FAO Interim Presiding Officer

Please find following motion for discussion by the Committee to Advise the Presiding Officer on September 8th, 1998.

This Assembly expresses its deep sympathy to all those who have been bereaved or injured in the horrific bomb attack in Omagh on August 15th, 1998.

To merely condemn the actions of those who are bent on destroying the political process is inadequate. We agree to go further and pledge to work for a peaceful, stable and democratic society in which every person has a sense of security and belonging.

We pay tribute to all of those who were involved in the rescue attempts after the explosion and those who are still involved in the resultant necessary care.

We call on the Government to ensure that the journey towards physical and emotional recovery of the people and their town is appropriately supported, in as sensitive and speedy a manner as possible.
