pastor. Services every Sabbath  
at 11 a. m., and 7:30 p. m. Sunday  
School at 12 m.

**SELLING AT COST.—TO  
REDUCE OVER STOCK!**—We bought  
largely with intention of opening branch  
stores, having abandoned intention, hence  
this offer. A. DAMAS.  
W. C. Hill, of Rustie, gave us a call on  
Wednesday and says that country is fast  
settling up with good substantial farmers.  
Tom Worden and Gus Richards are now  
at work raising the Hotel de France and  
when completed will be about three feet  
higher than now and otherwise improved.  
Mr. E. Neumeyer, of Indianapolis, Ind.,  
nephew of Mr. Kettner, of this city, ar-  
rived last week on a visit and will remain  
several weeks rustiating in the mountains.  
The steamer arrives on its regular trips  
Sundays and Thursdays, but is compelled  
to line at several places between Ripra and  
this point owing to the low stage of water.  
John Wells was down from the Polatch  
on Sunday. He says he has got all his  
cattle at the Milk Ranch, eight miles this  
side of Fierce City, and has a good summer  
range.

Rev. A. J. Glorieux, Bishop of Idaho,  
will lay the corner stone in the Catholic  
church of Genesee, on the fourth, and de-  
dicate the church of Moscow on the eleventh  
day of August.  
Felix Warren, wife and sister-in-law,  
Miss Smith, left on Tuesday for Dayton  
where they will be met by Mr. Smith, of  
Wallas Falls, who will take them to his  
home on a visit.  
We have received the third number of  
the *Idaho Republican*, published at Poca-  
tello, Idaho, by what is called the Idaho  
Republican Co. It is an eight page paper  
and is very well gotten up.

M. L. Smith and B. Binnard left yester-  
day morning for the Spokane country with  
another band of horses and household  
goods for their farm, which they recently  
purchased near Bathrum.  
E. J. Bonhere will have here to-day for  
Camas Prairie with his photographic outfit  
and will remain there some weeks. All  
who desire to have good photos taken will  
do well to avail themselves of the opportunity.  
**MONEY TO LOAN** on improved land  
at lowest rates. Pianos, Organs and  
Sewing Machines to sell or rent at lowest  
figures. Books, wallpaper &c., far cheaper  
than you can buy of agents or peddlers.  
C. A. THATCHER.

A party of emigrants came in on the  
steamer on Thursday, and proceeded by pri-  
vate boat to Camas Prairie where they in-  
tend leaving near Grandville. They came  
from Kansas and were apparently well  
to do.  
J. N. Maxwell and wife are paying a  
short visit to the lower country. Judge  
Rand has been appointed Deputy District  
Attorney and will perform the duties of  
that office during the absence of Mr.  
Maxwell.  
Another instance of shooting fire arms in  
our streets was heard on Saturday night  
and the parties who were interested in it  
are known and have better lost their pistol  
at home next time or suffer the conse-  
quences.  
A genuine grizzly bear and a cage full  
of Magpie birds were brought over from  
Astoria on Thursday and shipped to Reiche  
Bro's., New York, by J. N. Rice. The  
bear was only a cub and was caught in the  
vicinity of the Grande Ronde.  
J. A. Miller returned this week from  
a trip to Wallawalla Lake, and says quite  
extensive mines have been discovered in that  
region. The balance of his party, consist-  
ing of his brother and two more, remained  
and will further prospect.

Upwards of 200 head of fine hogs were  
crossed at the Clearwater ferry Sunday and  
taken up the hill to Uniontown where they  
will be put on the train and shipped into  
the Spokane country. They were mostly  
purchased on Camas Prairie.  
E. Peasey and Jerry McGaire returned  
last week from their trip to the Wallowa  
country and report having a pleasant time.  
While there they purchased a section of  
school land and intend improving it and  
raise timothy hay for their stock.  
In a private letter from D. Spubeek, for-  
merly of this city, dated Montpelier, Minn.,  
he states that grain is looking better in that  
section than it has for several years and  
that buying is nearly all done. The ther-  
mometer stood at 102 in the shade.  
Frank Ward, foreman of the Shilder &  
Sera farm on Waha, was in the city last  
week and informed us that it was his opin-  
ion that his wheat would yield as high as  
twenty five bushels to the acre and the  
timothy hay would yield about one ton to  
the acre.

**\$500 REWARD.**—Lost between Julla-  
cetti and Lewiston, two valises; one small red  
leather, containing gents clothing, and one  
square black cloth, containing ladies  
clothing. Five dollars reward will be paid  
to the finder for the delivery of the same at  
this office.  
Several water spouts have burst in this  
vicinity during the past month and on  
Thursday one was in the Soldier canyon  
near Lapwai and washed the wagon road  
out in several places, so much so that it  
is now impossible for teams, but the road to  
the left is in good condition.  
Several threshers are busy south of this  
city and we learn that the grain is turning  
out from ten to twenty bushels to the acre  
and some will go as high as twenty-five and  
thirty, and, taking in consideration the  
scarcity of rain, is a much larger crop than  
was anticipated by a great many.

A petition was in circulation last week  
and everyone signed it for an increase of  
service on the stage line from here to South-  
wick, making it three times a week instead  
of one. If increased it will be of great  
benefit to the people of that section as a  
large mail is carried there every week.  
Dave Stevens, who lives about seven  
miles southeast of this city, was thrown  
from a horse some days ago and received  
injuries about the leg and hip that have  
caused him to be confined to his bed ever  
since. His age is about seventy years and  
the injuries received will cause a long time  
to be confined to the bed.

Mr. A. J. Jones, of Walla Walla, agent  
for the Pauly Jail Co., has been in the city  
during the week, and is now putting in his  
iron cells in the new brick jail and will  
have them completed, ready for use, this  
week. They are of the latest improved  
plans and are acknowledged to be the  
safest manufactured.  
C. C. Bunnell, Geo. H. Lake, Charley  
Brearley, Willie Kettner, F. W. Kettner,  
M. L. Thompson, Geo. Morris,  
of this city, and Ed. Neumeyer, of In-  
dianapolis, left on Monday morning for a  
disappointment, left on Monday morning for  
trip into the mountains east of Oro Fino and  
will be absent several weeks on a hunting  
and fishing expedition.  
A horse race occurred on the flat opposite  
Astoria City on Saturday, between Joe  
and R. R. R. The latter winning. Quite  
an exciting time was had as we are informed  
that a number of Indians were present and  
all had the red juice in them to their satis-  
faction and a number of them to their satis-  
faction. Is there no way to catch and  
punish those who are selling the liquor to  
them?

**STORMS IN THE EAST.**  
ST. PAUL, July 19.—Advices from  
many and widely separated points in  
Montana and Dakota report severe  
storms of hail and rain yesterday. The  
weather has been excessively hot in  
places, and crops are burned up by the  
heat. In other places much damage has  
been done by water. The streams are  
rising and serious overflows are feared.  
CHICAGO, July 19.—The severest  
thunder storm in many years occurred  
here last night. An inch of rain fell in  
twenty minutes, and cellars and basements  
were flooded. Chinese laundrymen  
spent the night perched on tables,  
basement lodgers were driven into the  
street, and much property was damaged.  
CINCINNATI, July 19.—A heavy  
thunder storm at 3 o'clock A. M.,  
flooded a portion of the town. The  
Ohio canal broke at York street, and a  
number of persons were rescued with  
difficulty. The storm is general in the  
state. Lightning set fire to the little  
village of Georgetown, in Franklin coun-  
ty. Half the town was burned.

**BISMARCK, Dak., July 19.**—A wild,  
terrifying scene was seen at Standing  
Rock agency late yesterday afternoon,  
when a terrific thunder storm was at its  
height. Lightning was darting hither  
and thither, striking in numerous places  
near by, and the Indians rushed on  
masses, howling and whooping in abject  
fright, to the shelter of their wigwams.  
At last a blinding flash of lightning, ac-  
companied by a deafening clap of thun-  
der, actually struck the earth. The  
lightning had struck a wigwam a few  
yards below the agency, in which were  
huddled five terrorized Indians, instantly  
killing White Horse and Black Eagle  
and injuring another so that he will not  
recover. Two were unconscious for  
hours.  
**Bishop Talbot's Appointments.**  
The Bishop of Wyoming and Idaho  
will visit the following places and hold  
services of the Episcopal church:  
Rocky Bar, July 21; Mountain  
Home, July 23; Caldwell, July 24;  
Washoe, July 25; Payette, July 26;  
Weiler, July 28; Lewiston, August 4 to  
11; Genesee, August 13; Moscow,  
August 18; Rathdrum, August 21;  
Fort Sherman, August 25; Wardner,  
August 27; Wallace, August 28; Mul-  
lan, August 29; Burke, August 30;  
Murray, September 1; Boise, September  
8; Emmett, September 10; Placerville  
September 12; Idaho City, September  
15; Silver City, September 22.—*Boise  
Statesman.*

**IDAHO CONVENTION.**  
BOISE CITY, July 20.—The morning  
session of the constitutional convention  
was devoted to a chapter on the execu-  
tive department and sections relating to  
the location of public institutions. Both  
subjects were discussed in committee of  
the whole. The capital is located at  
Boise City for ten years, and then  
changed only by a vote of the people.  
The university will be at Moscow, the  
insane asylum at Blackfoot and the  
penitentiary at Boise City. Charitable  
institutions may be located anywhere  
for sanitary reasons.  
The executive department includes a  
governor, lieutenant governor, secretary  
of state, auditor, treasurer and superin-  
tendent of public instruction. Three of  
these constitute a board of parsons. Out  
of the same list is created a prison com-  
mission, land commission and board of  
education. Differences of opinion were  
not wide, but the details were closely  
scrutinized.

The number of senators and representa-  
tives and the basis of representation  
caused a long debate and reconsideration  
and change, and was finally settled at  
eighteen senators and thirty six repre-  
sentatives was fixed at two years. After  
disposing of nine sections of the legisla-  
tive schedule, the convention took a  
recess.—*Review.*  
CLOUDBURST.  
PARKERSBURG, W. Va., July 19.—  
The greatest disaster which ever befell  
the Little Kanawha valley came last  
night in the shape of a terrible cloud-  
burst, which completely flooded the  
country, destroying many lives, carrying  
off thousands of dollars worth of property  
and ruining the crops for miles around.  
The deluge fell here about dusk and  
continued to fall in torrents, doing much  
damage in the city.  
The worst of the storm was on the  
lower side of the Kanawha, where it was  
the most destructive flood within the re-  
collection of the oldest inhabitants. In  
three hours the Kanawha was raised six  
feet and ran with such velocity that it  
carried everything before it.  
**The Vag Must go.**  
At the morning roll call of the police  
force Chief Warren gave a verbal order  
to the members of the force to notify  
every person found in the city who could  
not show some visible means of support,  
to leave the city at once or go to work,  
and to only notify them once; if found  
after that un-employed to arrest them on  
the charge of vagrancy and to continue  
arresting them until they leave the city.  
The same order was issued to the night  
men. This includes a number of tin  
horns and alleged pugilists. Let the  
good work continue in the sentiment  
universally expressed by the citizens of  
Spokane Falls.—*Review, July 20.*
