Pictures of the Scattle Fire.

With the June number of The West Shore Magazine is issued a splendid colored supplement giving scenes in Scattle immediately before, during and after the fire, showing the Tacoma relief tent, business tents, burning blocks, the train bearing the Portland engine, etc. As a collection of engravings of that most memorable event, the destruction by fire of the business portion of the largest city on Puget sound, entailing a loss of fally \$15,000,000, it will become more and more valuable as time passes. Such total destruction of business and such courage, energy and quick recuperation as is being shown render Scattle one of the marvels of the age, and these engravings are a valuable souvenir of the évent.
