of the court upon the question, and we say that without these words, if you will simply use the words "appropriation of water for the purposes of irrigation shall apply to land which the appropriator owns or possesses," that you have stated the very basis of the irrigation law, and you do not need to state anything further. This protects our rights, and cannot affect the rights of the people of Maricopa County.

Mr. Parsons: Mr. Chairman, I desire to ask the gentleman from Graham a question. Is it not true that when an appropriator of water is required to state that he owns the land, he must describe that land by metes and bounds.

Mr. Lynch: Yes sir.

Mr. Parsons: If he gets a right to that particular land I want you to explain to me why that right should be applied to any other land.

Mr. Lynch: Let me answer that. I think you answered it yourself. Why should he not have a right to apply that water to another tract of land. Suppose for some reason the tract he first applied it to has become valueless, he should not be compelled to lose all of his rights. We say that when a man gives the amount of money and labor necessary to get that water upon land, that he had a right to that water, and if he has other land he should be allowed to divert that water to the other tract of land.

Mr. Parsons: Now I want to ask the gentleman from Graham: Would it not be true, if your contention is to be adopted by this convention, that if you are holding appropriation Number 1 for 160 acres of land, I hope appropriation

Number 2, and your 160 acres uses three-fourths of the entire water and it took all of that to apply to yours, now if your land should be washed away by a flood, then if you are allowed to take this same water right and put it somewhere else and put it on land that was not susceptible to an appropriation, would not I as the second appropriator be wronged by your being allowed to apply your water to land that was not in a position to claim an appropriation until after mine?

Mr. Lynch: I want to say that I am not taking anything away from you, only your right to that water which was confined to the land described when you made the appropriation. If you happen to be so unfortunate as to have a piece of land washed away that is your misfortune and the legislature should not be provide a law by which the balance of the people should be taxed to reimburse you.

Mr. Orme: In answer to Mr. Lynch, let me say he mixes the shares of stock in a canal with the water right. Water right is only obtained by applying that water to a particular piece of land. If the land should be washed away, the man's water right is stopped but his appropriation on that other land should date from the date he applied the water upon that appropriation of water is the direct application of water to the land.

Mr. Colter: Mr. Chairman, I would just like to make an illustration here of the way I understand that. I have in Apache County land that has the first water right. I have some land adjoining it that also has a later water right. Some of the first water right land got so swampy that I could not use my water on that, and it was my desire to take that water and put it on my other land. I tried it and there were protests against it. I then found out that most all of the courts had decided that the water belonged to the land therefore I did not put it on my land.

Mr. Ellinwood: Mr. Chairman, I have no interest in the matter of irrigation except the common good of the people. I know of conditions where entire farms have been washed away. If that condition can be remedied and at the same time the right of appropriation is made incident to the land I would be glad of it, and it impresses me this way, that if you permit the transfer of water to a piece of land because your land has been washed away in a given case, then you have opened a door by which the owner of the land may transfer that water to any other land we may buy thereafter. You say that in a certain specific instance one should have the right to transfer water because his land has been washed away. That is an unfortunate condition, but if in remedying that, you are going to destroy the entire rule of law that water shall be incident to the land, I do not see how I could support the proposition. It seems to me that because you say for instance that your land becomes alkali you will have the right to transfer the water, then you have opened the door for any appropriator of water to go and buy land at any time and transfer water upon it and sell it to anybody else.

Mr. Wood: Mr. Chairman, I ask what this language means? Does it mean that you cannot take it from the specific ground to which you first applied it?

Mr. Ellinwood: I think so.

Mr. Webb: The gentleman from Maricopa insists that it does not.

Mr. Orme: I said that a man could take his stock and apply that water that he had in the canal any place he saw fit, but he could not move this first appropriation of water from that land, but he could first take his stock and incorporate a new right any place he saw fit.

Mr. Webb: What is his stock?

Mr. Orme: His share in the canal. If your land is washed away have you any appropriation for it? If your home is burned have you any house? In all judicial decisions, the only basis is the date of the appropriation of water to that land.

Mr. Franklin: I did not intend to take any part in this discussion. We all know that in establishing water rights matters have been in a chaotic state. They have been in a constant state of discussion in this valley, and there has been bitterness and travail for very many, many years. It seems to me, as observed by the gentleman from Yuma, Mr. Ingraham, it is now a question as to whether this constitution shall definitely define the right to the use of water and the right to priority in the appropriation and in its use. As I understand the decisions of the courts in this Territory, the ultimate result is that the doctrine of priority obtains. As I understand it, the ultimate decision is this, that the water is appropriated by its beneficial application to the land, that that appropriation dates from that beneficial application, and in that sense it becomes appurtenant to that land. If the owner of the land who has applied it for the beneficial use wished to go elsewhere and apply the water for the beneficial or other or newer land [sic], when he does that the appropriation dates so far as that land is concerned from the actual application of the water to the land. It seems to me a question for this convention to decide [is] whether they will forever settle the controversy and preserve these existing rights. I think as to the future it should be settled that water is appropriated to land and dates from that actual appropriation, and in case it is applied to other or new land, as to other appropriators in cases of scarcity and drought that the new land should be subsequent to the old appropriators. I believe it would be wise policy for the convention to settle this, and I am in favor of the proposition as proposed.

Mr. Ellinwood: Does the gentleman understand this changes the law as to the future?

Mr. Franklin: I do not; it is merely settling the matter in accordance with the ultimate decisions, and not interfering with any existing rights.

Mr. Webb: I say with the gentleman from Maricopa it would be wise indeed for us to settle this matter, if we only know what right is, but many of us are in doubt as to what is fair and right, and if we decide when we feel we are not certain, I say it is not wise.

Mr. Parsons: Mr. Chairman, there are thirteen lawyers in this convention, and I do not believe you could get any three of them to agree absolutely as to whether this does or does not change the law. Every gentleman to whom Mr. Ellinwood has put the question, says "no." Let us have the law as it is. Let the members of the supreme court, to whom we will pay \$6,000 a year, settle it.

Mr. Franklin: Was that not dicta?

Mr. Kingan: That was the gist of the case, not dicta.

Mr. Standage: I think if the people had lived here and helped to pay the expenses of all those lawsuits, they would be willing to have something specific and know what they are doing. Vested rights would not be changed, but persons taking up new lands would know their rights, and it would prevent a great many law suits. This proposition seems to me a good one.

Mr. Ingraham: I want to say again that those rules we lay down here apply only from this date, and the system of water rights that has grown up under the old law we cannot change, because they are property rights, and under the Fourteenth Amendment we cannot interfere with them.

Mr. Ellinwood: I would ask the gentleman the same question. Will we have a different condition if we adopt this?

Mr. Ingraham: There seems to be debate on that very point, but I wish to say it cannot be so important what the rule is as it is that the rule should be defined and well determined in the future. That is, persons go upon the headwaters of these rivers and take up water rights, they should know exactly what they are getting.

Mr. Wells: I would like to ask the gentleman a question. The Act of Congress obtains now as it did in the past. The constitution we make here, would it be an infringement or in conflict with that? I am not informed.

Mr. Ingraham: I do not think the Act of Congress establishes this doctrine of water rights. This is established by the decisions and statutory law of the Territory of Arizona, and the system has grown up from many, many decisions in the courts and by customs of the people.

Mr. Wells: This would apply to state lands, to government lands?

Mr. Ingraham: It would apply to all lands, but only in the future.

Mr. Cooper: As I understand the discussion of the different gentlemen who have spoken on the question, this matter of priority rights and water appropriations are now clearly settled by decision of the supreme court of this Territory. Is that right? If these matters are clearly settled by the decision of the supreme court, that is the supreme law we have on the question. Why then might this not well be indefinitely postponed, and allow the clear settlement as it exists to rest upon the decisions of the supreme court of the territory. Then there can be no question as to priority right in the future or the past.

Mr. Franklin: Mr. Ellinwood asks a question of nearly every man who gets upon the floor, whether or not we intend to change the doctrine of water rights. Now the question is now [sic, not] to change the doctrine. We know the water rights of the Territory have been settled by judicial decree from the time of the so-called "Kibbey Decree" in the district court, to the last case that went to the supreme court of this Territory. There have been varying cases, and they have not been very clearly construed. One supreme court would take one view of this matter, and another, another view. The last expression of this was the case of P.T. Hurley vs. Abbot and others, decided by Chief Justice Kent in this Valley recently. Now it is a matter of importance, while those decisions may be as this bill provides, it is important for us to have it in the organic law so that when any new supreme court of this new state has a case before it, the rule will be fixed and they cannot depart from it.

Mr. Cunningham: Mr. Chairman, I do not pretend to know a very great deal about water rights and irrigation, but from the discussion I have heard on this floor, it seems to me to be a question as to whether this proposition if adopted would change the existing law. The gentlemen who are well informed upon the subject have differed in opinion. Now as I have been able to gather, the law as it heretofore and now exists, is that of prior appropriations. That strikes me as being just and right, and if this proposition changes that rule so that a person who has land destroyed or become worthless through accident of cause beyond his control cannot transfer his right to water to other land, it would do an injustice to the man and to the pioneers who first appropriated the water. It seems a dangerous proposition to make any effort to change the law. I do not say this does change; I am unable to say because as I before stated, I am not sufficiently posted upon these questions to say whether it does or does

not.

Mr. Ellinwood: This matter is perfectly clear to my mind now. As to this bill changing the present law, I have no intention of going into that. The gentleman from Maricopa says it does not change the law, as they made the decisions. The gentleman from Graham says there is some doubt as to what these cases decided. Therefore to foreclose all questions as to what the courts have said upon this question it is proposed that this bill be enacted into the constitution which will be interpretative of the law as they read it.

Mr. Orme: The national irrigation act requires the appropriation of water to be determined before they deliver water to any land, and in the Hurley vs. Abbott suit a great many of these litigants refuse to come in, and the United States government came in and intervened, and compelled every man to come in and prove his appropriation. It had to be determined so when the water was low the United States government could divide the water and put it on those lands that were entitled to it. The reclamation act requires that.

Mr. Kingan: This question was absolutely settled in the case of Biggs, 7th Arizona Reports, decided in March, 1901, the opinion being written by Judge Sloan.

Mr. Franklin: Chief Justice Kent has been on the bench nine or ten years, and has participated in nearly all the recent water decisions, and he is considered one of the ablest judges of water law in the southwest. He decided that the right to appropriate water belongs to the land owners. Water when appropriated belongs to the land to which it is beneficially applied, which is clearly shown by his decision in the Hurley vs. Abbot case.

(The Records of the Arizona Constitutional Convention of 1910, Pages 696-703)

[e943379] Mr. Webb moved, seconded by Mr. Lynch, to amend the motion so as to strike out beginning with line 10 all the rest of the Proposition.

(The Minutes of the Arizona Constitutional Convention, Page 305)

[e943382] Mr. Parsons: I want to call attention to the fact that Judge Kent's decision applies to an appropriation to the land. The decision cited by the gentleman from Pima was a case of a certificate in some water-carrying company or some canal company. That, I contend, accounts for the difference and the supreme court will not be mixed up, because they have written these opinions. I therefore insist upon the motion to indefinitely postpone this whole matter.

(The Records of the Arizona Constitutional Convention of 1910, Page 703)

[e943383] Mr. Cunniff: I should like to say one word. I had an interesting conversation the other day with Judge Kent, in which he stated that it would be a wise action on the part of the convention, in view of the fact that the reported cases left the matter of water rights in Arizona in excellent situation, not to touch the matter; and it seems to me after this long discussion that he was quite right. It seems the best thing to do is to put in a line validating and confirming the present laws and customs concerning water rights.

Mr. Chairman: The question before the house is to indefinitely postpone Substitute Number 66. All in favor will make it known by saying "aye;" contrary "no." Call the roll.

Mr. Wells: I would like to give an explanation of my vote. I understood from Mr. Orme that the government in carrying out its system of water storage from these dams requires us to settle in some way so they can regulate its distribution. If that is correct, my vote is no.

(The Records of the Arizona Constitutional Convention of 1910, Page 704)

[e944095] Mr. Jones (Yavapai): If this amendment prevails, all lands granted to this state by the United States will be subject to sale. We have seen—all of us who have lived in the West as they came into the Union and got possession of the land granted to them by the government—each and every one as they came in, except Colorado, have put the land on the market, and immediately bought and taken up by the corporations and individuals for the purposes of speculation. Each one of these states as time passed has regretted this very action we are about to take now. The State of Colorado which has held these lands has today the best public school system in the United States. All the parents of the children have to do is to furnish the children; the schools furnish everything else. If the child lives a distance from the school, they even furnish a vehicle to carry him to the school. In Wyoming the Union Pacific Railway at the time of admission owned the alternate sections along its right of way. When the state of Wyoming got possession of these lands and put them on the market, it allowed the Union Pacific to dispose of all their land, and allowed corporations and individuals to get this land in great bodies for the purpose of speculation. I am in hopes this amendment will not prevail.

Mr. Kingan: Mr. Chairman, the amendment offered by the gentleman from Maricopa county is particularly objectionable to the citizens of Yavapai county I should think, and certainly to the citizens of Pima county, and it ought to be also to the citizens of Maricopa and Coconino. No public lands, as I understand it, shall ever be sold. There is a million acres of land granted to the State of Arizona for the purpose of paying off the bonded railroad debts of Pima, Maricopa, Yavapai and Coconino counties. The county of Pima is now paying nearly twenty thousand dollars a year interest on these bonds, and as I understand the Enabling Act, this million acres of land is donated for that important purpose. It seems to me to say that no lands shall be sold for twenty-five years is putting on these counties a debt for the next twenty-five years.

Mr. Orme: Mr. Chairman, I am opposed to this amendment of the gentleman from Yavapai. The United States and Congress authorized the Territory of Arizona to lease the school lands. THE Territory of Arizona in 1896 leased these lands under certain conditions: that the lessees should be protected in all of their improvements in every way. These men have gone on and built homes. They are laboring men running from ten to fifteen acres. They have built houses for four and five thousand dollars. It is all they have. Under these conditions, if these lands are not to be sold, these people will be deprived of the water from Roosevelt Dam. The National Irrigation Acts prohibits any land from obtaining water unless it can be mortgaged for the repayment of service.

Mr. Cunniff: Mr. Chairman, does not the reclamation act say that nothing shall take away any of rights from any of that leased land?

Mr. Orme: No sir.

Mr. Cunniff: That is my reading of the reclamation act.

Mr. Orme: Those and those only who are owners of the land.

Mr. Cunniff: I would like to call the attention of the gentleman from Maricopa to section 8 of the reclamation act.

Mr. Orme: Mr. Chairman, now gentlemen, these people have put water rights upon these lands that cost thousands of dollars. A number of sections it cost ten thousand dollars to build a canal. They have made their homes there and have been there for five years. Now prohibit those men from obtaining water rights to get the water from the reservoir. This land cannot be sold for

less than twenty-five dollars an acre. If they are not allowed to buy this land and mortgage it to the government, what will they have? All of this land will go back to desert because it is impossible for them to obtain the water. Now if this amount of money—if these lands be sold for not less than twenty-five dollars or less than their appraised valuation, they would bring a large amount of money. It would also develop the country, for all of this land would be settled. You know the wealth of a commonwealth is her inhabitants. Hold this land up for twenty-five years and what will you get? The rental of it. We should have no one here to make a commonwealth. It is immigration progress of Arizona, tie these lands up for twenty-five years.

Mr. Webb: Mr. Chairman, for thirty years Arizona has been to me the land of promise. Here have centered all my hopes, ambitions and aspirations, and I will take my hat off to no man in my love and patriotism to Arizona, but with all that, Mr. Chairman, I am too modest to say that all the patriotism and all the loyalty of Arizona citizenship is centered in me, and much as I think of the individual members of this convention, I do not think all the trust-worthiness is centered in you, gentlemen, and I want to say further, that every word spoken here in fear and doubt of the future action that may be taken if the amendment proposed by myself be adopted and this matter be left in the hands of the legislature is spoken against the people of Arizona. For remember this, your legislature in the State of Arizona, if our constitution be adopted, will be the people. We only propose to do this. Leave it to the people to do with their own as they will, but I say, you are ready to assume a weightier responsibility than I am, if you dare say to them "Thou shalt not dispose of this as seems to you best." Mr. Ellinwood of Cochise said, if you followed it to the logical conclusion, what would be the result if you withdrew all the lands I tell you, you have reached now the logical conclusion, for when you stop to think of the amount of land in Arizona, not susceptible to purchase today, what is left? The Indian reservation, the military reservation and all this school land. There is nothing left I would not dare, gentlemen, to take the responsibility at this time without the people having spoken upon it, but if I had the decision I would deem that it would be better to give it away to bona fide settlers than to refuse to sell it. Better for Arizona, for her development, for her prosperity and for her children. (applause) Mr. Chairman, the gentlemen have immediately jumped to the conclusion that large tracts of land would be gobbled up by large interests. If they should it would be the people who permitted it. It does not necessarily follow that any amount of land will be immediately sold. It may be sold if in the judgment of the people it is to the best interest of the people to sell it. They can do just as they please in the matter. We have an amendment prepared for the next section which it is not proper to introduce at this time, which will provide for commission. I want to say to you that it is a very small percentage of the school lands of Arizona that will be sold in ten years or twenty years, for the minimum price is three dollars and it is not worth three cents. You could not lease it for three cents. I simply want to say this, this is one time I want to go on record as standing for the right of the people to do with the things that belong to them that which seemeth best, and not take upon my shoulders the responsibility of doing for them.

Mr. Jones (Yavapai): Mr. Chairman, the gentleman from Graham seems to think we are afraid to leave things to the people, but we are not. To put this clause in the constitution leaves it that the legislature shall refer their actions

to the people. I think the matter should be referred to the people.

Mr. Cunniff: Mr. Chairman, I would just like to answer the gentleman from Maricopa. I want to say that in the first place that I am in agreement with the gentleman from Maricopa in his fundamental idea, but I am also in agreement with the gentleman from Graham, that I would be glad to see the land given to original settlers. But I submit that Congress has not made specific provision in regard to leased Territorial lands in the Salt River Valley. It is one of those acts of omission which have been called to their attention, and I think the gentleman from Maricopa assisted in calling it to their attention. They have omitted to make provision for those leased lands, but the presumption is that if we adopted that proposition and continue this system of leases under which these people are holding the lands, that Congress will pass proper provisions.

Mr. Winsor: Mr. Chairman, I want to digress from the line of discussion long enough to get a little light. It has been stated, I believe, by the gentleman from Yavapai, Mr. Jones, that according to his reading of the Enabling Act, only the interest from the fund produced from the lease of land can be used for the objects mentioned in the Enabling Act. I would like to know where the gentleman gets that idea, except with reference to public school lands.

Mr. Parsons: If the motion prevails, then this section will read so as to permit the immediate sale of all of the lands granted to the new state regardless of the purpose for which they were granted. The state may sell these lands in any quantities. The question of the limit of land to be sold to one party has not been reached, but it will follow further down. If the gentlemen of the committee are in favor of making this amendment, I have no doubt but that they will favor striking out the provisions that limits the sale to any one person of a tract of land not exceeding 160 acres. It seems that the gentlemen are unduly anxious to dispose of the inheritance of the schools of the future. It seems that they are anxious to get the land upon the market at the earliest possible moment. If these lands are reduced to money and the money placed at interest there will of course be some income but the land you have sold will be doubling in value perhaps every ten years, and the return products of the land will equal the interest of the money received from the sale of the land, and you would then have the land left, and you can always sell the land for what you could sell it for at this time. I imagine the gentlemen who will take the other side of this question will say it will lead to an increase in the population; it will provide homes for new settlers. That is true, if new settlers have the opportunity to get these homes. They will say that the new settlers will also bring other properties that will be valuable to the state in the way of taxation. At the same time the new property brought into the state will not flow into your school fund, and I believe it is the best policy for the new state to hold her lands, for the time will come when public lands will be in demand far more than they are at this time. I should look forward to the future, and not squander the great inheritance this state has in these lands for a mere mess of pottage.

Mr. Webb: Mr. Chairman, I just want to call attention to one thing and that is that the school system of Colorado and the method followed by the people of the constitutional convention of Colorado in handling their school lands has been pointed to with pride. I am glad to learn that their act is almost identically the same as the amendment proposed here.

Mr. Wood: Mr. Chairman, in answer to Mr. Webb, that we want to leave this thing to the people, that is just what we are doing when we put this into

the constitution that they can never sell the land.

Mr. Chairman: Are you ready for the question, gentlemen?

(Editorial)

[e944098] Mr. Cunniff: I move as an amendment to substitute the proposition I sent in, in place of the amendment that was offered.

(The Records of the Arizona Constitutional Convention of 1910, Page 708)

[e944099] Amendment lost.

[Editor's Note: Though the Records describes the amendment as adopted, the text as it appears in the final Constitution suggests that the Committee adopted the wording of Webb's amendment instead.]

(The Minutes of the Arizona Constitutional Convention, Page 307)

[e944100] Mr. Franklin: Mr. Chairman, I move you that the committee do now arise and report progress and ask leave to sit again.

Mr. Cassidy: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 708)

[e944101] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 708)

[e944104] Mr. Chairman: All in favor of the amendment offered by Mr. Webb, signify by saying "aye;" contrary "no." The secretary will call the roll.

Roll call showed 33 "ayes" and 12 "nays."

[Editor's Note: Although the Committee is recorded as voting on Webb's amendment, it was actually voting and Ellinwood's amendment as amended by Webb.]

(The Records of the Arizona Constitutional Convention of 1910, Page 708)

[e944105] [Editor's Note: As the Committee took up the consideration of Section 10, Section 9 as amended was implicitly adopted.]

(Editorial)

[e944107] [Editor's Note: The Committee took up Section 10 for consideration.]

(Editorial)

[e944109] Mr. Winsor: Mr. Chairman, I move an amendment to section 10 as follows, line 1 on page 6, after the word "lease," insert the words "or sale" and after the word "land" in the same line, strike out the words "for terms not longer than five years," and insert the following: "Under the supervision of a commission to be created for that purpose."

Mr. Bolan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 708-709)

[e944110] Mr. Crutchfield: Mr. Chairman, before I vote there is one question in my mind, I should like to have answered and that is will that provide for the proper choosing of public land that has been donated by the United States to the State of Arizona?

Mr. Winsor: We won't cover that question at all. That should have been provided for in an act already. This particular provision has no bearing on that subject.

Mr. Coker: The Enabling Act provides for the selection.

Mr. Chairman: You have heard the question on the amendment on section 10, gentlemen.

Mr. Lynch: Mr. Chairman, it seems to me that that is superfluous. We provide that the legislature shall provide proper laws for the lease and sale of all state lands.

Mr. Orme: The Enabling Act provided for appraisalment.

Mr. Lynch: What is our commission for?

Mr. Winsor: The commission is simply to provide officers in authority to perform this duty under the rules and regulations of law.

Mr. Lynch: If the legislature is to provide the way in which it is to be sold, why should we say, they must provide a commission?

Mr. Roberts: Mr. Chairman, Mr. Webb has absolutely convinced me that he is right and I believe in letting the legislature take up these duties.

(The Records of the Arizona Constitutional Convention of 1910, Page 709)

[e944113] Mr. Parsons: Mr. Chairman, I move as an amendment offered by the gentleman from Yuma, strike out the words "for terms not longer than five years[.]"

Mr. Winsor: Inasmuch as I do not care for this office myself, I have no objection to the amendment at all.

Mr. Osborn: I second Mr. Parsons' motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 709)

[e944114] Mr. Coker: The balance of that paragraph is only a repetition of what was left remaining of paragraph nine. It might as well all be stricken out.

Mr. Webb: Mr. Chairman, there was left after the change was made in paragraph nine the following: "may be sold in the state in the manner and on the conditions and with the limitations prescribed by the Enabling Act, etc."

Mr. Parsons: The question is on the amendment of Mr. Parsons to strike out on page 6, the words on the first line "for terms not longer than five years."

Mr. Winsor: Mr. Chairman, upon first thought and after listening to the gentleman from Graham, and the gentleman from Cochise, it did not appear to me to make any difference whether that was left in or not, but I believe it would be much better to provide for that commission and I withdraw my acceptance of the amendment proposed by the gentleman from Cochise. I believe that that is the proper method by which it should be handled. It is necessary that some officer have the power to carry out instructions of the legislature.

(The Records of the Arizona Constitutional Convention of 1910, Pages 709-710)

[e944116] Mr. Chairman: You have heard the motion. All in favor of Mr. Parsons' amendment signify by saying "aye;" opposed "no." The amendment is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944118] Mr. Chairman: [...] We will now take up the original motion of Mr. Winsor, which reads on the first line of page 6, "leased or sold of all state lands under the supervision of a commission to be created for that purpose, and shall further provide, etc." All in favor of this amendment will say "aye;" opposed "no." Call the roll.

Roll call showed 23 "ayes" and 22 "nays."

Mr. Chairman: The motion of MR. Winsor is carried. Any other amendments?

(Editorial)

[e944119] Mr. Coker: Mr. Chairman, I move to strike out all that portion after the words "be created for that purpose" beginning with the word "and shall further provide."

Mr. Jones (Yavapai): I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944120] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944122] Description Mr. Ellinwood: I move a reconsideration of the motion made by Mr. Winsor. I voted "no". This is a question of fair play.

Mr. Colter: I second the motion.

[Editor's Note: Page 307 of the Minutes indicates that Ellinwood voted "aye" on the amendment.]

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944123] Mr. Chairman: All in favor of the reconsideration of the amendment of Mr. Winsor will make it known by rising. All opposed will rise. The vote will be reconsidered.

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944125] Mr. Webb: The question is now on the Winsor amendment. Call the roll.

Mr. Chairman: All in favor of adopting the Winsor amendment will make it known by saying "aye;" opposed "no."

Roll call showed 19 "ayes" and 24 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944126] Mr. Webb: Mr. Chairman, I desire to move that section 10 in its entirety be stricken out.

Mr. Coker: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944127] Mr. Ingraham: I made a motion just preceding the reconsideration, and left a copy on the secretary's desk. My amendment has priority.

Mr. Short: I seconded the amendment.

Mr. Webb: It certainly would have been put had it been entertained.

Mr. Chairman: Read the amendment, Mr. Secretary.

Secretary (reading): Amendment offered by Mr. Ingraham, to be added at end of the section: "Provided that the right and title to mineral deposits underlying any state lands shall forever be retained in the state, and that at least seven percent of all mineral deposits hereafter taken from such land must be paid to the state by any lessee thereof."

(The Records of the Arizona Constitutional Convention of 1910, Page 710)

[e944128] Mr. Ingraham: It is somewhat similar to Proposition Number 28.

Mr. Cunniff: That proposition won't do. That is all right in Minnesota, where you can diamond drill for iron deposits. It might do in coal beds. It might do in isolated cases of copper deposits, but not in lode mining in Arizona with its uncertainties. It would never fit in Arizona conditions. Seven percent would absolutely wipe out any profit. It does not fit Arizona mining conditions.

Mr. Ingraham: I fully believe that the reservation contained in that amendment would prove more valuable to the state in the future than the surface of these lands, Now, there is not any doubt that the large part of these state lands will in the future develop placer beds of gold, and deposits of silver, copper, lead, or other minerals; probably petroleum deposits will be found in this Territory, and possibly coal. Moreover, this reservation would not be confined to this generation, or the next generation, but would go on forever. Moreover, gentlemen, I do not believe it would make five cents difference in the price you would get for these lands, because these lands will be sold for agricultural or grazing purposes, in which the surface only is concerned, and the man who is purchasing those lands for purposes of grazing would not give one cent more for the mineral rights under these lands. It seems to me this amendment would preserve a valuable patrimony under these lands. It seems to me the future school funds of Arizona.

Mr. Crutchfield: In answer to the argument of Mr. Cunniff, I wish to say if the argument is made in good faith, he should not oppose the amendment, but amend the amendment by reducing the figure, if seven percent is counted too high. As the gentleman can well see, this is an amendment that has for its purposes the conserving of the resources for the school funds, and this might prove a boon to the school fund at a time it was very much needed.

Mr. Cunningham: I would like to call the gentleman's attention to section 24, line 6, of the Enabling Act in this connection.

Mr. Roberts: I move that we include farming produce, alfalfa and beets.

(The Records of the Arizona Constitutional Convention of 1910, Pages 710-711)

[e944129] Mr. Chairman: All in favor of adopting Mr. Ingraham's motion will answer "aye;" opposed "no." Call the roll.

Roll call showed 16 "ayes" and 26 "nays."

Mr. Chairman: Gentlemen, the motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 711)

[e944130] Mr. Webb: I want to withdraw my motion to strike out all of section 10. I yield the floor to the gentleman from Yuma, and hope his amendment will prevail.

(The Records of the Arizona Constitutional Convention of 1910, Page 711)

[e944131] Mr. Winsor: I want to point out that we are confronting an inconsistency in this proposition as it has been amended. Since reconsideration of the vote by which the amendment was made to section 10, we have a rank inconsistency. I hope I will be pardoned for these preliminary remarks which explain the purpose of my amendment. In section 9 it is provided that the lands may be sold by the state. In section 10 it is provided that the legislature shall lease the lands. Now, they may sell but they shall lease, and I do not see how they can sell if they must lease. I move section 9 be amended by inserting in line 12 after the word "sold" the words "or leased." In line 14 after the word "constitution" insert the words "and as may be further prescribed by law," and in line 17 after the words "and reimbursement to the" insert the words "actual bona fide residents and" and make the word "lessee" plural.

Mr. Cassidy: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
711-712)

[e944132] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944133] Mr. Ingraham: It seems to me that this discriminates in favor of the resident and against the man who holds the land but does not reside thereon. It ought to read "lessee."

Mr. Winsor: I followed the wording used in section 10 that we have just been considering.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944135] Mr. Ellinwood: Is section 10 up for amendment? On line 4 I move to strike out the word "equitable." It ought to be a legal right, if anything.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944136] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944138] Mr. Ellinwood: I move to strike out the words "a reasonable price for said equitable" and insert the following "by the lessor the value of said improvements and" in lieu thereof.

Mr. Colter: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944139] [Editor's Note: This blank document has been created in order to mimic the process of the Committee of the Whole proposing and considering individual recommendations relating to Substitute Proposition Number 78.]

(Editorial)

[e944140] Mr. Jones (Yavapai): I move Proposition Number 78 be indefinitely postponed.

Mr. Connelly: I second the motion. I do not see anything in it except what was in the Enabling Act.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944142] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944176] Mr. Chairman: We will now vote on the amendment of Mr. Ellinwood. All in favor of this amendment will make it known by saying "aye;" contrary "no." The "ayes" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944149] Mr. Ellinwood: I desire to offer an amendment in section 11...

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944150] Mr. Ellinwood: I desire to offer an amendment in section 11, line 10, to insert the words "purchase or" so as to make it read "shall be allowed to purchase or lease."

Mr. Franklin: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 712)

[e944152] Mr. Ingraham: In regard to that amendment, I think it very bad for the interests of the State of Arizona. It restricts the market for school land very much. I do not see why if the Santa Fe or Southern Pacific or a big land company wants to come in and pay high for this land and the State of Arizona should not take advantage of it, and it seems to me that if we are to carry out the spirit of the Enabling Act, which is to the effect that we shall put this on the market to the highest bidder, we should not go ahead and fix unreasonable conditions. I move to strike out the entire section.

Mr. Webb: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 713)

[e944153] Mr. Ellinwood: In answer to the gentleman from Yuma, Mr. Ingraham, the entire discussion centered around the point that the big corporations were going to gobble up this land. That was the opposition. The Territory of Arizona ought to conduct its affairs so as to benefit the bona fide settlers, and 160 acres of irrigatable land is enough, and if a man wants more he can buy from another.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
712-713)

(The Records of the Arizona Constitutional Convention of 1910, Page 713)

[e944157] Mr. Winsor: I move to amend section 10, page 6, by inserting after the word "lease" the word "or sell."

Mr. Ellinwood: It seems to me the purpose is accomplished by inserting on line 25, the words "sell, or."

Mr. Winsor: I will change the form of the amendment as follows: Insert before the words "lease" the words "sell, or" and strike out the words "for terms not longer than five years."

(The Records of the Arizona Constitutional Convention of 1910, Page 713)

[e944159] Mr. Orme: That complies with the Enabling Act and with the present statutes of Arizona. Every five years these lands are released at a higher appraisal and it should be for not longer than five years so they can be re-appraised.

(The Records of the Arizona Constitutional Convention of 1910, Page 713)

[e944162] Mr. Ellinwood: I move an amendment that the words "sale, or" be added to the last words on line 25.

Mr. Crutchfield: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 713)

[e944163] Mr. Winsor: I accept the amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 713)

[e944164] The motion prevailed.

[e944330] Mr. Jones (Yavapai): Mr. Chairman, I move that when the committee arises it recommend that Memorial Number 1 be indefinitely postponed.

Mr. Sims: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 716)

[e944331] Mr. Webb: Mr. Chairman, this is a matter that should not be postponed as it is a provision that will protect the interest of the poor. Many good citizens have taken up school lands and have cultivated, improved and built homes thereon and are good honest industrious people, and they should be protected in these homes and on this land, therefore, I recommend the adoption of the memorial.

Mr. Colter: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 716-717)

[e944333] Mr. Jones (Yavapai): Mr. Chairman, we have already made provision for the protection of these people in section nine of Proposition Number 78, which has already been adopted, and this is entirely covered in that measure, which it is unnecessary to adopt the memorial.

Mr. Baker: I am in hopes the motion of the gentleman from Graham will prevail, for I think it should pass. For the benefit of many people, who are of the best class of citizens and who have established themselves upon this land and spent much labor and means to cultivate and improve it, they should have protection, I think that this is very timely, and it does not hurt anything at all and may accomplish good. In the Enabling Act there are provisions for these school lands, but they are not acceptable to all and do not protect the people who have spent their time, means and best efforts upon them. It is but right that they should have this protection.

Mr. Short: I agree with the gentleman from Yavapai that this has been amply provided for in the Enabling Act and that this memorial would have no effect upon Congress.

Mr. Ellinwood: I understand that this provision was not included in the original Enabling Act, but the attention of both the Senate and the House of Representatives was called to this fact that it would jeopardize the passage of the statehood bill if they amended it so, but that there was no objection to the amendment and would be none if it were taken up by the convention as we have it here presented. I think it would be well to adopt the memorial. I think that relief should be provided for by such a measure and this is the best method to take to secure that relief, therefore, I hope the measure will be adopted.

Mr. Franklin: It is very true that a bill was passed the other day something of the same nature of this memorial, but I do not think that it is sufficient and I think too that the only way to secure the right protection to the people who occupy these lands is through just such a measure. I believe that it was the sense of Congress that such a measure would be presented in a form of this kind and we may not fear anything but approval from Congress should this measure be adopted.

Mr. Cunniff: My objection to the memorial is not so much what it contains as it is to the language of the measure. The language is not of that nature or dignity that a dignified body like this should send to such a dignified body as

Congress. Neither do I think that our delegate should be expected to take up such a matter. I think that this was hastily drawn up, and it is so arranged that Congress will take cognizance of it only to disapprove of it. Therefore, I hope that the measure will not be adopted.

Mr. Orme: I do not think there is any need to fear the acceptance of the memorial as it is here presented, for I was assured that it would be considered as one of the measures that would be inserted in our constitution. It would have been placed in the original bill only through an error. The matter was to be taken up at a certain time, but Senator Reed Smoot had a matter that was given precedence by mistake and it was only an oversight on the part of Congress. We need not fear to include this in our constitution.

Mr. Webb: I did not draw it up myself, but it was drawn up and presented to some of the very best and most learned men of this convention, who approved of the phraseology. They returned it without a single correction, and I cannot see why it should be rejected by the gentleman from Yavapai on that point.

Mr. Cunniff: I do not believe that it is within the bounds of propriety to request our delegate or Congress to do these things. We have no such right, have we, to make such a request?

Mr. Baker: As I stated before, this measure is very timely and can do no harm.

Mr. Colter: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 718)

[e944389] Mr. Baker: I move that section 1 be stricken out, as I do not see any necessity for this at all. Now, it seems to me that this absolutely puts all the books and files of a corporation absolutely under the supervision and control of this corporation commission, and hence makes section 1 absolutely unnecessary.

(The Records of the Arizona Constitutional Convention of 1910, Page 718)

[e944390] Mr. Short: Will the gentleman permit a question? I would like to ask if you have the amendment in your proposition that was adopted: After the word "any" insert "public service" in section 5, line 7. That would change the matter very materially.

(The Records of the Arizona Constitutional Convention of 1910, Pages 718-719)

[e944391] Mr. Baker: There is something in that; I did not have that amendment. I will withdraw my motion to amend.

(The Records of the Arizona Constitutional Convention of 1910, Page 719)

[e944393] Mr. Ingraham: This provision is necessary in order to make plain the law. We have a provision in the bill of rights that persons shall not be disturbed in their books, papers and records, and private affairs. Now corporations are persons, and the purpose of this clause was to make it plain that the state did have power to investigate corporations. In regard to the amendment confining the effect to public service corporations, I will say that it is narrowing the power of the state more than that of any other state I know of. You gentlemen are familiar with the Armstrong investigation in New York State by which the rotten methods of life insurance companies in regard to their funds were shown up. Now under this clause as amended neither the Armstrong investigation nor any similar investigation in Arizona would be possible, as the state would not

have the power. The purpose of this clause is to put under the supervision of the commission all corporations, not merely public service corporations, but insurance and bank corporations, building and loan associations, and all those like corporations which are not classed by the books as public or quasi public corporations but which fall below that border line. As to the objection which I understand was made the other evening, that this commission would go around sticking its nose into the affairs of clothing store corporations, and grocery corporations, there is nothing in that. The corporation commission we have established will have something to do, will have important affairs to take care of, and they will not have time to go around in useless investigation; and let me tell you if the corporation commission should go around investigating the affairs of small commercial companies, they will have some good reason for spending their time in this way.

Mr. Wells: I would like to ask what penalty is imposed if, for instance, I should refuse to allow an examination of a corporation in which I was interested?

Mr. Goldwater: The penalty is found in Number 113.

Mr. Wells: Then if there is a penalty I can see no necessity for applying it to all corporations. If it is applied to public service corporations it is proper enough.

Mr. Ingraham: Will the gentleman yield to a question? Do you not think that the investigatory powers of the state should extend to insurance and building and loan companies?

Mr. Wells: It should to insurance companies, but not to small mining companies in the hills, struggling for existence, or an industrial corporations struggling for existence. If this office is in the hands of hostile individuals, they can put that corporation out of business.

Mr. Winsor: It seems to me the gentleman from Yavapai, Mr. Wells, and some others, have confused this proposition with Number 113, which creates a corporation commission and defines the powers thereof. Substitute Number 58 has absolutely nothing to do with that. It simply gives the state inquisitorial powers but does not confer any powers on the corporation commission or any other. It seems to me that is absolutely necessary and will be found in almost, if not quite all, the constitutions of the various states.

Mr. Jones (Yavapai): It does not seem like this proposition would hurt anybody. It looks to me like any corporation that the truth would hurt ought not to exist in Arizona, or any private individual's business that the truth would hurt ought not to exist. Therefore, I hope this amendment will not carry.

Mr. Short: The gentleman from Yavapai, Mr. Goldwater, refers to section 16, in Proposition 113, and I would like to call his attention to the fact that the penalties therein provided are only to apply to public service corporations. As Number 113 was amended there is not one word there governing or concerning private corporations. Now if a little mining company or a building and loan association or other corporation created by the state deserves investigation, somebody ought to be empowered to investigate. It will not only protect the people at large but those who become creditors and stock holders not cognizant of the doings and inside workings of that corporation. I do not believe this will hurt anybody doing a straight legitimate business. I notice that the constitution of New Mexico, supposed to be safe and sane, has a very drastic section in regard to examining private corporations. They have absolute authority to investigate any corporations in the state.

Mr. Ellinwood: Mr. Ingraham says that an examination such as the Armstrong investigation could not have been had but for a paragraph of this kind in the constitution. This appears only in one state, in Oklahoma. I find that in Stimson on Corporations, the clause is exactly like this paragraph: "The records, books and files of all corporations shall be at all times liable and subject to the full visitatorial and inquisitorial powers of the state, notwithstanding the immunities and privileges in the bill of rights of this constitution secured to the persons, inhabitants and citizens of this state." Turning to the Oklahoma constitution we find a provision that appears in no other state constitution.

Mr. Curtis: Mr. Chairman. It does not seem to me proper to put the private corporation in the same class as the financial corporation. This says that the state may have the power, and there should be something in the law or constitution that some commission or controller should be obliged to investigate the financial institutions. I do not know what plan has been devised [balance of remarks missing].

Mr. Lynch: In reply to the gentleman from Santa Cruz, I would state, as we all know, corporations are creations of the law. Now the statute which creates a banking corporation creates the conditions and circumstances under which that corporation shall be established or created, and it provides for the government, regulation and examination of the banking corporations, and that is done under a separate statute in our territorial law, which statute is still in force, there being nothing in the constitution we have framed that conflicts with it; and the same is true of the insurance corporations: they are formed under a separate statute, which provides the manner and the powers of the investigation into their affairs. This clause goes further: The corporation being the creature of the law, and a person as far as the law is concerned, this takes away from it at one broad sweep the inalienable right every person has under the constitution of the United States. Now if the affairs are such that it requires an investigation under original procedure, the courts have absolute power to bring everything connected with the corporation into court and investigate, and that was what was done in the Armstrong case, and in the case of dozens of private corporations. They can be investigated without this proposition, and whether it is in or not.

Mr. Ellinwood: What the gentleman from Graham has said, as undoubtedly everyone knows, is true. Whenever there is an offense charged and a complaint filed or an indictment issued, every scrap of paper that is owned by the corporation can be brought into court. On several occasions I have [had] the gentleman from Yavapai, Judge Wells, in court and his cashier with the books and records and papers in court when someone was charged with a false check or something of that kind.

Mr. Ingraham: The fight that is being made on the floor today is the same fight that has been made for 25 years by the corporations throughout the United States to avoid investigation. Now this convention has already adopted the principle of investigation. You have applied this amendment so that this inquisitorial power of the state shall extend only to public service corporations, but I want to ask you gentlemen in all fairness why it is that the state should have the power to investigate public service corporations, their books and papers. Is not the financial success of the public service corporation just as important, or more important, than the financial success of some grocery or clothing concern, some purely private commercial business? If you investigate the affairs of a

great railroad, its books and papers, and throw them open to the view of the people, why not investigate the affairs of some small grocery corporation? If it is injurious to the interest of the state to investigate the private corporation, why is it not injurious to the interests of the state to investigate the public service corporation? It seems to me that to bring failure on this great corporation would be more injurious than on this small corporation. But we have adopted this principle now, and we have applied it to a certain class of corporations, and I am asking why that should not be extended to another class? This convention says the state may investigate the books, papers and private affairs of the railroad, and at the same time we say the state shall not investigate the private affairs, books and papers of a bank. On the one hand, we give the state power to investigate a gas company, but on the other hand, it has no power to investigate a building and loan association. Now what is the sense in that? The gentleman has said all states have the power to bring the books, papers and records of any corporation into court. Of course that is true, but it is only after some crime or offense has been committed; the purpose of the investigation is to prevent crime, fraud or injury to the public. I have been quoted as making the broad statement that this is in the constitution of many states. I did not intend to say that these exact words were in the constitutions of many states, but I still contend that in many state constitutions the broad provision in the bill of rights which protects persons in their private papers, books and affairs from investigation, is prevented from applying to corporations. That is true in Wyoming, in Virginia and in Louisiana, and it is no doubt true in many other states; I know as a fact it is. The inquisitory power is made to extend to all corporations notwithstanding that provision in the bill of rights. Corporations such as the Northern Securities Company and the Sugar Trust have been forced by the Interstate Commerce Commission to allow investigation of their affairs. The gentlemen have presented a very beautiful proposition that stockholders may always investigate the books and papers of the corporation. Now you know how that is carried into effect. Every corporation that wants to avoid it, does avoid it for months and months until the thing they want to carry out is carried out in spite of the minority stockholders. This is aimed at the one broad purpose to give the state the power to investigate in circumstances where corporations are committing fraud and wrongs against minority stockholders and the public and the purpose is to throw these things open to investigation.

Mr. Chairman: The question is upon the amendment to insert the words "public service" after the word "all" in line 1, section 1.

Mr. Lynch: Just one more word. I want to read the Wyoming provision, and ask you if it is the same thing: "All corporations doing business in this state may, as to such business be regulated, limited or restricted by law not in conflict with the constitution of the United States." Another gentleman quoted the constitution of the new state of New Mexico. It absolutely covers public service corporations and nothing else.

Mr. Goldwater: I did not suppose I was starting another of those things that have no end. It seems hardly worth while for the chairman of this committee to make such a defense of his proposition. I have no interest except my attention was called to it in this way: The Committee on Public Service Corporations recommends this bill, and then they immediately start in on all corporations. It seems to me the Committee on Public Service Corporations must have some good reason for inserting this in the public service corporation measure. The

convention took that matter up when it considered Proposition 113, and voted it down, and if they did not want it in there then I do not know why we want it now. This joint Railroad and Public Service committee should have included all the provisions they wanted to indicate; instead they left out some which they claim this morning ought to be investigated. If a life insurance company or loan association is not a quasi public service corporation, I do not know what they are.

Mr. Ingraham: They are not.

Mr. Goldwater: They are quasi public service; they are called public service corporations. I notice the other day President Taft instructed the Secretary of the Treasury that all corporations which put their stock on any market or any stock exchange should be open to public investigation. I have no particular interest in this thing, except I do not think it belongs here, or that the bill was drawn up properly.

Mr. Short: In answer to the gentleman from Yavapai as to why this provision was not included in the public service corporation measure, [I] beg to state it was. Section 2 of Substitute Number 113 provided that "The corporation commission shall have general supervision of all private corporations doing business in this state, to be exercised in such manner as may be provided by law." I believe the gentleman from Yavapai moved to insert the words "public service" instead of "private" corporations, which was carried, and then afterwards the entire section was stricken out, so I do not believe it is fair to charge that the committee did not endeavor to include this in the public service corporation commission proposition. They did. It was put in there with the intention of leaving the matter of details of supervision to the legislature, and when the public service corporations were inserted we had it stricken out because it entirely disturbed the balance of the proposition.

Mr. Baker: I desire to hear one good reason before the vote. Here is a grocery corporation; three men incorporated under a corporate name. Their books, files and papers are subject to public control and inquisitorial and visitorial investigation by the state. A private individual just across the street has a like and similar grocery store, does precisely the same business and sells to the same persons, and his books and private papers are not subject to inquisitorial or visitorial investigation. Why should that be so?

Mr. Short: Why should the three gentlemen incorporate? Why not go into business individually, and be liable for the business of the firm?

Mr. Lynch: I think the gentleman has struck the key-note. It will drive out all private corporations in the new state.

Mr. Jones (Maricopa): Section 2, eliminated from Proposition Number 113, placed under the public service corporation commission all private corporations, but only in such manner as might be provided by law, giving them no discretionary power. The effort was to give them power over private corporations such as ice companies, something that is necessary in this country. It was designed that the law might give this corporation commission such power to investigate their affairs as might be deemed wise. With that out I favor section 1. With section 2 placed in Proposition Number 113 this would be unnecessary.

[e944395] Mr. Roberts: We are using the words "public service corporations." I take it that means railroads, street car companies, water companies and the like. I would hardly suppose that banks, insurance companies, loan and trust companies would be in that class, and therefore I desire to make an amendment that after the words "public service corporations" the words "state banks, building and loan associations, trust, insurance and guarantee companies" be inserted.

[e944416] Mr. Ellinwood: On line 19 I move to strike out "five dollars" and insert "twenty five dollars."

Mr. Cooper: I second the motion.

(Editorial)

[e944418] Mr. Ellinwood: A corporation that cannot pay a registration fee of that size ought to go out of business.

Mr. Ingraham: Now, Mr. Chairman, I shall oppose the amendment for the reason that I fear it would perhaps defeat the whole proposition before the convention. I would point out that this fee may be increased by the legislature. The proposition here is merely that the fee shall be not less than five dollars, the supposition being that the legislators will regulate it at such point as they think just and fair. I think the chief purpose of this registration fee is to enforce upon the attention of every corporations the fact that they must report. If they have an annual tax which comes due, we will say on January 20th of every year, why that will remind them of their duty to report. While this \$5 might not seem very large, I believe it will be a source of considerable revenue. If the fee should be made \$25 as suggested, I think the gentleman would be surprised at the enormous fund that would be brought into the treasury.

Mr. Ellinwood: I would be delighted to be surprised.

Mr. Cunniff: It may seem right to have an additional tax placed on the large corporations, but most of the corporations in the territory are small corporations to which every dollar counts. These corporations have just recently been examined but the United States government and a tax laid upon their income. As far as mining is concerned there is a bullion tax at the present time in the territory, and I shall strenuously oppose any increase. This might be as well left to the legislature or the people through the initiative or referendum.

Mr. Parsons: I desire to say a word with reference to this matter. I was a member of the sub-committee that has this under consideration. I suggested this very matter to the chairman, and while I did not like the name of the annual registration fee, still I do not know that it will make any difference. I agree with my colleague, Mr. Ellinwood, that we should put this as a minimum—that any corporation doing business in this state shall pay \ \$25 to be exclusive of any other tax. Of course, any class of corporations the legislature might think were paying enough when they pad this \ \$25 need not be assessed anything else in the way of a license tax. Of course the property would be subject to taxation. I think a corporation that gets the great name of the State of Arizona, under which to do business, that gets the privilege of hiding under a corporate name and gets out of the liability for corporate debts, ought to pay \ \$25 a year, and the corporation that cannot do that ought to go out of business. I am heartily in favor of that amendment.

[e944419] Mr. Chairman: All in favor will answer "aye;" contrary "no." Call the roll.

Roll call showed 13 "ayes" and 30 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 725)

[e944420] Mr. Ellinwood: Mr. Chairman, by section 1 of this proposition you have adopted a provision by which the books, records and files of all public service corporations, including state banks, building and loan associations, insurance companies and guaranty companies, shall be liable to the full inquisitorial powers of the state. Section 3 refers to all corporations: "Provision shall be made by law for payment of a fee to the state by every domestic corporation," etc. So I take it the provision refers to all corporations. I therefore move to strike out in line 22 after the word "property" the following words, "and for making by every such corporation at the time of payment such annual registration fee a report to the state corporation commission of the status, business or condition of such corporation as the legislature may prescribe."

Mr. Cassidy: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 725-726)

[e944421] Mr. Cunniff: Mr. Chairman, those are two widely separated propositions.

Mr. Ellinwood: Mr. Chairman, it goes right back to the proposition of the gentleman from Maricopa, Judge Baker, wherein he cited that a corporation organized for carrying on a grocery business by three men, under this inquisitorial power, would be subject to the inquisitorial powers of the state. This provision requires just such a corporation to thus make a report, stating their business and the condition of their business. If their business is in bad condition the first paragraph permits the state to ascertain for itself. If they have no control over the small corporations this report can serve no purpose whatever except

to expose the business condition of [sic, to] a competitor, who is not a private corporation.

Mr. Cunniff: Mr. Chairman, I think that the gentleman from Cochise has had sufficient experience and knowledge of the kind of reports that corporations furnish when requested or compelled to do so by laws of this kind to know that those corporations do not make reports of such a nature as to give the information that would be secured by an inquisitorial commission. And I further point out for the information of the gentleman from Cochise, that the last part of that sentence requires such reports in regard to the status, business and conditions of such corporations as the legislature may require, but we might amend by saying "as required by law."

Mr. Ellinwood: Mr. Chairman, I would like to ask the gentleman a question. If it does not mean anything it is absolutely useless.

Mr. Cunniff: I did not say that it meant nothing.

Mr. Ellinwood: The words used here—they must file a report of the status of the business and of the condition of such corporation. Now, if they do that faithfully they will tell their business condition. If they are relying upon a statement, which did not tell anything, it subserves no purpose, whatever.

Mr. Cunniff: Mr. Chairman, that phrase does not say they shall make a report to the state corporation commission of the status and business condition of such corporation. It says that they shall make such report as the legislature may prescribe.

Mr. Ingraham: Mr. Chairman, the provision is taken almost verbatim from the State of Virginia's constitution adopted in 1902, and I notice in going over these matters concerning public service corporations and corporations in general that the State of Virginia, which has always been noted for her eminent lawyers, has worked this proposition out more carefully than any other state in the Union, perhaps, and that is the reason we have taken this clause from the State of Virginia's constitution. It has been pointed out that the corporations will not be subjected to anything except what the legislature prescribed. There is nothing provided in the constitution. It is merely putting a power here that the legislature may use in due time. It seems to me that if a company is about to fail the community has a right to know.

[e944425] Mr. Weinberger: Mr. Chairman, I wish to offer another amendment. On page 3, in line 7 after the word "fee" insert the following words, "or from the making of such reports by," and in line 8 after the word "charitable" insert the words "social, fraternal and benevolent."

Mr. Jones (Maricopa): I second the motion.

[e944426] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 727)

[e944427] Mr. Chairman: Any other amendments to section 3?

Mr. Ellinwood: Mr. Chairman, in line 2 on page 3, after the words "as may be prescribed by law" add the following, "and the legislative power may prescribe a penalty for the failure to file such a report." I move to insert that clause.

Mr. Morgan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 727)

[e944428] Mr. Ingraham: I think Mr. Chairman, the legislature would have the power to enforce that provision without our saying so in so many words.

Mr. Parsons: Mr. Chairman, I think there should be provision for a penalty and as there are two or three other acts required of corporations in the succeeding section, I think it would be better to put that after the last one.

(The Records of the Arizona Constitutional Convention of 1910, Page 727)

[e944429] Mr. Ellinwood: I withdraw my amendment with that understanding.

(The Records of the Arizona Constitutional Convention of 1910, Page 727)

[e944433] Mr. Short: Mr. Chairman, we have been trying all morning to do something that we were trying to evade heretofore; that is to put something in the constitution that has no place there. As an amendment I move you to strike out all of section 3, beginning with the word "no" down to the word "state" in line 5. That is the only negative proposition there is in this. There will be nothing in the constitution which prevents the legislature doing all these things if we remain silent. There is a sentence which says, "no foreign corporation shall have permission to do business in this state." I submit that that is the only thing in this section that means anything.

(The Records of the Arizona Constitutional Convention of 1910, Page 727)

[e944434] Mr. Cobb: Mr. Chairman, I would like to make an announcement. I have today put on the desk of every member a statement giving the names of the county and the population as was announced in the newspapers some time ago; the representation as was adopted by the convention; and in the third column the representation as I will propose when this comes up again, and in the last column the names of the committeemen from the various counties of the legislative committee that reported that apportionment bill. In Apache I have made a mistake. Apache should have one and one instead of one and two.

[e944530] Mr. Weinberger: I think this commission should be regulated by law, so that every corporation will have an equal chance.

Mr. Ingraham: Of course it is understood that this corporation commission, which in general had a great deal to do with corporations, the audit power that the auditor now has and that the secretary of state used to have, should look over the papers filed by the corporations to see if they comply with the law, and then issue the certificate which the law requires. With regard to foreign corporations, we have no such corporations now except a few life insurance corporations.

(The Records of the Arizona Constitutional Convention of 1910, Page 729)

[e944554] Mr. Ingraham: Mr. Chairman, I see immediately a defect in it. It should read, "It shall be unlawful for any corporation doing business in this state to make contributions of money or anything of value," etc. I move that it be amended to that effect.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 729)

[e944555] Mr. Parsons: Mr. Chairman, I desire to ask the gentleman from Yuma a question. To what elections do you have reference? Elections within the corporation or state, county or municipal elections?

Mr. Ingraham: It must refer to public elections. Elections under the laws of the state.

(The Records of the Arizona Constitutional Convention of 1910, Pages 729-730)

[e944560] Mr. Franklin: Mr. Chairman, it does not seem to me that the amendment of the gentleman from Yuma gets at the root of this question. I think we should further add, "it shall be unlawful for any corporation doing business in the state to make contributions of money or anything of value" and after the word "corporations" add "or any officer thereof." I make that motion.

Mr. Osborn: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 730)

[e944562] Mr. Cunniff: Mr. Chairman, I do not like to see corporations governing elections, but I feel that a man who may be director of a mining company and may wish to contribute \\$.60 to a campaign fund, should not be compelled to point to the constitution and say: "I cannot contribute this \\$.60."

Mr. Tovrea: Mr. Chairman, I would hate to be deprived of the privilege of contributing to the campaign fund. I hope the measure will not pass.

Mr. Winsor: I would ask if the gentleman from Maricopa who proposes the amendment would not be willing to add the words "for such corporation" in order that an officer might not contribute for the corporation but could contribute individually.

Mr. Franklin: Mr. Chairman, as I understand the wording, it means that an officer contributing money would do it for the corporation.

Mr. Winsor: Why not say so in so many words?

Mr. Franklin: Of course, if you put it that way, Mr. Chairman, a man might contribute money really for the corporation and how could anybody say whether he did it for himself or for the corporation? It seems to me that this prohibits any member of a corporation from contributing money to a campaign fund. An officer of a corporation cannot shield himself.

Mr. Parsons: Mr. Chairman, as I understand now the object of the gentleman from Maricopa is that he wants the corporation to be precluded from contributing, but is willing that individual members or officers of the corporation may in their own individual capacity contribute. Then I think the section is properly stated as it is, for the corporation can only contribute by some of its officers, and if a corporation is denied the right to contribute then I think we have said all we can say with reference to them. Any officer may have the right to contribute in his own capacity. It seems to me that all we can do is to get down the principle and leave the details to be worked out by the legislature.

Mr. Franklin: Mr. Chairman, recurring to the business of corporations, of course we all very well understand that it is one of the ordinary privileges of a corporation to contribute money to campaign expenses. The object here is to prevent an officer from doing directly what the corporation could not do itself. It seems to me if it is the policy of this convention to preclude corporations from contributing this money we ought to so phrase this that the officers of the corporation would not do indirectly what the corporation would not do directly.

Mr. Parsons: Mr. Chairman, that was one of the very things that was contended for this morning with reference to the right of the state or its authorized agents to investigate with reference to corporations. We have a corporation commission now proposed here. We have attained some degree of progress in getting it included in our constitution. If we find that corporations are doing these things through some representative, then our corporation commission will have authority to investigate with reference to any charge that may be made, and put this man upon oath and find out if he has been doing it, and if he has we will subject him to the penalties that we make for the violation of this article.

Mr. Franklin: I will read section 5. "It shall be unlawful for any corporation, etc." After the word corporation insert "or any officer thereof."

(The Records of the Arizona Constitutional Convention of 1910, Page 730-731)

[e944564] Mr. Chairman: You have heard the first amendment. All in favor will signify by saying "aye" opposed "no." All in favor of this amendment will please rise; opposed will rise. The motion is lost.

[e944866] Mr. Kingan: I move to amend by substituting the following: "All existing rights to the use of any of the waters of this state for any useful or beneficial purposes are recognized and confirmed," for the whole of the substitute report of the committee.

Mr. Coker: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 765)

[e944867] Mr. Baker: Mr. Chairman, I am in hopes that the gentleman's motion will not prevail. I would like to call his attention to the first clause: "The common law doctrine of riparian water right shall not obtain in this state." We do not want to leave that question open in our new state.

Mr. Kingan: I would like to ask the gentleman from Maricopa a question. What is the reason for inserting that in the constitution? It is the law of this territory and has been for forty or fifty years, and it seems to me it is a matter purely legislative.

Mr. Baker: The answer is that it is purely fundamental. If a future legislature should undertake to establish a common law doctrine of water rights in this territory, they could do so. I want it fixed so that no legislature can ever do that thing.

Mr. Chairman: The question comes up on the amendment offered by Mr. Kingan. You have heard the amendment. All in favor will answer "aye," opposed "no," as their names are called.

Mr. Orme: Mr. Chairman, this is a question that is vitally important to the irrigators of Arizona. This is merely a basic law. There is nothing in the whole proposition that any man can take exceptions to. It is all fundamental law pure and simple, and we ask, gentlemen, as irrigators throughout this territory, that you pass this bill. Think a little. Give us farmers a little chance. Let us know our rights, which water appropriations should apply. I am opposed to inserting

in the constitution anything but what is right, but as a farmer I ask you to pass this bill.

Mr. Parsons: I want to ask the gentleman what right he thinks the farmers of this state would be deprived of by the adoption of the amendment offered by Mr. Kingan.

Mr. Orme: That portion is in this bill but it does not go far enough. It does not define which appropriation of water should stand first.

Mr. Parsons: Is not that purely legislative?

Mr. Orme: The legislature has never passed a law on the subject. All the laws in this territory are purely judicial, and this ratifies and confirms all of the judicial rulings heretofore.

Mr. Baker: Mr. Chairman, I would like to ask a question. What objection can you have to declaring that the common law doctrine of riparian water rights shall not be obtained in this state? Is it possible that you want it to be left an open question that some rich individual can buy up a piece of land through which a stream runs and thereby prevent the appropriation of any of that water by hundreds of settlers that may live along the stream? What objection can you have to declaring that these streams shall be public property and that no private individual shall acquire them?

Mr. Parsons: Mr. Chairman, I desire to read the balance of the section which says: "The water of every river, creek or running stream in this State are hereby declared to be public property, subject, however, to the beneficial use of any person or persons, company or corporation under such reasonable restrictions and regulations as the legislative powers may prescribe." Does not that leave it purely in the hands of the legislature? Then why put it in our constitution? I say we have a right to believe it is the will of the people, and to put a stumbling block in the way of their exercising their will I do not think is good policy. I do not know what change may take place. We may at some time want to apply the principle of riparian rights, and I do not know that it would be to any advantage to us to put the question in such a form that we would have to amend the constitution in order to do it. As it is now it suits the people, and whenever the majority of the people want it changed I say it ought to be changed.

Mr. Colter: Mr. Chairman, I do not see why the gentleman from Cochise has not made these arguments before against other matters.

Mr. Lynch: Mr. Chairman, I would say that I see nothing seriously wrong with the proposition that has been brought in excepting that it is simply a repetition of things which we already have. Now replying to the gentleman from Maricopa, who says the statutes have never written anything upon the subject of priority of right in reference to difference classification of property let me read from our code. "The common law doctrine of riparian water rights shall not obtain or be of any force or effect in this territory. No inhabitant of this territory shall have the right to erect any dam, or build a mill, or place any machinery, or open any sluice, or make any dyke, except such as are used for mining purposes or the reduction of metals, as provided for in sections six and seven of this chapter, that may impede or obstruct the irrigation of any lands or fields, as the right to irrigate the fields and arable lands shall be preferable to all others." The common law doctrine of riparian rights did not ever obtain in this territory; therefore you need not put it in the constitution attempting to perpetuate a right that does not exist or attempting to cut out a right that

does not exist, and it seems to me that I can see no objection to the amendment of the gentleman from Pima.

Mr. Parsons: How do we know that this paper is what was changed to Number 149. This is not a substitute; it is a paper called "Water and Water Rights."

Mr. Jones (Yavapai): I never mentioned a paper called "Water and Water Rights."

Mr. Orme: According to instructions, the committee brought in this report and I move that it be substituted for Proposition Number 149.

Mr. Ingraham: May I ask the gentleman from Maricopa a question? Is this paper entitled "Water and Water Rights" the substitute for Proposition Number 149?

Mr. Orme: Yes, this is the new one.

(The Records of the Arizona Constitutional Convention of 1910, Page 767)

[e944881] Mr. Lynch: I move that when the committee arises it recommend to the convention that a special committee be appointed by the president to bring in a report on water and water rights.

Mr. Parsons: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 767)

[e944883] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 767)

[e944890] Mr. Chairman: The chair will rule that the committee will take up the motion to substitute the paper entitled "Water and Water Rights" in place of Proposition Number 149. Those in favor of substituting say "aye;" those opposed "nay." Call the roll.

Roll call showed 19 "ayes" and 29 "nays."

Mr. Chairman: The motion is lost.

[e944893] Mr. Cobb: I move when the committee arises it recommend the adoption of Proposition Number 149.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944898] Mr. Tuthill: I move to amend that we substitute section 3.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944899] Mr. Winsor: Does the gentleman from Maricopa not wish to make a motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944904] Mr. Baker: I do if they are ready to hear it. I move to strike out the words "The common law doctrine shall not obtain or be in force in this state."

Mr. Jones (Maricopa): I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, page 768)

[e944907] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944909] [Editor's Note: The adoption of Baker's second amendment also accomplished the proposed changes from his first amendment.]

(Editorial)

[e944911] Mr. Baker: I move that the word "any" in line 2, section 2, be stricken out and the word "all" be substituted.

Mr. Jones (Maricopa): I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944914] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944917] Mr. Baker: I now move as an amendment to this proposition that another section be added known as section 3. "Section No. 3. The Waters of every river, creek or running stream in this State are hereby declared to be public property, subject, however, to the beneficial use of any person or persons, company or corporation under such reasonable restriction or regulation as the legislative power may prescribe."

(The Records of the Arizona Constitutional Convention of 1910, Page 678)

[e944919] Mr. Parsons: I wish to state that this is already statutory law and is entirely unnecessary.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944923] Mr. Coker: I rise to a point of order. This has already been disposed of.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944927] Mr. Chairman: The chair will rule the motion in order.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944930] Mr. Lynch: I cannot see any need of placing this in the constitution, but if it will satisfy the delegation from Maricopa County, why, I say include it.

Mr. Baker: It is for the satisfaction of the people and not for the pleasure of the delegation from Maricopa County. We believe that it will prove to be just what the people want.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944933] Mr. Chairman: Call the roll, Mr. Secretary.

Roll call showed 21 "ayes" and 28 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944936] Mr. Baker, moved, seconded by Mr. Standage, to insert the following to be known as Section No. 3.

"Section 3. The waters of every river, creek or running stream in this State are hereby declared to be public property."

(The Minutes of the Arizona Constitutional Convention, Page 326)

[e944939] Carried by the following vote:

Ayes—Baker, Bolan, Brader, Cassidy, Colter, Crutchfield, Cunniff, Cunningham, Ellinwood, Feeney, Franklin, Goldwater, Hutchinson, Ingraham, Jones, A.M., Jones, F.A., Keegan, Langdon, Lovin, Lynch, Moeur, Moore, Morgan, Orme, Osborn, Pusch, Roberts, Scott, Short, Sims, R.B., Simms, Mit., Standage, Tovrea, Tuthill, Webb, Weinberger, Wells, Winsor, Wood, Mr. President. Total 40.

Nays—Cobb, Coker, Connelly, Cooper, Curtis, Jacome, Kingan, White. Total 8.

Absent—Kinney, Parsons.

Excused—Doe, Wills.

(The Minutes of the Arizona Constitutional Convention, Page 326)

[e944941] Mr. Colter: I want to move an amendment to be section 4 as follows: "Beneficial use shall be the basis, the measure, and the limit of the right to the use of public waters, and priority of appropriation for such use shall give the better right except that in times of scarcity a preference shall be given to the following purposes in the order name, viz: domestic, stock water, agricultural mining and manufacturing purposes." This I think is the most important paragraph of all. It will stop more confusion and put agriculture on a more satisfactory basis. I see no reason why we should not have a fundamental law naming the industries in their order of preference.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944943] Mr. Cunniff: I cannot see any use in this amendment. We thrashed the whole matter backwards and forwards and sideways, and agreed to leave the matter as it is.

Mr. Ingraham: I second Mr. Colter's amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 769)

[e944946] Mr. Coker: I rise to a point of order. This has already been voted on.

(The Records of the Arizona Constitutional Convention of 1910, Page 769)

[e944949] Mr. Chairman: The motion is in order. All in favor of the amendment will signify by saying "aye;" opposed "no."

(The Records of the Arizona Constitutional Convention of 1910, Page 769)

[e944954] Mr. Ingraham: Some of the gentlemen of the convention seem to have considerable objection to this paragraph, but I have heard no good reason given. Unless I am shown where I am wrong I shall vote in favor of it.

Mr. Feeney: Mr. Chairman, it is purely legislative.

Mr. Jones (Yavapai): I think this was thrashed out thoroughly on Saturday.

(The Records of the Arizona Constitutional Convention of 1910, Page 769)

[e944957] Mr. Chairman: Call the roll, Mr. Secretary.

Roll call showed 28 "ayes" and 20 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 769)

[e944964] Mr. Baker: I move that the following be added as section 5: "Public waters shall be subject to beneficial use by any person or persons, company or corporation under such reasonable restrictions and regulations as the legislative power may prescribe."

Mr. Standage: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 768)

[e944968] Mr. Jones (Yavapai): I move an amendment that Proposition Number 149 be indefinitely postponed.

Mr. Parsons: I second that.

(The Records of the Arizona Constitutional Convention of 1910, Page 769)

[e944971] Mr. Goldwater: I suggest that the secretary do not put that in as an amendment. It is not an amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 769)

[e944975] Mr. Chairman: Call the roll.

Roll call showed 26 "ayes" and 21 "nays."

Mr. Chairman: The motion prevails.

[e944947] Mr. Chairman: [...] Section 1, what is your pleasure, gentlemen?

(The Records of the Arizona Constitutional Convention of 1910, Page 774)

[e944951] Mr. Cunningham: Mr. Chairman, in line 13, page 1, I move to strike out the word “drawn” and insert the word “framed.” Such is the wording of the Enabling Act.

Mr. Feeney: I second that motion.

[Editor’s Note: The Minutes indicate Colter seconded the amendment.]

[e944961] Mr. Cunningham: I move to strike out the word “shall” and insert the word “may” in line 12, page 2, section 2.

(The Records of the Arizona Constitutional Convention of 1910, Page 774)

[e944962] Mr. Ingraham: It seems to me that the meaning, as it is here, is more than “the people may.” The full meaning is that the people shall have the opportunity to express their choice.

Mr. Colter: I second the motion of the gentleman from Cochise.

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e944963] The motion prevailed.

[Editor’s Note: The Minutes, on the contrary, say the motion was rejected. However, as Goldwater’s subsequent motion alters this clause, the editors have represented the recommendation as adopted.]

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e944966] Mr. Goldwater: I move that the word "also" be stricken out and that "the people shall," be inserted after the word "legislature."

Mr. Crutchfield: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 775 )

[e945775] Mr. Chairman: I would suggest that perhaps it is the intention to strike out the first words of the sentence.

Mr. Goldwater: That is it.

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945776] Mr. Chairman: It has been moved and seconded to strike out the words "the people shall" in line 13, after the word "legislature." Those in favor of this motion say "aye;" those opposed "nay." The motion is carried. Any amendments to section 3

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945781] Mr. Chairman: [...] Any amendments to section 3?

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945783] Mr. Winsor: In connection with the qualifications for electors there should be a provision made which will take into account a possible re-registration of voters. The Great Register as it now appears in the various counties is in bad shape and I think that there should be provision for a new Great Register, therefore I move to insert after the word "last" in line 2, page 3, the words "as hereinafter provided for by Congress."

Mr. Keegan: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945784] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945786] Mr. Chairman: What is your pleasure, gentlemen? If there are no objections section 4 will stand approved.

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945787] Mr. Chairman: What is your pleasure, gentlemen? If there are no objections section 4 will stand approved.

[e945791] Mr. Chairman: Any objections to section 5?

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945793] Mr. Parsons: I suggest that these subdivisions be considered one at a time that we can pass upon them more easily.

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945795] [Editor's Note: The Committee then proceeded to consider the subdivisions individually.]

[e945799] Mr. Chairman: Any objection to subdivision A?

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945804] Mr. Jones (Yavapai): Mr. Chairman, it seems to me that that would give a good deal more time for a campaign for the primary election than before a general election. Therefore I move the word "fifth" be changed to "third."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 775)

[e945805] Mr. Ingraham: If the gentleman will follow the dates in this primary act, he will see that such a change would be impossible. The gentlemen will notice that we must first have the names of the officers to be voted upon, especially the state officers, certified down from the Secretary of the Territory to the county authorities. Now the official ballot for the primary must be prepared, and the persons who are expecting to stand for office upon the primary ballot and the various parties must have at least a brief time in which to correct any mistakes that may occur, and then this official ballot must be printed, and gotten to the various precincts. That takes five days anyway, and all of these two-day and five-day periods counted together take considerable time. Now in the next section we mention the fact that nomination papers must be filed with the authorities fifteen days prior to the primary. That gives only ten days for the candidates to circulate among the people and get their petitions signed, and where they have to visit three counties that seems little time enough.

(The Records of the Arizona Constitutional Convention of 1910, Pages 775-776)

[e945806] Mr. Chairman: All in favor of the amendment will say "aye;" opposed "no." The "nays" have it, and the motion is lost.

[e945814] Mr. Chairman: [...] Any amendments to subdivision C?

(The Records of the Arizona Constitutional Convention of 1910, Page 776)

[e945815] Mr. Ingraham: [...] The nomination paper referred to in section 5 is the standard nomination paper as set forth in the primary act; that states it must be filed at least forty days prior to the primary, but we have cut that down to fifteen days.

(The Records of the Arizona Constitutional Convention of 1910, Page 776)

[e945819] Mr. Chairman: [...] If there is no objection, subdivision C will stand as approved.

[e945827] Mr. Ingraham: The convention will notice this makes provision for a delegate to Congress, and covers all state officers. This is the general purpose.

[e945830] Mr. Chairman: Is there any objection to subdivision [F]?

(The Records of the Arizona Constitutional Convention of 1910, Page 776)

[e945831] Mr. Osborn: Should not that be representative in Congress and not representative to Congress?

Mr. Ingraham: The legal term is representative to Congress.

Mr. Osborn: In the Enabling Act it is representative in Congress.

Mr. Ingraham: I was corrected once by the convention.

(The Records of the Arizona Constitutional Convention of 1910, Page 776)

[e945836] Mr. Ingraham: The change from the provision which is now in the statute books of Arizona in this section was made necessary by the votes on candidates for state senators and state officers. The amendment is therefore necessary.

[e945844] Mr. Winsor: I would like to ask Mr. Ingraham what is meant by the regular polling place. As I understand it, no precinct has a regular polling place; they are frequently changed.

Mr. Ingraham: I have followed the territorial primary law, and if the gentleman thinks it is incorrect, it will probably be amended. The primary act reads somewhat different from this. The reason we provided that the notice should be published in a daily paper where possible is on account of the brief time that precedes the primary, and we thought the notice would be more effectual in a daily paper and reach the public better if published once a day than if only once a week.

(The Records of the Arizona Constitutional Convention of 1910, Page 776)

[e945875] Mr. Winsor: I would like to propose an amendment to the effect that the words beginning with the word "starting" [sic]— the last word in line 23, page 5—and ending with the word "polling place" on line 24 be stricken out and the following inserted: "Designating the polling place at which the primary will be held. It will then read as follows: "The hours which the polls will be open, and designating the polling place at which the primary will be held in each precinct."

Mr. Colter: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 775-776)

[e945876] Mr. Ingraham: I will say, Mr. Chairman, that the amendment should be adopted.

[e945900] Mr. Ingraham: Because of the peculiarities of our registration, our registration having been fixed by the Enabling Act, it will be the registration that has already taken place, with no additions. As I understand the Enabling Act, this measure seems fair and just. It did not seem to the committee that anybody should be allowed to vote in the primary that could not vote in the election.

Mr. Osborn: You left out the thirty day residence in the county and precinct.

Mr. Ingraham: The requirement is a great deal stronger than that. A man must be registered under this registration, under which we were elected, and he must have the qualifications provided for in the laws of 1901, but I cannot say

immediately whether the thirty day provision is in that chapter. I think it is, however.

Mr. Osborn: I know that up to 1907 we could vote in any place in the county in the general election, and we of Maricopa County are very much interested that both in the primary election and the general election a man must vote in the precinct in which he is registered, and must live in that precinct thirty days.

Mr. Lynch: The law reads, "reside in the county and precinct thirty days."

[e945918] Mr. Winsor: I move an amendment to that section. In line 15, after the word "the" and before the "vote" insert the word "advisory."

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 777)

[e945921] Mr. Ingraham: This brings us to the next important departure from the present law we were compelled to make in drawing this primary act. We of the committee felt that to impose upon the Secretary of the Territory the entire duty of canvassing the entire vote for all state officers, including United States Senators and Representatives to Congress, would be not only to impose a great burden upon him but also to entrust him with a very great and important duty. All he had to perform under the primary act, as you will note from the reading, was to canvass the vote for Delegate to Congress. We of the committee thought it best to do what they did in Oklahoma, constitute a canvassing board, and have the president of the convention appoint two members to assist the Secretary of the Territory in what work, as will appear from the reading of the subdivision.

Mr. Cunningham: I would like to ask if it is not an unusual thing to name an individual instead of an office in a case like this. If the Honorable George W.P. Hunt should happen to die, there would be no one to take his place, and no provision would be made. It has been my observation that in matters of this kind some party who would be perpetuated by reason of holding some office should be named so that in case of disability in any manner, someone could

carry out the terms. It is needless to say I am not raising any objection to the gentleman named, by any means, but after the convention adjourns he will hold no office so far as this convention is concerned, and it seems [we] might leave this matter in an unsafe and unsatisfactory manner.

(Editorial, Pages 777-778)

[e945929] Mr. Ellinwood: I quite agree with the gentleman from Cochise, and there is nothing personal to what I have to offer by way of amendment. It seems to me unthinkable that any member appointed upon this canvassing board or anyone appointing anyone to serve on this board should be permitted to be a candidate at the primary election, and therefore I move you to add the following on line 6, page 8: "Provided, that any person serving upon such primary canvassing board or appointing any person to serve upon such primary canvassing board shall be ineligible for nomination at such primary election." (laughter)

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 778)

[e945930] Mr. Cunningham: [...] I do not regard it as an amusing incident at all. I think no man should be required to perform a duty who is interested therein, and it would simply be an embarrassing situation for a man who wants to do all things right. It is not criminal, and I do not insist upon it, but there is not a gentleman of this convention who would for one moment desire to sit on a board to canvass his own vote on a primary election. I feel confident of that.

Mr. Winsor: Unlike the gentleman from Cochise, I do regard this as humorous. It seems unthinkable, to use the words of the gentleman from Cochise, Mr. Ellinwood. Now, no matter who may be named in this election ordinance as having this appointive power, whether the present Governor or Attorney General or whoever he might be, it is not altogether unlikely that that person might be a candidate for office, and I do not see any reason why he should not be a candidate for office. There might be some reason for prohibiting a candidate for office from being a member of that board, but there is absolutely no reason why the man who appoints a canvassing board should not be a candidate.

[e945960] Mr. Ingraham: Mr. Chairman, I would like to say that in the very short time that we will have before the primary, before the tickets must be made up, that such prohibition would not be necessary in this election. You will notice at the bottom of page 3 and the top of page 4 that nomination papers described in the primary act must be filed not less than fifteen days prior to such primary; that the primary is to be held on the fifth Tuesday after the proclamation of the Governor and the nomination papers must be filed fifteen days before, so that leaves the candidates thirty days in which to circulate their petitions. With the time it will take to get started and close up the papers, it does not seem to me that any candidate can get all of the signers of his party.

Mr. Cunniff: Mr. Chairman, it seems to me that it is more important in this first election than in any other we shall have, and it is a thing over which we might spend a little thought. I have been accused of having ambitions for certain offices, which I deny, but I am interested in seeing that we do send the right kind of officers from Arizona to Washington. Now here is an opportunity, in the short time before this election, for the candidate with the biggest barrel to have a tremendous advantage over other candidates who might be better than he. This is one of those provisions forbidding a candidate circulating a petition from "hogging" all the voters of his party in precinct after precinct as the canvass is being made. It seems to me the thing is eminently wise, and though I have heard the primary act criticized because it had that maximum in there, still there is a question that should be met.

(The Records of the Arizona Constitutional Convention of 1910, Pages 778-779)

[e945965] Mr. Chairman: There being nothing before the committee we will proceed to section 5.

[Editor's Note: According to the both the Records and the Minutes, the Committee does not seem to have considered Subdivision Q.]

(The Records of the Arizona Constitutional Convention of 1910, Page 779)

[e945972] Mr. Cunningham: Mr. Chairman, I move to strike out section 5.

Mr. Lynch: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 779)

[e945977] Mr. Cunningham: The grounds for my motion are that the committee was appointed to draw up a special primary law for nomination of candidates to be voted for at the first election. That committee has failed to do so entirely. Instead of drawing up a proper ordinance for holding a primary election, it has simply referred to some other law of the territory. It has not adopted the primary law of the Territory of Arizona, but has endeavored to amend it, and I understand that this convention has not the authority to legislate but to draw up an ordinance. If this convention had the right to amend the primary law, it would have the right to amend any other laws in the statute books, but in doing so it would have to write out in full those things that would conflict with the law in existence. That this is a labor saving device is true, but it is not clear. No one can take this section 5 and go over the matter and have any idea whatever of what is necessary in the holding of a primary election. I have another objection. I see no provision for the payment of the expenses of holding a primary in this territory. I am in favor of a primary law governing the nominations of candidates to office, but as I read the Enabling Act, it provides that the election laws as set out in title 20 of the Revised States of Arizona, 1901, shall control in this election, and no such an act was in there, and as has been discussed here, this does not mean primary election, it seems that it is going too far for this convention to undertake in this piecemeal manner to set out a rule to be followed in the first election before this constitution goes into effect. I have heard a great deal of discussion upon the committee failing to report as was directed. I think this is an utter failure to report a system of primary election as the committee was instructed to do, and I move to strike it out, and to make section 5 conform.

Mr. Chairman: Mr. Cunningham, please let us have the motion in full.

Mr. Cunningham: My motion is to strike out all of section 5, including all subdivisions thereof.

Mr. Lynch: I second that motion.

Mr. Chairman: It has been moved and seconded that all of section 5 of this proposal be stricken out.

Mr. Ingraham: Mr. Chairman, I wish to make a few remarks. This question is the same question that was discussed for one-half day at the time the resolution was passed under which this committee was appointed, and in that discussion, as I remember it, the majority of the Democratic members stood in favor of a primary for this first election, and the other side opposed the proposition. We were appointed to provide a means by which the candidates for the first election might be chosen, and the convention decided that they should be chosen by the direct primary method. Now, the committee found this to be true, that the primary act was already upon the statute books and already in force, and by the terms of the Enabling Act was a part of the law. Now if we were to adopt a primary method for that election, the question that confronted the committee was, what is the best method to adopt? This primary act has

been in force since 1909. Several cities and towns have conducted their primary elections under that law, and one county, and the legal fraternity and those who are interested in politics are considerably familiar with this primary act. Therefore it seemed wise to the committee that we base the provisions for this election upon the primary act already upon the statute books, and as appeared by this ordinance only a few changes, comparatively few and insignificant, were necessary in that primary act, being mainly changes to provide for state officers and representatives to Congress, which officers the territory has not at all and therefore they were not provided for in the primary act of 1909.

Now, as to the power of this convention to enact this ordinance. The committee is of the opinion, and, as I stated, this matter was discussed thoroughly upon the floor of this convention, and it seems to be the opinion of this convention, that this ordinance or some such ordinance is within the power of this convention. Now turning to a similar ordinance adopted by the Constitutional Convention of the Territory of Oklahoma, before its first state election, I find this: "Nominations for all state, district, county and township officers may be made as provided for under the primary laws of the Territory of Oklahoma." It seems that Oklahoma had a primary act, probably more extensive than ours. We have a primary law, but it does not extend to state officers; therefore it is absolutely necessary, if this convention decides to adopt the primary act, that it be changed to include state officials.

Mr. Cunningham: Will the gentleman yield to a question? In the Oklahoma ordinance is there anything other than that you have read?

Mr. Ingraham: Not concerning the primary election.

Mr. Cunningham: In that primary law of Oklahoma, were state officers provided to be voted for in the primary in force prior to the adoption of the constitution?

Mr. Ingraham: Territorial officers.

Mr. Cunningham: Have not we the same territorial officers they had?

Mr. Ingraham: I am not familiar with the laws of Oklahoma.

Mr. Cunningham: Oklahoma was not a state until after they adopted the constitution.

Mr. Ingraham: I think not. Moreover, Mr. Chairman, I find that the constitutional convention, in its corresponding ordinance, appointed boards of election commissioners extending to every district, county, township and precinct in the whole of the Territory of Oklahoma and Indian Territory, and the provisions of that ordinance covering those elections officers extend from page 99 to page 164 in that ordinance. That was in regard to state elections. Now, the gentlemen by their questions seem to be inclined to be technical upon this point, and I suppose I shall have to descend to technicalities. This convention has imposed upon it by the Enabling Act the duty of providing for this election. One of the absolutely necessary elements in the election—in the provision for the election—is some method of choosing candidates to go upon the official ballot. We must have an official ballot. Not every Tom, Dick and Harry can get his name on that official ballot. How shall we provide for the names going on that ballot? It must either be by the laws of the Territory of Arizona as they are now, or it must be by some provision provided by this convention, or some modification of the laws of the Territory of Arizona. We have decided in this sub-committee to accept some slight modification of the laws already on the statute book. If we do not choose these candidates by primary then we must choose them by some

other method, and the power of this convention is just as much extended or strained to provide this other method as it is to provide the slight changes that are enacted in this ordinance governing the first primary. In short my argument is that it is absolutely necessary that candidates be chosen in some authorized way—that way might as well be a primary.

Mr. Ellinwood: Mr. Chairman, as I remember it, early in the session of this convention there was a committee of which the chairman was a member, Judge Baker and myself, to report to the convention, whether or not a committee could provide for a primary election, and we reported that it was held within the province of the convention to provide for a primary election. It seems to me that that was a unanimous report, and that the committee is acting entirely within its rights in having made this report, and has the power to prescribe a primary election law as contradistinguished to the election provided for in the Enabling Act. I think the committee is wholly within its rights. I am opposed to section 5, at the same time I think this committee has acted within its rights and within the instructions of this convention.

Mr. Crutchfield: Mr. Chairman, I believe if the gentleman from Cochise, Mr. Cunningham, had read section 6, and had read also the primary election law, of which this is a supplement, he would not have made his motion. I believe after paying attention to matters he will withdraw his motion. Section 6 says: "Except as in said Enabling Act otherwise provided, said election for state and other officers shall be held in accordance with the election laws of the Territory of Arizona, as supplemented by this ordinance." These amendments that have been made here are evidently within the rights of the committee and within the rights of this convention, and where it does amend, or even if it should abrogate some one section, it would not thereby cut itself out of the provisions of all the rest. For instance, section 19, chapter 24, which is an election law, says in respect to payment of expenses of ticket blanks and other supplies to be used, that all expenses incurred for conducting such primary shall be paid out of the treasury of the city or town as the case may be, so that every provision is taken care of, and these slight amendments which have been made are merely such as are necessary to carry out the provisions of the Enabling Act in providing for state government.

Mr. Lynch: Mr. Chairman, my reason for seconding the motion is this: If we put in the constitution the same things that the Territory of Arizona [sic, Oklahoma] put in her constitution with reference to primary elections, namely, that state and county officers named in this constitution may be nominated by the primary laws now existing in the Territory of Arizona, we have put an ample guide by which our primary election can be conducted, and we need nothing further. Oklahoma operated under it, nominated her state and county officers under such a provision, and there is no question as to the validity of her election. Putting a name on the official ballot is not a matter with which the election laws are concerned. It is a matter prior to this, and for that reason the same clause that Oklahoma used we could use, and avoid all this lengthy dissertation on this law. For that reason I seconded the motion and will support it.

[Exact location of the following remarks not absolutely certain but probably at about this point.] Mr. Ingraham: I take it that they did, but we cannot do the same here. Let me point out one difference between the Territory of Arizona and the Territory of Oklahoma in their first election. The constitutional convention of the Territory of Oklahoma had the power of naming the day on

which the election should be held, and therefore they could regulate the time of holding the primary to suit the date of the election, but under what condition do we find ourselves? We first hold a ratification election. We can fix the date of that election, but the time when this election that we are speaking about now shall be held is entirely indefinite. It depends upon the action of the President, upon the action of Congress, upon the action of the governor of the territory following that action, and he may call the election at any time within not less than sixty nor more than ninety days from the date of his proclamation, and his proclamation is made when the President shall announce to him that the territory is ready for admission and the constitution has been accepted. We cannot use the old primary law in this election without changing the date prescribed when nomination papers must be filed, when the ticket must be printed etc., because of the fact that the time within which the election is to be held is limited.

Mr. Jones (Maricopa): Mr. Chairman, the committee gave this whole subject a great deal of consideration, and attempted to do just what the gentleman from Graham advocated, except it has made the provision that the present laws are applicable to the conditions that arise in our first election I think everyone wants to make provision for the people to express a choice for United States Senator. The whole question was discussed in all its phases, and it will be observed that all of section 5 only partially pertains to such part of the law as it is necessary to change to conform to the conditions, change in time, dates and a few unimportant things. So far as the principle is concerned in making the law applicable to this election, I think the convention will make a mistake to strike any part of this out. It should have been revised or amended as we proceed with the different sections.

Mr. Cunningham: Mr. Chairman, I want to say but a word. The gentleman from Maricopa inferred that I had not read or did not know the application of section 6. He is very much mistaken about that. That has no reference to primary elections and nominations for office. I think the gentleman from Maricopa had better read section 6 again, but I do not want to withdraw my motion at all after reading this section for the tenth time.

Mr. Winsor: Mr. Chairman, there is a phase of this question that has not been touched upon which it seems to me ought to appeal to the members of this body, and particularly to the Democratic members, and that is one of policy. The Democratic members, and I believe in this particular the Republican members as well, were generally elected upon a declaration favoring a direct primary law. This has not been to any great extent in Arizona an issue because both parties have professed to believe in it, but it has been discussed for a great many years, and after numerous unsuccessful efforts it culminated in the placing of a direct primary law upon our statute books. It seems to me that to strike out this provision—this provision for a direct primary, would be in the nature of a repudiation not only of the primary law that we have upon our statute books but of our express declarations favoring that method of nominating public officers, and while I do not impute such motives to any member, it appears to me that it might be considered, upon the part of the public, that those members who fail to approve the nomination of our first officers by this specific direct primary method, as an evidence that they do not favor that method of nominating public officers. If there should ever be an election—speaking of the good to come to the State of Arizona—if there should ever be an election in which it will be important

that our officers be chosen by this method it appears to me that this first election is the most important of all, as paving the way for progressive reform in the election of our officers. It has been suggested that large sums of money may be used in the election of the first state officers. It cannot be denied that the improper use of money will be greatly circumscribed by adopting a specific, not merely a general, primary provision in our election ordinance. I believe this phase of the situation should be thoroughly considered by the members of this convention before they determine to strike out this section.

Mr. Lynch: Mr. Chairman, I would like to ask the gentleman if he knows that under our present primary law, regardless of the action of the primary, any man within the state, in case of state officers, or within the county, in case of county officer, can force his name to be put on the ticket regardless of the action of the primary.

Mr. Winsor: Mr. Chairman, I have grave doubts as to the form of the primary law that will be held without our election ordinance specifically providing for that form. [sic] You simply prescribe that there shall be a primary election law, and I submit that we have no idea what kind of a primary law the officers will be nominated under.

Mr. Cobb: Mr. Chairman, when this question first came up I devoted some little study to it and looked over the Oklahoma constitution, and it seems that they got in touch with the committees of the political parties and found what kind of primary election was going to be called, and they knew that before they adjourned. I judge that their primary election law must be different from ours. It must have provided that the territorial committee call the primary, and they did have a primary election in Oklahoma, and the convention knew they were going to have a primary election before they adjourned.

Mr. Ingraham: Mr. Chairman, in response to the suggestions of the gentleman from Cochise, Mr. Cunningham, and the gentleman from Graham, Mr. Lynch, I would say that the committee would have been very glad, indeed, to pursue the avenue pointed out by them. It would have been so much easier to say that the candidates for this election shall be chosen by the primary law of the State of Arizona. As it is, this committee has had a very hard task—one not of pleasure, but of great labor—for what we considered to be of benefit to the Territory of Arizona. Approaching by the easy avenue they point out, of referring to the fact that candidates shall be chosen according to the present primary law, let us see.

Mr. Cunniff: Mr. Chairman, I would like to ask the gentleman another question. Does the committee intend this convention to understand, as appears in section 4, which reads: "Candidates for said election, whose names are to be placed upon the official ballot therefore, shall be selected in accordance with chapter 24, Session Law of Arizona, 1909, approved March 10, 1909, (hereinafter named and designated the primary act) and the provisions of this Ordinance." Had they any idea of referring to the primary laws?

Mr. Ingraham: That is the primary law.

Mr. Cunningham: Then why did you place that in section 4 and undertake to change it in the following sections?

Mr. Ingraham: The section declares that the primary shall be held under the primary act and the provisions of this ordinance, and in the next section we proceed to change the provisions of the primary act to suit the conditions of this particular election. Approaching the easy avenue that is pointed out by

these gentlemen, what is the first obstruction? I find this in section 3 of the primary act: "The primary shall be held on the first Tuesday of September, 1910, and biennially thereafter." We would have a gay time holding the primary for this election according to this act on the first Tuesday of September, and all down through the act where we have made these changes we have considered them necessary. The next impossible provision in the act is that 90 days before the time of holding the primary the secretary of the territory shall publish a proclamation of election. Yet according to the terms of the Enabling Act, this election may be held as early as 60 days after the President shall certify the final approval to the Governor of Arizona.

[e945042] Mr. Chairman: We will proceed with the consideration of section 5.

(The Records of the Arizona Constitutional Convention of 1910, Page 786)

[e946060] Mr. Osborn: Mr. Chairman, before we pass section 5, I would like to move an amendment to it, and that is that subdivision M be stricken out.

Mr. Standage: I second the action.

(The Records of the Arizona Constitutional Convention of 1910, Page 786)

[e946063] Mr. Osborn: Mr. Chairman, the only thing that subdivision M does is to put out the 30-day residence required under the primary law passed two years ago and also under the amended law of 1905. In Maricopa County we insist that to vote in a primary election or to vote in a state election you should live in the precinct in which you cast your vote for thirty days, for if that be not the case it would leave the door wide open for fraud.

Mr. Colter: Mr. Chairman, I think that would make it too rigid. In many parts of the territory, especially in Apache County, it would not be practical for every voter to live in the precinct thirty days before voting. If that were the case not more than one-fifth of the voters could vote in that county.

Mr. Osborn: Mr. Chairman, it is my understanding that in the smaller counties, where the population is scattered, it has been the rule to let them cast their vote wherever they happened to be, not because on the Register you can find those men and there is not the opportunity to commit fraud that there is in the more populous districts. I think that the same thing would be done now, that they could vote wherever they happened to be, under an agreement in their own county, but we do not want it in Maricopa, or in Pima, or in the most populous districts of Cochise and Graham, that a man could live, say, in Phoenix and go out and vote ten or thirty miles from Phoenix.

Mr. Jones (Yavapai): Mr. Chairman, the Enabling Act most distinctly lays down the qualification of voters, which shall be as laid down in the laws of 1901.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
786-787)

[e946065] Mr. Chairman: It has been moved and seconded that subdivision M, of section 5 be stricken out. All in favor of striking out subdivision M will please rise; opposed will rise. The motion is lost. If there are no further amendments or alterations to section 5 we will proceed to section 6.

(The Records of the Arizona Constitutional Convention of 1910, Page 787)

[e946067] Mr. Cunniff: Mr. Chairman, just a moment. I would like to amend that subdivision O be stricken out.

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 787)

[e946069] Mr. Cunniff: Mr. Chairman, I should like to say a few words on this. This is the section on which I was commenting this morning. The primary law says that each signer of nomination papers shall sign but one such paper for the same office and shall declare that he intends to support the candidate therein named, and he shall add to his signature his residence, etc. Now such nomination papers shall be signed for a delegate to Congress by at least one per cent of the voters of the party of such candidate in at least three counties in the territory, and in the aggregate by not less than one per cent nor more than ten per cent of the voters of the Territory; for a district office, by at least two per cent of the voters, by not less than two percent nor more than ten percent; for a county office, by at least three percent and not more than ten percent. If nomination papers are signed by two percent, and through enthusiasm the friends of a candidate who are getting these papers signed exceed that and get three or four or five percent, they are doing unnecessary work, since the two percent will get the name of the candidate on the ticket. The reason why a provision of this kind was put in other primary laws was to see that the first candidate who went out and made his campaign did not sweep the town, city, or state by, for example, holding political meetings, making speeches, and having everybody present sign a nomination paper for that candidate. The electors signing would then be prevented from signing any other nomination papers, and when the other candidates came around, they would be prevented from putting their names on the petition. Having a maximum works no injury whatever to a person who is a candidate, since all that is necessary is for the person to get the minimum percent.

Mr. Osborn: Mr. Chairman, let me ask a question. Who gets up this petition and presents it to the board? The board has to go over it and cut out all those names that are not bona fide electors. If he has the exact number of names, what is he going to do after the board has cut out those that are not qualified electors?

Mr. Cunniff: He does not bring in the exact minimum percentage. The exact minimum given is two percent. The candidate, or his party committee, has the margin all the way between two and ten percent, and there is no reason for having more than ten percent of the names. The point has been made that this primary law as enacted required just the exact percentage. It does not. It has the minimum of two percent and the maximum of ten percent, giving ample margin in between for any errors.

Mr. Ingraham: The supplemental matter, Mr. Chairman, occurs later on in the ordinance.

Mr. Cunningham: As I understand the Enabling Act, it provides the election shall be held in all respects as provided by Title 20 of the Revised Statutes of 1901.

(The Records of the Arizona Constitutional Convention of 1910, Page 788)

[e946104] Mr. Parsons: Before we proceed from section 9, on line 23, page 10, the word "commissioner" appears, and I think that was copied from Oklahoma, where they have an election commission, and I think the words "canvassing board" after the word "said" should be substituted. I move it as an amendment.

Mr. Ingraham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 788)

[e946105] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 788)

[e946108] Mr. Ingraham: Mr. Chairman, I move that after the word "equal" in line 11 [on page 11] the words "and highest" be inserted, making it read: "If any two or more candidates have an equal and highest number of votes for any office,"

Mr. Short: I second the motion.

Mr. Ingraham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 789)

[e946134] Mr. Chairman: It has been moved and seconded that when this committee does arise that it recommend that Election Ordinance Number 2 as embodied in Proposition Number 148, do pass as amended. Those in favor will say "aye" as their names are called; those opposed "no." The secretary will call the roll.

Roll call showed 32 "ayes" and 16 "nays."

[e945220] Mr. Chairman: Are there any corrections to section 1?

(The Records of the Arizona Constitutional Convention of 1910, Page 813)

[e945223] Mr. Kingan: Mr. Chairman, I wish to say that this schedule is one of the most technical parts of the constitution, and if I may speak for the committee in this matter, we invite the most careful attention to this schedule, being mindful of the fact that it is very easy that some important matters be overlooked.

(The Records of the Arizona Constitutional Convention of 1910, Page 813)

[e945224] Mr. Chairman: If there are no objections, section 1 will be approved. Are there any amendments to section 2?

(The Records of the Arizona Constitutional Convention of 1910, Page 813)

[e945230] Mr. Cunniff: Mr. Chairman, I move that Proposition Number 8 be submitted in place of section 2 of the majority report.

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 813)

[e945231] Mr. Cunniff: Mr. Chairman, Proposition Number 8 is an exact copy of the Utah constitution, except that the proviso at the end has been added to clear up matters. I know of no place in the constitution which the laws of the Territory of Arizona have been modified or changed by the Enabling Act, and it seems to me that this little phrase here, "modified or changed by the Enabling Act," is susceptible of varied interpretations. It seems to me this matter which was satisfactory to Utah, will be entirely satisfactory to Arizona, the statement being that "the laws of the territory now in force are not repugnant to the constitution," which seems to me to be the better phrase.

(The Records of the Arizona Constitutional Convention of 1910, Page 813)

[e945233] Mr. Chairman: Are you ready for the question? You have heard the motion of the gentleman from Yavapai to substitute Proposition Number 8 for the second section of the committee substitute. All those in favor of the substitute say "aye;" contrary "no." The "ayes" have it, so ordered.

[e945244] Mr. Chairman: [...] Hearing none, we will pass to section 4.

(The Records of the Arizona Constitutional Convention of 1910, Page 813)

[e945245] Mr. Cunniff: I move to amend line 15 by changing the word "choses" to the word "matters."

(The Records of the Arizona Constitutional Convention of 1910, Page 813)

[e945248] Mr. Cunningham: Mr. Chairman, when a word has acquired in law, regardless of what language it came from, a specific technical meaning, it is taking a great chance in writing the constitution to put in some other word there.

Mr. Cunniff: Mr. Chairman, I beg to point out that this constitution is not being made for the lawyers of Arizona, or for the courts of Arizona, but it is made for the lawyers and the courts and the people of Arizona.

Mr. Ingraham: Mr. Chairman, I believe the word "choses" is as familiar to lawyers as the word "pneumonia" is to doctors, and in text books it has a very definite meaning, and I think we ought to leave it in here.

Mr. Cunniff: I inquire if there is anything in the word that is not in the word "matters."

Mr. Ingraham: If we were considering a medical matter and the word "pneumonia" occurred, would you attempt to put in some other word?

Mr. Cunniff: I would not, if that is a word that is in common use and known to everybody. We need no technical matters in this constitution.

Mr. Ingraham: This has a certain definite meaning. This may sound new to the ordinary member, but to the lawyer it is just an old-fashioned expression.

Mr. Short: They have told us that it is essential to use this word and that it is a very common word, but I venture to say that half of the members here do not know what it means. Use a word that is shown in the dictionary.

Mr. Weinberger: I just wish to say a word or two. We are not establishing a training school for lawyers, and this is a question that the courts have decided

and it has a definite certain meaning. If we insert “matters” in here it will have anything but the meaning it has now.

Mr. Parsons: I desire to say that there are a great many matters in law that are not choses in action. Choses in action are simply the right of discovery, and there are a great many matters that are not even connected with the right of discovery.

Mr. Ingraham: What little French I have says that this word “choses” is usually translated “things.”

(The Records of the Arizona Constitutional Convention of 1910, Pages 813-814)

[e945249] Mr. Chairman: All those in favor of substituting the word “matters” for the word “choses” will please rise; those opposed please rise. The motion is lost.

[e945250] Mr. Chairman: [...] Are there any other corrections to section 4? If not, it will be approved, and we will pass to section 5.

[e945252] Mr. Chairman: [...] Are there any other corrections to section 4? If not, it will be approved, and we will pass to section 5.

(The Records of the Arizona Constitutional Convention of 1910, Page 814)

[e945256] Mr. Kingan: On line 24, page 2, the word “be” should be stricken out where it appears and should be added after the word “shall”

[Editor’s Note: An original copy of the Substitute Proposition 8 with the original line numbers does not survive. For this reason, the editors are unable to identify the text intended to be amended. A comparison of the text at this point in the proceedings and the final Constitution provides no clarity on the matter. Furthermore, though the Records describe this amendment as adopted, the Minutes do not describe it at all.]

(The Records of the Arizona Constitutional Convention of 1910, Page 814)

[e945270] Mr. Parsons: Mr. Chairman, I desire to ask for information. There is a peculiar reading to line 4 of this section, page 5. "Whenever a quorum of the judges of the supreme court shall have been elected." This would indicate that we are going to elect the judges by piece-meal.

(The Records of the Arizona Constitutional Convention of 1910, Page 815)

[e945279] Mr. Winsor: Mr. Chairman, I would like to revert to section 11. It seems to me that there is a little bad construction there. "The provisions of the constitution shall be in force from the day on which the President of the United States shall issue his proclamation." I move it be made to read as follows: "shall be in force from the day the proclamation of the President of the United States shall declare the state admitted into the Union."

Mr. Kingan: That covers that.

[e945355] Mr. Jones (Yavapai): Mr. Chairman, I move you that when the committee arises it report to the convention and recommend that Proposition Number 150 as reported by the committee be adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 827)

[e945363] Mr. Colter: Mr. Chairman, I would amend the motion by adding paragraph 3 to the proposition as follows: "Beneficial use shall be the basis, the measure and the limit of the right to the use of public water, and priority of appropriation for such use shall give the better right except that in times of scarcity a preference shall be given to the following purposes in the order named, viz: domestic, stock water, agricultural, mining and manufacturing purposes."

Mr. Winsor: I second the motion.

[e945366] Mr. Short: Mr. Chairman, I move to substitute that the committee arise and recommend that this proposition be indefinitely postponed. [e945369] Mr. Chairman: We will now consider the amendment of Mr. Colter. Clerks reads the amendment.

Mr. Jones (Yavapai): I think that this is a dangerous proposition to go into the constitution, for the simple reason that a man one hundred miles away from those farmers might claim that he had a little bunch of cattle or sheep, and stop all those farmers from using that water; therefore, I hope the motion will not prevail.

Mr. Cunniff: I hope this thing will be killed and killed quickly. This is the third time this matter has been before this convention, and it seems to me it is about time we knew our minds.

Mr. Colter: Mr. Chairman, I want to say that we have a good cause to continue along this line. This very amendment I introduced was voted on and carried almost unanimously, and it is certainly a very unharmed thing.

Mr. Chairman: Those in favor of the amendment of the gentleman from Apache, Mr. Colter, will manifest by saying "aye;" opposed "no." Call the roll.

Mr. Ingraham: Mr. Chairman, I want to explain my vote. The principles advocated in the Colter amendment are advocated by the most impartial and successful experts upon irrigation, including government experts, therefore, I vote "aye."

[e946530] Secretary (reading): Section 10.

(The Records of the Arizona Constitutional Convention of 1910, Page 893)

[e946531] Mr. Ellinwood: I suggest that this is in conflict with the Constitution of the United States.

Mr. Chairman: Do you desire to amend?

Mr. Ellinwood: I do not know how.

Mr. Chairman: If there are no amendments, this section will be adopted and the secretary will read section 11.

(The Records of the Arizona Constitutional Convention of 1910, Page 893)

[e946552] Mr. Kingan: I think this should be amended by inserting the word "to" and the word "the" be stricken out.

Mr. Ingraham: I second the motion.

[Editor's Note: In the absence of a surviving copy of the Constitution as drafted by the Committee on Style, the editors have compared the surviving versions of the text with the records of the amendments in order to identify what the text of the document was before the Committee of the Whole's amendments. In this instance, it is unclear what text Kingan's amendment intended to alter. However, it seems likely that his amendment intended to correct a typographical error.]

(The Records of the Arizona Constitutional Convention of 1910, Pages  
893-894)

[e946553] Mr. Cunniff: The gentleman is quite correct and I am in favor of the amendment.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
893-894)

[e946556] Mr. Chairman: It has been moved and seconded that the word "to" be stricken out. Are you ready for the question? All in favor answer "aye;" contrary-minded "no." The "ayes" have it, and it is so ordered. Read section 11.

[Editor's Note: As Kingan's amendment is noted in the records as striking out the word "the" rather than the word "to," it seems as though the Chairmen misspoke in describing the motion.]

[e946574] Secretary (Reading): Section 17.

(The Records of the Arizona Constitutional Convention of 1910, Page 894)

[e946576] Mr. Cunningham: Mr. Chairman, on the second line of the fifth page, I move to strike out the word "judicial" and after the word "question" insert the words "of fact." These questions should be tried by jury and the fact established.

(The Records of the Arizona Constitutional Convention of 1910)

[e946577] Mr. Kingan: Mr. Chairman, I do not think that is the meaning of this section. It reads: "Whenever an attempt is made to take private property for a use alleged to be public, the question is whether the contemplated use be really public shall be a judicial question, and determined as to such without regard to any legislative assertion that the use is public," meaning that it shall be a question for the court and not a question for the legislature or the law-making body. I think that to be the meaning of the sentence, and that it is a judicial question if it is to be determined by the court, and a jury could be called as a matter of right. That is for the court to determine.

Mr. Baker: I am satisfied that the gentleman from Cochise is wrong in his interpretation of the matter, and the gentleman from Pima is right. This intends that the court shall determine the question, and that the legislature shall not prescribe what is or what is not a public use. A great many legislatures go ahead and prescribe that a certain thing is a public use. Now the intent is to say that it is a judicial question; that is, the court shall determine.

Mr. Crutchfield: I trust the amendment will not prevail. The language is of precedent; it has been tried for years, and passed upon, and it is the exact wording of the constitution of Washington bill of rights, and I trust it will stand just as it is.

(The Records of the Arizona Constitutional Convention of 1910, Pages 894-895)

[e946579] Mr. Chairman: All in favor of the amendment of the gentleman from Cochise will answer "aye;" contrary-minded "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 895)

[e946581] Mr. Roberts: About the middle of paragraph 17, page 4, the words "No right of way shall be appropriated to the use of any corporation other than municipal." I move that the words "other than municipal" be stricken out. I do not see why a municipal corporation should be allowed to take ground to widen an alley. It should not pay for the same.

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 895)

[e946583] Mr. Crutchfield: While this is language of precedent, I believe it should be stricken out.

Mr. Ingraham: Mr. Chairman, this matter was all thrashed out on our going over it before, and we decided by a rather large majority not to make this amendment. Now I wish to call the attention of the committee to the fact that this does not say that private property may be taken by municipalities without compensation. It is simply a question of putting up the money first. Under our statutes as they are today, the city may take private property without putting up the money first. It may do it by putting up a bond with the court which shall secure the property holder that he will receive the money he is justly entitled to according to the decision of the court. Now this is simply retaining the present statutory provision as to municipal corporations, and making the law more favorable to the property holder as to all persons not municipal corporations. I cannot see why the law we have been living under many years, at least since 1901, which has not worked any injury sufficient to make a demand for its repeal, cannot be got along with.

Mr. Ellinwood: I think the gentleman from Yuma is quite right. In the case of private corporations, it is required that they deposit the money in the court because frequently the corporation may be in failing circumstances. A public corporation like a municipality is always with you, and can always be required to pay; and they are exempted by the provisions of this act from having to put up the money for the further reason, how is it going to pay? They have no apportion to be used for this purpose. There is no reason to require the city to do this any more than when the city wishes to take an appeal they are not required to give a bond. This does not exempt they [sic, them] from paying for it; it simply prevents their having to put up the money in advance.

[Remarks by Franklin of Maricopa not located.]

Mr. Chairman: Are you ready for the question? All in favor answer "aye;" contrary-minded "no." Call the roll.

(The Records of the Arizona Constitutional Convention of 1910, Page 895)

[e946586] Roll call showed 11 "ayes" and 32 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 895)

[e946587] Mr. Chairman: Are there any objections or amendments to section 17? If not, the secretary will read section 18.

[e946590] Secretary (reading): Section 19.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946591] Mr. Chairman: Are there any amendments to section 19?

Mr. Weinberger: I want to ask as a matter of information, have we any laws against illegal rebating?

Mr. Jones (Maricopa): The corporation commission proposition makes it illegal to give or take rebates, and prescribes a penalty.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946592] Mr. Chairman: Any amendments or objections to section 19? If not, read section 20.

[e946608] Secretary (reading): Section 23.

(The Records of the Arizona Constitutional Convention of 1910, page 896)

[e946611] Mr. Ingraham: Mr. Chairman, there is an error in the last line on page 5. I think the word "any" should be stricken out, and "a" be inserted in lieu thereof, and the word "of" be stricken out. I would make a motion to that effect.

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946614] The motion passed.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946615] Mr. Chairman: Are there any other objections to section 23? If not, read section 24.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946619] Secretary (reading): Section 24.

[e946628] Secretary (reading): Section 25.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946639] Mr. Franklin: Mr. Chairman, on the second line of section 25, reading "law impairing the obligation of contracts," I would move to strike out the word "contracts" and insert "contract" and after the word "of" insert the word "a."

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946640] The motion prevailed.

(The Minutes of the Arizona Constitutional Convention, Page 387)

[e946641] Mr. Cunningham: Mr. Chairman, the last word in that paragraph, in order to make it conform to other changes that have been made by the revision committee, the word "passed" should be changed to "enacted."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946643] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 387)

[e946645] Mr. Chairman: Read section 26, if there are no objections or further amendments to section 25.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946648] Mr. Chairman: Read section 26, if there are no objections or further amendments to section 25.

(The Records of the Arizona Constitutional Convention of 1910, Page 896)

[e946649] Mr. Chairman: If there are no amendments to section 26, read section 27.

896-897)

[e946651] Secretary (reading): Section 27.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946652] Mr. Cunningham: The word "soldiers" in line 2, section 27, should be "soldier." I move to strike out the letter "s."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946653] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946655] Mr. Chairman: Read section 28.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946658] Mr. Chairman: Read section 28.

Secretary (reading): Section 28.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946661] Mr. Chairman: If there are no amendments, read section 29.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946663] Secretary (reading): Section 29.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946664] Mr. Chairman: If there are no amendments, read section 30.

(Editorial, Page 897)

[e946686] Secretary (reading): Section 30.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946698] Mr. Chairman: If there are no amendments, read section 31.

Mr. Cunniff: Mr. Chairman, I move that the following proposition, being Proposition Number 50 as revised and adopted by the convention be inserted here as section 31. This is a matter of compilation, and it might as well be inserted. "No law shall be enacted by this state regulating the amount of damages for causing death or injury of a person."

Mr. Weinberger: I second the motion.

[Editor's Note: Though the Chairman instructs the Secretary to read Section 31, Cunniff makes an amendment to add a new section to the draft, to become the new Section 31. Furthermore, the Mr. Jones listed in the Minutes as seconding the motion is not specified.]

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946700] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946702] Mr. Cunniff: I move necessarily that section 31 in the printed copy be changed to section 32, and section 32 to section 33.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946703] Mr. Chairman: If there is no objection, it will be done without any other order. Read section 32 (section 31 of the printed copy.)

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946704] Secretary (reading): Section 32.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946706] Mr. Chairman: If there are no objections or amendments, the clerk will read section 33 (32 of the printed copy.)

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946707] Secretary (reading): Section 33.

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946708] Mr. Chairman: Gentlemen of the convention, Article II as amended has been read. Are there any objections or amendments?

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946709] Mr. Baker: I offer the following amendment to be inserted as section 34, as follows: "Every citizen of the State shall be free to obtain employment wherever possible and any person, corporation or agent thereof maliciously interfering or hindering in any way any citizen from obtaining or enjoying employment already obtained from any other corporation or person, shall be guilty of a misdemeanor."

(The Records of the Arizona Constitutional Convention of 1910, Page 897)

[e946710] Mr. Cunniff: I do not think that is necessary. This is one of those broad sweeping statements on which all kinds of court interpretation can be made, and all sorts of oppression carried on under the color of a proposition of this kind; though I should say as far as my own interpretation of it goes, it does not mean anything of that kind.

Mr. Webb: I second the motion of the gentleman from Maricopa.

Mr. Baker: I just want to say I heave heard a great deal about protection of labor and workmen in this convention. Here is a proposition that will aid you. It is from the constitution of North Dakota.

Mr. Feeney: I feel in the propositions already passed we have all the protection we need, and I oppose this.

Mr. Connelly: I would like to ask the gentleman from Maricopa if that would cut out picketing.

Mr. Baker: I am not able to answer that.

Mr. Connelly: I am not in favor of this proposition for the reason that it is nothing more or less than a strike against the workmen, because you can always prove a thing of this kind against the men, while you cannot prove it against a corporation. Mr. Cooper has given you the recipe for a "rabbit-pie," but you must first catch the rabbit. It would be impossible to "catch the rabbit" on the corporation.

Mr. Ingraham: Mr. Chairman, I hope this measure will not prevail. The labor delegates in this convention have asked that a number of measures be passed, and the convention has seen fit to refuse those requests in a majority of instances. I hope that when they come asking [for] bread, this convention will not give them a stone.

Mr. Cunniff: Mr. Chairman, I hope the convention will not throw the stone at them.

(The Records of the Arizona Constitutional Convention of 1910, Pages 897-898)

[e946711] Mr. Chairman: As many as are in favor of this amendment will answer "aye" as their names are called; contrary-minded answer "no." The secretary will call the roll.

Roll call showed 13 "ayes" and 28 "nays."

Mr. Chairman: The motion is lost. Are there any other objections or amendments?

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946778] Mr. Cunniff: I move that those two commas toward the end of the section [Article II, Section 22], one after "offenses," and one after "evident" be stricken out.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946779] Mr. Chairman: If there are no objections, the two commas in section 22 will be stricken out.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946780] Mr. Chairman: [...] Are there any other amendments to Article 2? If not, it will be considered adopted by the committee of the whole. The secretary will read Article III.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946781] Secretary (reading): Article III.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946782] Mr. Chairman: Are there any objections or amendments? If not, it will stand approved by the committee of the whole. Read Article IV, [Legislative Department. 1. Initiative and Referendum] Section 1.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946783] Secretary (reading): Section 1, paragraph 1.

[e946784] Secretary (reading): Section 1, paragraph 1.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946785] Mr. Chairman: I would like to ask the chairman of the Committee on Style, Revision and Compilation if he intends to have this all one section.

Mr. Cunniff: Yes, that is all one section.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946786] Mr. Chairman: If there are no objections, read paragraph 2.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946787] Mr. Chairman: If there are no objections, read paragraph 2.

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946788] Mr. Webb: I move that the word "in" be changed to "is."

(The Records of the Arizona Constitutional Convention of 1910, Page 898)

[e946789] Mr. Chairman: If there is no objection, the change will be made. Hearing no objections or amendments to paragraph 2, read paragraph 3.

(The Records of the Arizona Constitutional Convention of 1910, Pages 898-899)

[e946790] Mr. Chairman: If there is no objection, the change will be made. Hearing no objections or amendments to paragraph 2, read paragraph 3.

(The Records of the Arizona Constitutional Convention of 1910, Pages 898-899)

[e946791] Secretary (reading): Paragraph 3.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946792] Mr. Chairman: Are there any objections or amendments? If not, the secretary will read paragraph 4.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946793] Secretary (reading): Paragraph 4.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946794] Mr. Cunniff: Mr. Chairman, on the fifth line on page 9, before the word "appropriations" at the end of the line, I move that the words "to provide" be inserted.

Mr. Ingraham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946795] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946796] [Editor's note: The Committee moved on to consider Paragraph 5, indicating that Paragraph 4 was considered adopted.]

[e946804] Mr. Cunniff: Mr. Chairman, at the end of line 2, on page 11, I move that the word "order" be stricken out, and the word "propose" be inserted. That makes the attitude toward the referendum parallel with everything else in the measure. The committee inadvertently failed to change that.

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946805] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946806] Mr. Chairman: Read paragraph 9.

Mr. Cassidy: Mr. Chairman, I made the amendment inserting that paragraph, and it was the intention to make that a portion of the preceding paragraph, and not a separate paragraph. It is very closely connected with the preceding paragraph, and I move it be made a part of the preceding paragraph.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 899)

[e946807] The motion prevailed.

[e946824] [Editor's Note: The Chairman put the question on the entire Article IV, Section I, indicating that Paragraph 16 was considered adopted.]

(Editorial)

[e946825] Mr. Chairman: Are there any objections or amendments to [the preceding portion of] Article IV?

Mr. Cunningham: Mr. Chairman, I suggest, though this is more for the compilation committee, that these various paragraphs of this section 1 ought to be lettered so as to distinguish them in case of reference to them hereafter. This is such a long section it might be distinguished by the letters of the alphabet.

Mr. Cunniff: The style, revision committee will try to work out some such scheme. It can be lettered, but there was a purpose in having it all one section.

(The Records of the Arizona Constitutional Convention of 1910, Page 900)

[e946826] Mr. Chairman: Are there any other amendments to [that part of] Article IV? If not, it will be approved by the committee of the whole. Read Article IV, 2. The Legislature.

[e946827] Secretary (reading): 2. The Legislature.

Mr. Chairman: Are there any objections or amendments?

[Editor's Note: Though the Chairman instructed the Secretary to read Article IV, Section 1, the Secretary read only Article IV, Section 1, Paragraph 1, indicating that the Committee took a section by section approach to this article from the start.]

[e946828] [Editor's Note: The Committee took up Article IV, Section 2, Section 1.]

(Editorial)

[e946829] Mr. Webb: It seems to me this has been thrashed out by the convention. It seems illogical to place a restriction on future legislatures and say they shall do what in our wisdom we have not done. We have taken the vote cast. Now, for us to say future legislatures shall take the population is certainly illogical and ought not to be adopted. There is one thing I want to say and that is I admire the gentleman from Greenlee for his persistent efforts, and I hope a time will come when he will acknowledge he is mistaken.

Mr. Coker: I second the motion of the gentleman from Greenlee, and I question the word "wisdom" as used by the gentleman from Graham, Mr. Webb.

Mr. Chairman: You have heard the motion. Are you ready for the question?

Mr. Ingraham: Mr. Chairman, I would like to say that in the great growth and change of the territory of Arizona after the census had gotten about eight or nine years old it would not be a very good guide for an apportionment.

Mr. Cobb: That would be fortunate for Yuma County.

Mr. Ingraham: We will have to stand by the vote, I think. We will always have elections, and can determine from the elections what the probable population is, but we cannot tell from a census that is nine years old.

(The Records of the Arizona Constitutional Convention of 1910, Page 900)

[e946830] Mr. Cobb: Mr. Chairman, I wish to offer the following amendment: "Provided that all future apportionment of representatives amongst the several counties shall be based on population as determined by the United States Census Office."

(The Records of the Arizona Constitutional Convention of 1910, Page 900)

[e946831] Mr. Webb: It seems to me this has been thrashed out by the convention. It seems illogical to place a restriction on future legislatures and say they shall do what in our wisdom we have not done. We have taken the vote cast. Now, for us to say future legislatures shall take the population is certainly illogical and ought not to be adopted. [e946832] Mr. Roberts: Mr. Chairman, I would like to offer an amendment to provide that aliens and wards should not be considered in the apportionment.

(The Records of the Arizona Constitutional Convention of 1910, Page 900)

[e946833] [Editor's Note: Roberts' amendment was not mentioned again.]

(Editorial)

[e946834] Mr. Chairman: The question is on the amendment offered by the gentleman from Greenlee, Mr. Cobb. Those in favor will answer "aye;" those opposed "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Pages 900-901)

[e946835] Mr. Coker: Mr. Chairman, I move that the figures "35" in line 2 of section 1 be changed to "39;" that the figure "6" in line 8 be changed to "7;" that the figure "2" in line 8 be changed to "3," and that the figure "1" in line 11 be changed to "2." Pinal County will read 1 and 2; Pima will read 2 and 4; Maricopa will read 2 and 7; Greenlee 1 and 3.

Mr. Chairman: Do I hear a second?

Mr. Cobb: I second it.

(The Records of the Arizona Constitutional Convention of 1910, Page 901)

[e946836] Mr. Weinberger: Mr. Chairman, I move to amend that the section be approved as read.

Mr. Webb: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 901)

[e946837] Mr. Chairman: That motion is not in order.

(The Records of the Arizona Constitutional Convention of 1910, Page 901)

[e946838] Mr. Chairman: That motion is not in order. If you vote this down you can bring up the other. All in favor of the motion of the gentleman from Pinal will say "aye;" contrary-minded "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 901)

[e946839] Mr. Osborn: Mr. Chairman, I have been trying to make an amendment here for some time. I do not imagine that there is any use of making this amendment, but I am going to move that in line 2 the figures "35" be changed to read "36," that in line 9 after the words "Maricopa County" the figure "6" be changed to "7."

Mr. Cobb: I second it.

(The Records of the Arizona Constitutional Convention of 1910, Page 901)

[e946840] Mr. Osborn: Mr. Chairman, nearly every member of this committee has committed to me that Maricopa is entitled to seven representatives. I have gone over this matter with them individually, and I have said so on the floor and have given my reasons why Maricopa should have seven representatives, and I want to make the last appeal to each and every member of this convention to give Maricopa her just dues. The newspapers have been accusing the convention of throwing the hooks into Maricopa County time and time ago. Now prove to the territory that you are going to be fair and just, and give us an equitable apportionment, and I would ask for a roll call on this. (applause)

Mr. Chairman: You have heard the motion of the gentleman from Maricopa. Are you ready for the question?

Mr. Short: Mr. Chairman, I think it is a very inopportune time for the member from Maricopa to bring up this question, because there are three members from the Maricopa delegation not here, so the chances are he will not get six votes. I am very much pleased, however, to hear him say that this is his last appeal.

Mr. Weinberger: Mr. Chairman, I want to ask the gentleman from Maricopa what he means by "throwing the hooks" into Maricopa.

Mr. Osborn: I got that from the Arizona Republican.

Mr. Cobb: Mr. Chairman, it means just exactly what the legislative committee threw into Greenlee County.

(The Records of the Arizona Constitutional Convention of 1910, Page 901)

[e946841] Mr. Chairman: Are you ready for the question? All those in favor of the motion will say "aye;" contrary-minded "no." The motion is lost.

[e946864] Mr. Chairman: Read section 12.

(The Records of the Arizona Constitutional Convention of 1910, Page 902)

[e946865] Mr. Cunniff: Mr. Chairman, I would like to say a little about section 12. Some matter was inserted in the proof as sent to the printer. I have the official matter here. This change should not have been made in that place but should have been offered here in the convention, but I have all the record here and the secretary can read it as it appeared in the engrossed copy. It read not by sections, but in full, and it seemed there was a misunderstanding about an amendment that had been offered. I make this explanation so that the convention may have a full understanding of the situation.

Mr. Chairman: Does the chair understand the chairman of the committee to say that the printed section as we now have it is not as the engrossed bill?

Mr. Cunniff: We made these changes in the copy that went to the printer.

Mr. Chairman: The secretary will read the section as it is engrossed.

Secretary (reading): Section 12.

(The Records of the Arizona Constitutional Convention of 1910, Page 902)

[e946866] Mr. Cunniff: Mr. Chairman, I move that the matter as printed be adopted rather than as read in the engrossed copy.

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 902)

[e946867] Mr. Chairman: Your motion is that the printed section be recommended by the committee of the whole. Before that motion is put the chair would like to ask for a little information. I notice that this reads here that every bill on its final passage shall be taken by ayes and nays. I do not think you mean that for that is not customary. It is customary in the legislature that a joint resolution shall not only be passed by a roll call but also go to the governor, for his signature, but the resolution the way you have it here does not require the signature of the governor.

Mr. Cunniff: That simply follows the copy of the bill as adopted by the convention.

Mr. Chairman: I know the custom in all legislative bodies is that ordinary resolutions do not require the governor's signature. It does not even have to have a roll call unless somebody demands it; but a joint resolution that requires the action of both houses is a different proposition and requires the governor's signature the same as a bill.

(The Records of the Arizona Constitutional Convention of 1910, Pages 902-903)

[e946868] Mr. Short: I move you that the word "joint" be inserted before "resolutions."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 903)

[e946869] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 903)

[e946870] Mr. Cunniff: I would ask if the question has been put to adopt the section with the insertion of the word "joint."

(The Records of the Arizona Constitutional Convention of 1910, Page 903)

[e946871] Mr. Ellinwood: Mr. Chairman, it occurs to me that the language of line 2 is susceptible of two constructions. "Every bill shall be read by sections on three different days unless in case of emergency two-thirds of either house deem it expedient to dispense with the rule."

Mr. Cunniff: Does the gentleman offer an amendment to insert "each" instead of "either?"

Mr. Ellinwood: Then it would have to be a concurrence. Certainly the vote of one house ought not to control the vote of the other.

Mr. Cunniff: I think the phrasing as it is covers the ground.

Mr. Franklin: Mr. Chairman, as I understand this phraseology, if a bill is before the house of representatives and they wish to dispense with the reading of the bill, under this provision it will require two-thirds of the house of representatives. If it applies to a bill in the senate it will require a vote of two-thirds of the senate.

(The Records of the Arizona Constitutional Convention of 1910, Page 903)

[e946872] Mr. Chairman: It is moved and seconded that section 12 as amended be recommended for adoption. All in favor of this motion say "aye;" contrary-minded "no." The "ayes" have it, so ordered. Read section 13.

(The Records of the Arizona Constitutional Convention of 1910, Page 903)

[e946873] [Editor's Note: With the decision to adopt the section as amended, the motion to adopt the subsection as printed was made obsolete.]

[e946888] Mr. Hunt: I move that the committee of the whole now arise and report progress and ask leave to sit again.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 904)

[e946889] Mr. Ingraham: Mr. Chairman, if you will pardon me just a moment. I would like to ask the extent to which section 14 goes. It says: "No act shall be revised or amended by mere reference to the title, but the act as amended shall be set forth and published at full length." Do I understand that if it was the desire of the legislature to amend a single word or a single line in a long act like the judiciary act, that they would then have to republish the entire act? It seems to me those are dangerous words.

(The Records of the Arizona Constitutional Convention of 1910, Page 904)

[e946890] Mr. Chairman: It is moved and seconded that the committee do now arise and report progress and ask leave to sit again. All those in favor of the motion say "aye;" contrary-minded "no." The "ayes" have it; so ordered.

[e946555] Mr. Chairman: The committee of the whole will come to order and the secretary will read Proposition Number 152, which is now before the convention.

(The Records of the Arizona Constitutional Convention of 1910, Page 908)

[e946558] Secretary (reading): Proposition Number 152, relative to an election to provide for the ratification or rejection of the Constitution of the State of Arizona.

(The Records of the Arizona Constitutional Convention of 1910, Page 908)

[e946561] Mr. Cunningham: There is an error in the date.

(The Records of the Arizona Constitutional Convention of 1910, Page 908)

[e946564] Mr. Chairman: Gentlemen, you have heard the reading of the proposition. What is your pleasure in the matter? The error will be corrected by the secretary, if there are no objections. It is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 908)

[e946569] Mr. Winsor: I move that when the committee arises it recommend that Proposition Number 152 do pass as amended, and that it further recommend the appointment by the president of a select committee to fill in the blank in Proposition number 152 for the date of the election.

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 908)

[e946575] Mr. Cunniff: Mr. Chairman, as far as I could judge from the reading of that proposition, it is too long and I believe that if the committee on style and revision could get together, the proposition could be cut down and be just as accurate and cover the same grounds, or at least all the necessary ground it now covers.

(The Records of the Arizona Constitutional Convention of 1910, Page 908)

[e946578] Mr. Chairman: Those in favor of the motion of Mr. Winsor, that when the committee arises it recommend the adoption of the proposition as amended, with the addition or insertion of authorization to the president, to appoint a select committee to fill in the blank date. [e946992] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e946993] Mr. Cunniff: I move an amendment in section 19 by inserting the words "or the people under the initiative and referendum"...

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e947000] Mr. Cunniff: [...] and that the word "pass" be made "enact."

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e946995] Mr. Winsor: Mr. Chairman, I move an amendment which I think perhaps the gentleman from Yavapai will accept, that the section be made to read as follows: "No local or special law shall be enacted in any of the following cases, that is to say:"

[Editor's Note: The wording of this amendment suggests that Winsor was offering an amendment to Cunniff's amendment. However, the way in which the Committee voted on the various amendments reveals that Winsor's amendment was thought of, rather, as a substitute for Cunniff's.]

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e946996] Mr. Cunniff: I am a little doubt as this occurs in an article on the legislature, and I think it would be safe to follow the the phrase "The legislature or the people under the initiative and referendum." It seems to me that this is an important matter. I will amend to strike out from my motion the words "and referendum."

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e946997] Mr. Cunniff: I am a little doubt as this occurs in an article on the legislature, and I think it would be safe to follow the the phrase "The legislature or the people under the initiative and referendum." It seems to me that this is an important matter. I will amend to strike out from my motion the words "and referendum."

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e946998] Mr. Short: I fail to understand why we would restrict a majority of the people in the event a case should arise where it would be necessary to adopt a special law, by a majority of the people. It seems to me if we restrict the legislature it will be sufficient.

Mr. Jones (Yavapai): The people, to enact a special law, would only have to amend the constitution.

Mr. Cunniff: The argument of the gentleman from Yuma, Mr. Short, would apply equally well to the legislature in all the states which have this sort of provision regarding special laws, which should not be passed in a civilized or organized community. It would be unsafe, inform and unstable form of government if this were allowed.

The Chairman: All in favor will answer "aye;" contrary-minded "no." The secretary will call the roll.

Mr. Cunniff: I am sorry this was not attended to until the last minute. If the delegates had given more attention to it, they would have voted differently.

Mr. Chairman: I would suggest to the gentleman from Yavapai that the lamp is still burning.

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e946999] Roll call showed 17 "ayes" and 33 "nays."

Mr. Chairman: Gentleman, the motion is lost.

(Editorial)

[e947001] Mr. Chairman: [...] Now the question comes up on the motion of the gentleman from Yavapai, to strike out the word "pass" and insert "enact." Are you ready for the question? All in favor answer "aye;" contrary-minded "no." The "ayes" have it, and it is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e947002] Mr. Winsor: Mr. Chairman, I move to amend section 19 to read as follows: "No local or special laws shall be enacted in any of the following cases:"

Mr. Osborn: I second the motion.

[Editor's Note: As Winsor moved this amendment before this vote on Cunniff's amendments, the editors have represented this moment as Winsor procedurally renewing a previously-made amendment rather than offering a new one.]

(The Records of the Arizona Constitutional Convention of 1910, Page 911)

[e947003] Mr. Short: I will submit that this is exactly the same proposition we voted upon just now, in different language, and the result would be exactly the same as though we had passed Mr. Cunniff's amendment.

Mr. Ellinwood: This seems a very necessary thing. As I understand it, constitutions are made for the protection of the minority, and whether it be by the initiative or by the legislature, there certainly ought to be restrictions by which special laws could not be made, for instance, in punishing crimes, or punishing misdemeanors. This seems very essential.

Mr. Short: I would like to ask the gentleman from Cochise if the constitution is not amendable by a majority vote, the same as is required to pass a law? I do not see where we are doing anything definite by saying the people cannot pass a law.

Mr. Ellinwood: I have no fear of the constitution ever being amended by a special law.

Mr. Cunniff: It seems to me that the gentleman from Yuma is laboring under a misapprehension, and the gentleman from Cochise has stated the matter fairly, clearly and intelligently.

Mr. Morgan: I am glad the gentleman from Cochise is a stickler for the minority, and I ask him to yield to a question. In the exemption of church property, where does the minority come in?

(The Records of the Arizona Constitutional Convention of 1910, Pages 911-912)

[e947004] Mr. Chairman: The question comes up on the amendment of the gentleman from Yuma. All in favor answer "aye;" contrary minded "no." The "ayes" have it, and it is so ordered. Are there any other amendments?

(The Records of the Arizona Constitutional Convention of 1910, Page 912)

[e947005] Mr. Cassidy: I wish to make an amendment to section 14. After the words "act" in the first line of section 14 insert the words "or section thereof," and after the word "act" in the second line insert the words "or section."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 912)

[e947006] Mr. Winsor: Mr. Chairman, I do not quite understand that motion. I do not believe sections of an act could be referred to by title. I believe this means just what it says, and I am in favor of leaving it just as it is.

Mr. Franklin: It seems to me the remarks of the gentleman from Yuma are correct. The very purpose of section 14 is to give you the law, and if there is any change in the law to give you the changes, so you see the intent of the changes. If we allow a section to be referred to only, we will have no idea what the law is, as it is to be amended. It seems to me this ought not to prevail.

Mr. Cassidy: It seems to me if this section is allowed to stand as now, it would cause a great deal of trouble. The legislature will no doubt in the future, as it has in the past, enact laws on certain subjects that will cover many, many pages, perhaps twenty, and if you want to change a single word in any section, then you have to reprint the whole act, which seems to me is entirely unnecessary. It would do no harm, but would do no good.

Mr. Ingraham: When the laws of 1901 were adopted, it was discovered that there were several typographical errors, and it became necessary for the next succeeding legislature to adopt an act in which the attempt was made to correct all of these typographical errors, and while they were very minute changes in the laws, they were very necessary changes. First let me say that this amendment was simply made by referring to the paragraph of the statutes of 1901 and stating that the word "should" we will say, in such and such a paragraph should be changed to "will" or something of that kind. Now if the

section under discussion had been in the Organic Act of Arizona at that time, it would have been necessary, for the legislature to republish every act in which there was a single word to be changed, and that act (which covered two or three pages in the Session Laws) would probably have been a volume as large as the Session Laws, if not larger. It is because this will [words missing] and is absolutely unnecessary, that it ought to be changed. If the section is to be changed by the striking out of a single word or the insertion of a word, it certainly ought to be sufficient if the legislature reprint the entire section with proper references. That is the purpose of this amendment as I understand it, and it seems to me necessary, as this section as it stands would work great evil and would not accomplish any good. It would simply make your statutes so cumbersome you would have a load of lumber to haul.

(The Records of the Arizona Constitutional Convention of 1910, Pages 912-913)

[e947007] Mr. Cassidy: I wish to make a little change in order to obviate the objections made by the gentleman from Yuma, by inserting after the word "title" in line 2, the words "of such act;" this would make the whole section read as follows: "No act or section thereof shall be revised or amended by mere reference to the title of such act, but the act or section as amended shall be set forth and published at full length.

(The Records of the Arizona Constitutional Convention of 1910, Page 913)

[e947008] Mr. Cassidy: I wish to make a little change in order to obviate the objections made by the gentleman from Yuma, by inserting after the word "title" in line 2, the words "of such act;" this would make the whole section read as follows: "No act or section thereof shall be revised or amended by mere reference to the title of such act, but the act or section as amended shall be set forth and published at full length.

(The Records of the Arizona Constitutional Convention of 1910, Page 913)

[e947009] Mr. Chairman: Gentlemen, you have heard the amendment of the gentleman from Maricopa. All in favor will answer "aye;" contrary-minded "no." The "ayes" seem to have it. All those in favor of the motion will please stand, and remain until counted. The motion is carried and the section so amended.

(The Records of the Arizona Constitutional Convention of 1910, Page 913)

[e947010] Mr. Chairman: [...] Are there any other objections or amendments to be offered to the article? If not the article will be considered as adopted by the committee of the whole.

[e947011] Mr. Chairman: [...] The secretary will read the next article, being Article V, Executive Department.

[e947025] Mr. Chairman: Section 7. Are there any objections or amendments.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947026] Mr. Winsor: I want to ask unanimous consent to refer back to section 15 of the legislative department, page 16. I move to amend section 15 on page 16, by adding at the end thereof the words "in open session."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947027] Mr. Chairman: I would like to call your attention to the word "passed" and "pass" in that same section.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947028] Mr. Winsor: And strike out the word "pass" and "passed" inserting therefor the words "enact" and "enacted."

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947029] Mr. Cunniff: I do not think it is necessary to make that change there.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947030] Mr. Winsor: No, inasmuch as it refers to a bill.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947031] Mr. Chairman: It is moved and seconded that in section 15 on page 16, the section be amended by adding the words "in open session." Those in favor of the motion say "aye;" contrary-mind "no." The "ayes" have it, so ordered. Read section 8.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947032] Mr. Ellinwood: Mr. Chairman, on page 21, the last paragraph, I do not understand it clearly. "If any bill be not returned within five days after it shall have been presented to the Governor (Sunday excepted) such bill shall become a law in like manner as if he had signed it, unless the legislature by its final adjournment prevents is [sic] return," etc. This is conflicting in my mind.

Mr. Weinberger: I think this reference here refers to the ninety day clause.

Mr. Ellinwood: What becomes of a bill that is presented to the governor and he does not return it within ten days. Does it mean a veto or does it become law.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947033] Mr. Chairman: The secretary will read section 8.

Secretary (reading): Section 8.

[e947043] Secretary (reading): Section 13.

(The Records of the Arizona Constitutional Convention of 1910, Page 914)

[e947044] [Editor's Note: The Chairman proceeded to put the question on the entire article, suggesting that Section 13 was agreed as read.]

(Editorial)

[e947045] Mr. Standage: Mr. Chairman, I would like to amend section 1, in the fourth line. Change the word "two" to "four," so that the officers will hold their term for four years instead of two.

Mr. Osborn: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947046] Mr. Standage: I think it would save expense to the state, and since we have adopted the recall it seems to me that we might as well, if a man is capable, let him serve for four years.

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947047] Mr. Chairman: It has been moved and seconded that section 1 be amended to read "four" instead of "two." All in favor of this motion say "aye;" contrary-minded "no." The secretary will call the roll.

Roll call showed 15 "ayes" and 33 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947048] Mr. Chairman: The motion is lost. Are there any other objections or amendments to the article?

Mr. Cassidy: Mr. Chairman, I move that the figures "1913" be changed to "1915," " [sic] for the reason that the governor cannot possible be elected before the summer of 1912, and if this is left 1913 he would only have a few months to hold office.

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947049] The motion failed to pass.

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947050] Mr. Moeur: I would like to have the salary of the attorney general changed from twenty-five hundred to thirty-five hundred.

Mr. Osborn: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947051] Mr. Chairman: It has been moved and seconded that the salary of the attorney general be changed from twenty-five hundred dollars to thirty-five hundred dollars. The secretary [will] call the roll.

Mr. Crutchfield: Mr. Chairman, before I can vote intelligently, I would like some information as to the duties of the attorney general.

Mr. Moeur: I know if it should be like it was in Texas it would take him day and night for fifteen or twenty years to bring the railroads to time.

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947052] Mr. Chairman: Call the bill [sic].

Roll call showed 18 "ayes" and 30 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947053] Mr. Ellinwood: If the members will turn to page 9, which is the first section of the initiative and referendum, to the second line on page 9, "No act passed by the legislature shall be operative for ninety days after the close of the session." Then on page 21 I move to insert after the word "law" the words "ninety days after the close of the session of the legislature as provided in this constitution."

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947054] Mr. Winsor: I am afraid that would prove conflicting. An act does not become a law at the end of ninety days in the event of the referendum and it was to cover such a case that this clause was inserted.

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947055] Mr. Ellinwood: I would change it to read this way: "Or become a law as provided in section 1 of article IV of this constitution."

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947056] Mr. Ellinwood: I would change it to read this way: "Or become a law as provided in section 1 of article IV of this constitution."

(The Records of the Arizona Constitutional Convention of 1910, Page 915)

[e947057] Mr. Cunniff: I think that is a sentence that it would be well not to tamper with, but I would be glad to hear from the gentleman from Cochise if he thinks it does not cover the ground.

Mr. Ellinwood: It seems impossible for me to tell whether it will become a law or not; whether it will become a law in five days, or whether it is to become a pocket veto.

Mr. Short: Mr. Chairman, this was thrashed out so thoroughly and discussed pro and con by the committee on the floor of the convention, I do not see how it could be construed in any other way than it would become a law if there was no referendum applied at the end of ninety days.

Mr. Jones (Yavapai): I know the committee on executive spent considerable time on that. That ten days has no effect on when that law shall become a law. It shall become a law as provided by this constitution. The ten days refers to the time the governor shall file it in the office of the secretary of state.

Mr. Ellinwood: I would like to ask the gentleman from Yavapai, for the purpose of getting it in the record. Is it the purpose of the legislative department that there should be no such thing as a pocket veto?

Mr. Cunniff: Yes sir.

(The Records of the Arizona Constitutional Convention of 1910, Pages 915-916)

[e947058] Mr. Ellinwood: I will withdraw my motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 916)

[e947059] Mr. Chairman: Are there any other objections and amendments to be offered to Article V? If not it will be considered as recommended for adoption by the committee of the whole. The secretary will read Article VI, Judicial Department.

(The Records of the Arizona Constitutional Convention of 1910, Page 916)

[e947066] Mr. Chairman: Are there any objections or amendments? If not, read section 4.

Mr. Jones (Yavapai): Mr. Chairman, it says here: "The judge having the shortest time to serve, and not holding his office appointment or by election to fill a vacancy." I do not know how a judge could be elected unless he was elected to fill a vacancy.

(The Records of the Arizona Constitutional Convention of 1910, Page 916)

[e947072] Secretary (reading): Section 6.

[e947073] Mr. Chairman: Are there any objections or amendments?

Mr. Ellinwood: I would like to ask some of the legal gentlemen if the amount "two hundred dollars" ought not to be "two hundred dollars exclusive of interests and costs?" That is the usual term, so that the sum may be a definite sum.

Mr. Chairman: Are there any other objections or amendments?

Mr. Cunningham: Mr. Chairman, section 6 provides: "The superior court shall also have original jurisdiction in all cases and of all proceedings in which jurisdiction shall not have been by law vested exclusively in some other court." The beginning of the next paragraph: "The superior court shall have exclusive original jurisdiction in all proceedings and matters affecting dependent children." Is it the intention to give the superior court original jurisdiction in matters of twenty or thirty dollars? Does not this do it?

Mr. Weinberger: I will say that the phraseology used here is word for word the phraseology of Washington.

Mr. Chairman: The chair hears no motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 916-917)

[e947074] Mr. Cassidy: Mr. Chairman, I move that after the words "two hundred dollars" in section 6 there be inserted the words "exclusive of interest and costs."

Mr. Ellinwood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947075] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947076] Mr. Chairman: The secretary will read Section 7.

[e947079] Mr. Chairman: If there are no objections, read section 8.

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947080] Mr. Weinberger: It is a question in my mind whether the phrase in section 6, "of all matters of probate" would include all matters over which the probate court now has jurisdiction—insane persons, minors, etc.

Mr. Short: I would like to ask the gentleman from Gila who would have jurisdiction where the business is taken over by the superior court?

[Remarks by Lynch of Graham not located.]

Mr. Weinberger: Mr. Chairman, I will say that by law we have a probate court, and we are attempting to abolish that probate court by this section. I do not see that we are doing it by the use of that phrase.

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947081] Mr. Ellinwood: I move that after the word "probate" be added "or guardianship."

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947082] Mr. Lynch: That would not be comprehensive enough, because the probate court has jurisdiction over other matters that are not guardianship.

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947083] Mr. Chairman: Do I hear a motion? The secretary will proceed with the reading of section 9.

[e947084] Mr. Chairman: Do I hear a motion? The secretary will proceed with the reading of section 9.

[e947087] Secretary (reading): Section 10.

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947088] Mr. Ellinwood moved, seconded by Mr. Lynch, to amend Section 10, page 31 in the tenth line thereof by striking out the word "five" and inserting the word "six".

(The Minutes of the Arizona Constitutional Convention, Page 396)

[e947090] Mr. Jones (Yavapai): Mr. Chairman, I move an amendment that the word "six" be stricken out and the word "four" be inserted.

Mr. Wood: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 917)

[e947091] Mr. Chairman: Gentlemen, the question is on the amendment to strike out the word "five" and insert the word "six" and the amendment to the amendment to strike out the word "six" and insert the word "four." Those in favor of the amendment to strike out the word "six" and insert "five" [sic] will say "aye;" those opposed "nay," as their names are called.

Roll call showed 10 "ayes" and 38 "nays."

Mr. Chairman: The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947092] Mr. Chairman: [...] Now the question comes up on the amendment to strike out the word "five" and insert "six." Those in favor will say "aye;" those opposed "nay," as the secretary calls the roll.

Roll call showed 17 "ayes" and 32 "nays."

Mr. Chairman: The motion is lost. If there are no other objections the section 10, is adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947094] Mr. Tuthill: I move to amend by striking out the word "Greenlee" where it now appears and adding at the end of all the section "The superior judges in and for the county of Greenlee shall receive \ \$3500 per annum." Mr. Chairman, my reason for this is that in Greenlee county the living expenses are so high and the salary allowed here is quite sufficient for the judge of that county.

Mr. Cobb: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947095] Mr. Lynch: I desire to say that I am in favor of this change from the fact that three-fifths of the cases on the docket came from Greenlee County heretofore. I know that the expenses of court of much higher there than in Graham county and that the living expenses are also very high. I believe that Greenlee County is entitled to the higher salary.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947096] Mr. Chairman: The secretary will call the roll. Those in favor of the amendment will answer "aye;" those opposed "nay."

Roll call showed 25 "ayes" and 15 "nays."

Mr. Chairman: The motion is carried. The amendment is made.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947097] Mr. Chairman: [...] If there are no further objections, the secretary will read the next section.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947098] Secretary (reading): Section 11.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947099] Mr. Chairman: No objections to section 11. Read section 12.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947100] Secretary (reading): Section 12.

(The Records of the Arizona Constitutional Convention of 1910, Page 912)

[e947101] Mr. Chairman: No amendments. Read section 13.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947102] Secretary (reading): Section 13.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947103] Mr. Chairman: If there are no objections, read section 14.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947104] Secretary (reading): Section 14.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947105] Mr. Chairman: No objections to that section. Read the next.

[e947109] Mr. Chairman: Section 16 is passed. Read section 17.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947110] Secretary (reading): Section 17.

(The Records of the Arizona Constitutional Convention of 1910, Page 918)

[e947111] Mr. Moeur: I do not believe in having these clerks appointed by the judges for I think that they should be elected by the taxpayers, and I move that they shall be elected by the qualified electors of the county.

Mr. Osborn: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
918-919)

[e947112] Mr. Lynch: I think that if the gentleman from Maricopa would study the matter over, he would withdraw his motion. If there is anyone who has the right to appoint such officers and who could do so judiciously, it is the judge. It is the judge who has the work of the clerk under his supervision and direction and I think he should have the right to appoint the clerks.

(The Records of the Arizona Constitutional Convention of 1910, Page 919)

[e947113] Mr. Chairman: The motion of the gentleman from Maricopa is to make the clerks of the court elective rather than appointive. Those in favor of the motion will say "aye;" those opposed "nay." The "ayes" have it and it is so ordered. Read section 18.

[Editor's Note: That this amendment was adopted is clearly a mistake. The Minutes note the proposal as rejected, and the proffered wording does not appear in the final Constitution.]

(The Records of the Arizona Constitutional Convention of 1910, Page 919)

[e947114] Mr. Chairman: [...] Read section 18.

[e947115] Secretary (reading): Section 18.

(The Records of the Arizona Constitutional Convention of 1910, Page 919)

[e947116] Mr. Weinberger: I notice that the term of office for these clerks is four years, while the term of office for other officers is only two years, and I move to amend by saying "The clerk of the court shall hold the office of clerk co-terminous with the judge of the court."

Mr. Franklin: I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 919)

[e947117] The motion prevailed.

[e947129] Secretary (reading): Section 24.

(The Records of the Arizona Constitutional Convention of 1910, Page 919)

[e947134] Mr. Cunniff: Mr. Chairman, the "Ordinance Article" will be number 20.

Secretary (reading): Article Number XX, Ordinance.

(The Records of the Arizona Constitutional Convention of 1910, Page 919)

[e947135] Mr. Chairman: There being no objections to the article entitled "Ordinance," it will be now adopted by the committee of the whole. The secretary will now read the next article entitled, "Removal from Office, or Recall of Public Officers."

[e947139] Mr. Chairman: Are there any objections or amendments?

Mr. Cunniff: On page 39, second line, the words ”number of,” I move be inserted [sic] before the word ”votes,” in order to make it conform with the other parts of the constitution.

Mr. Wood: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 920)

[e947140] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 920)

[e947141] Mr. Tuthill: I move to insert after the word ”appointment” the words ”excepting the judiciary.” I do this for two reasons: First, I do not believe you will have an impartial judge if you hold the club of recall over him. I think if you pass the recall, you make the judgeship a travesty. In that assertion, in the paper I just purchased from the boy, in the message of President Taft to Congress, he says: ”Nothing is so important to the preservation of our country and its beloved institutions as the maintenance of the independence of the judiciary, and next to life tenure an adequate salary is the most material contribution to the maintenance of independence on the part of our judges.” He is speaking to Congress of Federal judges, but I do not believe for a moment, with the judicial training of our President, Mr. Taft, whose feeling in the matter is shown by that message, that he will put his mark of approval on a constitution that provides for the recall of the judges.

[...]

Mr. Curtis: I second the motion of the gentleman from Greenlee.

[e947146] Secretary (reading): Section 3.

(The Records of the Arizona Constitutional Convention of 1910, Page 921)

[e947147] Mr. Cassidy: Mr. Chairman, I move that the first two words in the second line on page 40 "shall be," be changed to "shall have been."

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 921)

[e947148] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 921)

[e947155] Mr. Chairman: Are there any objections or amendments? Are there any objections or amendments to the article entitled "Removal from Office?" If not, the secretary will read the next subdivision.

[e947158] Secretary (reading): Section 1.

[e947162] Secretary (reading): Section 3.

(The Records of the Arizona Constitutional Convention of 1910, Page 921)

[e947163] Mr. Chairman: Are there any objections or amendments? Gentlemen, what will you do with subdivision 2 of Article VIII, entitled "Impeachment" [?]. Are there any objections, corrections or amendments?

(The Records of the Arizona Constitutional Convention of 1910, Page 921)

[e947164] Mr. Weinberger: Section 3 means to throw some doubt in the minds of some members, although not in mine, as to a possible conflict of impeachment and recall. I do not see that section 3 is necessary, and I, therefore, move to strike it out.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 921)

[e947165] Mr. Short: Mr. Chairman, what provision will we have for the removal of appointive officers?

Mr. Weinberger: The legislature will provide for that. We do not need this to give sanction to the legislature to pass such laws. If this casts any doubt as to matters of impeachment and removal from office, and recall, we might as well do away with this section.

Mr. Crutchfield: Mr. Chairman, it seems to me that there is one rather important point that has been omitted, and that is the power of the governor to control all executive officers. It seems to me we should have some means whereby the mayor, chief of police, or sheriff of the county could be removed if he did not perform his duties.

Mr. Standage: We have the recall.

Mr. Crutchfield: In some instances that might not be possible.

Mr. Cunniff: It seems to me there is no need to make a provision in the constitution for cases of that kind. The legislature will have the power to do that without authorization in the constitution, as the gentleman from Gila says.

(The Records of the Arizona Constitutional Convention of 1910, Pages 921-922)

[e947167] Mr. Ingraham: I amend the motion to this effect. That after the word "impeachment" we insert the word "or recall."

(The Records of the Arizona Constitutional Convention of 1910, Page 922)

[e947168] Mr. Chairman: The motion to strike out cannot be amended. The motion is out of order.

(The Records of the Arizona Constitutional Convention of 1910, Page 922)

[e947169] Mr. Chairman: [...] The question is on striking out section 3. All in favor will say "aye;" contrary-minded "no." The motion is carried. Section 3 is stricken out.

(The Records of the Arizona Constitutional Convention of 1910, Page 922)

[e947170] [Editor's Note: The Chairman put the question on the entire subdivision, indicating that Section 3 was considered agreed as amended—i.e., stricken.]

(Editorial)

[e947171] Mr. Chairman: [...] Are there any other objections or amendments to subdivision 2 of Article VIII? If not, it will considered as recommended for adoption.

(The Records of the Arizona Constitutional Convention of 1910, Page 922)

[e947172] Mr. Chairman: [...] Gentlemen, we have completed the printed part of the constitution.

(The Records of the Arizona Constitutional Convention of 1910, Page 922)

[e947173] [Editor's Note: The Committee's report was referred to the Convention.]

(Editorial)

[e947174] Mr. Winsor: I move that the committee of the whole do now arise and report progress.

Mr. Connelly: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 922)

[e947175] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 922)

### **32.52 Wednesday, 07 December 1910, at 09:30 (s16309)**

[e947209] Mr. President: Gentlemen, we have some other matter to come before the committee of the whole, and the convention will now resolve itself into the committee of the whole, with the gentleman from Yavapai, Mr. Goldwater, in the chair.

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947211] Mr. President: Gentlemen, we have some other matter to come before the committee of the whole, and the convention will now resolve itself into the committee of the whole, with the gentleman from Yavapai, Mr. Goldwater, in the chair.

[e947215] [Editor's Note: The Committee of the Whole resumed took up Part 3 of of the Draft Constitution.]

(Editorial)

[e947218] Mr. Chairman: Read Article VII, Suffrage and Election.

Secretary (reading): Article VII, Suffrage and Election.

[Editor's Note: Departing from its standard procedure, the Committee of the Whole considered Article VII as a whole, rather than by section.]

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947220] Mr. Chairman: That concludes Article VII. Are there any objections or amendments?

Mr. Winsor: I would like to refer back to section 13, and offer the following amendments. In the third line of section 13, strike out the words "or any" close to the end of the line, and insert the words "and of the," and at the end of the section add the words, "affected by such question."

Mr. Short: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947222] Mr. Crutchfield: Mr. Chairman, it seems to me that this is encumbering the constitution and that really the amendment should be "qualified electors of the subdivision affected by such question." We do not want to have a redundancy of words.

Mr. Winsor: The amendment is acceptable.

Mr. Parsons: Mr. Chairman, I desire to call the attention of the committee to the fact that the word "state" was added in a proposition here. There might be a question whether a state proposition could be submitted. I certainly think this word should remain in there.

Mr. Winsor: I think it would be best.

[Editor's Note: Though Crutchfield's suggestion reads like an amendment to Winsor's amendment, it was not incorporated into the text.]

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947224] Mr. Jones (Yavapai): Mr. Chairman, I move that section 13 be stricken out.

Mr. Cunniff: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947225] Mr. Osborn: Mr. Chairman, I just want to call the attention of the committee to the fact that this is one of the questions that have been thoroughly thrashed out time and time again.

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947226] Mr. Chairman: Those in favor of the motion to strike out section 13, as the roll is called will answer "aye;" contrary-minded "no." The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947227] Mr. Chairman: [...] The question comes up on the adoption of the amendment offered by the gentleman from Yuma. Are you ready for the question? Those in favor will answer "aye;" contrary-minded "no." The "ayes" have it. The amendment is adopted.

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947228] Mr. Curtis: Mr. Chairman, I would like to offer an amendment to add the following at the end of section 2: "No person shall have the right to vote or be eligible to office under the Constitution of this state, who shall not be able to read the constitution in the English language and write his name: Provided, however, that the provisions of this law shall not apply to any person prevented by a physical disability from complying with its requisitions nor to any person who shall be sixty years of age or upward at the time this law shall take effect."

Mr. Wood: I second the motion

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947230] Mr. Curtis: This is simply an amendment to not disenfranchise voters already having the right to vote.

Mr. Webb: It is also in addition a proposition that has been voted down two or three times by this convention.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947231] Mr. Chairman: All in favor of this amendment will make it known by saying "aye;" contrary-minded "no." The gentleman insists upon a roll call. The chair is in doubt anyway. All those in avor of the proposition will rise and remain standing until counted. Contrary-minded will rise. The motion is lost 15 to 28.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947233] Mr. Chairman: [...] Are there any other objections or amendments to Article VII? If not it will be the sense of the committee of the whole to recommend it for adoption by the convention as amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947255] Mr. Chairman: [...] The secretary will read Article IX.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947256] Secretary (reading): Article IX, Section 1.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947257] Mr. Chairman: If there are no objections, read section 2.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947259] Secretary (reading): Section 2.

(The Records of the Arizona Constitutional Convention of 1910, Page 930)

[e947260] Mr. Chairman: Are there any objections to section 2?

Mr. Osborn: Mr. Chairman, in section 2, line 5 after the words "Young Men's Christian Association," I move that the "Women's Christian Temperance Union" be added.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947261] Mr. Moeur: Mr. Chairman, I would like to amend by striking out all of section 2, beginning with the word "parsonages" down to the word "cemeteries."

Mr. Morgan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947263] Mr. Chairman: The motion of the gentleman from Maricopa is that all of section 2 from the word "parsonages" to the word "cemeteries" be stricken out. Are you ready for the question? All those in favor of the motion will manifest by saying "aye;" contrary minded "no." The chair is in doubt. All those in favor of the motion will rise and remain standing until counted; contrary-minded will rise. The amendment is lost. Are there any other amendments to section 2?

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947264] Mr. Osborn: I have an amendment, Mr. Chairman.

Mr. Chairman: I did not hear any second.

Mr. Osborn: It was seconded by two or three members.

Mr. Chairman: The gentleman from Maricopa offers an amendment that after the words "Young Men's Christian Association" the words "Women's Christian Temperance Union," be inserted.

(The Records of the Arizona Constitutional Convention of 1910, Page 931)

[e947267] Mr. Jones (Maricopa): I would like to offer an amendment to the motion of the gentleman from Maricopa, and in explaining that I would like to say that we have attempted to do some legislation here and have done it badly. We have included certain institutions and have excluded some just as worthy and I believe the whole subject can be disposed of with a slight amendment, cutting out all after "property" in the second line down to and including "profit" on line 8 and inserting in lieu these words: "Property of educational, charitable, and religious associations and institutions not used or held for profit may be exempt from taxation by law." We do not know what conditions may arise in the future and I think the who question can be wisely left to the legislature.

Mr. Morgan: I second the amendment.

(The Records of the Arizona Constitutional Convention of 1910, Pages 931-932)

[e947269] Mr. Chairman: The question is on the adoption of the amendment offered by the gentleman from Maricopa, Mr. Jones, to the amendment made by Mr. Osborn.

Mr. Short: Mr. Chairman, I would like to inquire what bearing this will have upon fraternal organizations.

Mr. Chairman: It leaves the whole matter with the legislature.

Mr. Cunningham: Mr. Chairman, if that amendment is made, then the last sentence in that section will prevent the very thing the gentlemen are endeavoring to do.

Mr. Cunniff: I would suggest that that could be cured by putting in the phrase "by law" before the words "under this constitution."

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947270] Mr. Chairman: All in favor of adopting the amendment offered by the gentleman from Maricopa, Mr. Jones, will answer "aye;" contrary minded "no." The "ayes" have it.

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947272] Mr. Chairman: [...] The amendment offered by the gentleman from Maricopa is amended now, and those in favor of the adoption of the amendment will say "aye;" contrary-minded "no." The "ayes" seem to have it. The "ayes" have it; so ordered. The amendment is carried. Are there any other objections?

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947277] Mr. Cunniff: Mr. Chairman, I move an amendment that after the word "constitution" these words be inserted: "or exempted by law under the provisions of this section."

Mr. Jones (Maricopa): I second that motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947279] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947280] Mr. Baker: I move an amendment to the whole affair—that section 2 stand as it is now printed in the bill.

Mr. Cunningham: I second that motion, because as it now stands there is no law in this constitution except the constitutional provision, and it takes out even one of the exemptions of these matters we have tried to work into it.

[Editor's Note: Baker's motion, in effect, is that all of the agreed amendments to the section be dropped.]

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947282] Mr. Chairman: The chair refuses to entertain the motion. The committee of the whole has amended this, and you are moving to take back all the amendments and say the thing shall stand after the committee of the whole has just voted to amend it.

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947283] Mr. Morgan: It seems to me we have just decided this question here.

Mr. Chairman: If you want to, move to strike out.

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947284] Mr. Baker: I move to strike out the whole section as amended, and substitute therefor section 2 as printed in the bill.

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 932)

[e947287] Mr. Jones (Maricopa): We have chewed the rag over this proposition a number of times. For us to attempt to go into details as we have here, we will find later that we have not included some institutions that should have been included, and we will find ourselves in an awkward position. I think the matter should stand as it now stands.

Mr. Morgan: There is another consideration we ought to think of here. It will leave all those members who are afraid of the big vote of the Y.M.C.A. They can stand pat if the proposition is left as it is now.

Mr. Baker: You cannot pick out a constitution in all of the states but what they provide for the exemption of institutions of this character. Churches and their property are exempted in nearly every constitution.

Mr. Jones (Maricopa): If it is adopted in the form it is now, it will exclude the W.C.T.U., who have a building in this town, and who refuses to rent their rooms to young women who are earning respectable salaries, but retain them to rent to poor girls.

Mr. Colter: The Crittendon Home should also be exempt.

Mr. Morgan: Mr. Chairman, in answer to the gentleman from Maricopa, Judge Baker, who says that all states have exempted this kind of property, I will convince the gentleman by the evidence of another member from Maricopa County, Mr. Crutchfield, that this is not so. Mr. Crutchfield, in speaking here the other night, said that he had been a member of the organization, that is, the Young Men's Christian Association, for several years and was more familiar with the work in California, where such an exemption had never been sought. Now, Mr. Chairman, that speaks volumes. Anybody who knows the disposition of the Young Men's Christian Association knows that whenever they go after a dollar they never rest until they get it. The comparison of a coyote after a cottontail rabbit isn't in it. Now, where such an exemption has never been sought, why was it not sought? It was simply from the fact that it was so unreasonable that the people of California would not stand for it, and they knew it, but notwithstanding the fact that the gentleman has said that it never was sought he did not give it as a matter of his own knowledge. Now the members of this convention do not really know how the people feel about this. The members from Maricopa do not know how the business men of Phoenix feel about it. I could give you names but I won't do it, because the Young Men's Christian Association would boycott them. They would not even become a member of the country club. While I am on the subject let me say that I did not attack the [words unclear] the Arizona Democrat is not qualified to defend Him. (applause) Now there is one particular clause here that I object to. I am willing to let church property go, but I am not willing to let the Young Men's Christian Association be exempt. A representative of that association here from Maricopa County has admitted here that it never sought exemption in the great state of California. I consider that the Young Men's Christian Association and the officers thereof are not honest. There is a magnificent palace (points to leaflet showing cut of new Y.M.C.A. building in Phoenix). It says "It is up to you." If they were really honest they would put below here the cabin of a laborer, and they would say, "This magnificent palace is exempt from taxation, but this poor fellow who has been handling a pick and shovel, or who has been running an engine, or who has been switching cars—this little cabin of his—this man has to pay taxes on it, but this magnificent palace here is exempt from taxation." I want to console the blacksmith and everybody who labors with his hands (and I want to say that the only time I get the callouses out of my hands is when I am down here as a member of this convention or in the legislature). The carpenter and the blacksmith and others can console themselves with the thought that while they are swinging their hammers, the young men here are playing pool and billiards, enjoying their swimming tank and bowling alley and all that sort of thing. If

they are willing to give so many licks a day and give up so many minutes of their hard labor to exempt that kind of proposition I have nothing against it. Many of the Jewish rabbis in the United States, and the Baptists as denomination, have favored their own property taxed. This is also true of hundreds of the greatest preachers in the United States—not the little, one-horse preachers we have in Arizona (and I want to make one honorable exemption in that case, and that is the gentleman from Maricopa, Mr. Crutchfield—he has been with the majority of the labor committee from start to finish). The church has for two thousand years had the reputation of always being on the side of the oppressor and against the oppressed, on the side of the rich and against the poor, and I am glad to acknowledge that there is an exception in this constitutional convention. This property is all given to the church. This laborer has put in his time earning the few rooms he lives in, but this property has been given to the churches and to the Young Men's Christian Association. That ought to be enough. If anybody would give property to me or any other member of this convention, we would be perfectly willing to pay taxes on it, but after you give them a million dollars they want it exempted from taxation. I cannot come within a thousand miles of presenting this subject as it ought to be presented. Had I the eloquence of a Parsons, a Winsor or a Cunniff I could do it justice, but as it is I guess I will quit right where I am. (applause)

Mr. Chairman: The question is on the adoption of the amendment offered by the gentleman from Maricopa, Mr. Baker, to strike out section 2 as amended and reinsert section 2 as printed in the original copy.

Mr. Moeur: Mr. Chairman, I do not believe that it is right to exempt all this church property from taxation. As a member of this constitutional convention I am opposed to this bill. I will not sign the constitution if this goes in, and I will fight till I die but I will beat it.

(The Records of the Arizona Constitutional Convention of 1910, Pages 932-934)

[e947288] Mr. Chairman: The question comes up on the adoption of the amendment. As many as are in favor of adopting the motion will say "aye;" contrary-minded "no." The motion is lost.

[e947371] [Editor’s Note: The Committee proceeded to reconsider Section 5, indicating that Section 12 was considered agreed as amended.]

(Editorial)

[e947373] Mr. Ingraham: I ask that section 5 be reverted to. I should like to make an amendment. Page 48, line 3, insert the word “money.” I think that it would be unwise to prevent the state from borrowing money for public improvement. Suppose that we want to build a new state capitol. There would be no provision for borrowing the money, and I think we should make provision for this.

Mr. Crutchfield: I second that motion.

[Editor’s Note: The text of the amendment comes from the Minutes.]

(The Records of the Arizona Constitutional Convention of 1910, Page 940)

[e947375] Mr. Cunniff: I think that the amendment provided by Judge Baker would be a much better method of correcting this error than the one offered by the gentleman from Yuma.

Mr. Moeur: I think that the sum herein provided for is a very small amount for the state’s use to say nothing of making improvements in addition. I think that we should by all means make provision for public improvements and our only means for doing so is by raising money by borrowing.

Mr. Crutchfield: I second the motion of the gentleman from Yuma.

(The Records of the Arizona Constitutional Convention of 1910, Page 940)

[e947377] Mr. Winsor: I move to amend the amendment to the effect that the sum of “\$200,000” be changed to “\$350,000.”

(The Records of the Arizona Constitutional Convention of 1910, Page 940)

[e947379] Mr. Ingraham: I shall accept that amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 940)

[e947381] Mr. Chairman: Gentlemen, it has been moved and seconded that section 5 be amended by striking out the figures “\ \$200,000” and inserting “\ \$350,000” in lieu thereof. Those in favor of the amendment will answer “aye;” those opposed “nay.” The “ayes” have it, and the figures “\ \$200,000” are stricken out and the figures “\ \$350,000” are inserted.

[e947492] Mr. Chairman: Section 10. Gentlemen, I call your attention to the words in the second line of this section. It seems to me there is a mistake there. The words “or lease” are in the wrong place, I think.

(The Records of the Arizona Constitutional Convention of 1910, Page 944)

[e947493] Mr. Cunningham: Change it by putting a comma (,) after the word “sale.”

(The Records of the Arizona Constitutional Convention of 1910, Page 945)

[e947494] Mr. Chairman: “The legislature shall provide by proper laws for the sale of all state lands for terms not longer than five years.” I think it should be “for the sale of all state lands, or lease, for terms not longer than five years.” Put the “or lease” after the word “lands.”

(The Records of the Arizona Constitutional Convention of 1910, Page 944)

[e947495] Mr. Lynch: Mr. Chairman, the committee when taking that up, my recollection is, we decided the form was proper, “the sale, or lease, for periods not longer than five years.”

Mr. Chairman: Look at it again, Mr. Lynch, and see whether you think it reads right.

(The Records of the Arizona Constitutional Convention of 1910, Page 945)

[e947496] Mr. Lynch: I would suggest, then, that it be transposed in this way: “The legislature shall provide by proper laws for the sale of all state lands, or the lease of such lands for terms not longer than five years.”

[e947530] Mr. Chairman: [...] Any to section 8?

(The Records of the Arizona Constitutional Convention of 1910, Page 945)

[e947532] Mr. Ingraham: I beg to offer an amendment, Mr. Chairman. I move that in line 2 of section 8, after the word "sale," the words "or lease" be inserted, and that in line 2 of the second paragraph thereof there be inserted the following words: "and the rental derived from school lands."

[Editor's Note: The Minutes name Osborn as the seconder, though he seems to oppose the amendment in the Records.]

(The Records of the Arizona Constitutional Convention of 1910, Page 945)

[e947533] Mr. Ingraham: [...] I make that motion for the reason that the section as it now stands is in violation of the terms of the Enabling Act, and is also in violation of other provisions we have adopted. Now I wish to read a passage from the Enabling Act—the passage which expresses that the trust under which these lands are to be held by the State of Arizona, section 28, found on page 19: “That it is hereby declared that all lands hereby granted, including those which, having been heretofore granted to the said Territory, are hereby expressly transferred and confirmed to the said State, shall be by the said State held in trust, to be disposed of in whole or in part only in manner as herein provided and for the several objects specified in the respective granting and confirmatory provisions, and that the natural products and money proceeds of any of said lands shall be subject to the same trusts as the lands producing the same.”

That seems to be sufficient, but in the next paragraph they go even further and make the trust even more explicit. “Disposition of any of said lands, or of any money or thing of value directly or indirectly derived therefrom, for any object other than for which such particular lands, or the lands from which such money or thing of value shall have been derived, were granted or confirmed, or in any manner contrary to the provisions of this Act, shall be deemed a breach of trust.”

For the gist of the question here is whether the rental of the school lands may be expended directly for the maintenance of the schools or whether that money must first go into the school funds, the interest from which is to be expended for the maintenance of the schools. My contention is, and the purpose of my amendment is, to provide that the rental of these lands shall go into the school fund, and the expenditures for the maintenance of the schools must be made without taking that money—the rental money. That is, either a portion of the funds must be expended, or the income from the funds. I ask for a second.

Mr. Osborn: We had that very same question and the same thought suggested when this matter was threshed out before, and I took the stand at that time (and I see no reason to change my view now) that the income from the land itself holds exactly the same position that the interest from the sale of the land does—that we are perfectly justified in using the income from lease for the maintenance of schools, just as we use the interest from the sale of the lands, and that there is no possibility of considering it a breach of trust; that the purpose of the Enabling Act—the plain statement was that the interest of the income from the proceeds of these sales might be used for the maintenance, and therefore I see no reason to change our former attitude, but allow the lease money to go—make it positive that it should go for the maintenance of the schools. There is an ulterior purpose also in this; that is, that it provides the state with an opportunity of holding its school lands, if it does not wish to sell them, granting to it in the meantime a sufficient fund with which to keep up the schools, and giving it leisure in which to dispose of its school property. So I see no reason for the amendment.

Mr. Jones (Yavapai): I would say that I agree heartily with the gentleman from Maricopa, and would like to say that I believe that that provision in the Enabling Act does not mean that the principal of this land shall be held and nothing but the interest used, but it means that it cannot be used for any other object than the object for which it was granted, which is the support of the

schools of the state; therefore, I think the paragraph should remain as it is.

Mr. Ingraham: In answer, I wish to read again a phrase or two from this law. The gentleman from Maricopa, Mr. Crutchfield, has constructed a theory, but unfortunately the Enabling Act butts into that theory. This is the expression in the Enabling Act of which this section will be a direct violation. "Disposition of any of the said lands, or of any money or thing of value directly or indirectly derived therefrom, for any object other than for which such particular lands, or the lands from which such money or thing of value shall have been derived, were granted or confirmed, or in any manner contrary to the provisions of this Act, shall be deemed a breach of trust." And it provides in the preceding paragraph that the money shall go into a fund. My contention is that that money from the lease must follow the same course that the money from the sale does. That does not mean that the money cannot be used, but it means that it must go into the fund.

Mr. Chairman: What are you going to do with the alfalfa? Are you going to put that into the fund?

Mr. Ingraham: I would say Mr. Chairman, that the alfalfa does not belong to the state unless the state raises it.

(The Records of the Arizona Constitutional Convention of 1910, Pages 945-947)

[e947534] Mr. Chairman: The Enabling Act says all the natural products of that land shall be put into that fund. Gentlemen, you have heard the motion. It is moved and seconded that section 8 be amended by inserting the words "or lease," on line 2, and striking out in the second paragraph the words, "and the rental derived from school lands." All in favor of the motion signify by saying "aye;" contrary-minded "no." The "nays" have it. The amendment is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 947)

[e947566] Mr. Bolan: Mr. Chairman, I wish to make an amendment to this proposition relating to counties by adding a section to be known as section 13 [sic. "5"], as follows: "A county seat may be removed by a majority of the qualified electors of the county voting n the proposition in favor of such removal, and a majority of the votes cast on the proposition may relocate a county seat. Provided, that if at an election where a majority of the votes as above set forth, vote for a removal of the county seat, but [if] no place has a majority of the votes for a relocation of the county seat, a second election submitting the relocation of the county seat may be held, at which second election only the names of the places having received in the previous election the highest and second highest votes for relocation of the county seat shall be placed on the ballot and voted for. A proposition of removal shall not be submitted in the same county more than once in four years." Now then Mr. Chairman—

(The Records of the Arizona Constitutional Convention of 1910, Pages 947-948)

[e947571] Mr. Chairman: If you will excuse me for a minute. We have not got down to section 5, which you are offering to amend.

Mr. Bolan: I wish to make this amendment when the proper time comes.

Mr. Chairman: Let us read section 1.

(The Records of the Arizona Constitutional Convention of 1910, Pages 947-948)

[e947573] Mr. Lynch: That calls to my attention that sections 11 and 12 [of Article XI] just read might better be placed in the constitution under the head of "Miscellaneous" or under Bill of Rights than in this place, and I move that the committee on compilation be so instructed.

Mr. Standage: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 948)

[e947574] Mr. Crutchfield: That would be a natural first thought, but after consideration you will see that, at least indirectly, it was associated with education, and rather than have two small articles disarranged in the constitution, when this is a matter referring to reformatory institutions, and the confinement of children, minors, etc. If closely allied to the general system of education, I believe that by stretching a point we can let it stay there and have just one large article on education, and have this under it, rather than have a miscellaneous article with two small sections together.

(The Records of the Arizona Constitutional Convention of 1910, Page 948)

[e947575] Mr. Chairman: It is moved by the gentleman from Graham that sections 11 and 12 be placed in an article headed "Schedule and Miscellaneous." Are you ready for the question? All in favor of the motion say "aye;" contrary-minded "no." The amendment is carried. Are there any other objections or amendments to the article as read?

[e947591] Mr. Winsor: Mr. Chairman, I move an amendment to section 3 as follows: In the third line strike out the words “for a term of two years,” and in the fifth line strike out the words “three supervisors,” and at the end of the paragraph—that is, after the word “surveyor,” add the following, “each of whom shall be elected for a term of two years, except that such officer elected at the first election for state and county officers shall serve until the first Monday in January, 1913; and three supervisors, whose terms of office shall be provided by law, except that at the first election for county officers the candidate for supervisor receiving the highest number of votes shall hold office until the first Monday in January, 1915, and the two candidates for supervisor respectively receiving the next highest number of votes shall hold office until the first Monday in January, 1913.” The object of this is to provide terms of office for the supervisors as they are now provided by law. Under the provision as it now stands, we have no arrangement for hold-over supervisors which is a very essential feature of our county form of government.

Mr. Ingraham: I second the motion.

[e947592] The motion prevailed.

[e947593] Mr. Standage: Mr. Chairman, I would like to amend that amendment just made. In the fifth line change the word “two” to “four,” so that their term of office shall be four years instead of two.

Mr. Osborn: I second that motion.

[e947597] Mr. Chairman: Are there any objections or amendments to section 4? If not, it will stand approved as read. The gentleman from Cochise, Mr. Bolan, has the floor.

(The Records of the Arizona Constitutional Convention of 1910, Page 949)

[e947599] Mr. Bolan: Mr. Chairman, I wish to offer an amendment to this article by inserting as section 5 the article entitled as section 3 in the committee's report, in regard to county seats which I read a few moments ago. In support of this amendment, I wish to state that in the first place, most of the constitutions in the United States have such a clause in them in regard to the location of county seats. The most of the legal gentlemen, and I should say most of all you gentlemen in this convention, are acquainted with the laws that are on our statutes at the present time in regard to county seat removals. You all know that it is almost impossible to move a county seat under our existing laws. I appeal to you, as gentlemen of this convention, to be fair in this proposition and give the counties a chance to move these county seats [when] where they are it is to the detriment of the county for the county seats to be located where they are at the present time. I will state a few of the conditions under which we are laboring in the county in which I live. We have our county seat located over in one end of the county where it is very sparsely settled. In the other districts where most of the people reside it would be a great deal more beneficial to them if the county seat was located in this end of the county. Under the existing laws, it is impossible for us to do anything in regard to this matter, This proposition requires a majority of the qualified electors of a county seat to remove a county seat. I think in most of the counties in the territory, outside of Cochise County, they are all probably satisfied with the location that they have now, but laboring under the condition that we are, with the extra cost of holding courts in this part of the county, I think it is no more than right that we should put a clause of this kind in our situation in regard to the removal of county seats.

(The Records of the Arizona Constitutional Convention of 1910, Pages 949-950)

[e947600] Mr. Osborn: Mr. Chairman, I appealed to the convention the other day, and especially to "dear old Cochise," to give us in Maricopa County something that we thought was right, and they threw a rock at me, but just the same, I think that Cochise members in their demand for their county are right, but I want to move an amendment to the motion, and that is where the word "majority" appears that it shall read "60 per cent." I think we are giving the voters too much latitude, and we might make a mistake, but if we require 60 per cent to change a county seat, we are perfectly safe.

(The Records of the Arizona Constitutional Convention of 1910, Page 950)

[e947601] Mr. Cunningham: Mr. Chairman, it seems to me we cannot get away from hobbies. We have been riding hobbies for two days. Every time the word "county" is named this same amendment is presented and has to be thrashed out again. Now, I hope we will not take up the time of this convention in discussing these matters one way or the other. It is embarrassing to me because it is not personally interesting to me to discuss this question. This body has been here in session all this time and we have been taking up the time in discussing various gentlemen's private ideas so much, and have always voted them down, and I hope this convention will vote as it has heretofore voted, and let us proceed with the work of the convention.

Mr. Chairman: The chair would suggest to the gentleman that what is a "hobby" in the daytime might be a "nightmare" at night.

Mr. Lynch: I would like to have that proposition read.

(The Records of the Arizona Constitutional Convention of 1910, Page 950)

[e947602] Mr. Chairman: The motion comes up on the amendment made by the gentleman from Maricopa that the word "majority" be changed to "60 per cent." As many as are in favor of the amendment being adopted say "aye;" contrary-minded "no." The "nays" seem to have it. A roll call is demanded. As many as are in favor of the adoption of the amendment offered by the gentleman from Maricopa that the word "majority" be stricken out in the original amendment and the words "60 per cent" be inserted will answer "aye" as their names are called; contrary-minded "no." Call the roll

Roll call showed 11 "ayes" and 34 "nays."

Mr. Chairman: The amendment is lost. The question now is on the original amendment by the gentleman from Cochise, Mr. Bolan, to section 5.

(The Records of the Arizona Constitutional Convention of 1910, Page 950)

[e947603] Mr. Baker: Mr. Chairman, I myself would very much like to vote for this provision if I consistently could do so as a member of the constitutional convention. Were I a member of the legislature I would gladly vote for it, but as a member of the constitutional convention I cannot consistently vote for a constitutional provision to suit the condition of one single county out of fourteen.

Mr. Sims: I would like to say that we are in the fix we are in now because it was left to the legislature.

Mr. Connelly: That is going to cause a county fight for us, and I would like to amend that by saying that when the county seat is moved in Cochise County it will be move to the city of Douglas.

(The Records of the Arizona Constitutional Convention of 1910, Pages 950-951)

[e947604] Mr. Chairman: The question comes up on the original motion offered by the gentleman from Cochise, Mr. Bolan, to add a new section as section 5. All in favor of the amendment will say "aye;" contrary-minded "no." The "nays" have it. The motion is lost. Are there any other objections to Article XII?

(The Records of the Arizona Constitutional Convention of 1910, Page 951)

[e947605] Mr. Winsor: Mr. Chairman, I would like to ask permission to revert to section 3 of Article XII. We just attached an amendment to that which was supposed to fix up this supervisor business and leave it just as it is at the present time, but I think there is still a discrepancy, and I move a further amendment as follows: that there be added to the end of the section the following words: "except that at the first election for county officers the candidate for supervisor receiving the highest number of votes shall be elected for a term of four years, and the two candidates receiving the [next] highest number of votes shall be elected for a term of two years." Inasmuch as the present hold-over member for the board of supervisors will be out of office at the time of the first county election, it appears that this is necessary.

(The Records of the Arizona Constitutional Convention of 1910, Page 951)

[e947606] Mr. Jones (Yavapai): Under the conditions of our present law, the hold-overs hold office until 1913, and you had better say so.

Mr. Winsor: It would be better to say that the hold-over members would hold their office that long if we wanted them, but I do not think we do. We will necessarily, it seems to me, elect three supervisors at the first county election. I think one should hold for four years and the other for two years, and then the old routine can be followed thereafter.

Mr. Chairman: I think the gentleman from Yuma does not understand himself.

Mr. Ingraham: Mr. Chairman, I would like to ask the gentleman from Yuma what would happen if the election should be in July.

Mr. Winsor: I would like to ask one of the gentlemen who does not think that covers the case to amend it so it will.

Mr. Lynch: After the first election it is but a short time until the legislature meets and it can then be adjusted. Therefore, I think it would be advisable to leave it just as it is.

Mr. Short: For how long are these supervisors to be elected?

Mr. Chairman: Does the gentleman from Yuma insist on his motion? There is no second to it.

Mr. Colter: I second the motion.

Mr. Chairman: Does the gentleman from Yuma insist on it being put?

Mr. Winsor: No, I do not, but I insist on someone making one that will cover the matter.

[e947613] Mr. Cunningham: Before I forget it, I think I possibly have an idea. In the first line of section 1, after the word "corporations" should be inserted the words "other than counties," as a county is a municipal corporation under a former provision, and I move we insert that so as to cure any possible ambiguity that might exist.

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 952)

[e947616] Mr. Chairman: How about school districts?

Mr. Cunningham: That would perhaps be another question.

Mr. Chairman: Did you make that as an amendment?

Mr. Cunningham: I made a motion.

Mr. Chairman: It is moved and seconded that in line 1, section 1, after the word "corporations" the words "other than counties" be inserted.

Mr. Baker: I think that would be a mistake. Whether or not a county is a municipal corporation is altogether owing to the matter in connection with which the word itself is used. It is very evident from this provision that the whole term would be confined to cities as well as municipalities purely, and I think if you would introduce an exception as to counties, you might have a great deal of trouble about municipal corporations being created by special law.

[e947636] Mr. Chairman: [...] Any to Section 4?

(The Records of the Arizona Constitutional Convention of 1910, Page 952)

[e947637] Mr. Franklin: Mr. Chairman, that section does not read to me like the section we amended here. I have a notation here on Proposition Number 22 that I made a motion to strike out line 18 of Proposition Number 22, from line 19 down to and including the word “contract.” Now Mr. Chairman, I move you that we strike out all of section 4.

Mr. Cunningham: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 952)

[e947638] Mr. Doe: I hope my colleague’s motion will not prevail. It is not proper that if under existing laws a corporation forfeits its charter that some laws should be passed by some legislature through corruption, fraud or wrong, at the insistence of that corporation, that they may be reinstated. This provision is to prevent that state of matters occurring. “But no general or special law shall be enacted for the benefit of such corporation,” etc. That is perfectly right. If you are going to give them the benefit of any law it should be distinctly stated that that corporation shall thereafter hold their charter subject to the provisions of this constitution. I think it is wise to keep this provision in there.

Mr. Ingraham: I am opposed to striking out that section. It appears in the printed form before us exactly as my motion upon Proposition Number 22 shows it to have been amended in committee of the whole.

Mr. Cunniff: I would like to ask a question. This is the second time that section has been under attack. This is a proposition that was brought in by the Committee on Private Corporations and Banks, of which Mr. Roberts was chairman, and Mr. Keegan, Mr. Goldwater, Mr. Ellinwood, Mr. Tuthill, Mr. Tovrea, Mr. Winsor, Mr. Curtis and Mr. Wells were members, and I have heard no explanation from any of these gentlemen as to why this paragraph was brought in.

(The Records of the Arizona Constitutional Convention of 1910, Pages 952-953)

[e947639] Mr. Franklin: Mr. Baker, we will have it just as I proposed it before if you will allow me to make a new motion. I will move that the section read as follows: “No law shall be enacted remitting the forfeiture of charter of any

corporation now existing, or altering or amending such charter.” Strike out these words on line 3, section 4, “and no general or special law shall be enacted for the benefit of such corporation.” Strike these words out, and leave the section to read: “or altering or amending such charters except upon condition that such corporation shall thereafter hold its charter subject to the provisions of this Constitution,” striking out the words on line 3 in section 4, to-wit: “and no general or special law shall be enacted for the benefit of such corporation.”

(The Records of the Arizona Constitutional Convention of 1910, Page 953)

[e947640] Mr. Cunningham: I seconded that motion before, the original motion, but I should not like to second the motion as it now stands, but my permission of course would be granted to the gentleman. I would prefer to leave the words so the section would read: “and no general law shall be enacted for the benefit of such corporation, except on condition that such corporation shall thereafter hold its charter subject to this Constitution,” striking out the words “or special law,” because those words conflict with item 13, section 9, of Article IV of this constitution, which reads, “No special law shall be enacted granting any special or exclusive privileges,” etc. and to strike out “or special law” would leave that section then reading that no general law should be passed unless the corporation will hold its franchise under the general law of this territory.

Mr. Chairman: You have heard the amendment offered by Mr. Franklin, that section 4 be amended as to read, “no law shall be enacted remitting the forfeiture of charter of any corporation now existing, or altering or amending such charter.” Are you ready for the question?

(The Records of the Arizona Constitutional Convention of 1910, Page 953)

[e947641] Mr. Baker: Just one word more. That immediately opens the door to the point that I would complain of; that is, that after a delinquent corporation had forfeited its charter, or it desired its charter to be altered or changed to its benefit by a corrupt legislature, they would do so then by saying, “we will hold our charter hereafter subject to the conditions of this constitution.” I would rather have the last part of the clause stricken out.

(The Records of the Arizona Constitutional Convention of 1910, Pages 953-954)

[e947642] Mr. Franklin: I accept that.

(The Records of the Arizona Constitutional Convention of 1910, Page 954)

[e947643] Mr. Franklin: [...] When we had this matter up for consideration before, the section provided that the legislature shall not remit the forfeiture of the charter or any corporation now existing, or alter or amend the same, nor pass any general or special law for the benefit of any such corporation other than in the execution of a trust created by law or by contract. These were the two exceptions that the committee made in this section. Now if the constitution reads as it does now, those two exceptions are not only done away with, but the legislature can pass any law for the benefit of a corporation, provided that thereafter it complies with the laws of the territory. I do not wish to go into any more argument on this subject. It seems to be if we want to strike out the

two exceptions, we should not permit the legislature to pass any law for any corporation, only that they comply with the laws of this territory. I think it would be preferable to strike out all of it.

Mr. Cunniff: May I make a third request for light on this subject? The last time this was under discussion I asked that some gentlemen of the committee that brought that proposition in would explain why it was brought in and that clause was stricken out, "other than in the execution of a trust created by law or by contract." I do not see why the whole thing should be in here unless the committee had some idea in mind when they brought it in.

Mr. Franklin: I think the section reads now, "No law shall be enacted remitting the forfeiture of charter of any corporation now existing, or altering or amending such charter," although I do not think it is necessary.

Mr. Winsor: Mr. Chairman, as a member of the Committee on Corporations, which had this measure under consideration, I want to confess that I do not know what the clause in question means, and did not know at the time it was inserted, although numerous explanations were offered by members of the committee. I find upon reference to the five different corporation propositions that we had under consideration that this provision was in four of them, the exception being that of the gentleman from Maricopa, Mr. Baker. The author of the propositions cited numerous constitutions which contained this exact provision, and inasmuch as there was nothing in any of them that had not been copied from somewhere else, I think they were telling the truth. As the gentleman from Yavapai, Mr. Cunniff [requests], I would like to have some light, and I am sorry the authors of these propositions are not present, particularly the gentleman from Cochise, Mr. Ellinwood, and the gentleman from Yavapai, Mr. Wells, whose Proposition Number 105 I have before me.

Mr. Roberts: Mr. Chairman, I believe I was chairman of that committee and appointed Mr. Winsor chairman of a sub-committee, and I think when the thing was called up at the regular meeting of our committee that somebody suggested that Mr. Winsor brought out that proposition, and he was not there to explain it, and he never was there to explain it.

Mr. Winsor: And he is not here to explain it now.

(The Records of the Arizona Constitutional Convention of 1910, Page 954)

[e947644] Mr. Roberts: I would move an amendment that it be left to read as it is now.

(The Records of the Arizona Constitutional Convention of 1910, Page 955  
Motion to Adopt the Section as Read)

[e947645] Mr. Chairman: You have heard the amendment of the gentleman from Maricopa, to strike out all after the word "charter" on the third line, so that it shall read: "No law shall be enacted remitting the forfeiture of charter of any corporation now existing, or altering or amending such charter."

(The Records of the Arizona Constitutional Convention of 1910, Page 955)

[e947646] Mr. Winsor: I move to strike out the entire section.

Mr. Jones (Yavapai): I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 955)

[e947647] Mr. Cunningham: Mr. Chairman, the evident intent of this section is that corporations organized under charters existing, or under the laws existing at the time of their organization, can continue to exist if they have not in some way forfeited their charter, and if they have performed some acts under the law that would justify that charter this would make it so that they might not be required to disband the corporation, if by doing so they would come under the law of the state as it exists at the time this arrangement was made, so if they can revise their charter, or avoid their forfeiture under a general law they would continue to exist, but they would have to exist under the corporation law of the state as it existed at that time, in my understanding of this proposition, but to pass a special law for their benefit I think would be objectionable.

Mr. Weinberger: I think this section ought to be stricken out for the reason it is in conflict with Section 19 of the Legislative proposition. This proposition states that no local or special laws shall be included in any of the special cases, and Section 13 is granting to no corporation, association or individual any special or exclusive privileges, immunities or franchises.

(The Records of the Arizona Constitutional Convention of 1910, Page 955)

[e947648] Mr. Chairman: You have heard the motion that section 4 be stricken out. All in favor of that section say "aye;" contrary-minded "no." The "ayes" have it; so ordered. It could have been done fifteen minutes ago.

[e947924] Mr. Ingraham: Mr. Chairman, I have an amendment to offer that the number of the last section be changed and that Section 13, 14, and 15, and 16, be added as indicated on this paper. These are omissions I have found in looking over the general constitution. I will say that we have in many places in the constitution a provision like this: "No law shall be enacted," concerning a certain subject, but we already have laws upon the statute books when the legislature was forbidden by this constitution to enact such a law, and this clause declares that such a law shall be declared repealed.

Mr. Feeney: I second the motion.

[Editor's Note: The exact contents of Ingraham's amendment are unclear. Ingraham moved that the original section 13 be renumbered and placed elsewhere in the section, though the contents of the original section 13 are not mentioned. Similarly, the content of Ingraham's new sections are not included in the record, aside from a reading of section 15 in the Convention. In light of this gap in the record, the editors have proposed at this point the only sections of this article which are not accounted for later in the record.]

[e947925] Mr. Weinberger: I would like a little time to think over that last section.

Mr. Hunt: You can amend it tomorrow when it comes up for third reading.

Mr. Ingraham: If the legislature is forbidden to enact a certain law the law now in force ought to be repealed by that clause.

Mr. Cassidy: I would like to hear read the first section of this amendment. It seems to me that it is already covered.

Mr. Ingraham: I will accept that suggestion and strike out that first section and change the numbers accordingly. It is covered in Section 4 at the top of page 83.

[Editor's Note: It is unclear what section Ingraham struck out here, as neither the Journal nor the Minutes records the original proposed amendment text.]

[e947960] Mr. Ellinwood: Mr. Chairman, in the third line from the last: "All corporations other than municipal, operating as common carriers, or having or exercising the right of eminent domain, shall be considered public service corporations." If you will turn to Proposition Number 94, your Declaration of Rights, you will see that the right of eminent domain is given for flumes, bridges, sewerage, and very many other things. It is given to all private corporations, and if you fail to amend this it simply does what the convention has already decided not to do. I move to amend after the word "all" in the third line from the last: "All public service corporations, other than municipal," etc.

Mr. Tovrea: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 968)

[e947961] Mr. Lynch: I would like to amend the motion, for the reason that it does not seem to cover the difficulty. It says that all corporations having certain rights are public service corporations. Now, it does not add anything to the rich corporation to say public service corporation. If you define a [words missing]. Further than that, a saw mill using a flume is a corporation operating as a saw mill. A farm which was incorporated as, for instance, the Ostrich Farm, would be a public service corporation, and practically every corporation now existing under the terms of the statutes and terms of the constitution would, under this definition be [a] public service corporation. I am satisfied that such is not the intent of the convention; therefore, I move to strike from the paragraph the words "or having or exercising the right of eminent domain."

(The Records of the Arizona Constitutional Convention of 1910, Page 968)

[e947962] Mr. Ellinwood: It is only the substance of the matter I sought to have taken care of. I accept the amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 968)

[e947963] Mr. Chairman: The question is on the amendment offered by the gentleman from Cochise, seconded by the gentleman from Graham, to section 2, to strike out on the last two lines the words: "or having or exercising the right of eminent domain." Are you ready for the question?

Mr. Cunniff: Mr. Chairman, it seems to me that the points made by the gentleman from Cochise and the gentleman from Graham are well taken. There is a definite idea in mind in that paragraph, but I think they reach the point when they say the language is too sweeping; therefore, I am in favor of the amendment.

Mr. Ingraham: Mr. Chairman, I am not in favor of the amendment. The purpose of this amendment is to take the large corporations like the Copper Queen and other similar corporations out from under the jurisdiction of the Corporation Commission, and I think if there are any organizations in the state that should be under investigation it is these large corporations. Now, this provision in section 2 is not as sweeping as similar provisions in other states. I quote from Oklahoma. In establishing the Corporation Commission in Oklahoma this definition is used: "As used in this Article the term 'company' shall not include associations having no power not possessed by individuals, and include all corporations except municipal corporations and public institutions or institutions controlled by the state," practically including all corporations. Now I submit, Mr. Chairman, that the inclusion of a corporation under the powers of the Corporation Commission does not the ruin of that corporation. It does not imply any injury to that corporation. It simply implies regulation within law and investigation of business, such as they ought to be willing to submit to. They derive their powers from the state. They do business in the state. They exploit the wealth of the state. They use the labor of the state. They call upon the militia and police of the state for protection, and why should they not be subject to our laws just the same as any other corporation or any city? The reason why this definition is based upon the eminent domain clause is that the eminent domain clause is the extreme power that the state has. It is the power that the state possesses to go to every man's front gate and say, "Get off this property. This property is my property henceforth." Now that power of the state gives to every corporation that uses the eminent domain, and that corporation may go to the front gate of every man and say "Get off this property. I say to you in the name of the state give this property up to me," paying for it, of course. This extreme power is given corporations, and it is because of this that they are asked to submit to rules of law that are to be imposed by the Corporation Commission. There is nothing unreasonable about this request.

Mr. Lynch: Answering the gentleman from Yuma, let me see whether the provisions of section 3 and 4 are reasonable as applied to the question at issue. Under section 3 this commission will prescribe the form of contracts and the system of keeping accounts to be used by corporations in transacting such business, and make and enforce reasonable rules and regulations for the convenience,

comfort, safety and preservation of health of the employees and patrons of such corporations. Think of applying that to a mine that wanted a right-of-way for a road up to its mine. Think of applying it to a lumber milling company that wanted to build a flume! It then becomes a public service corporation. Section 4 says the Corporation Commission shall have power to inspect and investigate the books, papers and affairs of any public service corporation doing business within the state. The gentleman says that because the state steps in and gives to these corporations the right of eminent domain, the corporations should, in turn, turn around and allow its private affairs to be investigated. Let me ask you, is it not a fact that the state steps in and extends to the individual the right of eminent domain under certain circumstances? Why should not the individual submit to a commission appointed by the state to come in and investigate his private affairs? It seems to me the clause is too broad.

Mr. Short: Mr. Chairman, in reply to the gentleman, I beg to say that the reason this does not apply to individuals is because an individual cannot take our property or mine and appropriate it for his own use without due process of law. An individual has no right of eminent domain. We cannot have our property condemned to the extent that a corporation may. This matter as regards eminent domain was thoroughly thrashed out in the committee, and it was decided by the committee that it would do no harm to insert this; that it would probably cover something that we had omitted, possibly, to name specifically in this paragraph, and it was put in there in order that we might cover everything that might come under the jurisdiction of the Corporation Commission, and I am certainly opposed to having it eliminated at this late hour.

Mr. Ellinwood: Mr. Chairman, I wish to call the attention of the gentleman from Yuma, Mr. Short, who is generally so correct, to section 17 of the Declaration of Rights. He states we are in error, that private property may not be taken by an individual. "The rights of eminent domain is accorded," etc.

Mr. Cunniff: Mr. Chairman, I think that the several members of the committee who drew up this proposition understand this, and as one of the members I would explain that as far as I was myself concerned I favored putting in a proposition there to cover certain grounds. But as I have said before in this convention, when we are supplying remedies we should always be careful to see that the remedies do not go far beyond curing the disease, and it seems to me that in putting this provision in we did cover ground that was much wider than we intended to cover. It seems to me that the points made by the gentleman from Cochise, Mr. Ellinwood, and Mr. Lynch are well made, and that it does cover more ground than we in the committee intended it was to cover. Therefore, I am in favor of the amendment.

(The Records of the Arizona Constitutional Convention of 1910, pages  
968-970)

[e947964] Mr. Chairman: Are you ready for the question, gentlemen? The motion is to strike out on the last two lines of section 2, the words "or having or exercising the right of eminent domain." Those in favor of that motion will manifest by saying "aye;" contrary-minded "no." The "ayes" have it. The section is so amended.

(The Records of the Arizona Constitutional Convention of 1910, Page 970)

[e947966] Mr. Chairman: [...] Are there any objections or amendments to section 3?

(The Records of the Arizona Constitutional Convention of 1910, Page 970)

[e947967] Mr. Chairman: [...] Are there any objections or amendments to section 3?

(The Records of the Arizona Constitutional Convention of 1910, Page 970)

[e947970] Mr. Cunniff: I would like to call attention to the amendment made by Mr. Goldwater in which the word "oil" was introduced after the word "gas" at the end of the second line. After that passed in the committee of the whole that evening, I called attention to the fact that that language was wider than was intended. Any corporation furnishing oil for light, fuel or power was thereby made a public service corporation. In spite of the fact that I should like to see the Standard Oil Company and Union Oil Company made public service corporations, or at all events brought under control of this commission, it seems to me any corporation furnishing oil may be a grocery store or a department store, or something of that kind, and the language used there is too sweeping.

Mr. Short: Mr. Chairman, I would say that the committee overlooked the oil proposition when we were getting this proposition, and we are indebted to the chairman for correcting us. Inasmuch as he used great effort to get this inserted I think we should appreciate that effort and allow it to remain, inasmuch as it seems to be a very good thing and tends to regulate the greatest monopoly and corporation in the United States.

Mr. Chairman: Are there any other amendments offered to section 2? If not, any amendments to section 3?

(The Records of the Arizona Constitutional Convention of 1910, Pages 970-971)

[e947973] Mr. Chairman: [...] If not, any amendments to section 3? Any to section 4?

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947974] Mr. Chairman: [...] Any to section 4?

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947977] Mr. Crutchfield: I move the amendment of section 4 by adding after "affairs," the words "or of any corporation offering stock for sale, or." The purpose of this amendment can be easily seen. It is to allow the Corporation Commission to have the inspection and supervision of every corporation that appeals to the public for the purchase of its stock. I do not believe in merely going into the investigation of partnerships, but why should they incorporate? The very purpose of their desire for incorporation is to allow them to form a corporation which does show up a business body, and does show up the basis for recovery of suits or debts, or any such thing, and if they propose to sell stock and ask the public to take an interest in their business, the public ought to be protected by giving the Corporation Commission the power to inspect their

books and see if their investments are safe. I do not know why this provision should provoke opposition. It seems to me it is the protection of the public, a guarantee also of the corporations themselves, and on the whole will tend to render stable the business of our state and territory, and guarantee to good and bona fide corporations a stability that they could not have otherwise, and allow the Corporation Commission to put out of business any wildcat corporations that propose to gather in the money of unsuspecting investors, or put them under such regulation that good corporations will not be disgraced by the actions of other corporations that are merely combinations for the purpose of getting all the easy money they can.

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947978] Mr. Ellinwood: Mr. Chairman, I would like to offer an amendment to the proposition, which I think the gentleman from Maricopa will accept in the spirit and substance of what he has said. As I understand, he has moved to insert after "affairs" the words: "or any corporation offering stock for sale, or." I move to add the words: "to the public." No corporation could be organized except if its stock is offered for sale. If the gentleman from Maricopa and myself and the chairman should organize a corporation, the very first thing we have got to offer our stock. If there are no stockholders, there is no corporation. I move to add these words "to the public."

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947979] Mr. Short: Mr. Chairman, this looks as if it might be a wise provision, but it does not mean anything. If I organize a company to sell stock, and wish to avoid this provision in the constitution, all that is necessary—

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947980] Mr. Cassidy: I rise to a point of order. Is there anything before the committee?

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947982] Mr. Chairman: The motion was made by the gentleman from Maricopa.

Mr. Cassidy: It was not seconded.

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947987] Mr. Chairman: Mr. Ingraham seconded it.

(The Records of the Arizona Constitutional Convention of 1910, Page 971)

[e947989] Mr. Short: All that company has to do is to put the stock in the hands of somebody else to sell. Then the corporation is not offering it for sale. They will have absolutely nothing to do with the sale of stock. They do not have any stock to sell to anybody. This individual can buy it and pay for it with a note, and then offer it for sale to whom he pleases, without any restriction. This would be a wise provision if it effected the purpose for which it was intended, but it does not do it.

(The Records of the Arizona Constitutional Convention of 1910, Page 971-972)

[e947991] Mr. Parsons: If that is the only objection the gentleman from Yuma has, I would suggest that the gentleman from Maricopa might change the wording of his amendment, have it read to this effect: "Of any corporation whose stock shall be offered for sale to the public."

(The Records of the Arizona Constitutional Convention of 1910, Page 972)

[e947992] Mr. Crutchfield: I accept that amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 972)

[e947993] Mr. Ellinwood: I withdraw my amendment.

(The Records of the Arizona Constitutional Convention of 1910, Page 972)

[e947995] Mr. Moeur: I do not see how this commission is going to determine whether this stock is good or bad. It does not strike me that this constitution should try to protect all the fools in Arizona.

Mr. Colter: According to that, then, put in every one—the Copper Queen and all.

Mr. Cunniff: Mr. Chairman, Arizona has been held up before this nation by Collier's Weekly and other publications, because of the permission that it grants to wildcat companies to come here and fleece the public by selling their stock, and for a long time there has been an effort made, and I beg to say that the Democratic party of Arizona is on record as urging and forwarding any proposition that was a sound and wise one, that would succeed in removing this blot from the name of Arizona, and it seems to me this is the wisest solution of the problem before us that I have seen offered yet. This proposition will be one of the most valuable and important to put into the constitution, not only for the people of Arizona, but for the good faith and reputation of Arizona all over the country. (applause)

Mr. Ingraham: Mr. Chairman, I would say that this proposition of investigation of concerns putting out stock is right in line with the reforms advocated by two of the most recent Presidents of the United States—Roosevelt and Taft. They have both sought to put into the general law measures by which the sale of worthless stock could be prevented and all issuing of stock could be regulated. This is a mere step along that line. It authorized the Corporation Commission to investigate the financial condition of any such corporation. Certainly there cannot be any harm in that.

Mr. Chairman: The question is on the motion of the gentleman from Cochise, Mr. Parsons, to amend section 4 by inserting after the word "affairs" the words "of any corporation whose stock shall be offered for sale to the public, and"

(The Records of the Arizona Constitutional Convention of 1910, Page 972)

[e947996] Mr. Crutchfield: I do not accept the amendment "to the public."

(The Records of the Arizona Constitutional Convention of 1910, Page 972)

[e947999] Mr. Crutchfield: I do not accept the amendment "to the public."

(The Records of the Arizona Constitutional Convention of 1910, Page 972)

[e948001] Mr. Ellinwood: Then I move a further amendment, that the words "to the public" be added.

(The Records of the Arizona Constitutional Convention of 1910, Page 972)

[e948002] Mr. Crutchfield: Is the question on the amendment?

Mr. Chairman: Yes.

Mr. Crutchfield: I should like to say that I do not like the looks of that last amendment. I believe there is a possibility of that entirely destroying the purpose that we intend. It might be interpreted to mean that when a certain legal procedure of advertising was gone through with in order to secure buyers, and I think it should be a corporation whose stock is offered for sale.

(The Records of the Arizona Constitutional Convention of 1910, Page 973)

[e948003] Mr. Franklin: Mr. Chairman, in looking over this section it is not intended to repeal the interstate commerce commission, is it?

Mr. Tuthill: Yes, this supersedes the Constitution of the United States.

(The Records of the Arizona Constitutional Convention of 1910, Page )

[e948006] Mr. Chairman: Those in favor will say "aye" as their names are called; contrary-minded will answer "no." The secretary will call the roll.

Roll call showed 24 "ayes" and 20 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 973)

[e948008] Mr. Chairman: The amendment is carried. The question now is on the amendment to section 4, offered by the gentleman from Maricopa, Mr. Crutchfield, as amended. Are you ready for the question? All in favor of the amendment will answer "aye;" contrary-minded "no." Call the roll.

Mr. Crutchfield: I will just say that while the amendment made is not according to my purpose at all, yet I feel that it is a good one the way it is. It reaches ninety percent of the corporations that the amendment intended to reach, and I trust that every one interested will vote for it. I believe it is a valuable adjunct to the supervisory power of our Corporation Commission, and if we are really sincere in our purpose and intention, we ought to vote for the amendment as it stands, even amended as it is.

Mr. Colter: Does it not apply to very nearly all the private corporations?

Mr. Crutchfield: I reply, it will apply to all corporations offering stock for sale.

Mr. Webb: Mr. Chairman, I desire to answer the question asked by Mr. Colter. It certainly does, and the closest our smallest corporation, if any stockholder, though he owned but one dollar of stock, if he offered that dollar for sale, would come under this provision. I submit, gentlemen, that this commission will have more than they can handle. You might just as well go back and insert what you struck out in section 2. Now you insert that any corporation whose stock shall be offered for sale to the public. If any stockholder offered twenty-five cents worth of stock for sale to the public, ...

Mr. Cunniff: Mr. Chairman, I should like to point out that the gentleman from Graham is absolutely mistaken; that it does not cover all corporations no matter how small. The amendment offered by the gentleman from Cochise, Mr. Ellinwood, cut out these close corporations, but the proposition now I agree with the gentleman from Maricopa, covers ninety percent of the ground that it was intended to cover, but it does not cover the close operations, who do not offer their stock to the public.

Mr. Colter: I would like to say that to the ditch companies, the reservoir companies—we want to get every encouragement that is possible for the opening up of these new companies, and they all have offered stock for sale.

Mr. Moeur: There is no man who wants protection from being “skinned” any more than I do, because I do not run a skin game. I believe this section will be a detriment to the prosperity of Arizona, and, therefore, I vote against it.

Mr. Cunniff: I would like to point out in answer to the gentleman that I am interested in a corporation that has spent one hundred and fifty thousand dollars and it is a close corporation. It has not offered any stock to the public and will not offer any stock to the public, and it does not come under this clause. Though I supported the proposition originally, I see no reason why it should not come under this provision.

Mr. Crutchfield: I am surprised at the opposition that this little amendment seems to provoke. I had always thought that the earnest desire of the people of Arizona was to wipe out the disgrace that has been attached to her name by the corporations that have made all honest corporations really a disgrace and almost the very name—almost—corporation to provoke opposition. The real key is right here. I see no reason why an honest corporation, for instance a company of gentlemen composed of my friend of Apache County, Mr. Colter, and a dozen of his neighbors, would get together to form a ditch company and bring water to irrigate their land. I see no reason, I say, why they should object to honest scrutiny by a corporation commission of the state in order that this state might clear her skirts of any taint that might have attached to her because of these corporations that have robbed the people of Arizona and enriched themselves and in some instances made this state a laughing stock in the eyes of the world. Furthermore, I see no reason why they should suffer in the slightest from the supervision of this commission. It is not expected that for the sake of carrying out the provisions of this section that the Corporation Commission shall go in a body once a year to every little community and examine every little company, but it is proposed that they shall have the power to so supervise the corporations of this territory that sense and [word unclear] may be known as qualities that belong to corporations. Now I have accepted the amendment of the gentleman from Cochise, Mr. Parsons, and I have also accepted the amendment of my friend, Mr. Ellinwood, and we have a proposition now that covers these corporations that we all feel are a disgrace. Why should the gentlemen oppose that? Why should they endeavor to take out from under the control of a board of men chosen for their honesty and integrity, just because possibly, of some slight inconvenience to them—the requirement of making a report once a year. Then I do not see why the company of country gentlemen should not also make a report once a year. I do not see that that would be anything to the detriment of your companies. I see no reason why you should not submit to the state Corporation Commission a report of your work and the standing of your company, and allow them to make public if necessary the situation of yours and

other corporations.

Mr. Colter: Mr. Chairman, Mr. Crutchfield's argument is all very good in theory but it certainly is not in practice. We all want to do that which keeps away disgrace, but we do not want to take a medicine where the cure will do more harm than the disease. You are giving us something here now that will cause a lot more harm than it will do good.

Mr. Ellinwood: Mr. Chairman, early in this session I introduced a proposition on corporations, Number 29. If all the provisions of the propositions were coupled together they would not be as drastic as this provision is, for which I am very grateful. This provision proposes a protection to the public. When I proposed that a stockholder should be liable for the amount of his stock subscribed and unpaid, it was voted down. This provision absolutely exhibits to the gaze of the public the affairs of corporations which are floating their stock to be sold to the public, and to be fleeced if they are a robbing corporation. It seems to me it is the proper thing. It is what I have been contending for. I did not dream that such a provision as this could ever be gotten through this convention, and I am glad indeed to hear the number of voices on this floor in its behalf; and to ease the conscience of the gentleman from Maricopa in voting for this proposition, I would state that the stock of the Copper Queen is offered for sale and it is on the stock board, and if this passes, the gentleman from Maricopa may know that its affairs may be looked into by the Corporation Commission. I hope it is an honest corporation. It has been my purpose to exhibit to the gaze of the public, their entire affairs so that the public may know what is going on, when its stock is offered for sale.

Mr. Cunniff: All I wish to add is that I am surprised that the gentleman from Apache should be endeavoring to kill something that is good.

Mr. Chairman: Are you ready for the question? As many as are in favor of the amendment will say "aye" as their names are called; contrary-minded "no." Mr. Secretary will call the roll.

Mr. Short: I would like to explain my vote. If this matter has been decided satisfactorily to the gentleman from Cochise and the gentleman from Yavapai, I desire to vote "aye."

[e948015] Section 18 as it appears on page 68 of the printed copy of the Constitution was ordered inserted as Section 5 of Article XV and the subsequent numbers to Section ordered changed to correspond.

It is unclear when the Committee considered this section The Minutes describes it taking place sometime between the consideration of Sections 2 and 4, which is out of numerical order and a deviation from standard practice. However, the Records does not describe this moment at all. For clarity's sake, the editors have represented the consideration of the new Section 5 here.]

[e948056] Mr. Short: Section 9 doesn't seem to be all of the section. I was under the impression there was more to that section.

Mr. Wills: The numbers are different.

Mr. Chairman: Yes, of course. If there are no objections to section 9, which is section 8 of the printed copy, we will consider section 9 of the printed copy which will be section 10 of the engrossed copy.

(The Records of the Arizona Constitutional Convention of 1910, Page 977)

[e948067] Mr. Short: Mr. Chairman, if I remember right, it was the sense of the committee that that should read “an act of Congress approved February 11, 1887,” and I think it should be so amended. I move to strike out “of” on the third from the last line on page 23 and insert “approved.”

(The Records of the Arizona Constitutional Convention of 1910, Page 977)

[e948068] Mr. Cunniff: There may be no doubt as to whether the act was approved by the President on that date or not.

Mr. Short: We can determine that in a moment by looking up the interstate commerce act.

(The Records of the Arizona Constitutional Convention of 1910, Page 977)

[e948071] Mr. Chairman: Any objections to section 13?

(The Records of the Arizona Constitutional Convention of 1910, Page 977)

[e948073] Mr. Chairman: Any objections to section 13?

(The Records of the Arizona Constitutional Convention of 1910, Page 977)

[e948075] Mr. Ellinwood: Mr. Chairman, I move to strike out in the fourth line, after the words “Corporation Commission,” the remainder of the section. It will be recognized that a constitutional provision or a statute is valid or void, not by what is done under the statute or constitutional provision, but what may be done. The test is what may be done under this provision. This provides for the fixing of rates based upon the physical value of a railroad. You have already given the commission the rate making power, and I want to say that no railroad could run thirty days in this state or in any other state fixing rates on the physical value of the property. If you give a railroad simply an earning power of six or eight per cent on their physical value you must provide some means for meeting their payroll. You must provide some means for replacement if a road is washed out or if a limited train goes in a ditch and hundreds of people are killed and they are sued under the employer’s liability act. Where is the money to come from? I say no railroad could operate thirty days under this provision, and I move to strike it out.

(The Records of the Arizona Constitutional Convention of 1910, Page 977)

[e948076] Mr. Cunniff: Mr. Chairman, I beg to say that I do not see where the argument of the gentleman from Cochise applied to this at all.

Mr. Osborn: Mr. Chairman, I would like to ask the gentleman from Cochise if this is any more drastic than the amendment they voted for this morning?

(The Records of the Arizona Constitutional Convention of 1910, Page 977)

[e948077] Mr. Short: I rise to a point of order. I would like to know who seconded Mr. Ellinwood's motion?

(The Records of the Arizona Constitutional Convention of 1910, Pages  
977-978)

[e948078] Mr. Ellinwood: I have not heard any second. The other evening when I moved to strike this paragraph out, I do not think anybody had the nerve to second it.

(The Records of the Arizona Constitutional Convention of 1910, Page 978)

[e948080] Mr. Weinberger: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 978)

[e948081] Mr. Short: I was looking for that, because we know very well that the railroad companies are afraid to allow the basis for making rates to be the same as that on which they pay taxes. Now this does not provide that this must be done at all. This provides that in case the commission desires to do so it may use the valuation returned to the board of equalization as a basis on which to make rates to be in force upon that line. I do not see that this absolutely provides for the physical valuation of the road as a basis on which to make rates, although it provides that it may be done if the railroad company is so disposed. If the company wants to return its property valuation at half, or one-third or one-fourth what it is actually worth, then why not allow the commission, if it so desires, to use that basis for making rates? To strike out that part of this paragraph will despoil the paragraph of what merit it might have in this respect.

Mr. Chairman: Are you ready for the question? The chair would like to say he thinks the thing is just turned around. I think the basis they fix for their rate should be the basis on which they should be taxed by the assessor. They have the cart before the horse in this proposition. All those in favor of the amendment of Mr. Ellinwood will answer "aye" as their names are called; contrary-minded "no." Call the roll.

Mr. Crutchfield: In explanation of my vote, I think there is an injustice done here somewhere, but I do not know how to remedy it, and I vote no.

(The Records of the Arizona Constitutional Convention of 1910, Page 978)

[e948082] Roll call showed 25 "ayes" and 21 "nays."

Mr. Chairman: The amendment is carried. Are there any other amendments to section 13?

(The Records of the Arizona Constitutional Convention of 1910, Page 978)

[e948084] Mr. Parsons: Mr. Chairman, I desire to offer an amendment to line 1, section 13, which is section 12 of the printed copy. After the word “corporations” in the first line, to make this consistent with the amendment we adopted this morning, add the words “and all corporations whose stock shall be offered for sale to the public.”

Mr. Chairman: Does the chair hear a second to that motion?

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 978)

[e948085] Mr. Chairman: The question is on the amendment offered by the gentleman from Cochise, Mr. Parsons, that after the word “corporations” in line 1, of section 13, the words “and all corporations whose stock shall be offered for sale to the public” be added. As many as favor this amendment say “aye,” as their names are called; contrary-minded “no.”

Mr. Parsons: I desire simply to say that in section 4 we added the words. We gave the Corporation Commission the power to investigate the affairs of all such corporations. Now in section 13, where I desire the amendment placed, is simply requiring that same class of corporations to report to the commission, and it seems to me that it simply supplements what we did this morning, for the committee having the right to investigate them certainly ought to have the right to require reports from this class of corporations.

Mr. Cunniff: Mr. Chairman, it seems to me that is simply carrying out what we did this morning. It is the logical thing to put in there.

(The Records of the Arizona Constitutional Convention of 1910, Pages  
978-979)

[e948086] Mr. Chairman: The secretary will call the roll.

Roll call showed 25 “ayes” and 22 “nays.”

[e948101] Mr. Cunniff: Mr. Chairman, I ask permission to revert to section 12, and ask Mr. Jones if he looked up that act of Congress.

(The Records of the Arizona Constitutional Convention of 1910, Page 979)

[e948103] Mr. Chairman: Are there any amendments or objections to section 19? If not, we will revert to section 12.

[e948107] Mr. Jones (Maricopa): I have a copy of the interstate commerce law, and I know it was approved February 11, 1887, and has been subject to six or eight amendments. I therefore move that in section 12, the third line from the bottom, that the word "of" be stricken out and the word "approved" be substituted.

Mr. Jones (Yavapai): I second the motion.

[Editor's Note: Jones renewed Short's motion from earlier in the session after referring to the interstate commerce law.]

(The Records of the Arizona Constitutional Convention of 1910, Page 979)

[e948108] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 979)

[e948110] [Editor's Note: Because Short's amendment to Section 12 was never acted upon and because the same motion by Jones was adopted by the Committee, the editors have shown Short's motion as dropped here.]

(Editorial)

[e948111] Mr. Bolan: Mr. Chairman, I would like to add to Article XII the following: "The Corporation Commission shall have the power to put a fair valuation on all public service corporations and may base charges and rates thereon."

Mr. Feeney: I second it.

(The Records of the Arizona Constitutional Convention of 1910, Page 979)

[e948113] Mr. Chairman: That is an amendment to section 12 as I understand it.

Mr. Parsons: Mr. Chairman, it seems to me that what is sought to be accomplished by that is provided for in section 14 of the act. "The Corporation Commission shall, to aid it in the proper discharge of its duties," etc.

Mr. Cunniff: Mr. Chairman, the gentleman who offers the amendment I think is a worthy man, and I think he knows that the work of fixing rates is the most complicated subject in the economic world. There are all sorts of things to be taken into consideration in fixing rates, and it would be much too hasty a movement on our part. The matter can be gotten at under the power given to the Corporation Commission, but it will take some time, and for a Corporation Commission in one year to fix the valuation for the public service corporations in the territory would be a big task. The amendment contemplates too much.

(The Records of the Arizona Constitutional Convention of 1910, Page 979)

[e948115] Mr. Colter: Mr. Chairman, I would like to make a motion that Article XV be indefinitely postponed.

(The Records of the Arizona Constitutional Convention of 1910, Page 979)

[e948116] Mr. Chairman: You are out of order.

(The Records of the Arizona Constitutional Convention of 1910, Page 979)

[e948117] Mr. Bolan: I will withdraw my motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 980)

[e948118] Mr. Crutchfield: I renew the amendment of the gentlemen from Cochise. While I do not exactly know the purpose of the word, I like the word "fair valuation." I have had some experience with the question of taxation that has led me to see that there is a very variable rate for taxation. I remember very well the first experience I had with it. I think it was in California. I think probably it involved some two or three thousand dollars. After a while

I was offered a little higher price for this property, and when the tax collector came around and asked me how much it was worth and I told him. I rendered him what I thought it was worth I discovered mighty soon that my neighbor was paying one-third of what I was paying. I went to the tax collector and I complained. He said, "You rendered that property at that price, didn't you?" I said, "yes." He said, "You said it was worth that, and you are to blame if it is too high." And I found out that for my honestly I was paying a great deal more taxes than other people who had the same amount of property. We all know the workings of that. Now there is one or two things that ought to be done. We ought to assess our property at its valuation—

Mr. Short: Will the gentleman yield to a question? Was this amendment for the purpose of fixing a new value for taxation, or making votes?

Mr. Crutchfield: The amendment is for the purpose of making votes but the question of taxation is so bound up with the question of making votes, because you confess to yourself dishonestly in the assessing of your property, or you force them to make a statement of their property at say one-third, which is the fair valuation for taxation, and they have to swear to that statement, and as the gentleman from Maricopa has already said, on the very same day, for the purpose of making rates that are just, legal, right, and in keeping with their valuation, they must swear to one thing, and for the purpose of making taxes that are to be just exactly as fair as the taxes of every other man in the community, they have to swear that property is not worth more than one-third as much. I believe it is wrong to force the railroads to swear to a taxation without favoring the people in the same way to swear to their valuation for taxation, and I approve of allowing this Corporation Commission the discretion of adjudging a fair valuation as far as they are privileged to do so, of the physical value of railroad properties, in order to assess the rates or to arrive at a reasonable conclusion concerning rates, from the very fact that a sworn statement must be made to the tax assessor. I like the words to enable the Corporation Commission to form rates upon a fair valuation.

Mr. Short: The idea is all right. Is there anything before the committee?

Mr. Chairman: There is nothing before the committee except the consideration of Article XV. Are there any other objections or amendments to Article XV?

Mr. Short: The gentleman from Maricopa has been before the committee for a while.

(The Records of the Arizona Constitutional Convention of 1910, Pages 980-981)

[e948119] Mr. Chairman: Are there any objections or amendments to Article XV? If not, it will be considered by committee of the whole as recommended for adoption by the convention.

(The Records of the Arizona Constitutional Convention of 1910, Page 981)

[e948121] Mr. Colter: I make a motion to indefinitely postpone Article XV.

(The Records of the Arizona Constitutional Convention of 1910, Page 981)

[e948122] Mr. Chairman: You are out of order. I just said if there were no objections, and declared it was recommended by the committee of the whole for

adoption, and you get up and make a motion that it be postponed. The chair will not entertain any such motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 981)

[e948123] Mr. Chairman: [...] The secretary will read Article XVIII, Labor.

[e948127] Mr. Feeney: I move that the word "work" be stricken out.

(The Records of the Arizona Constitutional Convention of 1910, Page 981)

[e948128] Mr. Cunniff: Mr. Chairman, that sounds funny, but there is a really serious purpose behind it. Under provisions of this kind, it is possible under certain conditions to have this eight hours work, instead of one continuous streak, may even be spread over sixteen or twenty-four hours, and the proposition in the form proposed in the amendment, eight hours, is the proper way of phrasing it.

(The Records of the Arizona Constitutional Convention of 1910, Page 981)

[e948130] Mr. Chairman: You have heard the motion that the word "work" be stricken out. All in favor of this amendment say "aye;" contrary-minded "no." The "ayes" have it; so ordered.

[e948136] Mr. Short: Mr. Chairman, I think it would be a good plan, and I move an amendment, that in the last line of section 2, between the last two words, insert the word "calendar." In these labor laws I notice it is almost universally used.

Mr. Weinberger: I second the motion.

Mr. Feeney: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 981)

[e948151] Mr. Chairman: That is on line 7?

Mr. Cunniff: Yes.

Mr. Bolan: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 981)

[e948160] Mr. Feeney: Mr. Chairman, I prefer that that be stricken out or the whole section be stricken out. It is absolutely of no value with that in there. How would we ever know there was a black list unless there was some information in regard to it?

(The Records of the Arizona Constitutional Convention of 1910, Pages 981-982)

[e948161] Mr. Chairman: You have heard the motion. Are you ready for the question? All in favor will say "aye;" contrary-minded "no." The "ayes" seem to have it; the "ayes" have it, so amended.

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948163] Mr. Chairman: [...] Are there any other objections or amendments to Article XVII [sic], entitled "Labor?"

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948174] Mr. Chairman: [...] If not, it will be considered as approved by the committee of the whole and recommended for adoption by the convention. Hearing none, it is so ordered. Mr. Secretary, read the article entitled "Mines."

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948304] Mr. Cunniff: Mr. Chairman, I move that the title of Article XXII be changed from "Schedule" to "Schedule and Miscellaneous."

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948305] Mr. Chairman: All in favor say "aye;" contrary-minded "no." So ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948306] Mr. Cunniff: I ask now that the secretary read those articles we passed this morning before reading those three we have on this separate sheet.

Secretary (reading): Section 13.

Mr. Chairman: Read section 14.

Secretary (reading): Section 14.

Mr. Chairman: Read section 15.

Secretary (reading): Section 15.

Mr. Cunniff: That was stricken out this morning.

Mr. Chairman: Read what would be section 15.

Secretary (reading): Section 15.

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948405] [Editor's Note: As Section 15 was stricken from the article in the Convention, it was also removed from Committee's working draft.]

[e948378] Mr. Chairman: Now, gentlemen, on this printed slip headed "Miscellaneous" will be section 17. the secretary will read it.

[Editor's Note: The Committee took up three additional sections to the article.]

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948381] Secretary (reading): Section 17.

Mr. Chairman: Are there any objections to Section 17?

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948382] Mr. Webb: Mr. Chairman, I move to strike out the letter "a," the last letter in the second line, and insert "an incorporated." It is indefinite as it now reads as to what a city or town would be construed to be. If placed upon a salary it would have to be an extremely low one or it would be rather more expensive than the present moment.

Mr. Colter: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948386] Mr. Jones (Maricopa): We have threshed this thing over about seven times now. This same question is brought up every time, and it is voted down, and I hope it will be voted down again.

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948389] Mr. Chairman: It has been moved and seconded that the last letter in the second line be stricken out and the words "an incorporated" be inserted. Are you ready for the question? All in favor say "aye;" contrary "no." The "nays" have it. The motion is lost.

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948390] Mr. Chairman: [...] Any objections to Section 18?

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948391] Mr. Chairman: [...] Any objections to Section 18?

[e948412] Mr. Chairman: [...] Any objections to section 20?

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948413] Are there any objections or amendments to Article XXII, entitled "Schedule and Miscellaneous?"

Mr. Short: Does that last section read, "The legislature shall pass the necessary laws?"

Mr. Chairman: Yes.

(The Records of the Arizona Constitutional Convention of 1910, Page 982)

[e948414] Mr. Short: I move that the word "pass" be stricken out and the word "enact" be inserted.

Mr. Winsor: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Pages 982-983)

[e948417] The motion prevailed.

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948419] [Editor's Note: With the passage of the amendment, the section and the article were adopted.]

(Editorial)

[e948308] Mr. Parsons: Mr. Chairman, I just had my attention called to the fact that Proposition Number 48, according to the memorandum I have in my copy of the proposition and the notes made as amendments, were passed, but I have not seen no [sic] record of its being included in any of the articles.

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948309] Mr. Chairman: What is it?

Mr. Parsons: It is relative to employees and public works.

Mr. Cunniff: I thank you for calling my attention to the error. Number 48 was compiled as section 10 of the article on labor, but in some way the copy did not get in the matter sent to the printer.

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948310] Mr. Chairman: It will be numbered Section 10 of Article XVIII, Labor. Are there any objections or amendments to it?

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948307] Mr. Chairman: I will be numbered Section 10 of Article XVIII, Labor. Are there any objections or amendments to it?

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948311] Mr. Ellinwood: I move to strike out the section.

Mr. Colter: I second the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948312] Mr. Cunniff: I fought this question over several times, and each time it was carried, and I hope the convention will not go back on this proposition after having passed it twice.

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948313] Mr. Ellinwood: I ask for a roll call.

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948314] Mr. Ellinwood: I ask for a roll call.

(The Records of the Arizona Constitutional Convention of 1910, Page 983)

[e948315] Mr. Moeur: I hope every sane, thinking man, will vote against it.

Mr. Parsons: Mr. Chairman, as has been stated by the gentleman from Yavapai, we have had this matter before the convention and discussed it at length, and it was amended until it met the approval of those who objected on the ground that they were afraid those up in the northern part of the territory would not be allowed to give employment to the Indians, and the word "ward" was inserted. I believe the proposition is one of merit, and one that the labor element of the territory and of the new state will appreciate, and one can they can demand, and it was at their request and demand that it was introduced, and I certainly hope that the motion to strike it out will not prevail.

Mr. Connelly: Mr. Chairman, I am not so much in favor of it because the labor element demand it, but I think it is a governing provision that exists in other states and works satisfactorily and well, and it is a good piece of state policy.

Mr. Colter: I do not think it will be a good thing in the territory today. This is a new state...

Mr. Connelly: In answer to the gentleman from Apache, I think we need it more because it is a new state than because it is an old state, because the laboring man is the man who makes the state, and if you keep out that man, who will make citizens? You will not have much of a state.

Mr. Moeur: I claim that the man who pays the taxes is the man who makes the state.

Mr. Connelly: In answer to the gentleman from Maricopa, let me say it is the laboring man who pays the taxes, and if you do not have any laboring men you will not have any taxpayers. (applause)

(The Records of the Arizona Constitutional Convention of 1910, Pages 983-984)

[e948316] Mr. Chairman: You have heard the motion. It is moved and seconded that section 10 be stricken out of Article XVIII. Roll call is asked for. As many as favor striking out section 10 will answer "aye" as their names are called; opposed "no."

Roll call showed 18 "ayes" and 29 "nays."

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948317] Mr. Chairman: The motion to strike out is lost. Are there any other objections or amendments to be made? If not, it will be considered approved by the committee of the whole, and recommended for adoption by the convention. Hearing none, it is so ordered.

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948250] Mr. Chairman: [...] The chair was going to say, what are you going to do about that seal? Are you going to adopt one or not?

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948251] Mr. Ellinwod: Mr. Chairman, the committee has agreed to a design, and the artist, Mr. Motter, is working on it now. I supposed it would be here by this time.

Mr. Cunniff: I would suggest that the committee get together with Mr. Motter and prepare a brief of that seal to incorporate in this schedule article.

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948252] [Editor's Note: The Committee proceeded to discuss outstanding business and election ordinances.]

(Editorial)

[e948253] Mr. Cunniff: [...] So far as the revision committee is concerned, we have now incorporated everything that has been passed by the convention. Mr. Parsons pointed out the Number 48 had been overlooked, and I would like to inquire if anything else has been overlooked.

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948254] Mr. Weinberger: I would like to ask if the election ordinances have all been passed?

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948255] Mr. Winsor: These election ordinances have been acted upon by the committee of the whole. They have not been acted upon by the convention.

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948256] Mr. Crutchfield: Mr. Chairman, I have a motion to make, and wish to say a few words in explanation thereof.

Mr. Chairman: What is the motion, for the committee of the whole, or for the convention?

Mr. Crutchfield: It is for the committee of the whole. There are a number of members who have intimated the necessity of having some question to be submitted that would be voted on separately from the constitution, in order to awaken interest in it, and while I do not care to make any discussion on the subject, I have a motion that I should like to submit separately to be voted on at the same time the constitution is voted on, but separate therefrom. It is upon the well-known subject of prohibition. I think that would be a question that would provoke considerable interest in the territory. (applause)

(The Records of the Arizona Constitutional Convention of 1910, Page 984)

[e948257] Mr. Chairman: Order, gentlemen. The chair would call the attention of the gentleman from Maricopa to the fact that this committee of the whole has under consideration the constitution of Arizona, and there is nothing in the constitution that I see or know of that permits of any such amendment as you are now offering being taken up by the committee of the whole. If you want to make that amendment when the convention proper is in session.

Mr. Crutchfield: Does the chair rule that that would not be a suitable amendment to the article on municipal corporations?

(The Records of the Arizona Constitutional Convention of 1910, Page 985)

[e948258] Mr. Chairman: The chair will rule that municipal corporations has been passed and already adopted by the convention. If you want to make an amendment to any of the articles that are under consideration and have not been adopted by this convention, the chair will entertain the motion.

(The Records of the Arizona Constitutional Convention of 1910, Page 985)

[e948420] Mr. Crutchfield: Then I recommend that the article on schedule and miscellaneous be amended. I move to insert this as a section to be voted on separately, and if carried become a law.

(The Records of the Arizona Constitutional Convention of 1910, Page 985)

[e948422] Mr. Chairman: The chair will rule that the committee of the whole has nothing to do with anything to be voted on separately. This committee of the whole has no ordinance for separate submission. We are just considering what has been sent back by the style and revision committee.

Mr. Crutchfield: I will bow to the will of the chair.

(The Records of the Arizona Constitutional Convention of 1910, Page 985)

[e948260] [Editor's Note: The Committee's report was referred to the Convention.]

(Editorial)

[e948261] Mr. Tuthill moved, seconded by Mr. Cunningham that the Committee arise and report progress.

(The Minutes of the Arizona Constitutional Convention, Page 422)

[e948262] Mr. Chairman: All in favor of the committee arising say "aye;" contrary-minded "no."The "ayes" have it; so ordered.

Ellinwood, Baker, Wells.

(The Minutes of the Arizona Constitutional Convention, Page 295)

[e944747] Mr. Cunniff: Under the order of the day I should like to take up a little matter. I want to put before the convention a suggestion for a seal, which has been suggested by Mr. E.E. Motter of Phoenix. I have the report of the Committee on Style, Revision and Compilation concerning another design of seal submitted to us, with the recommendation that the design be accepted. On this matter it may be of interest if I read some data which has been furnished by the Arizona historian, Miss Hall:

## 35.2 Thursday, 08 December 1910, at 19:30 (s16327)

[e947983] Secretary (reading): Phoenix Arizona, December 8 1910.

Mr. President: Your Committee on Seal begs leave to report and recommend the following section be added to Article XXII, as Section 20. E.E. Ellinwood, Chairman. I concur: Ed. W. Wells.

SEAL OF THE STATE Section 20. The seal of the State shall be of the following design: In the background shall be a range of mountains, with the sun rising behind the peaks thereof and at the right side of the range of mountains there shall be a storage reservoir and a dam, below which in the middle distance are irrigated fields and orchards reaching into the foreground, at the right of which are cattle grazing. To the left in the middle distance on a mountain side is a quartz mill in front of which and in the foreground is a miner standing with pick and shovel. Above this device shall be the motto "Ditat Deus." In a circular band surrounding the whole device shall be inscribed: "Great Seal of the State of Arizona," with the year of admission of the State into the Union.

### 37.1 Monday, 05 December 1910, at 09:30 (s16289)

[e946168] [Editor's Note: A committee of one consisting of Mr. Connelly was appointed for the purpose of drafting a letter in response to Anne Fisher.]

(Editorial)

[e946171] The Chaplain: Mr. Chairman and gentlemen of the convention, if you will permit me to speak for a moment I will be glad to do so. You have accorded me the privileges of this house ever since I have been here. I have tried to conduct myself as a man ought to in my position and calling. I have never at any time felt that I wanted to rise to personal privilege, but I want to rise to personal privilege this morning. I have in my hand a communication postmarked at Brooklyn, New York, November 30, 1910, addressed to "Chaplain Crutchfield, Phoenix, Arizona" and I wish the secretary would read this communication to the convention.

Mr. President: Read the communication.

Secretary: Reads the letter from Anne Fisher, Brooklyn, New York.

[...]

Mr. President: If there are no objections it will be referred to Mr. Connelly with instructions to answer.
