4th June 1991

Dear Peter

On Friday 31st May, Ian Paisley forwarded to you in Dublin a list of persons considered suitable to chair strand 2. Ian tells me that you have not so far responded to his letter. This would seem to suggest that you might wish to consider other names. Accordingly I am enclosing a further list with the intention of widening the area of choice and in the hope that at least four from our two lists might be acceptable to all concerned.

While some of these names are internationally known, we see no need for a world figure as chairman: indeed this might be a positive disadvantage in contributing to extravagant expectations for the outcome.

Naturally at this stage I am in no position to indicate whether these individuals would be prepared or able to act.

*Yours ever
Jim*

14 NAMES SUBMITTED.
