THE "Harrison Allen for Governor" boom is assuming gigantic proportions, says the Grafton Times, and the friends of General Allen naturally feel jubilant at the way his name is being taken up. There will be practically no opposition to his candidacy. His fair and honorable past is making thousands of friends for him and the petty demagogues who are trying to decry him are making political graves for themselves. He is a gentleman who will honor North Dakota as her first governor and his party services are so much appreciated that Chairman Quay will come to Dakota to look after his campaign. General Allen is a republican of republicans and a thorough going whole souled, able energetic man who has the back-bone to administer the executive functions of North Dakota for the best interests of her people without regard to class. clan or creed and upon his election will depend the immediate future of the new state. He is the man for the place and his small fry opponents had better get out of the way or be engulfed in the Allen wave, on the summit of which this man of the people. whose ideas are abreast of the age and whose ability makes him a leader wil ride to the gubernatorial chair of this new state.

Legislative Apportionment Approved. SIOUX FALLS, S. D., July 25.—The South Dakota constitutional convention apportionment report was adopted with-out debate. It provides for 45 senators he Sabbath be fully protected in the onstitution, reported that under the omnibus bill this convention could find no provision of the kind suggested to the constitution. The committee on school lands in its report sought to make two or three changes in the article referred to it for the more sure protection of school lands and lands for public buildings, but before the report was adopted the section in the Sioux Falls constitution was restored without change.

Proposed Amendments Defeated. SIOUX FALLS, S. D., July 26.—The convention met at 9 a. m. and was in session nearly all day. The main feature of the proceedings has been the consideration of the report of the committee on schedule and ordinance. A few days cuit court at the October election, no such provision seeming to be made by the omnibus bill. The committee re-ported that in their judgment the convention had such power, and embodied their opinion in an amendment to the schedule to that effect. Then followed a lengthy discussion upon this point. It is held by some that the clerk of the court was purely a county officer and that under the omnibus bill all county officers hold over until the next general election, vacancies to be filled by the board of county commissioners. The amendment was finally defeated.

Another amendment to the schedule was proposed, providing for a modified form of the Australian system. Here again the question of the powers of the and the latter will be issued as an all der discussion when the convention ad-

BISMARCK, N. The committee on public institutions has not reported, but it is undersood that the report will be submitted in a few days. Whether or not the committee will recommend the locations of the public institutions is a question of much interest and, while it is claimed that such recommendation will be made, nothing authoritative can be given on the subject until the report is submitted. The Foreign Vote. Rolfe, of Penson county, threw a fire brand by offering an amendment to the article on suffrage, providing that after five years no man who is not a full citizen of the United States shall have the right to vote. Elective Franchise for Women. BISM RCK, N. D., July 31.—The convention is now wading laboriously though its debating days, and every member is squaring himself with his constituents, advocating his hobby or talking against time. The report of the committee on elective franchise was considered again and the report of the considered again, and the woman suff-rage question furnished a most interesting discussion. The woman suffragists have asked that the legislature be given power to extend suffrage to women, and it was upon this point that the orators crossed. Judge Carlson made a forcible argument, not as a suffragist, but as a believer in treating all alike in the constitution, in favor of granting the request of the female politicians. Parsons, of Morton, Moer, of La Moure, and numerous other delegates opposed the proposition, and insisted on having the question settled by a vote of the people. The convention agreed to give the legis-lature power to extend the franchise.

Supreme Court Sessions. Another report that gave rise to much discussion was that of the committee on judiciary, the section providing that the three terms of the supreme court shall be held at the seat of government being the main bone of contention. Purcell moved to amend by providing that one term shall be held at the capital, one at Fargo and one at Grand Forks, but the amendment was defeated. The committee to which was referred the memorial to congress praying for the irrigation of land in North Dakota, together with all action of the convention thereon, was action of the convention thereon, was placed in the custody of J. L. Casey, of 'amestown, who will appear before the lenate committee on irrigation in St. Paul. An amendment to the report of the judiciary committee was made, so that a man may be eligible to the office of judge of the supreme court after liv-ing in the state three years, instead of

CASUALTIES.

Five Were Killed. Wabash, Ind., July 29.—News has reached here of a terrible explosion of dynamite twelve miles west of this city on the Wabash railway, in which five men lost their lives and others were injured. The men are said to have been at work excavating in the limestone rock for proposed improvements on the railroad, when the dynamite, which had been brought thither for blasting pur-poses was accidentally exploded, wrecking the buildings in which the men had gathered for shelter from the storm, and instantly killing five workmen. No further particulars were at the time attainable.

Maryland Streams Turned Into Rushing Rivers and Bridges and Dams Washed Away.

NEW YORK, Aug. 1.-Reports from Pennsylvania, New Jersey, North Caroina and other states regarding the damage done by the storm confirm the worst reports. At Philadelphia the Schuylkill occame a raging torrent and rose to a seight not known before for twenty years. The waterworks engines were ompelled to stop. Word comes from Poughkeepsie that Ellis Corners, Ulster county, four miles

est of Highlands, has been

DESTROYED BY A TORNADO. Great damage was done to vineyards and orchards. Matthew Harcourt's ten acre vineyard and a large apple orchard are entirely swept away. John Nelson's frame house and his barn—about a mile from Harcourt's vineyard—were demolished. Mr. Nelson and wife were terribly bruised and cut. The tornado then struck two barns belonging to Mrs. Gowan and completely destroyed both of them, tore off the roof of Mrs. Gowan's iouse and crushed in the roof of another house a short distance away. There was no other building to destroy north of Mrs. Gowan's, but as far as the eye could see it had cut a swath 200 or 300 feet wide, and in all probability spent its force on the mountains and hills beyond.
Said an eye witness: "It looked to me as though the clouds were bowling along the ground, and I never heard such a

frightful roaring noise. The downfall of rain was something like a deluge. The water seemed to come down in sheets, and for a time nearly inundated everything."
Reports from Kingston, N. Y., state that grape growers report that the vast crop is almost ruined. Considerable damage was done in a number of towns in New England, but no lives are reported lost. Boston escaped with only a shower. Land slides and washouts occurred on nearly all the main railroads in New Jersey. Fiendish Murder of Two Children by Their Parents.

SPRINGFIELD, July 31.—J. H. Faunce and his wife have been arrested on the charge of poisoning their two children, Luther and Willie. The boy Luther died a few weeks ago, but the other lad re-covered. Faunce, when arrested, con-fessed that he had purchased the poison, but said he did so at the request of his wife, who said she wanted it to poison a dog. Subsequently she told him she wanted to poison the boys because they caused her too much trouble. She administered the poison in coffee and the youngest son, Luther, died in a few hours.

Whole Family of Indians Murdered. HELENA, Mont., July 30.-News has reached Helena of a ghastly discovery made last week on Sun river. A tew months ago a family of Flathead Indians left their reservation, crossed the mountains and went into the Sun river country to hunt. They were seen by one of their relatives, a half-breed living on Sun river, when they first arrived. Last week this half-breed found one of their ponies in the possession of a white man, who claimed that he had purchased the animal at Sun river. The half-breed was satisfied that something was wrong, and at once began a search for his relatives. After hunting two or three days he found their camp, which had been burned, and in it the charred remains of his relatives, a family of three or four. There is no doubt they three or four. There is no doubt they were robbed of their horses and outfit and murdered. The half-breed at once notified the law officers, who at last accounts were still looking for the perpetrators of the crime.

United States Officials Talk Regarding the Matter-All Nations Benefitted by the Protection.

MONTREAL, Aug. 1.—The city is in a perfect furor of excitement over a rumor that the Ottawa government has re-ceived news from British Columbia of more seizures in the Behring sea. This, coming so soon after the seizure of the Black Diamond, has driven Montreal almost wild with indignation and expressions are heard on every hand that unless the vessels are released and full indemnity paid by the United States that government must stand the conse-

quences of what may follow. There is almost as much disgust expressed at the action of England in this business, and if she will not help Can-ada to uphold their honor, it is openly hinted that the sooner Canada takes the defense of that honor in her own hands the better. Both the morning papers publish strong leaders demanding immediate action on either the part of Eng land or our own government to prevent these seizares, or else break off relations with the United States until a final set-tlement of the prouble is arrived at.
